Addendum

In the April 1998 issue of CMLS, we published the multi-author review article "NMR structural studies of glutathione S-transferase" by L.-Y. Lian (CMLS 54: 359–362). The author wishes to add the following acknowledgement to the paper:

Thanks are due to Andrew Prescott for preparing the protein samples, and Dr. C. Allardyce for providing the kinetic data and the preliminary X-ray data of the uncomplexed protein. Useful discussions with Prof. G. C. K. Roberts are also acknowledged. This work is supported by the Medical Research Council and the Wellcome Trust.

Erratum

Arnaiz-Villena et al. (CMLS 54: 1031–1041). Since its publication, we have been notified of the following errors on p. 1039:
