Air Traffic Report

Air transport information and slot coordination division

Forward

Airports of Thailand Public Company Limited or AOT operates 6 airports which are Suvarnabhumi Airport, Don Mueang International Airport, Phuket International Airport, Chiang Mai International Airport, Hat Yai International Airport and Mae Fah Luang –Chiang Rai International Airport.

Suvarnabhumi Airport and Don Mueang International Airport still were main airports which served 73.0% and 74.6% of AOT's aircraft movement and passenger number.

During uncertain global economy, Suvarnabhumi Airport earned the highest growth rate in 2019 of both aircraft movement and passenger number, with 2.9% and 3.2% respectively. Chiang Mai International Airport was the second with aircraft movement growth of 1.7% and passenger growth of 3.1%.

Despite decreasing of Chinese tourists, Low cost carriers helped boost international travel throughout the year especially in Indian market. This is the new opportunities for Thailand's aviation industry and AOT to develop new demand during difficult time.

Summary Report

AOT AIRPORTS TRAFFIC 2019

In the year 2019, air traffics showed slow pace in aircraft movements and passenger volume, while air cargo declined. Airlines continued to switch from domestic to international operation, especially to China and India. As a result, the aircraft movements and passenger volume slightly

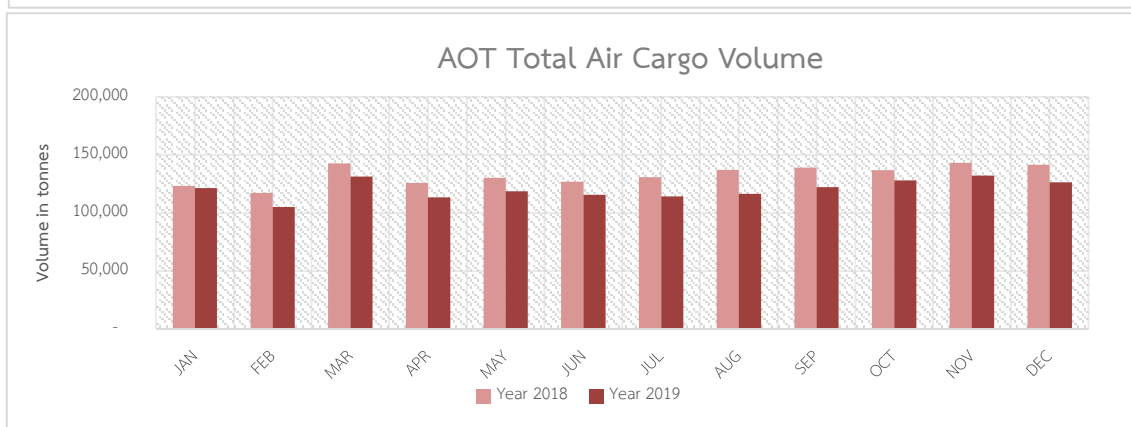

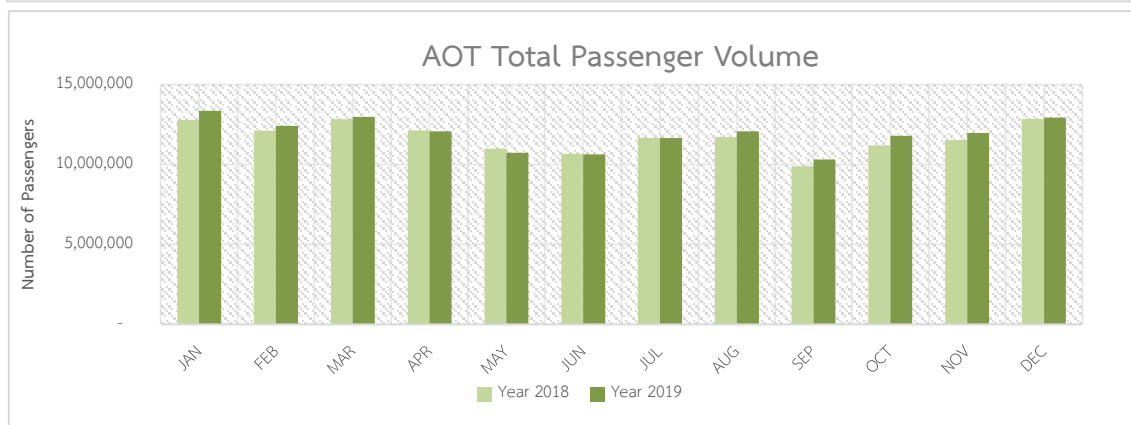

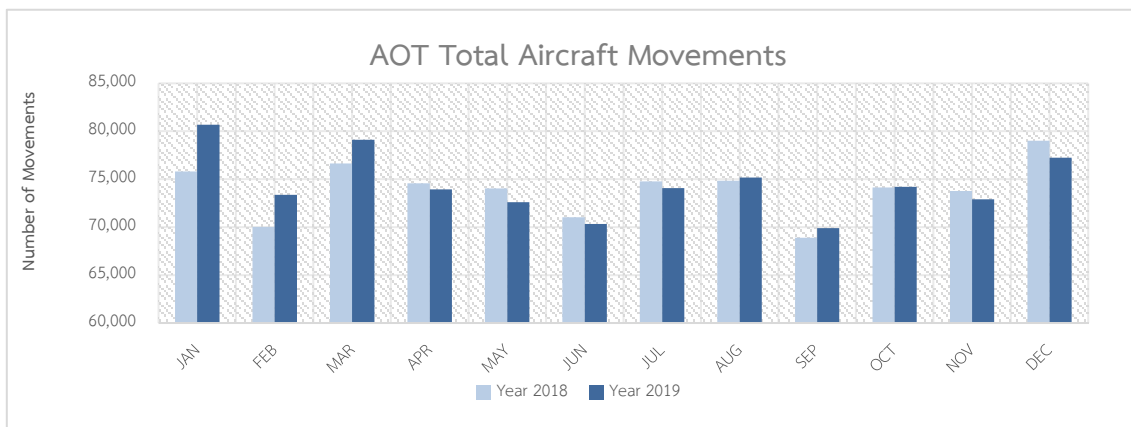

increased by 0.67% and 1.81%, whereas air cargo dropped by 11.76%. Aircraft movements increased from 887,602 to 893,522 flights. Number of passengers increased from 140.47 to 143.02 million, while freight and mail volume declined from 1.64 to 1.44 million tons.

Airports	International	%Change	Domestic	%Change	Total	%Change

SEASONAL AIR TRAFFIC DEMAND

As a tourism country, Thailand has high travel demand from October to late February or early March, which the climate is suited for travel in and out of country.

