Roll of the Fallen

Κοιῆ γὰρ τὰ σώματα δίδόντες ἰδία τὸν ἀγήρων ἔπαινον ἐλάμβανον καὶ τὸν τάφον ἐπισημότατον, οὐκ ἐν ᾧ κείνται μᾶλλον, ἀλλ' ἐν ᾧ ἡ δόξα αὐτῶν παρὰ τῷ ἐντυχόντι αἰεὶ καὶ λόγου καὶ ἔργου καιρῷ ἀείμνηστος καταλείπεται.—THUCYDIDES II. 43 (Pericles' Oration).

AS they made in common an offering of their lives, they each received praise that will not grow old and the noblest of tombs, not in the place where they lie, but rather where, on every occasion calling for word or deed, their fame is left behind them in everlasting remembrance.

O Captain! my Captain! our fearful trip is done,
The ship has weather'd every rack, the prize we sought
is won,
The port is near, the bells I hear, the people all exulting,
While follow eyes the steady keel, the vessel grim and daring ;
But O heart! heart! heart!
O the bleeding drops of red,
Where on the deck my Captain lies,
Fallen cold and dead.

WALT WHITMAN (*Leaves of Grass*).

AND ye shall die before your thrones be won.
Yea, and the changed world and the liberal sun
Shall move and shine without us, and we lie
Dead ; but if she too move on earth and live,
But if the old world with all the old irons rent
Laugh and give thanks, shall we not be content ?
Nay, we shall rather live, we shall not die,
Life being so little and death so good to give.

SWINBURNE (*The Pilgrims*).

VICTORIA CROSS.

CLOUTMAN, LT. (ACTG. MAJ.) BRETT MACKAY, M.C., 59th Fld. Coy., R.E. (T.F.). ♦ For most conspicuous bravery on the 6th November 1918, at Pont-sur-Sambre. Maj. Cloutman, after reconnoitring the river crossings, found the Quartes Bridge almost intact but prepared for demolition. Leaving his party under cover he went forward alone, swam across the river, and, having cut the "leads" from the charges, returned the same way, despite the fact that the bridge and all approaches thereto were swept by enemy shells and machine gun fire at close range. Although the bridge was blown up later in the day by other means, the abutments remained intact.—*Gazette*, 31 Jan. 1919.

FOX RUSSELL, CAPT. JOHN, M.C., late R.A.M.C., attd. R. Welsh Fus. ♦ For most conspicuous bravery displayed in action until he was killed. Capt. Russell repeatedly went out to attend the wounded under murderous fire from snipers and machine guns, and, in many cases where no other means were at hand, carried them in himself, although almost exhausted. He showed the highest possible degree of valour.—*Gazette*, 11 Jan. 1918.

JOHNSON, TEMP. 2ND LT. FREDERICK HENRY, 73rd Fld. Coy., R.E. ♦ For most conspicuous bravery and devotion to duty in the attack on Hill 70 on 25th September 1915. 2nd Lt. Johnson was with a section of his company of the Royal Engineers. Although wounded in the leg, he stuck to his duty throughout the attack, led several charges on the German redoubt, and at a very critical time, under very heavy fire, repeatedly rallied the men who were near him. By his splendid example and cool courage he was mainly instrumental in saving the situation and establishing firmly his part of the position which had been taken. He remained at his post until relieved in the evening.—*Gazette*, 18 Nov. 1915.

Mc READY-DIARMID, TEMP. LT. (ACTG. CAPT.) ALLASTAIR MALCOLM CLUNY (formerly Arthur Malcolm McCready-Drew), late Midd'x R. ♦ For most conspicuous bravery and brilliant leadership. When the enemy penetrated some distance into our position and the situation was extremely critical, Capt. McReady-Diarmid at once led his company forward through a heavy barrage. He immediately engaged the enemy, with such success that he drove them back at least 300 yards, causing numerous casualties and capturing 27 prisoners. The following day the enemy again attacked and drove back another company which had lost all its officers. This gallant officer at once called for volunteers and attacked. He drove them back again for 300 yards, with heavy casualties. Throughout this attack Capt. McReady-Diarmid led the way himself, and it was absolutely and entirely due to his marvellous throwing of bombs that the ground was regained. His absolute disregard for danger, his cheerfulness and coolness at

a most trying time, inspired all who saw him. This most gallant officer was eventually killed by a bomb when the enemy had been driven right back to their original starting-point.—*Gazette*, 15 Mch. 1918.

WHITE, TEMP. CAPT. ARCHIE CECIL THOMAS, York. R. ♦ For most conspicuous bravery. He was in command of the troops that held the southern and western faces of a redoubt. For four days and nights, by his indomitable spirit, great personal courage, and skilful dispositions, he held his position under heavy fire of all kinds and against several counter-attacks. Though short of supplies and ammunition, his determination never wavered. When the enemy attacked in greatly superior numbers and had almost ejected our troops from the redoubt, he personally led a counter-attack, which finally cleared the enemy out of the southern and western faces. He risked his life continually, and was the life and soul of the defence.—*Gazette*, 26 Oct. 1916.

BROWNE, TEMP. LT.-COL. GEORGE EDWARD ALLENBY, M.C., L'pool R., D. of C. L.I. ♦ For distinguished service in the Field.—*Gazette*, 1 Jan. 1918.

UNIVERSITY OF LONDON O.T.C.

Bar. For conspicuous gallantry and devotion to duty. When in command of a battalion which had had little infantry training, he so efficiently handled his men as to materially assist in the successful withdrawal of the division, a detached platoon of his destroying a party of the enemy with the bayonet. His fine leading and skilful handling converted his slightly trained men into a highly competent infantry battalion.—*Gazette*, 26 July 1918.

JANSON, TEMP. MAJ. (ACTG. LT.-COL.) JAMES THEODORE, Yorks. L.I. ♦ For distinguished service in the Field.—*Gazette*, 4 June, 1917.

