-  Pedestrian crossing

A Station car park

Passengers will be able to park within 400m of the station's entrance. A 500-bay car park will be accessible via Central Avenue or Second Street and will be managed by Transperth.

B Station entry points

Passengers will enter Redcliffe Station at concourse level, before passing through the SmartRider fare gates and travelling down to platform level to meet the trains. Passengers can enter via the northern or southern side of the station.

C Vertical transport

Stairs, escalators and lifts will help transport passengers from concourse to platform level.

D Station artwork

Artwork themed 'growth and memories' referencing both the contemporary and early agricultural history of the local community will be depicted throughout the station.
