CHART CHAT

In this weekly column we'll be giving background information on our various charts and its artists. We'll explain more about our calculation systems, keep you informed about the Chart Committee meetings and last but not least follow the artists through Europe.

During the last few weeks we have received a great number of compliments about our charts and the way of calculating them. We thank all of those who have reacted, it was a much appreciated "moral booster" in our difficult first few weeks.

CHART COMMITTEE

A number of International experts both from the statistical as well as the systems-side have agreed to participate in the Chart Committee. We hope to bring them together soon to discuss the charts and to find ways of further improvement. The Committee will overlook e.g.:

- ☆ Which Charts are used for each country.
- ☆ The sales percentages used for the calculations of the singles and albums Top 100 separately.
- ☆ Evaluation of the curves between number 1 and number 100 positions.
- ☆ Other ways to further improve the calculations.

Of course we'll keep you informed about their findings in Eurotipsheet.

U.K. VERSUS GERMANY AND FRANCE

Various of you have asked why a single, only appearing in the U.K. charts reaches a higher position in the European Top 100 than a similarly positioned single in Germany or France. Let us first reply to the situation U.K. versus Germany. It is a known fact that total singles sales in the U.K. are quite a bit higher than those of Germany (reversed picture for albums) and therefore (as an example) a number 14 in the U.K. reaches a higher European position than the similar number 14 in Germany. This in spite of the fact that sometimes a particular hit can sell as many copies in Germany as in the U.K.

The situation between U.K. versus France is a different one. In France there is not one dominating Chart which is accepted by the whole industry. We are therefore using 6 different ones to calculate the French entries. The Top 15 of an individual French chart can be almost entirely different from another French chart and since we have to divide the total percentage which is attributed to France (the multiplying factor) between the 6 French charts used by Eurotipsheet it only seems like France doesn't get an equal chance.

Together with the Chart Committee we'll keep a close eye on this picture and improve it where we can.

COMPILATION ALBUMS OUT.

Within a few weeks we'll no longer show Compilation-Albums in the Album Top 100, but will make a separate Compilation Top 15 to be used once each month.

SOUNDTRACKS SUPER SINGLES

Soundtracks continue to bring many 'European Hits' with the Footloose trio doing well in many territories. **Kenny Loggins - Shalamar and Bonnie Tyler** pave the way for a very successful movie. Another movie is being launched much earlier in some European countries than originally foreseen by the film distributors due to the overwhelming success of its theme-song. We speak of **Phil Collins' International hit "Against All Odds"**. Also please watch out for the beautiful title-tune from the t.v.series **Reilly** doing so well in Holland.

OLD HEROES NEVER DIE

Pages of paper have been written about the indeed incredible International sales for **Michael Jackson' Thriller**. There also has been plenty of attention for the breakthrough of **Paul Young and Nena**, fresh superstars for the next decade. But don't knock the "old" heroes. **YES** has come back with an album that charted in all 17 countries. **Van Halen** almost jumps to that same level. **Genesis** has its best sold European album ever and that's without touring Europe this year. While **Queen** makes a very strong comeback with their "Works".

TURNTABLE TIPS

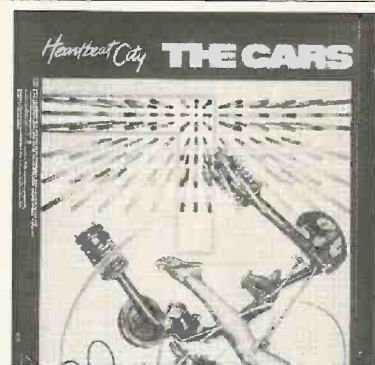

Marillion - Fugazi- EMI

Their second album produced by Nick Tauber (Toyah etc.). The album is a cocktail of good symphonic rock, seasoned with hardrock influences. All pieces composed by the band as a whole. The outstanding lyrics are energetically sung by Mr. Fish who is embedded in a wall of aggressive orchestrations and Eastern atmospheres. Strong tracks: Punch & Jucy (single), Incubus.

Carmel - The Drum Is Everything- London

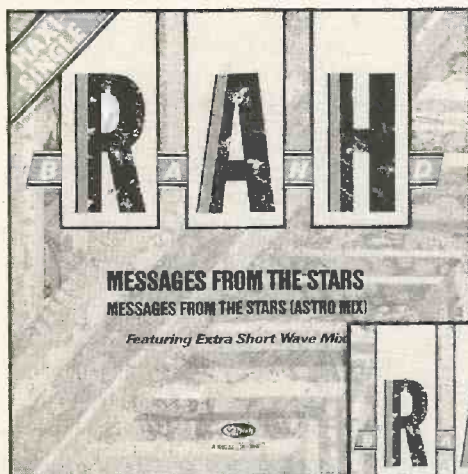

An album unique in it's mixture of different styles blues, jazz, swing (Peggy Leet) and even gospel. Although the roots are unmistakable, the own identity remains a very strong factor throughout all the songs. The experimental use of the percussion lifts all the material up and makes it quite hard to categorise. And...what a voice! Strong tracks: Bad Day, Tracks Of My Tears, More More More.