Bar. For conspicuous gallantry and devotion to duty. He was in command of a battalion which was in reserve during an enemy attack, and collected and led a large number of men of various units with the greatest coolness and skill. He carried out a reconnaissance of the position, and got the situation well in hand, and by his fine example forestalled every attempt of the enemy to break through.—*Gazettes*, 18 Feb. and 18 July 1918.

KELLETT, CAPT. (ACTG. LT.-COL.) JOHN PHILIP, M.C., 1/2nd Bn., Lond. R. (T.F.) ♦ For distinguished service in connection with military operations in France and Flanders.—*Gazette*, 3 June, 1918.

Bar. For conspicuous gallantry and able leading of his battalion on 27th September 1918, at the crossing of the Canal du Nord during the attack near Oisy-le-Verger. The villages and enclosed ground were occupied by a large number of machine gun posts, which threatened to hold up a rather thin attack. By quick and skilful manœuvring he reduced the centres of resistance one after the other, capturing a number of prisoners well in excess of his own losses.—*Gazette*, 1 Feb. 1919.

ROWBOTHAM, CAPT. (ACTG. LT.-COL.) JAMES, M.C., High. L.I. ♦ For conspicuous gallantry and devotion to duty. During an enemy counter-attack the front line became somewhat disorganised owing to a shortage of ammunition. He personally issued fresh supplies, and by his total disregard for safety and brilliant leadership succeeded in restoring a very difficult situation.—*Gazettes*, 19 Nov. 1917 and 22 Mch. 1918.

Bar. For conspicuous gallantry and devotion to duty. He continually visited the front line of his battalion, which was under heavy shell fire and gas, and brought in valuable information. On one occasion, finding the enemy were making progress on his left by bombing and using *flammenwerfer*, he rallied the men and restored the situation. Subsequently, while directing the defence in a very exposed position, he was severely wounded.—*Gazette*, 26 July 1918.

TORTISE, TEMP. CAPT. (ACTG. MAJ.) HERBERT JAMES, R.W. Surr. R. ♦ For conspicuous gallantry and devotion to duty during enemy attacks. When his commanding officer was wounded he assumed command of the battalion, rallied and reorganised other troops with them, and led them in attack. Bar. For distinguished service in connection with military operations in France and Flanders.—*Gazette*, 3 June 1918.

His skill and fine devotion to duty over a difficult period were admirable.—*Gazettes*, 2 Apr. and 10 Dec. 1919.

By his personal gallantry and energy whilst holding the line, and during the attack, he was to a large extent responsible for the success which his battalion achieved.—*Gazettes*, 8 Mch. and 4 Oct. 1919.

- HARVEY, TEMP. CAPT. MARTIN MORNEMENT, M.C., Notts. and Derby R. ♦ For conspicuous gallantry and devotion to duty during a withdrawal, when his company was on the left flank of the battalion, which was "en l'air." The enemy, perceiving the advantage, established machine guns and snipers on a ridge, and enfiladed the whole battalion with great accuracy. He at once appreciated the situation, organised and led a party which drove the enemy off the ridge, and saved the situation. He was then severely gassed, but persisted in attempting duty until physically incapable.—*Gazette*, 12 Mch. 1917.

2nd Bar. For conspicuous gallantry and devotion to duty. He established his A.D.S. in the village, although it was under very heavy shell fire. He attended and evacuated a very large number of wounded, working all night, finally going out himself along the front to see if there were any left.—*Gazette*, 26 July 1917.

BUSHMAN, 2ND LT. GEORGE NEVILLE, R.F.A. (S.R.). ♦ For conspicuous gallantry and devotion to duty. CRESWELL, CAPT. HARRY EDMUND, R.A.M.C. ♦ For conspicuous gallantry and devotion to duty. When casualties were very heavy he worked single-handed for thirty-six hours without rest. Throughout he showed complete disregard for his own personal safety.—*Gazette*, 16 Aug. 1917.

Bar. For conspicuous gallantry and devotion to duty. After an intense bombardment with gas shells a village was ordered to be cleared. HONOURS AND DISTINCTIONS—M.C.

Bar. For conspicuous gallantry and devotion to duty during a heavy enemy attack. GRAY, LT. (ACTG. CAPT.) WILLIAM, Lond. R. (T.F.). ♦ For conspicuous gallantry and good leadership. He led his company with great dash in the face of heavy machine gun fire, taking many of the enemy prisoners and capturing five machine guns. Throughout the operations his courage and bold leadership inspired his men with the greatest confidence.—*Gazette*, 7 Nov. 1918.

Bde. ♦ For conspicuous gallantry and consistently good work at Zandvoorde and Tenbrielen, south-west of Ypres, 28th September to 3rd October 1918. The organisation of the signal service of his brigade enabled Brigade Headquarters to keep in touch throughout the operations, with practically no interruption. In addition, he enabled another brigade to maintain touch, and was of assistance to the artillery and neighbouring formations. He was exposed on occasions to severe shell fire, and throughout maintained a clear head and complete composure.—*Gazette*, 1 Feb. 1919.

He pushed forward through exceedingly boggy and difficult ground, and personally selected sites for each gun at the most suitable tactical points of the captured objective, afterwards very greatly assisting to repulse a hostile counter-attack by harassing the enemy, as they were massing, with his fire, and inflicting heavy casualties. - PEARSE, TEMP. LT. (ACTG. CAPT.) NAPIER EDWARD LEWIS, R.E. ♦ For conspicuous gallantry and devotion to duty in getting up urgent R.E. stores and bringing his wagons back. - PEGGE, LT. ARTHUR VERNON, R.A.M.C. (S.R.), attd. 15th Bn., Lan. Fus. ♦ During the attack on the Oise-Sambre Canal on 2nd-4th November 1918, his aid post came under very heavy shell fire, and was also gassed at intervals. The machine in which he was an observer came into collision with another when he was at a height of 4,000 feet, and had its right-hand bottom plane so badly damaged that it got into a spinning nose dive. Seeing this, he immediately climbed to the outer bay of the left-hand plane, and by his weight there enabled his pilot to right his machine and to land without further damage.—*Gazettes*, 18 Oct. 1917 and 7 Mch. 1918.