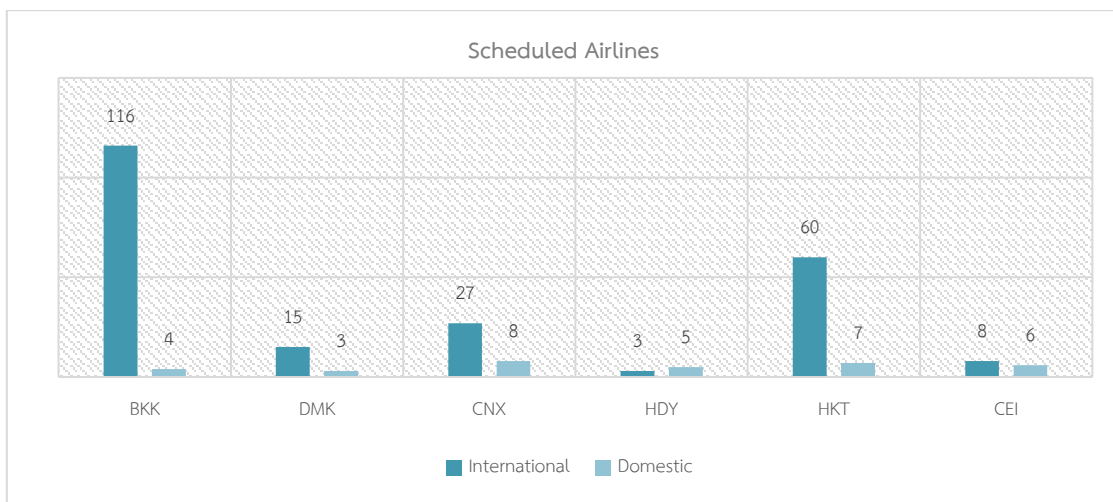

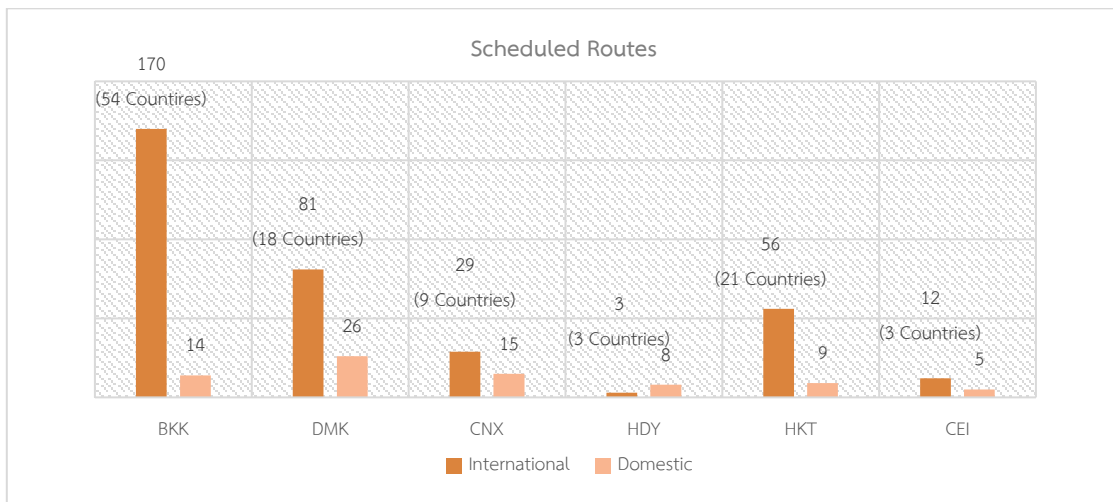

However, from April to October, the average weather is higher than 35°C and occasional rainstorm, which travelers tend to be lower during this period.

NUMBER OF ROUTES AND AIRLINES

In 2019, AOT served around 188 international scheduled destinations from 54 countries, and 32 domestic scheduled destinations. From those international flights, 93% were from Asia Pacific region.

AOT also accommodated a total of 142 scheduled airlines, which 17 of those airlines operated as freighters. There were 8 local airlines in 2019, 4 airlines were low cost carriers.

Airport	Newcomer	Suspended
BKK	<ol style="list-style-type: none"> 1. Guangxi Beibu Airlines 2. Go Airlines 3. Hong Kong Express Airways 4. YTO Cargo Airlines 5. Cambodia Airways 6. My Jet Express Airlines 7. Raya Airways 8. Tata Sia Airlines 	<ol style="list-style-type: none"> 1. Asia Atlantic 2. Flydubai

CEI	<ol style="list-style-type: none"> 1. Shenzhen Donghai Airlines 	<ol style="list-style-type: none"> 1. Beijing Capital Airlines

The previous table showed list of newcomers and suspended airlines. From table, some of newcomers were from other market outside China. This could imply that airlines tried to expand the market or

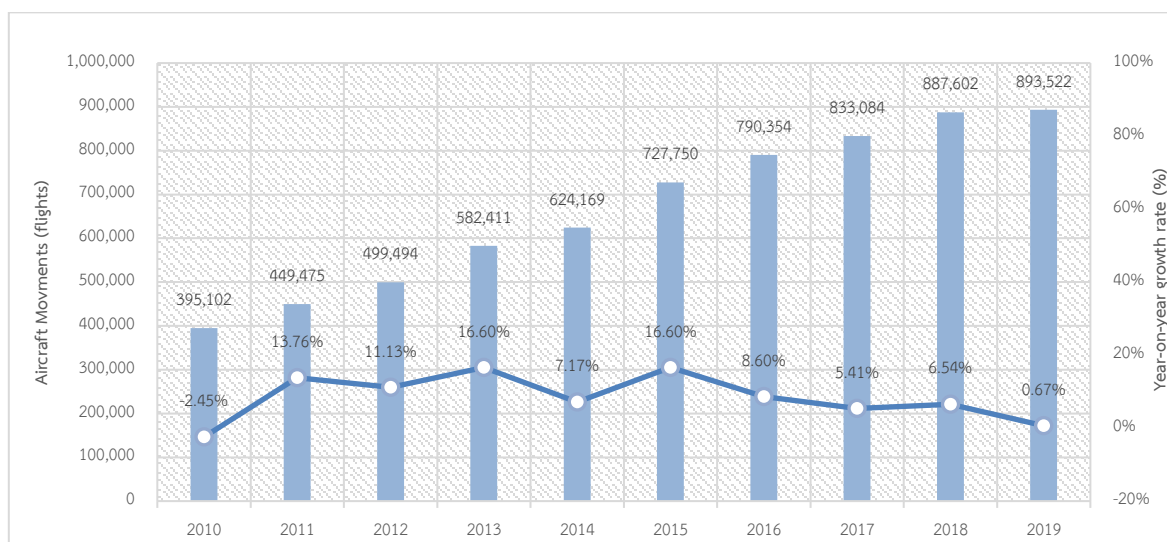

Chinese market almost reached its peak. On the other hand, several Chinese airlines suspended its operation in 2019 due to high competition in this market or able to find better productivity routes.

COMMERCIAL AIRCRAFT MOVEMENTS

In 2019, AOT’s airports reported the total of 498,870 international and 394,652 domestic commercial aircraft movements. The international flight increased by a 6.11% while domestic flight dropped by

5.47% when compared with the last year. The total of 893,522 flight of 2019 increased from 2018 by 0.67% and registered a 9.49% compound average annual growth over the past 10 years.

AOT’s commercial aircraft movements 2010-2019

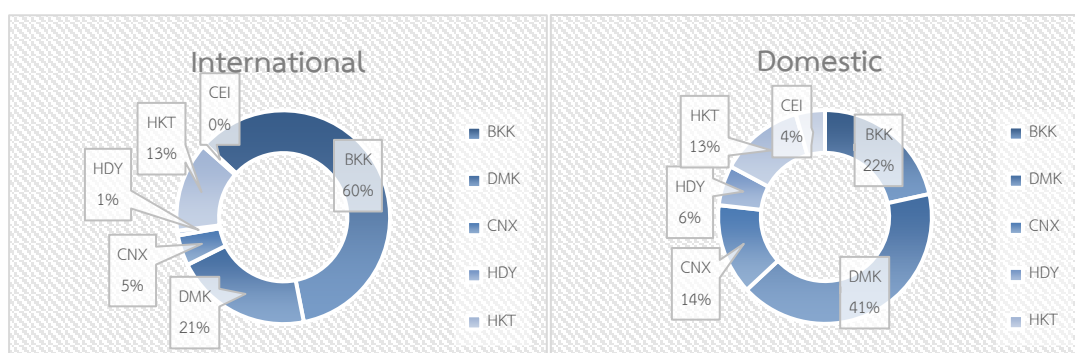

PROPORTION BETWEEN AOT AIRPORTS

The proportion between international and domestic flights were 56 to 44. Most international flights were served by Suvarnabhumi Airport with more than 60% of total international flights in 2019.

