Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.

Enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

Included in the row titled "ungraded", are unassigned or unclassified students, e.g., special education students who attend special education classes in separate classrooms.