HONOURS AND DISTINCTIONS—M.C.

- PETER, LT. JOHN, R.A.M.C. (S.R.), attd. 17th Bn., L'pool R. ♦ For gallantry and devotion to duty during the attack on enemy positions near Kodish, on 7th February 1919. (T.F.), attd. 1st Bn. ♦ Near Fresnoy, on 19th September 1918, after the officer commanding his company had been wounded, he took over command and behaved with the greatest coolness, and reorganised and led his company under heavy fire. These reports were of the greatest use.—*Gazettes*, 8 Mch. and 4 Oct. 1919.
- PLATTS, TEMP. 2ND LT. HAROLD CLAYTON, 385th Fld. Coy., R.E. ♦ For conspicuous gallantry and good work from 7th to 11th August, 1919. He was in charge of an advanced dressing station, where there were a large number of wounded when the enemy attacked. The task of removing the wounded was an extremely difficult one owing to the proximity of the enemy and heavy shell and machine gun fire, but he carried it out successfully, remaining on the spot until all the wounded had been evacuated. By his courage and devotion to duty he was the means of saving many lives.—*Gazettes*, 4 Feb. and 5 July 1918.

- REYNOLDS, TEMP. 2ND LT. HERBERT DANIEL, E. Lan. R. ♦ For conspicuous gallantry and devotion to duty. When all his officers had become wounded, he took charge of the attacking companies and led them on to the objective. Later, when the line had to be withdrawn owing to its being outflanked, he successfully extricated his companies in the face of fresh enemy troops who were endeavouring to envelop his left flank. He was the last officer to come in, and did not do so until he was satisfied that all his men were safe.—*Gazettes*, 26 Sept. 1917 and 9 Jan. 1918.
- REYNOLDS, TEMP. LT. (TEMP. CAPT.) WILLIAM LEONARD ELIOT, R.A.M.C. ♦ For conspicuous gallantry and devotion to duty in working continuously for twenty-four hours amongst the wounded. - RICHARDS, TEMP. LT. EVAN MATTHEW, R.E. ♦ For conspicuous gallantry and devotion to duty while in charge of the firing of projectors against enemy strong points. He went out in the face of intense fire and connected up electrical connections which had been cut, and then fired the batteries from the open directly behind the position—a very daring act, the guns being liable to burst and the concussion being very great. He thus succeeded in firing 100 per cent. of the projectors allotted to him.—*Gazette*, 24 Sept. 1918.
- RICHES, TEMP. 2ND LT. ERIC WILLIAM, attd. Linc. R. ♦ For conspicuous gallantry and devotion to duty. When in charge of an

ROCHE, 2ND LT. EDWARD HENRY, R.G.A. (S.R.). ♦ For conspicuous gallantry and devotion to duty. He established an observation post near the front line, and remained there for four days and nights under heavy shell fire, sending back valuable information. After the attack on 2nd-3rd October, as soon as the line was established, he organised

a party of stretcher-bearers and, in spite of heavy machine gun fire, succeeded in collecting many wounded men. His action was undoubtedly responsible for the saving of many lives.—*Gazettes*, 2 Apr. and 10 Dec. 1919.

SARGENT, LT. (TEMP. CAPT. and ACTG. MAJ.) GEORGE HENRY, R.A.S.C., seconded 5th Bde., Tanks Corps. ♦ For conspicuous gallantry during operations of 8th August 1918, east of Amiens. He walked close behind the tanks, with total disregard for his own safety, as far as the first objective. Here he inspected all the tanks, and was instrumental in rendering several fit for action in the assault on Morcourt-Harbonnieres line. On 9th and 23rd August he again followed the tanks on foot, and under severe shelling was untiring in his efforts to render them fit for action. The success of the operations was largely due to his untiring energy and fearless devotion to duty.—*Gazette*, 1 Feb. 1919.

SCHNEIDER, TEMP. 2ND LT. FREDERICK ARTHUR, R.E. ♦ For conspicuous gallantry and devotion to duty. Assisted by a N.C.O. he attacked a party of the enemy who had entered our mine galleries and drove them back with revolvers. He then returned to the shaft and fetched explosives, intending to cut off that portion of the mine which had been temporarily lost. Whilst fixing the charge, however, he was rendered unconscious and gassed by the explosion of a charge left by the enemy, but it was due to this prompt action and gallantry that the enemy did not secure a large portion of our mine galleries.—*Gazettes*, 26 Sept. 1917 and 9 Jan. 1918.

SCHÖN, LT. JAMES GEOFFREY, R.E. (S.R.) ♦ For distinguished service in the Field.—*Gazette*, 3 June 1916.

UNIVERSITY OF LONDON O.T.C.

