

Table 7.4. Summary of recommendations on when to start ART in children

Age	When you start
Infants (<1 year)	Treat all individuals
1 year to less than 5 years	Treat all individuals (children ≤ 2 years or with WHO stage 3 or 4 or CD4 count ≤ 750 cells/mm ³ or <25% as a priority)
5 years and above	WHO stage 3 or 4 Or CD4 ≤ 500 cells/mm ³ (CD4 ≤ 350 cells/mm ³ as a priority)