Notwithstanding this, most domestic flight was accommodated by Don Mueang International Airport, which are home of most local low cost airlines, and the rest were scattered among regional airports.

AOT’s commercial aircraft movement proportions

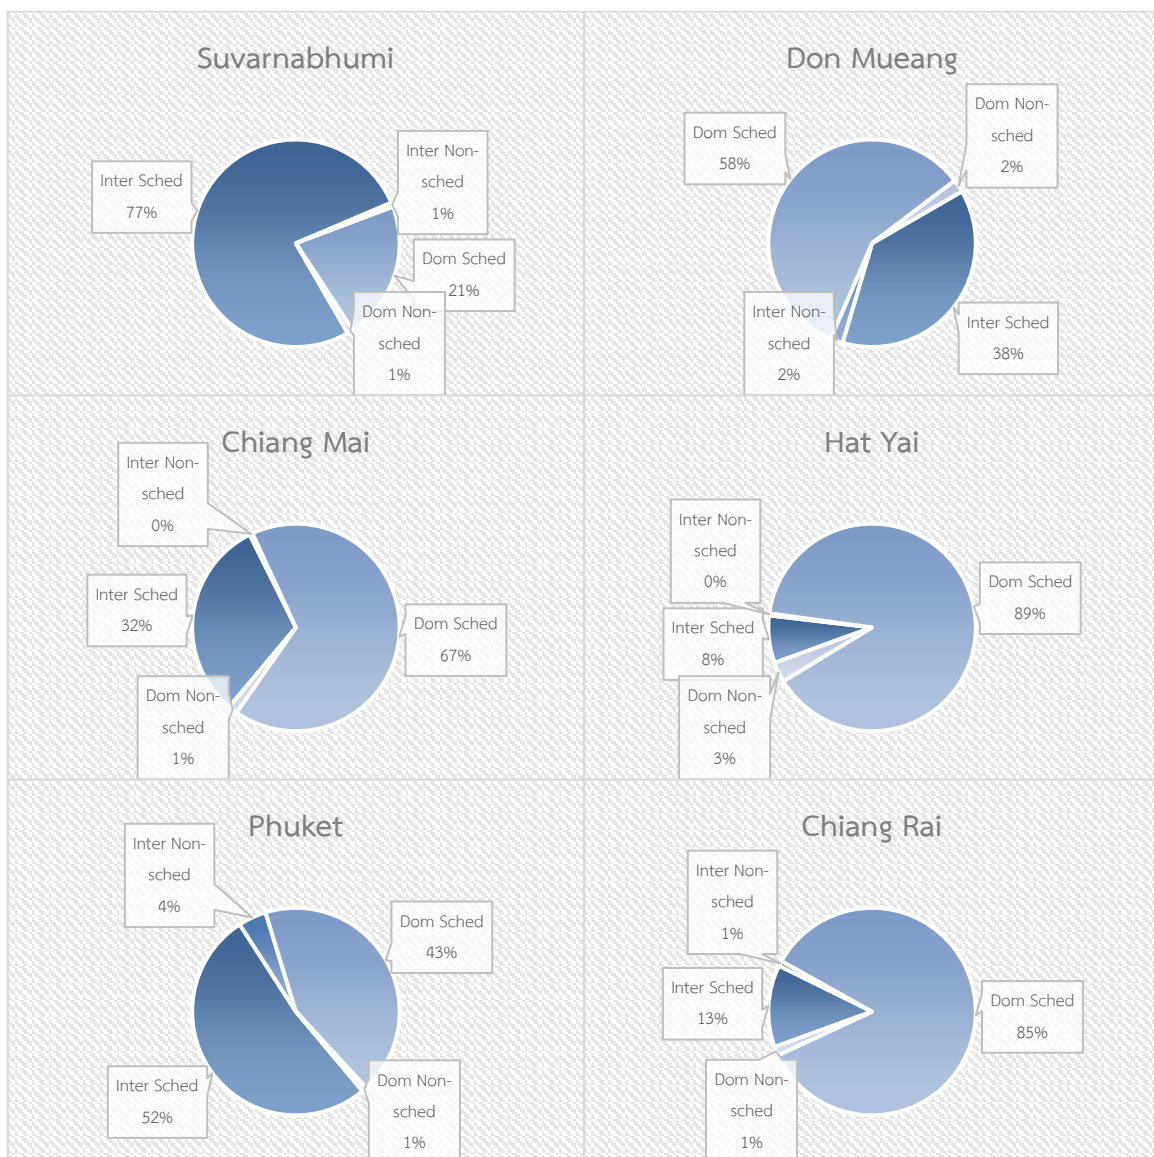

SCHEDULED AND NON-SCHEDULED OPERATIONS

For civil aviation, the type of operation can be generally categorized into international, domestic, which each one consisted of scheduled and non-scheduled. As number of aircraft movements almost reached full capacity of runway, the available slots for

non-scheduled operation tended to be lower because most slots already allocated to scheduled services. Local airlines also switched domestic slot for international flight since international flight normally generated greater yield than domestic.