- SCOTCHER, TEMP. 2ND LT. WILLIAM GOODLEFF, E. York. R. ♦ For conspicuous gallantry. He commanded his platoon with great determination, when his trench was constantly being blown in by shell fire. He exposed himself freely in order to encourage his men. Though partially buried by a shell, he carried on his work as soon as extricated.—*Gazette*, 14 Nov. 1916.
- SCOTT, LT. ALEXANDER BALFOUR, R.F.A. (S.R.), attd. H.Q., 32nd Divl. Arty. ♦ For distinguished service in connection with military operations in France and Flanders.—*Gazette*, 1 Jan. 1919.
- SCOTT, TEMP. LT. JAMES, 171st Tun. Coy., R.E. ♦ On the night of 28th September 1918, at Kruisstraat, he went out before the attack in front of our line, in face of very heavy machine gun and rifle fire, to cut trip wires attached to booby traps. In the subsequent operations he showed great courage in pushing out in front with the infantry patrols to inspect roads and bridges, and in removing unfired demolition charges.—*Gazettes*, 8 Mch. and 4 Oct. 1919.
- SCRIVEN, TEMP. 2ND LT. ARTHUR CECIL, Suff. R. ♦ For conspicuous gallantry. He was sent with four guns to a partially captured position, and contributed greatly to its consolidation. When the infantry were temporarily withdrawn he remained throughout a bombardment, and in spite of heavy casualties succeeded in annihilating several local counter-attacks.—*Gazette*, 22 Sept. 1916.
- SEARLS, TEMP. LT. THOMAS HARVEY, S. Staff. R. ♦ For conspicuous gallantry and devotion to duty when in command of a platoon. - SHARP, TEMP. CAPT. (ACTG. MAJ.) CLIVE JUSTIN HICKS, R.A.M.C. ♦ For conspicuous gallantry and devotion to duty. He most ably supervised the evacuation of wounded during a rapid advance. Moreover, on hearing that one of the advanced dressing stations had been hit by a bomb, he at once went to the spot and helped with the wounded, and his coolness and energy were of the greatest assistance in reorganising the dressing station under shell fire, so that the evacuation of the wounded proceeded uninterruptedly.—*Gazette*, 15 Oct. 1918.
- SHAW, LT. CECIL GRAHAM, 237th Fld. Coy., R.E. (T.F.). ♦ For conspicuous gallantry and initiative on the night of 8th-9th November 1918, previous to and during the crossing of the Scheldt at Meersche. With his section he was given one hour after dark to dismantle a collapsible boat, carry the parts a mile across country, put it together again, and launch it. The operation was carried out most cleverly under enemy machine gun and rifle fire. The Scheldt was in flood, but, after launching the boat under fire, he paddled it across, using shovels as oars, and by tying a rope at either end, and carrying eight men at a time, he successfully transported the whole battalion across, working all night. It was entirely due to his courage and ability that

HONOURS AND DISTINCTIONS—M.C.

- the forcing of the Scheldt was carried without preparation of any description.—*Gazettes*, 2 Apr. and 10 Dec. 1919.
- SHAW**, TEMP. 2ND LT. GEORGE DRURY, R.F.A. ♦ For conspicuous gallantry and devotion to duty when his battery position was being heavily shelled. HONOURS AND DISTINCTIONS—M.C.

- WOOD, 2ND LT. CYRIL BLAKE, R.F.A. (S.R.). ♦ For conspicuous gallantry and devotion to duty. During a withdrawal across country under heavy shell fire, when one gun team had three horses shot, he caught stray horses and saved the gun. On another day, while brigade observation post officer, he was badly shaken by a shell bursting near him, but continued for some hours to send through valuable information. On both occasions he showed great courage and determination.—*Gazette*, 26 July 1918.
- WOOD, LT. (ACTG. CAPT.) JOHN CALDER, 5th Bn., Gord. Highrs. (T.F.), attd. 5th Fld. Survey Bn., R.E. ♦ For distinguished service in connection with military operations in France and Flanders.—*Gazette*, 3 June 1919.
- WOOD, TEMP. CAPT. LLEWELLYN, E. Kent R. ♦ For conspicuous gallantry and devotion to duty. Although his flank was exposed, he organised the line held by his company with great skill. He set a splendid example throughout, and sent in most valuable reports on the situation.—*Gazette*, 17 Apr. 1917.
- WOOLNER, TEMP. 2ND LT. FRANK THOMAS, R.E. ♦ For conspicuous gallantry and devotion to duty. He was superintending the unloading of stores at a very forward dump. The carrying parties of infantry were removed owing to a threatened enemy attack. He, with the few remaining men, succeeded in unloading the bulk of the material and getting the transport away from an exposed dump. He dealt with the situation in a remarkably cool and able manner.—*Gazette*, 18 June 1917.
- WRIGHT, TEMP. CAPT. JOSEPH HERBERT, Glouc. R. ♦ For distinguished service in the Field.—*Gazette*, 1 Jan. 1917.

DISTINGUISHED FLYING CROSS WITH BAR.

HAZELL, LT. (TEMP. CAPT.) TOM FALCON, M.C., R.A.F. ♦ This officer is conspicuous for his bravery and skill, having destroyed twenty enemy machines and four kite balloons. On one occasion, while attacking troops on the ground, he observed seven enemy scouts above him; he at once engaged them, shooting down one out of control. Some days later he, with another pilot, attacked a kite balloon, driving it down in flames; they then attacked a second balloon, driving it down in a deflated condition.—*Gazette*, 2 Nov. 1918.

Bar. This officer has accounted for twenty-seven enemy machines and four kite balloons. On 8th August he shot down two machines out of control, and destroyed a third in the air. In these combats he was so heavily engaged that all his instruments were wrecked, and only one strand of his elevator control cable was intact. Relentless in attack, Capt. Hazell displays disregard of personal danger in a marked degree.—*Gazette*, 2 Nov. 1918.

DISTINGUISHED FLYING CROSS.

LEWIS, LT. (TEMP. CAPT.) GWILYM HUGH, North'n R. ♦ It is largely due to this officer's ability and judgment as a flight leader that many enemy machines have been destroyed with very few casualties in his formation. He is bold in attack, and has personally accounted for eight enemy aircraft, displaying marked disregard of personal danger.—*Gazette*, 21 Sept. 1918.

REID, CAPT. GEORGE HANCOCK, R.A.F., Sea Patrol (North Sea). ♦ As pilot of a Short seaplane he was engaged on a raid on Zeppelin sheds in Schleswig-Holstein on 25th March 1916, in which he displayed great courage, ability and resource under the most trying circumstances, which included prolonged flying in a snowstorm and immersion for over three hours in the sea.—*Gazette*, 8 Feb. 1919.

