

This dictionary was compiled and sorted using Luca Brigatti's HIEROWORD program <http://home.comcast.net/~thot/>

It is arranged by Gardiner sign number (A1 - A2 - A3 etc...) and not by the more traditional transliteration order.

Using this method means not having to remember all the different transliterations for each sign

e.g.  Z9 which is used as a first glyph for these transliterations.

wp / wḥm / m^cb3 / ḥsb / ḥḏ / ḥbi / ḥbsw / sw3 / sḏ / šbn / ḏwyw

Use the 'Search' function of the .pdf to search for :- word meanings / MDc / Gardiner glyphs No's.

Several signs look similar in printed material so check alternative signs if you cannot find the one you're looking for

Best viewed at 150%, otherwise some glyphs do not show correctly.

Any mistakes or additions please let me know.