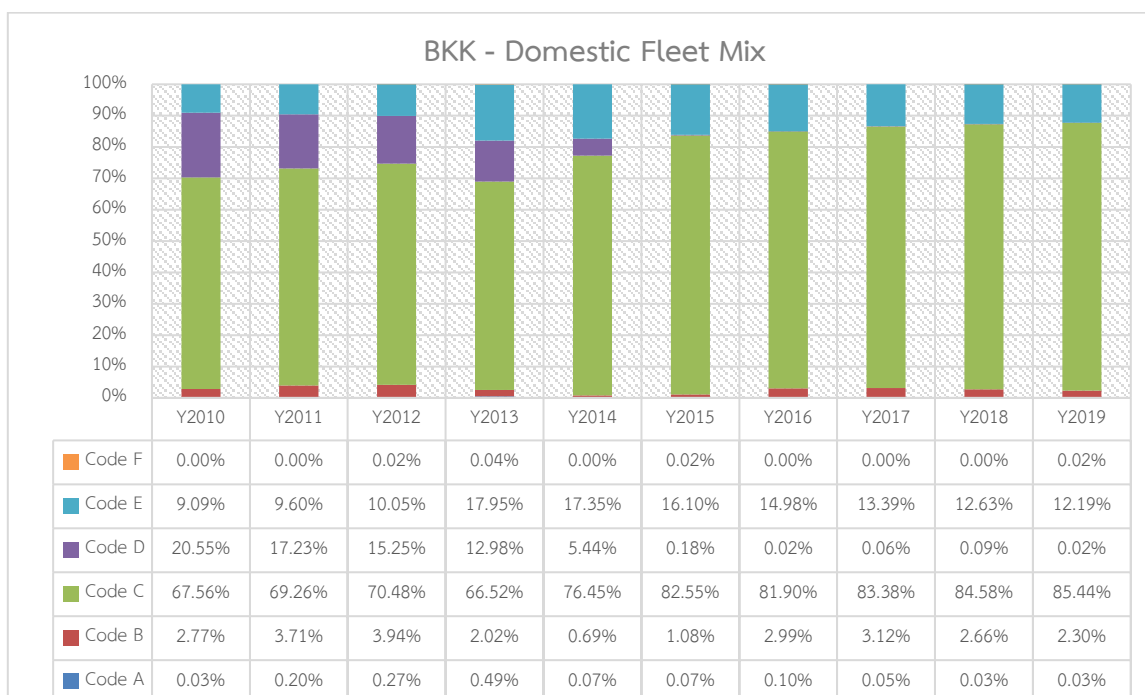

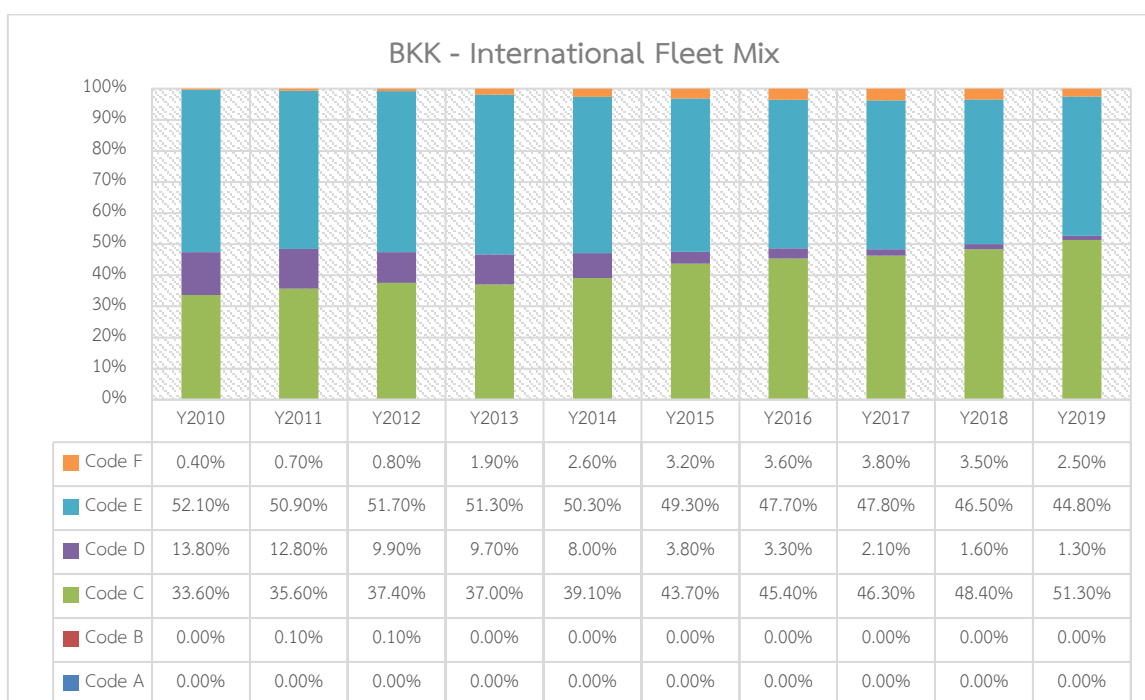

Proportion between International, domestic, scheduled and non-scheduled flights

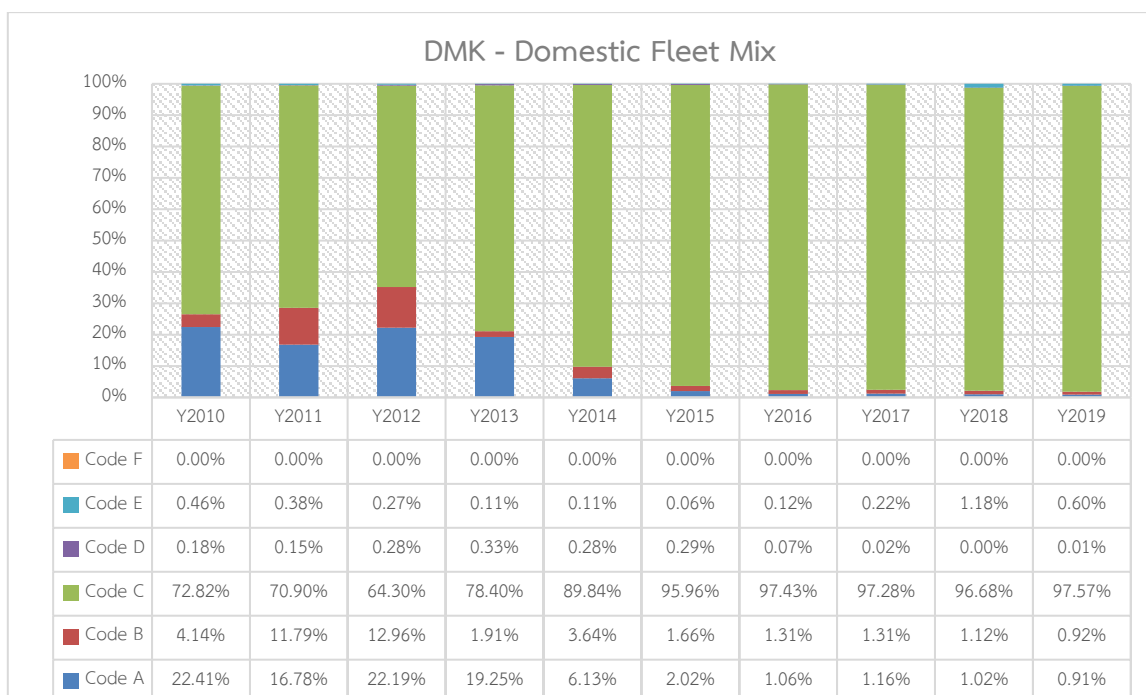

