## SBE Council's Congressional Voting Scorecard 2005

The Small Business & Entrepreneurship Council (SBE Council) tallies up and publishes an annual scorecard of congressional votes in order to inform small business owners and their employees, the media, elected officials, and citizens in general about how members of Congress voted on issues of importance to the entrepreneurial community.

Small businesses, of course, create most new jobs, employ a majority of the private-sector workforce, are active in the international marketplace, and rank as the most important source of innovation and invention. While most politicians talk favorably of small businesses, voting records sometimes do not match such rhetoric.

The best policy environment for entrepreneurship and small business is one where taxes are low, the regulatory burden is light, and legislative initiatives enable competition, innovation and open commerce. That agenda is reflected in the votes included in "SBE Council's Congressional Voting Scorecard 2005: 1<sup>st</sup> Session 109<sup>th</sup> Congress." Members of the U.S. Senate were scored on 23 votes, as were members of the U.S. House of Representatives (though one vote was given extra weight, as members of the House were told would be the case before the vote in a letter from SBE Council).

<b>Key:</b>	<b>1</b>	Vote for small business
	<b>0</b>	Vote against small business
	<b>P</b>	Voted "Present" and counted as a vote against small business
	<b>NV</b>	Not voting, and not counted in vote tally
	<b>Blank</b>	Perhaps not a member at the time, or in the case of the House Speaker, traditionally not voting unless needed. Not counted in vote tally.

The follow table ranks the state congressional delegations according to how they scored on all votes, including members of both the House and Senate.
