

# Paper Title

*Authors' Responses to Referee Comments*

*Journal (Review Number)*

We would like to thank the referees for their time and detailed feedback on our paper. We have done our best to respond to each and every comment. Below, the reviewer's comment is marked with a left border. Our responses follow below each comment.

## Summary of Revisions

The major changes in this draft include ....

## Responses to Referee 1

*R1 Comment 1*

Full text of the referee's comment. It will automatically create a \subsection with the comment number.

**Kyle:** Thoughts / plan of action. These can be hidden by toggling INCLUDETODOS to \boolfalse.

## How to use this template

There are two main commands provided by the document. First, for each referee, a `\section` is created using the `\NewRef{Name}{Abbreviation}` command. The `Name` is what will be displayed by the section and `Abbreviation` is what will label each comment.

Within each section, each referee comment will be written using `\begin{refcomment} ... \end{refcomment}`. This command automatically numbers the comments and labels it using the `Abbreviation` from the `NewRef` declaration. Responses to the comment should go below the `refcomment` block.