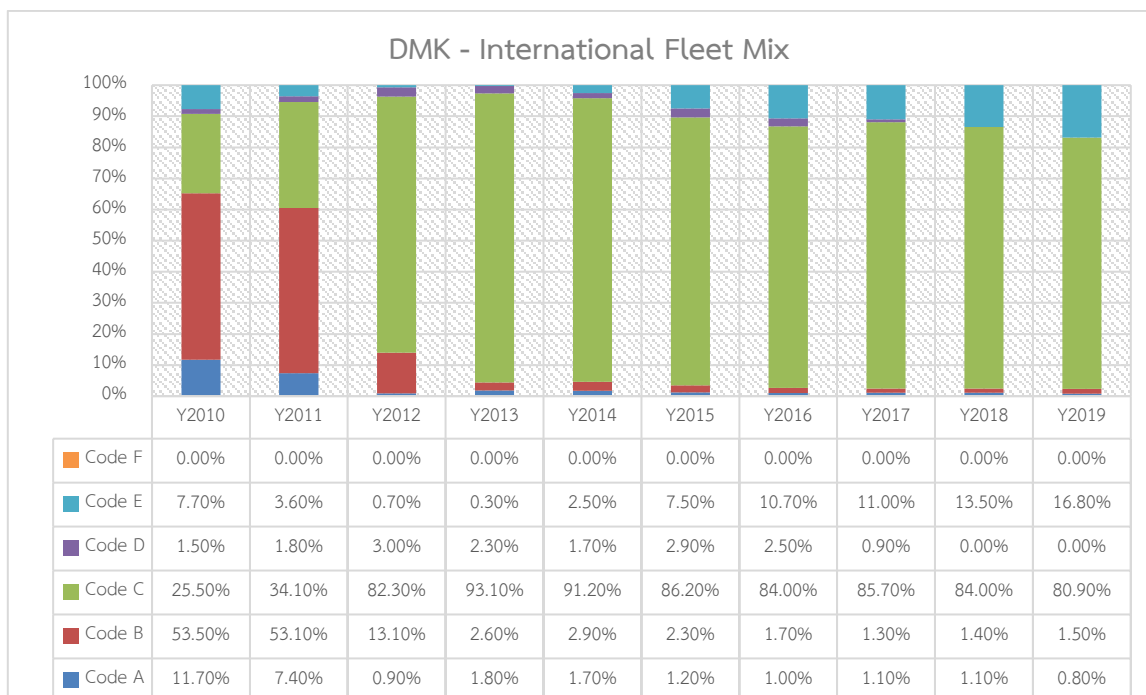

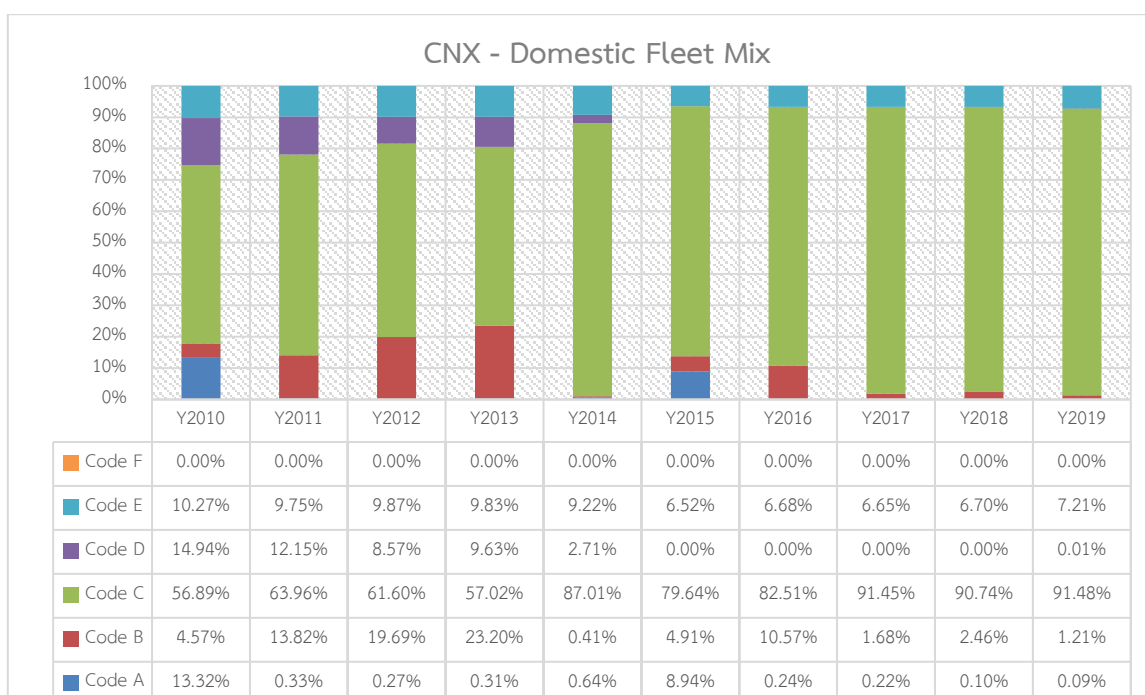

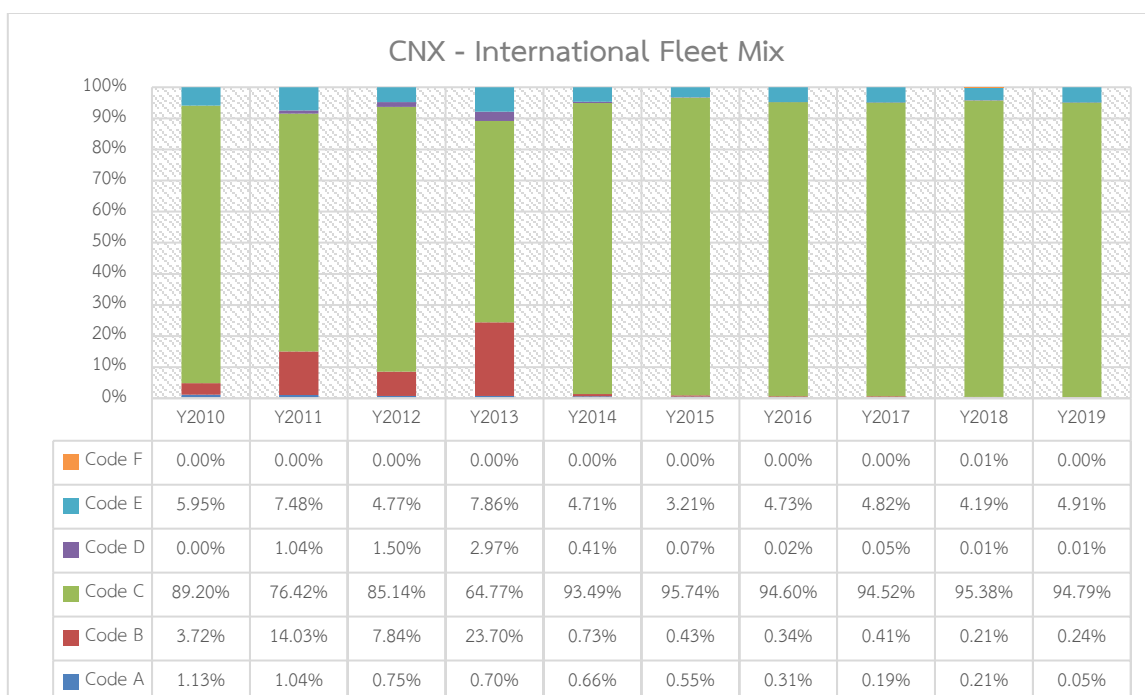

FLEET MIX

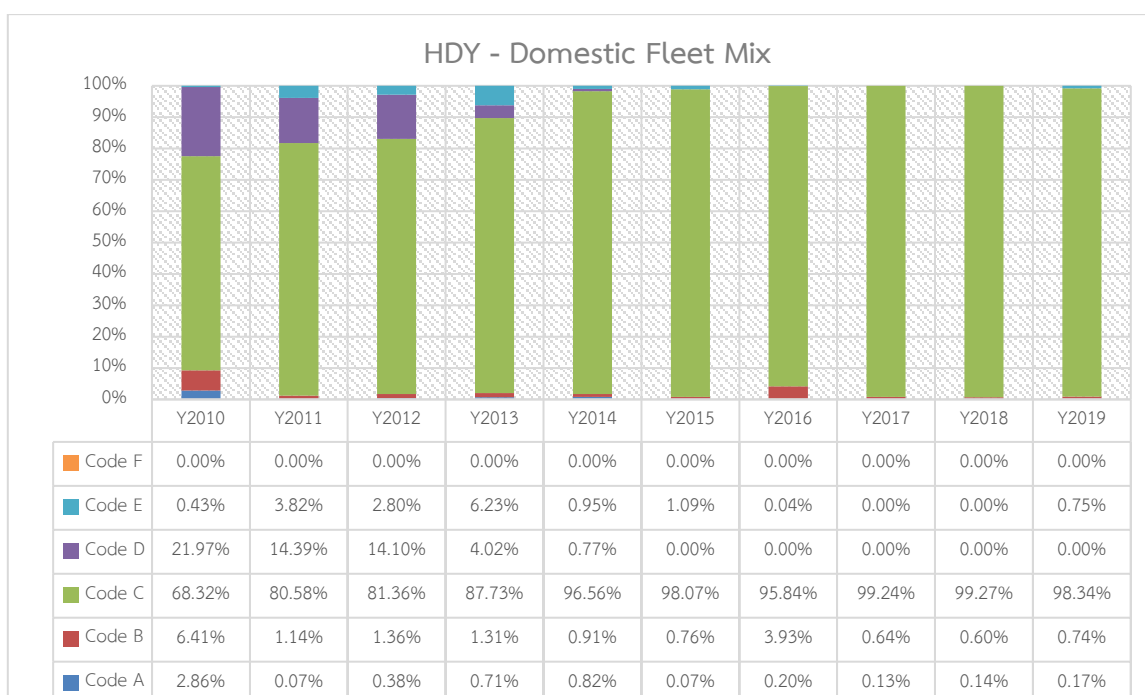

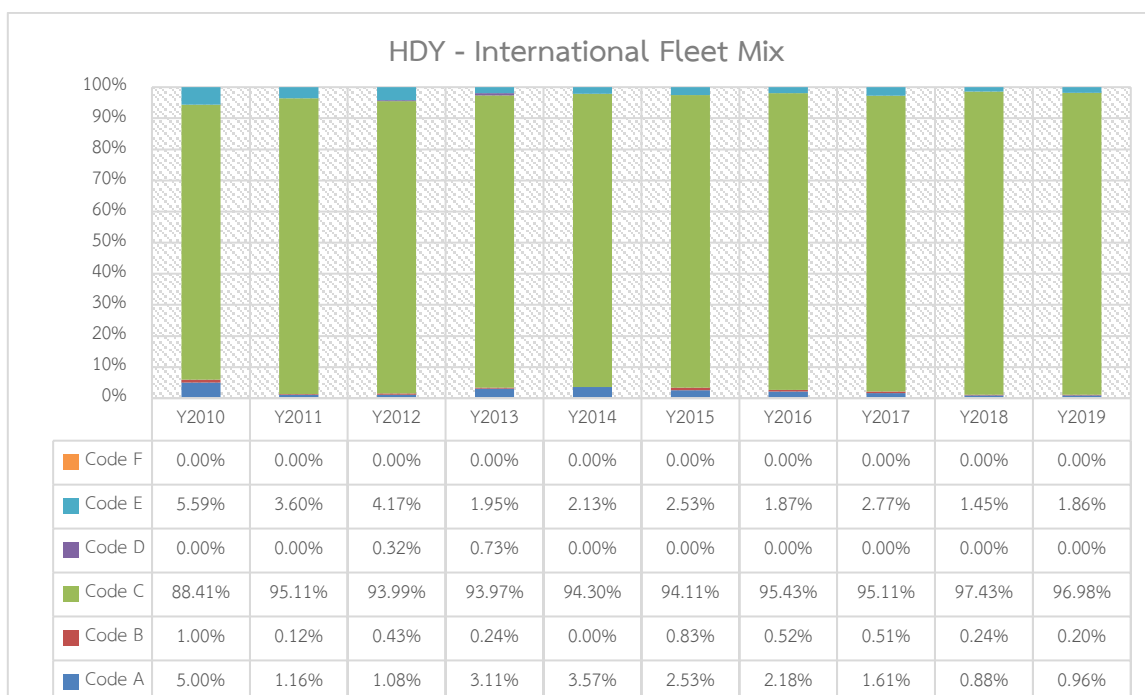

Aircraft mix classified by ICAO Aerodrome Reference Code indicates categories of aircraft to be accommodated at an airport. Generally, codes A to F are categorized by the range of an airplane wingspan and

