## Cover Photograph

Alexandria Township School District

The Alexandria Township School District consists of two schools in northwest Hunterdon County. The Middle School houses grades 4-8. The Lester D. Wilson Elementary School houses grades PK-3. Both schools in the district are administered by full-time principals who work collaboratively with the superintendent to manage district areas such as curriculum development, instructional improvement, and professional development programs. The curriculum is rich with a variety of special activities such as computers, art, dance, music, foreign language, and theatre arts. In addition, the school district offers comprehensive extracurricular activities and programs. Citizen participation is at an award-winning level. The PTA offers all children and staff many enrichment assemblies, and other activities that supplement their social, emotional, and academic development. The Education Foundation provides all teachers with the opportunity to include creative and inspirational academic enrichment activities throughout their classrooms.

## **OVERVIEW OF EDUCATIONAL STATISTICS IN HUNTERDON COUNTY**

The Hunterdon County Office of the New Jersey State Department of Education functions as a State-County coordinating agency charged with responsible educational leadership in the county.

The County (437 square miles - 26 municipalities - 128,349 population per 2010 census) has 27 school districts (3 regional high school districts, 1 K-12 regional school district, 1 vocational school, 1 alternative school, 1 regional elementary district, and 20 elementary districts) with approximately 20,004 pupils.

The 27 school districts include 50 school buildings and employ approximately 3,400 full instructional, supervisory and administrative positions. Local school budgets prepared for the 2016-2017 school year total \$442,218,891.

All school districts continuously engage in curriculum improvement and professional learning for staff. With offerings in alternative and special needs education, adult education, new courses and methodologies in the general curriculum, facility planning, and vocational-technical education, the programs and practices are regularly reviewed and revised to align with 21st century learning goals and improved student outcomes.

A map locating the Hunterdon County regional high school districts and their constituent elementary school districts can be found on the inside back cover of this directory.
