

CONCIERGE MEDICINE WITHOUT ANNUAL FEES

INDEPENDENT DOCTORS OF NEW YORK

IDNY is an association of highly respected independent board-certified physicians in New York City who provide personalized patient care that is not dictated by the restrictive requirements of health care insurance providers. Because IDNY physicians do not accept insurance, we are able to provide concierge-type care to our patients, including increased access, longer visits, more personalized care, and an extensive referral network should referral be appropriate. To contact a member physician, see www.IDNY.org or call 212-724-1500.