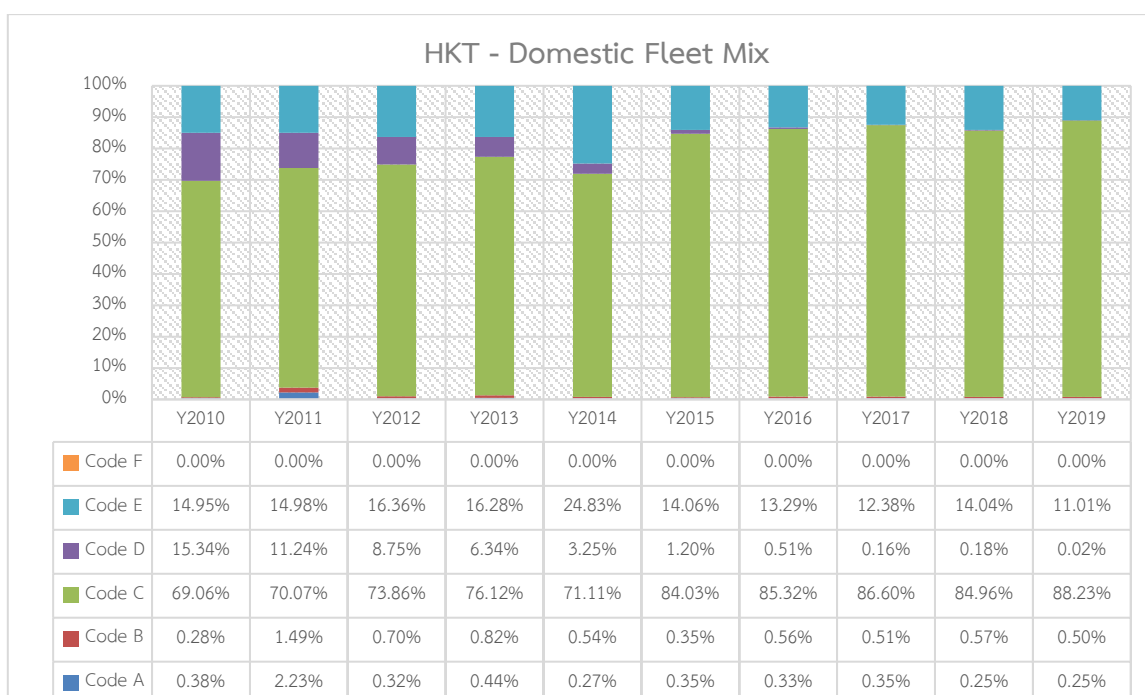

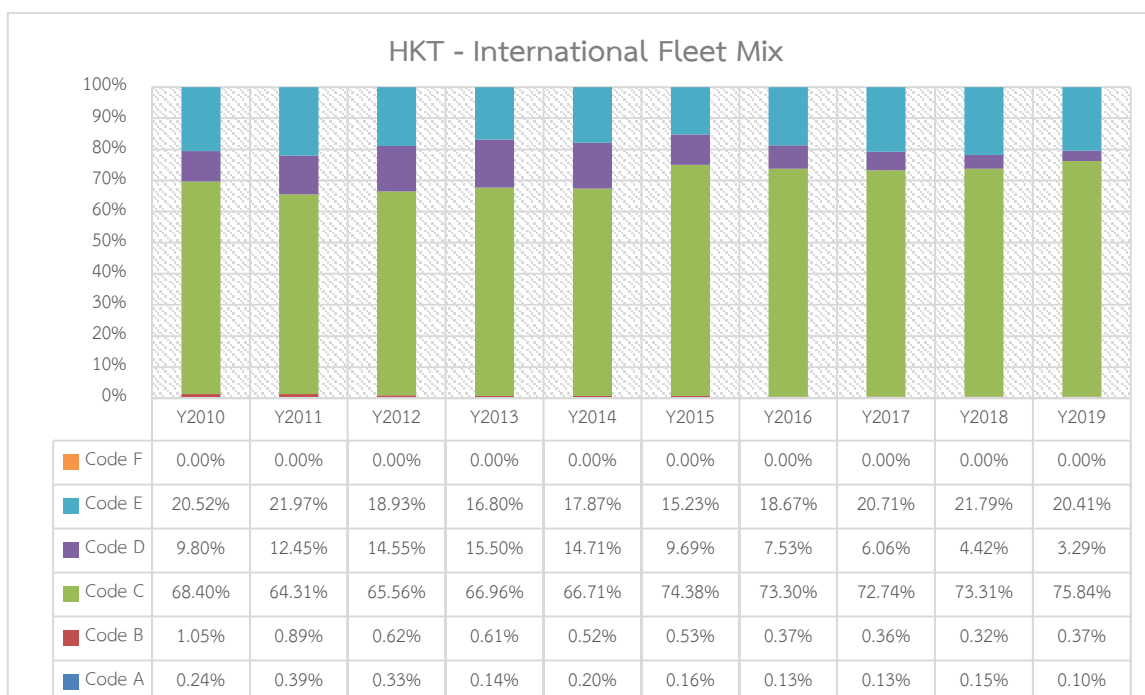

outer main gear wheel span. Generally, airlines tended to prefer code C for short-haul international and domestic flight, and either code E or F for long-haul or high demand domestic flights.

