.. Not available. PPP is purchasing power parity; an international dollar has the same purchasing power over GNI as a U.S. dollar has in the United States.

Note: Rankings include all 215 World Bank Atlas economies, but only those with confirmed GNI per capita estimates or those that rank among the top twenty for the Atlas method are shown in rank order. Figures in italics are for 2009 or 2008. a. 2010 data not available; ranking is approximate. b. Based on regression; other PPP figures are extrapolated from the 2005 International Comparison Program benchmark estimates. c. Data are for the area controlled by the government of the Republic of Cyprus. d. Excludes Abkhazia and South Ossetia. e. Includes Former Spanish Sahara. f. Excludes Transnistria. g. Includes South Sudan. h. Covers mainland Tanzania only. i. Estimated to be upper middle income (\$3,976 to \$12,275). j. Estimated to be high income (\$12,276 or more). k. Estimated to be low income (\$1,005 or less). l. Estimated to be lower middle income (\$1,006 to \$3,975).
