SEGA

WORLD CUP

A highly fascinating and competitive soccer game with a 23" screen.

Speed of play limited only by the player's skill.

Two teams are fielded and the team that takes the ball after kick off surges forward towards their opponent's goal. If the ball carrier is touched by an opponent team member, the ball is immediately taken over by the opponent. The ball can be passed at will but - watch out for interceptions.

Game time adjustable from 60 to 90 seconds.

Features

Team Control: A unique system consisting of a ball type control at the front for each player enables the player to move his team members in any direction (360 degrees) as fast as his reflexes will permit. The result - fast and furious play.

Ball Control: By turning a knob you can shift the ball around the player's foot and the direction the ball goes when released depends on its position. When passing or shooting for a goal, push the knob to release the ball.

Highly Realistic Action: Players lean in the direction of travel with arms and legs moving as in real life.

Sound Effects: Kick off whistle, spectator applause and roar from the stands when a goal is made adds realism to the game.
