TECHNICAL SKILLS

- **Languages & Framework:** React, PHP JavaScript, TypeScript, ES6+, Laravel, Express, jQuery, CSS, Node.js, Redux
- **Testing Tools:** Jest, React Testing Library, Enzyme
- **Other Tools:** GIT, Docker, GitHub Actions, Elasticsearch
- **Databases:** MySQL
- **IDEs:** Visual Studio Code, PhpStorm

CORE COMPETENCIES

Application Development & Deployment 

Application Enhancement & Support 

Project Execution Support 

Client/Stakeholder Engagement 

Reporting/ Technical Documentation 

Requirement Gathering/ Analysis 

Team Management 

PROFILE SUMMARY

- Accomplished and goal-focused developer with **2.9 years** of experience in IT industry having the ability to understand and deliver requirements at par with the current industry standards.
- Experienced in supporting & facilitating the development & maintenance of multiple applications; contributed in various phases of development including **requirement gathering, enhancements, customization, deployment, UAT & customer support**
- **Project Execution Expert:** Led the project execution and management in tune with the core business objectives; managed successful completion of various projects such as **Lighting Illusions, FormPay, Rakon Search etc.**
- Designing Core functionalities of Web Apps, Frontend architecture and participated in Core Discussions involving Stack, Schemas, Auth and other **Critical** functionalities
- Technical expertise in **React, TypeScript, PHP with relational databases**
- **Managed** a team of **6 members** to develop MVP for FormPay, led daily stand-ups and discussed solutions with HubSpot Team Members, Sprint Planning, Deployed and successfully released the applications.

WORK EXPERIENCE

Nov. 19 – Present | Software Developer | CEDCOSS Technologies Pvt. Ltd.

Key Result Areas:

- Built Multiple Reusable and Shareable UI components using React to be used on 10+ projects internally.
- Front-leading entire Application Development Lifecycle (SDLC) right from requirement analysis, documentation (functional specifications, technical design), coding, testing & debugging, and maintenance of the applications
- Maintaining coordination with cross-functional teams with 10+ team members and ensuring timely completion and delivery of the project to the client
- Automated shipment processes with GitHub Actions, setup boilerplates, Gulp pipelines for Apps, theme development, integrated versioning tools for HubSpot preventing delays
- Discussed and **incorporated** the use of TypeScript for all projects **for MWB team.**
- Lead Proof of Concept Research on multiple projects requiring tricky implementations and once successful, Led the project to develop MVP
- Handled production deployments, Server management and configuration
- Performing integration of third-party tools and payment gateways according to product/project
- Ensured best practices and design patterns via code reviews and training sessions
- Ensuring zero defects within time, post-production support, and knowledge transfer

Highlights:

- Highly flexible and able to transition into roles involving Frontend and Backend Development and able to handle projects autonomously

PROJECTS MANAGED

Title: FormPay (Feb. 22 – Present)

A HubSpot Integration which embeds Payment Gateways to a HubSpot form dynamically selected by the CMS Developer, involves a Web App to manage Payment Gateways and a Form Editor to select and edit the form live on the same web page.

Technologies Used: React, Typescript, Phalcon, MongoDB

Responsibilities: Technical Lead, Proof of Concept Research.