SANSOM, MAJ. GEORGE SAMUEL, M.C., R.A.F. (France). ♦ A very able officer, who has completed nearly 600 hours of observation duty from balloons. He handles the balloon section under his command with consummate skill, notably on 18th September, when he advanced his section to forward positions in a manner deserving of high praise. (M.C. gazetted 18th June 1917.)—*Gazette*, 3 Dec. 1918.

SPEAK, LT. (ACTG. CAPT.) JOHN, R.A.F. (France). ♦ A gallant and courageous officer. On 8th October he attacked, from a height of 100 feet, an enemy balloon on the ground, nine miles over the line, and set it on fire. Later, seeing a train, he descended to fifty feet and fired at it till it stopped. He then attacked and scattered horse transport, causing great confusion; and before finishing his patrol Lt. Speak bombed a hostile town.—*Gazette*, 8 Feb. 1919.

THOMPSON, LT. (TEMP. CAPT.) SAMUEL FREDERICK HENRY, M.C., A.S.C. ♦ This officer has carried out numerous offensive patrols, displaying the most marked bravery and determination. WALSER, MAJ. ANDRE ADOLPH [ANDREW ADOLPHUS], M.C., R.A.F. (France). ♦ A brilliant and exceptionally able squadron commander who, by his unsparing efforts and his fine personal example, has raised the morale of his squadron to a very high level. The comprehensive and detailed information obtained by Maj. Walser in the large number of low reconnaissances he has conducted has proved of the greatest value to his corps. (M.C. gazetted 14th November 1916.)—*Gazette*, 8 Feb. 1919.

Roll of War Service

VOUS avez gagné la plus grande bataille de l'Histoire et sauvé la cause la plus sacrée : la Liberté du monde.
Soyez fiers !
D'une gloire immortelle vous avez paré vos drapeaux.
La posterité vous garde sa reconnaissance.

*From the Proclamation of Marshal Foch,
Commander-in-Chief of the Allied Armies,
dated 12th November 1918.*

The Roll of War Service records the names and other particulars of officers and former officers and former cadets of the University of London Officers Training Corps who rendered commissioned service in the War between the dates 5th August 1914 and 11th November 1918 (Armistice).

☛ indicates that the officer is included in the Roll of the Fallen (pp. 1 to 63).

The rank stated is the highest permanent, temporary, or acting rank attained, acting rank and in special cases temporary rank held for less than six months being given in brackets.

The abbreviations for regiments are those employed in the Army List.

Active service overseas or at sea and special combatant service at home is recorded, so far as known, to the date of latest information but not later than January, 1920. When it is known that service was restricted to home service, this fact is stated. In the case of officers and former officers of the Contingent, service with the Contingent is fully recorded.

F. signifies France and/or Flanders and/or, if applicable, advance to the Rhine and Army of Occupation.

Honours and distinctions are recorded for individual officers as given in greater detail under "Honours and Distinctions" (pp. 65 to 190).

APPENDIX

1915.

Strength.—Officers on the strength on September 30th, 1915 :—H.Q., 3 ; Artillery, 1 ; Engineer, 2 ; Infantry, 15 ; Medical, 9 ; total, 30. During the training year ended September 30th, 1915, the number of cadets who were members of the several Units was as follows :—Artillery, 201 ; Engineer, 193 ; Infantry, 1,400 ; Medical, 415 ; total, 2,209. Of these cadets, the following proceeded to commissions during the year :—Artillery, 116 ; Engineer, 123 ; Infantry, 734 ; Medical, 95 ; total, 1,068.

Training.—The training of the several Units of the Contingent was adapted to meet the special conditions arising from War. A large proportion of the cadets of the Artillery Unit, which was at full strength, devoted their whole time to training. This system of full time training was more fully organised after the appointment of Major W. B. Grandage to command the Unit in November, 1915, when the Headquarters of the Unit were transferred from South Kensington to the City of London R.F.A. Headquarters, Handel Street, Bloomsbury.

The Engineer Unit was under training at South Kensington and many cadets devoted their whole time to the work.

In the Infantry Unit, training was carried on both at the Colleges of the University and under a system of continuous training at South Kensington and in a camp at Perivale, near Ealing, and of this continuous course many cadets were able to take advantage, both during the vacation and during term. By a War Office letter, dated November 26th, 1915, as modified by later communications, the work of the Infantry Unit was restricted (after a brief interval to enable existing cadets to complete their training for commissions) to cadets under the age of 19. Upon attaining military age, infantry cadets were attested and upon being called to the colours reports were made to the War Office respecting those considered suitable for commissions.

The Medical Unit encamped for its annual training during the summer vacation on Salisbury Plain. Arrangements were also made for camp training during the other vacations and for periods of intensive training in preparation for the special examinations for Certificates A and B held for cadets of this Unit. Upon the announcement of the War Office decision in regard to the younger medical students taking combatant commissions, a considerable number of medical cadets transferred to the Artillery and Infantry Units.

New Headquarters.—In April, 1915, the Headquarters of the Contingent were removed from the University Buildings, South Kensington, to 46, Russell Square, W.C.

Officers School of Instruction.—The School of Instruction for Officers was formed again for 100 officers in April, 1915, and was located for one month at South Harrow in buildings and grounds belonging to Mr. John Lewis, kindly lent by the owner. In May the School was transferred to a field adjoining University College Athletic Ground at Perivale, near Ealing, and places allotted to officers of the Territorial Force, four courses being held there in successive months, one for junior and three for senior officers. In October the School was removed to winter quarters at the Barracks, Hertford. The School was under the command of Lieut.-Col. D. S. Capper, assisted by Major A. R. Richardson, Lieut.

APPENDIX

J. B. K. Preedy, and two regular officers. From the outbreak of War to the end of 1915, eight monthly courses were held and more than 900 officers passed through the School.

1916.

