HYDERABAD

Background:

Hyderabad is a historic beautiful City and is the Capital of Andhra Pradesh. The city is called "Pearl City" and famous for its twinkling pearls and glass embedded bangles. The city was founded during Qutub Shahi dynasty and was called Bhagyanagar. The present Hyderabad district came into existence in August 1978 with total geographic area of 199.6 square kilometers and covers the twin cities of Hyderabad and Secunderabad.

The District is located at 17 degrees 22 N latitude and 78 degrees 27 longitude and surrounded on all sides by Rangareddy District. The City is situated on the Deccan Plateau at a height of 1788 feet above sea level. The Hyderabad District has been divided into 16 mandals with 4 erstwhile taluks of Charminar, Golconda, Musheerabad and Secunderabad.

The Hyderabad district houses some of the most prestigious industries like Vazir sultan Tobacco, Indian Oxygen, Hyderabad Industries, Thane Transformers company, Kedia Vanspati (Agarwal Industries) etc besides various public sector undertakings.

With cosmopolitan culture, the city has congenial and hospitable environment for growth and development of SSI and Tiny industries. Charminar, Golconda fort, Salar Jung Museum, Makka Maszid, Zoological park, NTR Gardens, NTR Ghat under Buddha Purnima Project, Birla Science Museum and Temple, Ramoji Film City etc are the places of tourist attraction.

Hyderabad District, in its present shape, was formed in August 1978, when all its rural areas were included in Ranga Reddy District. The area of Municipal Corporation of Hyderabad (excluding a small part), Secunderabad Cantonment, Lalaguda and Osmania University are included in Hyderabad District. All the 65 revenue villages with its erstwhile taluks of Charminar, Golconda, Musheerabad and Secunderabad have been regrouped into 16 mandals.

Hyderabad being the State Capital is highly developed in all aspects. It is situated at an altitude of 536 metres and offers pleasant weather conditions. The total geographical area of the District is 199.60 square kilometers.

River Musi, a tributary of river Krishna, runs through the city, dividing it into old and new city. Drinking water needs of the city are met by the water from Osman sagar, Mir Alam Tank and from Manjeera River in Medak district. Proposals to supply

drinking water from Nagarjuna Sagar to meet city's demand are also under active consideration of the Government.

Resources:

The strength of Hyderabad district lies in its infrastructure facilities and its invaluable Human resources, rather than in agricultural & mineral resources.

Land: The total geographical area of the district is 199.60 Sq.Km with most of the area under rocky terrain. About 80% of the land is used for non-agricultural purpose and about 0.6% is only used as net sown area for growing food and non-food crops. The average size of land holding in the district is less than one Hectare.

Agriculture: The city has warehousing facilities at Musheerabad, Kachiguda and Sanathnagar. A number of research institutes such as Acharya N.G.Ranga Agricultural University, ICRISAT, NIRD, National Academy for Agricultural and Rural Management (NAARM), NEERI etc. are located in Hyderabad and its outskirts. The Rice Research Institute, Sorghum Research Institute, Maize Research Institute etc. are Crop specific research institutes engaged in agro and rural development.

Market: Hyderabad City is an important Centre for marketing of various products. It is also a good marketing outlet for the farmers to sell their produce. Important vegetable Markets are located in Secunderabad (Monda), Madannapet, Bharat Nagar, Gaddiannaram, and Gudimalkapur etc. Fish Markets are located in Secunderabad, Begumbazar, Puranapul, Mangalghat, M.J.Market etc.

Livestock Resources: Poultry and livestock population of the district form only a small percentage of the total population of the state. Most of the Cattle Population forms part of the mini diaries scattered all over the district. Cattle population of the district is approximately 12,000 (excluding sheep, goats and others), while the poultry population is estimated to be about 17500.

Mineral Resources: The demand for various minerals and ores is met from the raw materials being supplied from other district, since no quarrying is done within the city limits.

Human Resources: According to a survey, about 2000 I.T. qualified engineers / Professionals are being added to the human resources of the state every year. The Hyderabad city is a model for I.T. Industry and is called 'Cybercity'. Leading I.T. Units are now situated in Hyderabad. The Software Technology Park of India (STPI) established at Hyderabad is assisting the growth of I.T. Industry in the State. Further, the Hitec City located at Madapur in R.R.Dist is a modern I.T. Business park, spreading over 150 acres of land with about 5 lakhs square feet of floor space for I.T. Companies.

