Thank you for your interest in our Spiked Gloves! We are excited to offer you a variety of customisation options to create the perfect fit for your needs. Below is an overview of the customisation process and options.

To customize your Spiked Gloves, select one of the predefined sizes below.

To determine your size:

LEATHER AND COLOURS

Our standard Spiked Gloves are available in two classic designs: Black Goatskin and Black or Red Lambskin. As shown in the chart above, the availability of each design may vary depending on the size you choose.

- However upon request we can also customize your gloves with a different leather type or color to match your personal style.

SPIKES

For the spikes you can choose from the following variety of spikes:

Standard spikes (10mm)

Designed to be sharp enough, these spikes are capable of generating intense pain while minimizing the risk of skin injury. In case of very intense use, they could cause small injuries but that requires deliberate action.

These spikes are the ones we recommend for those who wish to avoid the risk of bleeding. They offer an ideal balance between intense sensations and safety in use.

Bronze

Sharp standard spikes (10mm)

These spikes are slightly more incisive than the standard ones, sharpened just enough to be able to penetrate the skin. Ideal for use in the gloves, they are perfect for those who are looking for a more intense experience and are not afraid of a little blood.
