than it is broad. Moderately rounded forehead. pronounced cheekbones and jowliness enhance the round appearance. Definite whisker break with large round whisker pads. In profile there is a gentle nose dip and a well developed

muzzle with strong chin.

with sparse interior furnishings. Medium in size whilst in proportion to the head, widely spaced and set slightly

outwards.

colour to conform to requirements of coat colour.

with sturdy bone structure. The medium length back is flat between shoulders and rump with obvious substance

across the shoulders and chest.

Tail, Legs and Feet: Tail should be medium in length and width, tapering to a

rounded end. Legs are medium in length but well boned with forelegs set well apart to emphasise the broad deep chest. Hind legs may be slightly longer than front legs but not to the degree of the Manx. Paws are neat and round..

Coat: Double coat is short and dense, with a well padded quality

due to the longer, open outer coat and the close cottony undercoat. Texture of guard hairs is somewhat hard and appears glossy. A softer coat may occur in white and dilutes but should not be confused with the silky texture

found in the Longhair Isle of Man.