Strength.—Officers on the strength on September 30th, 1916 :—H.Q., 2 ; Artillery, 1 ; Engineer, 2 ; Infantry, 8 ; Medical, 9 ; total, 22. During the training year ended September 30th, 1916, the number of individual cadets who were members of the several Units (cadets transferred from one Unit to another being counted for the Unit to which last transferred) was as follows :—Artillery, 231 ; Engineer, 249 ; Infantry, 1,003 (including 146 medical students who were temporarily enrolled in this Unit pending transfer to the Medical Unit) ; Medical, 594 ; total, 2,077. Of these cadets, the following proceeded to commissions during the training year or having resigned during that year obtained commissions before the end of 1916 :—Artillery, 163 ; Engineer, 107 ; Infantry, 256 (including 25 medical students) ; Medical, 101 ; total, 627. Of the cadets who did not proceed to commissions, the following were on the strength at the end of the training year :—Artillery, 0 ; Engineer, 66 ; Infantry, 315 (including 94 medical students) ; Medical, 360 ; total, 741. The remainder resigned during the year to proceed to Officer Cadet Units for further training for commissions, or to enlist, or for other reasons.

Training.—The training of the Artillery Unit was continued at Handel Street until March, 1916, when new arrangements for the training of Artillery officers took effect, and the Unit was temporarily disbanded. A letter dated March 9th, 1916, was received from the Army Council expressing their appreciation of the excellent work which had been carried out by the officers and staff of this Unit in training cadets for commissions since the commencement of hostilities.

The Engineer Unit was under training at South Kensington. In addition to the students of the various Engineering Colleges connected with the University who were enrolled, a considerable number of professional engineers who had returned to England from the Colonies or abroad were given preliminary training in the Unit at the request of the War Office.

The training of the Infantry Unit was carried on both at the Colleges of the University and under a system of continuous training at South Kensington. In July, 1916, an unofficial camp lasting a fortnight was held for the Engineer and Infantry Units in the Park of Chequers Court, Bucks, by kind permission of Col. Sir Arthur Lee. Strength—6 officers and 208 cadets.

The training of the Medical Unit was carried on under more normal conditions, and the Unit was encamped for its annual training during the summer vacation at the R.A.M.C. Training Centre at Codford, Salisbury Plain. Seven officers and 333 cadets attended the camp, and one officer and 28 cadets of the Cambridge University O.T.C. were attached. A camp was also held during the Easter vacation. Special examinations for Certificates A and B were held for cadets of this Unit in June and November, at which 23 cadets obtained Certificate A, and 9

APPENDIX

Certificate B. The Unit having attained its full strength (360 cadets), medical students in excess of the establishment were temporarily enrolled in the Infantry Unit pending transfer to the Medical Unit.

Command of the Contingent.—Upon the resignation of Lt.-Col. D. S. Capper as Chairman of the Military Education Committee and his relinquishing the command of the Contingent to take up other military duties, the Committee, on March 23rd, 1916, adopted the following Resolution :—“ That the Committee record their appreciation of the services rendered by Lt.-Col. Capper as Chairman of the Committee since its institution in 1908 and as senior officer of the University of London Officers Training Corps since its establishment in January, 1909, and as Commanding Officer of the Contingent since August 1st, 1912 ; and especially desire to recognise the work done by him during the strenuous period since War was declared, and to wish him success in his new military appointment.”

System of Granting Commissions.—The adoption of the Military Service Act early in the year naturally had an effect on the scope of the work of Senior Contingents of the Officers Training Corps. In February, 1916, the Army Council decided that commissions in the Cavalry, Royal Artillery, Royal Engineers, Infantry and Army Service Corps would, in general, only be given to :—(a) N.C.O's and men who had completed a recruit's course, or its equivalent, preference being given to those who had served with the Expeditionary Forces and who had been recommended by their Commanding Officers. (b) Cadets from the Senior or Junior Divisions of the Officers Training Corps who had attained the age of 18½ years and who were recommended by their Commanding Officers. Selected candidates were sent to an Officer Cadet Unit to undergo a course of training extending over a period of four months before being recommended for commissions. Cadets of the Officers Training Corps enlisted upon proceeding to an Officer Cadet Unit. The general effect of these new arrangements on the work of the Infantry Unit was that admission, with some exceptions, was restricted to students under the age of 18½ years. In addition, a limited number of candidates under 18½ years who had recently served in a junior Contingent, and were recommended by the Commanding Officer of the School Contingent as suitable were admitted as extra-mural cadets. Cadets of the Infantry Unit were recommended for admission to Officer Cadet Units between the ages of 18½ and 19 years, and were usually required, before being given a recommendation to go through a period of full-time training.

Under the Military Service Act, senior medical students were allowed to continue their medical studies with a view to qualifying, but it was decided by the Army Council that all medical students of military age who were exempted from active military service should enrol in their University Officers Training Corps.

Officers School of Instruction.—The School of Instruction for Officers was continued at Hertford during January and February, 1916, and completed its work at the end of February, 1916, at about the time when the new arrangements for the training of men for commissions came into operation. From the outbreak of War, ten monthly courses were held and more than 1,100 officers passed through the School. A donation

of £50 was sent to the Officers' Families Fund from the balance of the funds of the School.

1917.

Strength.—The number of officers on the strength on September 30th, 1917, was 22 :—Headquarters, 2 ; Engineer Unit, 3 ; Infantry Unit, 7 ; Medical Unit, 10. Of these officers, 4 were specially employed by the War Office or Admiralty for other duties.

During the training year ended September 30th, 1917, the number of individual cadets who were members of the several Units (cadets transferred from one Unit to another being counted for the Unit to which last transferred) was as follows :—Engineer, 220 ; Infantry, 561 (including 102 medical students who were temporarily enrolled in this Unit pending transfer to the Medical Unit) ; Medical, 502 ; total, 1,283. Of these cadets, the following proceeded to commissions during the training year or having resigned during that year obtained commissions before the end of 1917 :—Engineer, 133 ; Infantry, 207 (including 33 medical students) ; Medical, 143 ; total, 483. Of the cadets who did not proceed to commissions, the following were on the strength at the end of the training year :—Engineer, 40 ; Infantry, 188 (including 53 medical students) ; Medical, 317 ; total, 545. The remainder resigned during the year to proceed to Officer Cadet Units for further training for commissions, or to enlist, or for other reasons.