Infrastructure:

A number of industries are located in the three Industrial Estates of Chandulal Bardari, Sanathnagar and Azamabad and abundant power supply is available for S.S.I / Tiny Units without any power cuts / power failures. Hyderabad, also being called, as "Cyberabad" has become a synonym for I.T. industry, with a number of public call offices and Internet cafes in addition to regular telephone connections. Road and Rail transport, Banks, STPH, Hitech City at Madapur, other theme parks such as Apparel Export Park, Export Promotion Park, Hardware Park, Biotech park etc in the outskirts of the city, besides various training institutes, offer ample scope for the growth and development of SSI & Tiny sector in the district.

The term 'Infrastructure' covers various services like land, power, roads, communications, water etc and social infrastructure provides for health, education, sanitation, nutrition etc.

A major portion of the available land is occupied by roads and buildings, which are used for commercial and residential activity.

Industrial Estates / I.D.As: There are three Industrial estates located in Chandulal Bhardari, Sanathnagar and Azamabad, with full occupancy rate.

The total number of plots and sheds in these three Industrial Estates are given below.

Industrial Estate	Sheds Alloted	Vacancy	Shed Costs	Plots Alloted	Vacancy	Plot costs
1. Chandulal Bardari	--	--	--	35	2	(Each Plot Area 1000Sq.m, Rs.2000 per Sq.m)
2. Sanathnagar	99		1 (Each shed area 1600 Sq.m) Rs.45,00,000	32	--	(Eash Plot area 2000 Sq.m) Rs.3000 per Sq.m.
3. Azamabad	--	--	--	--	54	--

Power: There are about 29 Nos of 33/11 KV substations, 3 nos. of 132/33 KV substations, one no. of 66/33 KV and another one 132/66 KV substations are existing in the city at various places. Adequate power supply without any power cuts / power failures is assured for SSI / Tiny Units in the district.

Telecommunications: The City of Hyderabad is also known as 'Cyberabad' due to the development of I.T. industry with a number of internet Cafes, Public call offices (and about 6.5 lakhs of regular telephone connections), which offer various communication facilities like email, chat, teleconferences, video conferences etc. Similarly the city has 5 head post offices and many sub-offices in every corner of the city, providing speed post facility. There are many private courier services also operating in the city.

Transport:

Road Transport: Two national highways, Mumbai-Vijayawada and Nagpur-Bangalore, with a length of 32 Km and about 700 Km of PWD Roads provide the required road transport facility in the city. The State Government has undertaken construction of 15 fly-overs to accommodate the growing traffic. About 2500 RTC buses ply in the city every day.

Rail Transport: Apart from the 3 important railway stations of Secunderabad, Nampally and Kachiguda, there are 23 local railway stations providing the required services. The city also has an inland freight depot with custom clearing facility at Sanathnagar, which is handling millions of tones of cargo every year.

Air Transport: The main Airport at Begumpet and the new international Airport at Shamshabad near Hyderabad would provide direct flights to many countries.

Water Resources:

The City's drinking water needs are met by the Osman sagar lake and Manjeera phase I and phase II. The Hyderabad Metropolitan Water Supply and Sewerage Board (HMWS&SB) in supplying the water to the city. Good drainage facilities are available in the city.

Industrial Credit:

The Hyderabad city has good banking facilities with most of the Banks' Regional Offices are located in the city. More than 500 Metropolitan branches of Nationalized Banks are operating in the city. Other financing Agencies include SIDBI, IDBI, APSFC, ICICI, NABARD, NSIC etc. which provide required financial assistance. Other Govt.corporations such as B.C. & S.C. Societies, S.T. Corporation, Women Finance Corporation, Minorities Finance Corporation, NEDCAP, LIDCAP etc. are providing required financial and technical assistance to different categories of entrepreneurs.

Industrial Scenario:

The District has Large and Medium Industries in Cigarettes, Refrigerators, chemicals, Electricals with an investment of Rs. 47 Crores. Major Industries in the District are M/s Vazir Sultan Tobacco Co., M/s Voltas Ltd., M/s Agarwal Industries.
