NOTES:

- * Canada's Eric Lindros is credited with the first ever Game Winning Shot (GWS) since the tiebreaking formula was introduced at the 1992 Olympic Winter Games in Albertville. Lindros' GWS beat Germany in the QF and sent Canada to the SF against Czechoslovakia.
- * Sweden's Thomas Rundqvist is credited with the first-ever Sudden Victory (overtime) goal since the tiebreaking formula was introduced in IIHF championships in 1992. Rundqvist scored vs. the Czech Republic in the SF of the 1993 WC.
- * Sweden's Peter Forsberg (1994 Olympics, final) and Canada's Luc Robitaille (1994 WC, final) are the only players who have scored twice in one Game Winning Shot competition with both getting the GWS that won the gold medal.
- * Russia's Sergei Berezin is the only other player to have scored twice in one Game Winning Shot competition. Berezin did it in a losing shootout for Russia vs. Canada in the 1996 WC.
- * USA's Andy Roach (2004 IIHF World Championship, QF and Bronze medal game) is the only player to score two Game Winning Shots in two different games in one IIHF World Championship.
- * Martin Prochazka is the only player to have scored in two different Game Winning Shot competitions and having been on the winning side both times. Prochazka executed his penalty shots perfectly in both the 1999 WC (SF vs. Canada) and in the 2001 WC (SF vs. Sweden).
- * Finland's Markus Ketterer (1992 WC, QF), Czech Republic's Dominik Hasek (1998 Olympics, F), Russia's Maxim Sokolov (2002 WC, SF), Slovakia's Jan Lasak (2002 WC, SF), USA's Ty Conklin (2004 WC, QF) and Czech Republic's Tomas Vokoun (2005 WC, QF) are the only goaltenders to record a shut-out in a Game Winning Shot competition. Ketterer stopped four Czech players, Hasek took all five Canadian shots, Sokolov stopped four Finnish shots, Lasak took four Swedish attempts, Conklin stymied all five Czechs and Vokoun also stopped all five US-shooters.
- * On three occasions has one penalty shot been enough to win a Game Winning Shot competition. Czech Republic's Robert Reichel beat Canada's Patrick Roy with the first shot in 1998 Olympic SF in Nagano. USA's Andy Roach scored on Tomas Vokoun in the QF of the 2004 IIHF World Championship and Martin Rucinsky's marker against USA's Rick DiPietro was the lone goal in the QF of the 2005 IIHF World Championship
- * Darby Hendrickson's sudden victory goal at 0.32 for USA vs. Canada in the 2001 WC is the fastest goal in the history of international overtimes.
- * Theo Fleury's goal at 39.47 in the 1996 World Cup SF CAN-SWE marks the longest overtime in major international hockey competition.
