Tales universally have many common themes - victory of good over evil, tragedy, separation and reconciliation. Children add sounds to their own pictures

Bring sound to any classroom resource. A fantastic way for teachers to develop differentiated resources tailored specifically to their students' needs. Teachers and children can record hours of audio content onto PENpal and then link them to the Recording Labels. These can be fixed to printed material or objects - photographs, posters, books, toys...

Here is what the judges said:

- We feel that the product will really help to support literacy and learning languages.
- The greatest potential is with using the PENpal to generate bespoke learning resources using the target stickers. These provide the device with enormous potential, particularly in the ELL area.
- In terms of the products that we have evaluated, this stands out as innovative, exciting and full of potential.

Blank labels to customise products

Record directly onto each label. Keep a recording for as long as you like and then record over it if you wish. With a different PENpal you can then make even more recordings.

"Teachers repeat themselves 1000's of times. Not anymore with the PENpal." Teresa Borowicz, Dorn Elementary ELL teacher

"This is one of the most enjoyable and useful resources I've seen in a long time. Do try it, you'll be amazed at what it inspires you to do!" Dave Lewis, TEACH PRIMARY