The decreases shown in the foregoing statistics for cadets under training, in relation to the corresponding statistics for the previous year, were due in part to the disbandment of the Artillery Unit but mainly to the reduction in the age for compulsory service in the Army from 19 to 18. A considerable number of boys who would in the ordinary way have become University students enlisted on attaining the age of 18 and were given military training in training reserve battalions.

Training.—The Engineer Unit continued its training at South Kensington. The training of the Infantry Unit was carried out for the most part at the O.T.C. Quarters at South Kensington. Under the system of continuous training there was an average number of about 100 cadets. Part-time training was provided for the remaining cadets. In August, 1917, an unofficial camp for the combatant Units was held in the Park of Chequers Court, Bucks, by kind permission of Colonel Sir Arthur Lee. Strength—7 officers, 150 cadets.

The Medical Unit carried out its Annual Training during the period July 21st—August 4th at Windmill Hill, Salisbury Plain. Strength—9 officers and 250 cadets. Medical cadets from the O.T.C. contingents of the Universities of Oxford, Manchester, Birmingham, Leeds, Sheffield and Bristol were attached for the training, bringing the total number attending camp up to 11 officers and 344 cadets.

Guard of Honour.—A Guard of Honour was mounted upon His Majesty the King upon the occasion of the opening of the School of Oriental Studies (London Institution) on February 22nd, 1917.

Letter from the King.—A copy of the Report of the Military Education Committee for 1916 having been submitted to the King, a letter from His Majesty's Private Secretary, dated February 28th, 1917, was received, conveying an expression of the gratification His Majesty felt " at the

fine record of services rendered by the University of London Officers Training Corps during the War, as is shown in the Report, which the King was interested to read"; and adding that His Majesty, as Colonel-in-Chief of the Officers Training Corps, "was pleased to notice the smart and soldierly bearing of the officers and men on parade when a Guard of Honour was furnished by the University of London contingent of this Corps at the recent opening of the School of Oriental Studies."

Gift of Portrait of the late Lieut.-Col. Arthur Egerton.—Early in 1917, the Hon. Lady Egerton presented to the University an oil portrait of her son, the late Lieut.-Col. Arthur Egerton, Coldstream Guards, first Adjutant of the University of London O.T.C. who was killed in action near Loos in September, 1915. The gift was gratefully accepted by the Senate on March 21st, 1917, and it was decided that, pending the establishment of permanent Headquarters for the Contingent, the portrait should be hung in the University building.

System of Granting Commissions.—In the first instance the age for compulsory service was 19 years, and cadets of the Senior Contingents continued their University studies until accepted for admission to an Officer Cadet Unit between the ages of 18½ and 19 years. The reduction of the age for compulsory service to 18 years early in 1917 brought about a further reduction in the age for the admission of cadets to the Contingents, and for their admission, after training in the O.T.C., to Officer Cadet Units. Admission to the Engineer and Infantry Units of the Contingent was restricted to students under the age of 17 years 9 months and to a limited number of extra-mural cadets who had within two months served in a Junior (or School) Contingent of the O.T.C. and were recommended by their Commanding Officer as suitable. In the case of candidates who had had adequate service in the Junior Division, the age limit for admission to the Contingent was raised to 18 years, or in exceptional cases, to a higher age.

At the age of 18 years (this being the age in force for compulsory service in the Army) suitable cadets were recommended for admission to Officer Cadet Units, and those not recommended were called to the Colours and discharged from the O.T.C. Admission to an Officer Cadet Unit was usually effected at the age of 18½ years. In order to be recommended for admission to an Officer Cadet Unit, a cadet was required to have completed before attaining the age of 18 a year's part-time training in the Contingent, or three months' full-time training immediately before attaining the age of 18. Between the ages of 18 and 18½, cadets who had been recommended for admission to Officer Cadet Units and whose applications had been approved by the War Office, were permitted to continue their training in the Officers Training Corps until posted to an Officer Cadet Unit.

As regards the position of medical students, a comprehensive Army Council Instruction (No. 2290 of 1916) was issued in December, 1916, which cancelled previous Instructions and defined the position of medical students under the Military Service Acts. Briefly, the provisions of this Instruction allowed all fourth and fifth year medical students to continue their medical studies and gave instructions for the

return to their medical schools of students in those years who were serving in the Army. Medical students in their first, second and third years were allowed to continue their studies if not passed fit for general service (Category A). It was made a proviso in all cases that these students should enrol in an O.T.C. This Instruction was modified by Army Council Instruction 341 of 1917, issued in February, 1917, by which all first, second and third year students under 31 years of age and placed in medical Category B1 were called up for service with the Colours. A further modification was introduced by Army Council Instruction 1785 of 1917, issued in September, 1917, which allowed third year medical students who had commenced their medical studies before August 1st, 1914, and were serving in the Army, to return to their schools.

1918.

Strength.—Officers on the strength on September 30th, 1918:—Head-quarters, 2 ; Engineer Unit, 2 ; Infantry Unit, 6 ; Medical Unit, 10 ; total, 20. Of these 4 were specially employed by the War Office or Admiralty for other duties.

During the training year ended September 30th, 1918, the number of individual cadets who were members of the several Units (cadets transferred from one Unit to another being counted for the Unit to which last transferred) was as follows:—Engineer, 162 ; Infantry, 305 ; Medical, 540 ; total, 1,007. Of these cadets, the following proceeded to commissions during the training year or having resigned during that year obtained commissions before the end of 1918:—Engineer, 49 ; Infantry, 62 ; Medical, 167 ; total, 278. Of the cadets who did not proceed to commissions, the following were on the strength at the end of the training year:—Engineer, 71 ; Infantry, 131 ; Medical, 318 ; total, 520. The remainder resigned during the year to proceed to Officer Cadet Units for further training for commissions, or to enlist, or for other reasons.

