

# GUIDE TO THE CHECKLIST OF MARYLAND POST OFFICES

## GENERAL INFORMATION

The Checklist of Maryland Post Offices is arranged alphabetically by office name. The column headings used in the Checklist are explained below.

- **POST OFFICE NAME** – The name given to the post office by the Post Office Department or United States Postal Service. Stations and branches are parenthetically noted as such after their names. Alternate spellings, misspellings and abbreviations that are found in postal markings are noted, with direction to the correct or official name.
- **PARENT OFFICE** – For stations and branches only, the post office to which they reported. Most postal markings from stations and branches include the name of their parent office.
- **COUNTY** – The County in which the post office operated, or continues to operate, during the dates listed.
- **DATE EST** – The date on which the post office was established or re-established. Dates of operation begin with the formation of the colonial post that supplanted the British postal service in the American colonies in late 1775. See Section II of the *Introduction to Maryland and Its Postal History* for more information on the colonial post.
- **DATE DISC** – The date on which the post office was discontinued. A blank cell in this column indicates that the post office is actively operating as of the date displayed in the heading.
- **MARKINGS REPORTED** – An ‘X’ in this column denotes that one or more postal markings are known from the office on or between the operating dates shown.

The following should be noted when looking for a particular post office:

1. Lettered and numbered stations and branches are listed underneath the parent office in separately identified sections. For example, Branch 125 of the Baltimore post office is listed under Baltimore in the “Numbered branches” section. Postal markings for some of these stations and branches show only the name of the parent office and are thus indistinguishable from markings of the parent office. Others show the name of the facility where the branch or station is located rather than the branch or station number. These names are included in the alphabetical list with a reference to the official designation.

2. The Post Office Department embarked on an initiative around 1894 to standardize and simplify the spelling of post office names. Suffixes such as “-borough” and “-burgh” were shortened to “-boro” and “-burg”. In addition, some multiple word names were shortened, as in “Glen Arm” being condensed to “Glenarm”. Most of these changes are reflected in the postal markings from the affected offices and are still in effect today. Others were never recognized locally and were eventually undone by the Department.

The Checklist deviates slightly from its alphabetical format when listing these spelling changes. This has been done because the dates of the name changes are taken from official records and actual postal markings seldom reflected the changes as of these dates. Continuing with the example of Glen Arm, the highlighted entries in the table below show how the truncation and its subsequent rescission are presented chronologically rather than strictly alphabetically in the Checklist.

POST OFFICE NAME	PARENT OFFICE	COUNTY	DATE EST	DATE DISC	MARKINGS REPORTED
Glen		Montgomery	1882-02-09	1905-11-15	X
Glen Arm		Baltimore	1883-10-03	1895-04-29	
Glenarm		Baltimore	1895-04-29	1966-01-01	X
Glen Arm		Baltimore	1966-01-01		
Glenburnie		Anne Arundel	1888-09-15	1896-01-31	X

The same chronological format is used for names with dropped letters:

POST OFFICE NAME	PARENT OFFICE	COUNTY	DATE EST	DATE DISC	MARKINGS REPORTED
Upper Hunting Creek		Caroline	1846-12-28	1856-02-16	
Upper Marlborough		Prince Georges	1776-01-	1893-03-23	X
Upper Marlboro		Prince Georges	1893-03-23		X
Upper Trappe		Somerset	1849-12-10	1875-12-06	

3. Post offices that were authorized or had postmasters appointed but never commenced operation are not included.
4. Research into the dates of operation for the numbered stations and sub-stations in Baltimore has only progressed to about 1920 at this time, and picks up again in the mid-1990s. The Checklist will be updated periodically as new information is obtained.
