Statement from Universal Pictures – JURASSIC PARK 4

In coordination with filmmakers, Universal has decided to release *Jurassic Park 4* at a later date giving the studio and filmmakers adequate time to bring audiences the best possible version of the fourth installment in Universal's beloved franchise. We could not be more excited about the vision that Colin Trevorrow has created for this film, and we look forward to watching as he and the producers create another great chapter in this franchise's storied history.