Training.—The Engineer Unit continued its training at South Kensington. A number of cadets completed their training for Officer Cadet Units with a six weeks' course in general field engineering at the R.E. School of Instruction, Esher, by special arrangement of the Commandant, Capt. E. O. Courtman.

The training of the Infantry Unit was carried out for the most part at the O.T.C. Quarters at South Kensington. Under the system of full-time training there was an average number of about 100 cadets. Part-time training was provided for the remaining cadets. In July, 1918, an unofficial camp for the combatant Units was held in the Park of Chequers Court, Bucks., by kind permission of Colonel Lord Lee. Strength—5 officers, 140 cadets.

Arrangements had been made for the Medical Unit to carry out its Annual Training at Tidworth, Salisbury Plain, during the period July 24th to August 7th, 1918, in conjunction with the medical units of the O.T.C. Contingent of other Universities. Within a few days of the date fixed for the commencement of the training, orders were received from the War Office cancelling the camp on account of the epidemic of influenza.

System of Granting Commissions.—On January 28th, 1918, a letter was addressed to the War Office by the Chairman on behalf of the Military Education Committee with reference to the regulations in force for the full-time training of cadets of the Senior Division of the Officers Training Corps. It was suggested that cadets should be permitted to continue their general University education, subject to a reasonable number of hours of military training. In reply, a letter, dated May 30th, 1918, was received granting a discretion as to the number of hours per week to be devoted to general education and military training respectively; and suggesting that the undergraduate should, in term time, get as much education as possible and, in vacations, should concentrate on military instruction.

Letter from the King.—A copy of the Report of the Military Education Committee for the year 1917 having been submitted to the King, His Majesty was pleased to send an assurance of the interest with which he had learnt that the University of London Contingent of the Officers Training Corps continued "to uphold the record of splendid services which it has rendered in the past."

Armistice.—At their first meeting following the Armistice, declared on November 11th, 1918, the Military Education Committee adopted a Resolution recording their thankfulness for the successful issue of the War, their high appreciation of the services rendered in the War by officers who had been trained in the University of London Officers Training Corps, and their deep sympathy with the relatives of the former officers and cadets who had fallen in the War and with those who had suffered from wounds or as prisoners of War.

A letter dated December 24th, 1918, was received from the Army Council addressed to the Vice-Chancellor referring to the ready help rendered by the University as a whole and by those members who had worked incessantly as officers of the Contingent, expressing the thanks of the Army Council to him as representing the University of London, and begging him to convey the appreciation of the Council to all those who had assisted in the work.

Strength on the date of the Armistice:—H.Q., 2 officers; Engineer Unit, 2 officers, 73 cadets; Infantry Unit, 5 officers, 173 cadets; Medical Unit, 12 officers, 314 cadets. Of these officers, 1 was specially employed by the Ministry of Munitions. Total, 21 officers, 560 cadets.

Total number of cadets enrolled from the establishment of the Contingent (7th Jan., 1909) to the Armistice (11th Nov., 1918) 6164 (of whom 2081 were first enrolled before the outbreak of War and 4083 during the War). 4218 rendered commissioned service in the War and 560 cadets were on the strength at the date of the Armistice.

War Trophies.—The War Trophies Committee allocated to the University a German Field Gun, the object of the gun being "to recall to future generations the part played by both officers and cadets of the Contingent in preparing candidates for commissions during the Great War." At a later date a German Heavy Gun and Carriage was presented by the War Office. Both trophies were accepted with thanks by the Senate, the first being placed in the quadrangle at South Kensington behind the University Building, and the second in the Standing Camp of the Contingent

at Great Kimble, acquired in 1919. The Naval War Trophies Committee allocated to the University of London Officers Training Corps an 88MM. German Gun and Mounting, obtained from ex-German Submarine U.B. 42, which was also placed in the Standing Camp at Great Kimble. The Air Ministry presented as War Trophies an Aero-plane Engine, an Altimeter, and a Compass, surrendered by Germany under the terms of the Peace Treaty.

War Memorial.—In December, 1919, the Senate gave their sanction to the issue of an Appeal for funds for establishing a War Memorial to the past members of the University of London Officers Training Corps who had fallen in the War and to commemorate the War Service of past and present members of the Contingent, and authorised the appointment of an Appeal Committee which was constituted early in 1920. The Chancellor of the University (Colonel the Earl of Rosebery) and the Chairman of the Military Education Committee (Major Sir Edward Busk) accepted the offices of President and Vice-President of this Committee. The Honorary Secretaries were the two survivors of the five former cadets who obtained the Victoria Cross during the War—Major B. M. Cloutman, V.C., M.C., and Brevet-Major A. C. T. White, V.C., M.C.; Hon. Treasurer, Capt. T. Ll. Humberstone. In addition to representatives of the University, appointment to the Committee was accepted by a number of distinguished members, both military and civil, including Field-Marsals F. Foch, Lord French and Sir Henry Wilson. The Appeal proposed the provision of a suitable memorial in London of a purely commemorative character; and as supplementing this memorial it was suggested that a permanent hall might be provided for the Standing Camp of the Contingent at Great Kimble, near Princes Risborough, which should include a personal memorial to the late Lt.-Col. Arthur Egerton, Coldstream Guards, first Adjutant of the University of London O.T.C. (1909-13). The Appeal was issued in March, 1920, to past and present officers and cadets of the University of London O.T.C. and their friends, to students, graduates, teachers and officers of the University, to its Colleges, Schools and Institutions, to all who had been associated with members of the Contingent in their work for the War, and to others desiring to assist in establishing the memorial and in improving the facilities for military training within the University of London.