The Cars - Heartbeat City- Elektra

After a silence of 3 years the band is back with a very powerful collection of strong catchy popsongs. The sound hasn't changed that much over the years, still those easy recognisable medium tempo songs flavoured with the typical undercooled voice of Ocasek. Most of the tracks are easy programmable for radio. Stand out tracks are: It's Not The Night, You Might Think and Why Can't I Have You.

ABOUT THE CHARTS.....

[H919]

THE EUROPEAN TOP 100 (SINGLES/ ALBUMS):

[F54]

In many European countries one chart is recognised by the music industry as the "OFFICIAL" hitparade and is therefore used for the compilation of the EUROPEAN TOP100. However there are other countries where various charts are in existence and often equally important. For these countries we have compiled a number of these charts into one representing the sales in that market. Each chart position for every country then receives, relevant to that position, an equal points rating which is in turn multiplied by a factor determined through the latest known sales percentage of total singles (or album) sales which that country holds in relation to the rest of Europe. There are different percentages for singles and albums. These figures are kindly provided on a regular basis by the industry-organisations such as IFPI - BPI - GALLUP - DEUTSCHE PHONOVERBAND etc.

[F56]

A EUROPEAN CHART-COMMITTEE,
WITH EXPERTS FROM A NUMBER OF
THESE INDUSTRY- ORGANISATIONS
WILL OVERLOOK THE CALCULATION
SYSTEM AND WILL DECIDE ON
IMPROVEMENTS, CHANGES AND
UPDATES.

[F54] etc

For the EUROPEAN TOP 100 SINGLES,
25 charts are used from 16 countries.
For the EUROPEAN TOP 100 ALBUMS,
20 charts are used from 15 countries.
Since the sales percentages of a few
countries are too small to get their hits
into the EUROPEAN TOP 100 (provided
these records are not charted in any
other territory), we are also printing a TOP
3 IN EUROPE list each week.
Labels shown are the 'original' labels as
known by EUROTIPSHEET or the labels
owning rights for Europe.

ATTENTION CORRESPONDENTS :
Please Keep On Sending Your Blue Forms!!

Publishers shown are the 'original' publishers as known by EUROTIPSHEET or the publishers owning rights for all of Europe. In the near future there will also be special marks on both charts for sales of over 1, 2, or 3 million copies. Special Nr. 1 Awards are available for singles and albums reaching the nr. 1 position on the charts.

THE EUROPEAN AIRPLAY TOP 60:

This Airplay list is compiled through all our correspondents tips received this week. (*) Records of the week receive extra points. The airplay lists of the airplay report organisations within some of the European countries are also used in the calculations, as well as playlists of major radio stations.

(*)Please note that not all received tips appear in EUROTIPSHEET but they are all used for the calculation of the Airplay Top 60.

THE EUROCLIPS LIST:

This shows the music-videos most aired on television throughout Europe in the week prior to publication. It includes video-t.v. programs and other t.v. shows partly using video's from 14 European countries. For more detailed information on any of the chart-systems please contact our Chart department.

HOT news

☆Hi, First of all my apologies for the misprints and incorrect spelling (Let's call it Beginners Luck!) Alright, here we go ☆ BRUCE FOXTON (ex JAM Bassist) released a single april the 6th, and is all set to play his first solo tour in may. He'll be releasing a new single next month, titled It Makes Me Wonder. His debut LP may 4th, although it's still untitled ☆ The MICHAEL SCHENKER GROUP is due to release a new live Album on may 11th, entitled Rock Will Never Die. That's a statement I can totally agree with!! The videocassette is due for release in the near future, the album was recorded at London's Hammersmith Odeon in november of last year. Containing material drawn from the entire MSG Back catalogue, the release will be at mid. price (equiv. to the UK price of £3.99). They will be on the road touring later on this year ☆ As for MATT FREITON, he's not touring but releasing a 7" and 12" single on april 20th, It's All Over ☆ Not for icehouse though, because they will have a new single on the market on april 27th Taking This Town. The Album is scheduled for release may 4th - Sidewalk - ICEHOUSE itself is definitely not on a sidewalk, as they tour later on.
☆ Also on the 27th april, comes a single release from the BOOMTOWN RATS: Drag Me Down. BOB GELDORF is currently filming a feature film: Number One, in which he plays the main character, a young man who becomes a snooker champion. (Now we know how BOB spends his sundays!!). The BOOMTOWN RATS appear at several European summer festivals, details will be announced shortly ☆ JODY WATLEY, who until recently was with SHALAMAR, signed up with Phonogram. We have to wait a bit before her new material is released ☆ TINA TURNER has recorded a song written by MARK KNOPFLER of DIRE STRAITS.
