Here is your copy of the "Description of Touring Routes in New York State for the Interstate (I), Federal (US) and State (NY) Route Number Systems". It is issued to you because of your concern with this subject. Periodic update sheets will be furnished as changes in the systems are made and they will be distributed in the same manner as this copy.

The following systems changes are made in this issue and are effective January 1, 1970, except as noted below:

** I-88 is a new interstate route between I-81 near Binghamton and US 4 in Troy following the alignment of the Susquehanna Expressway and Alternate Route 7.

NY 401 is a new number assigned to the Genesee Expressway.

NY 417 is a new number assigned to replace former NY 17 between Steamburg and Salamanca.

NY 434 is a new number assigned to replace former NY 17 between the Broome-Tioga County line and NY 26 in Vestal.

NY 437 is a new number assigned to connect Routes NY 38 and 38A south of Auburn.

It is expected that the above changes will be reflected in future editions of road maps and the necessary sign changes will be made as expeditiously as possible where the changes affect highways now opened to traffic. Some of the numbers have been assigned to highways to be built in the future.

Sincerely yours,