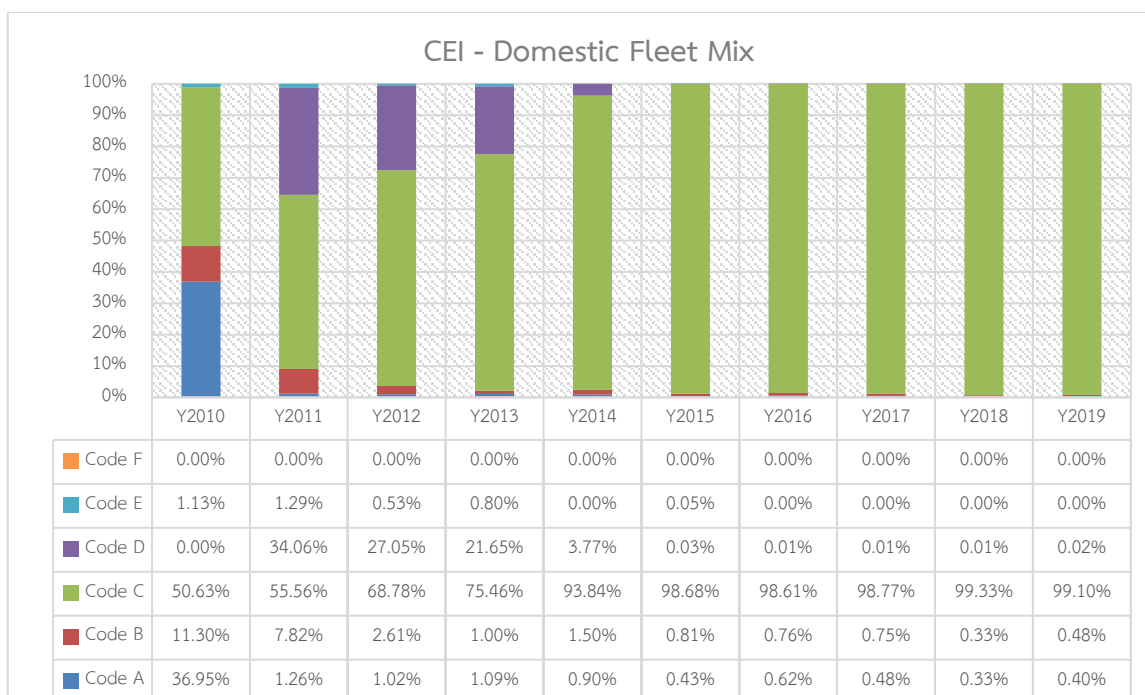

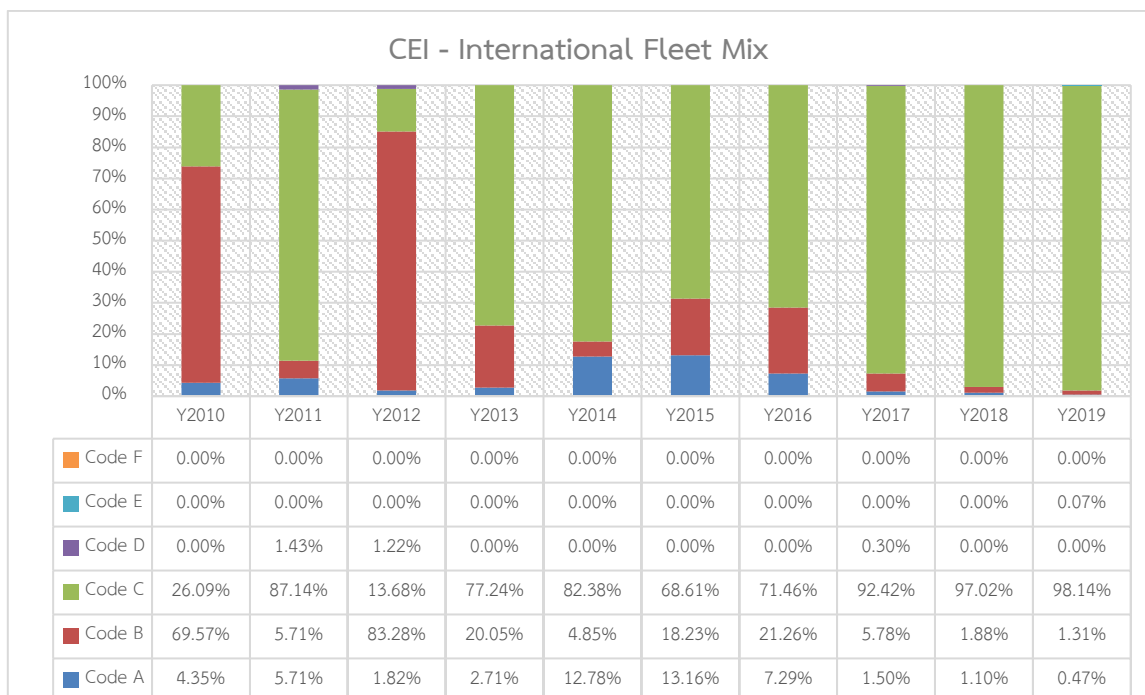

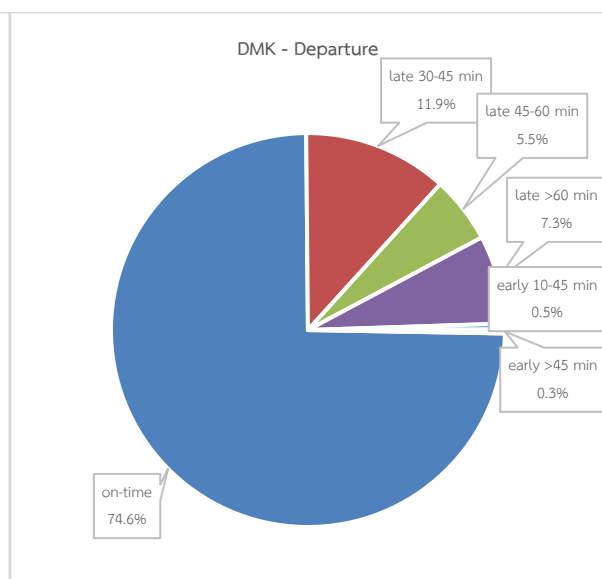

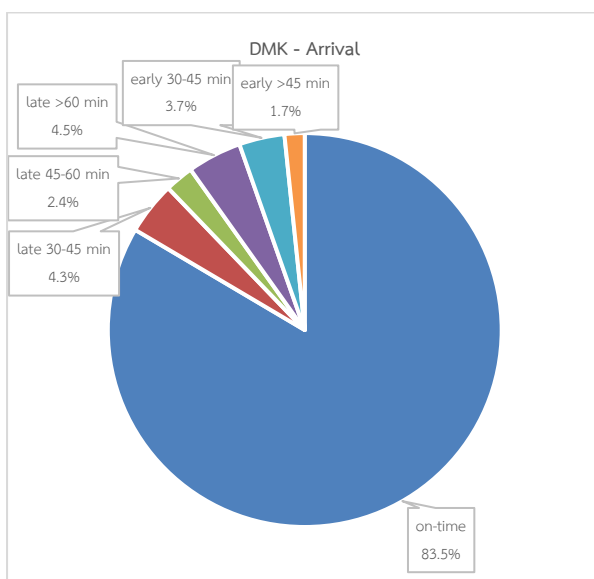

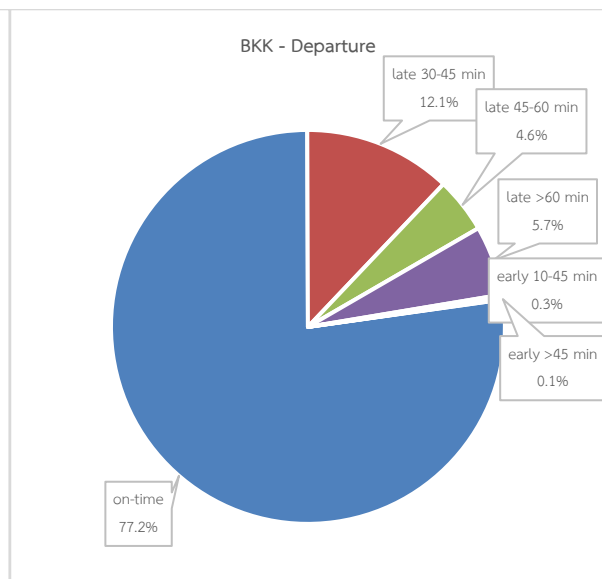

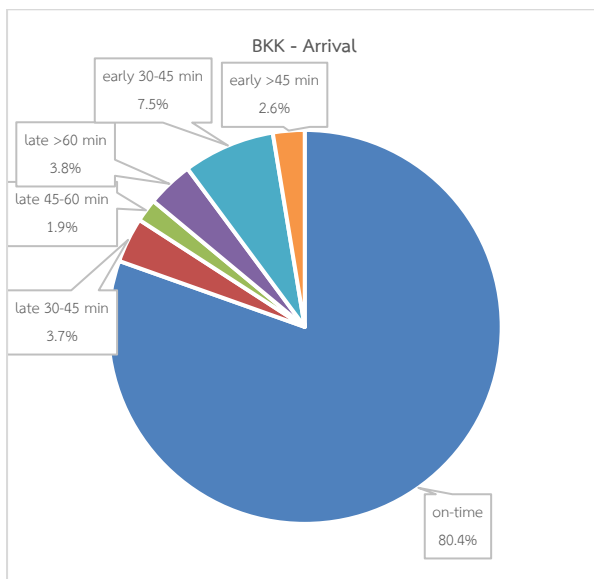

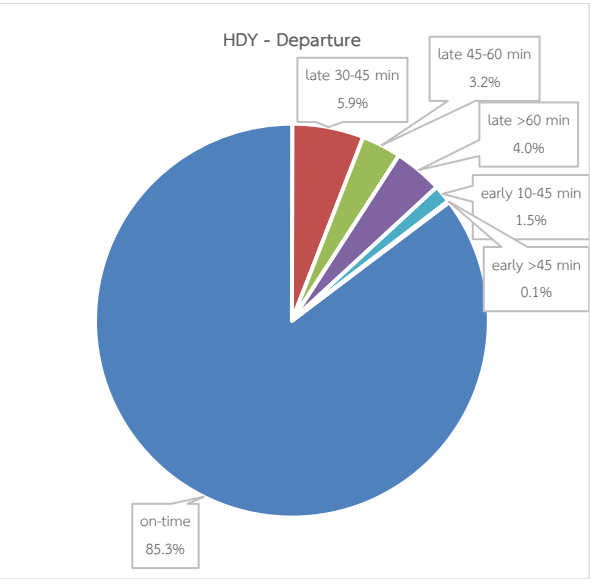

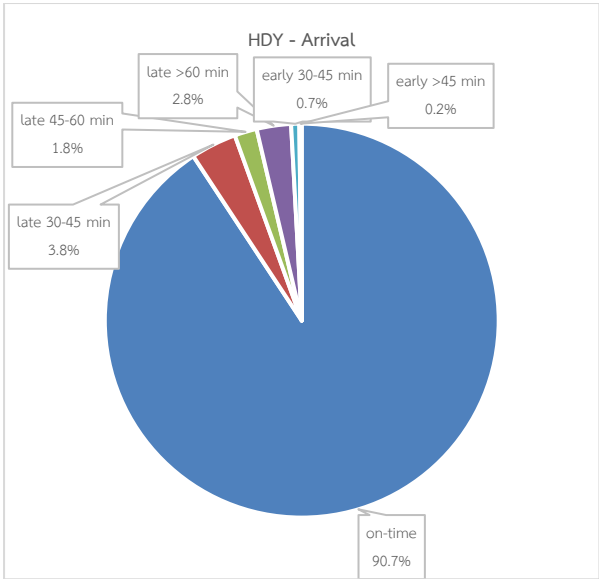

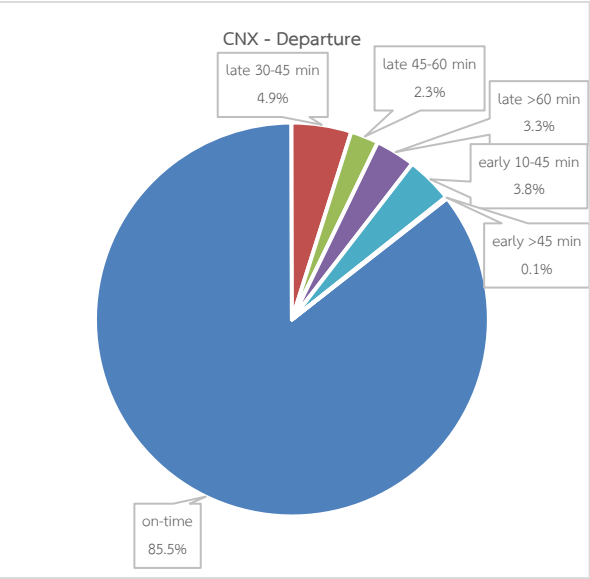

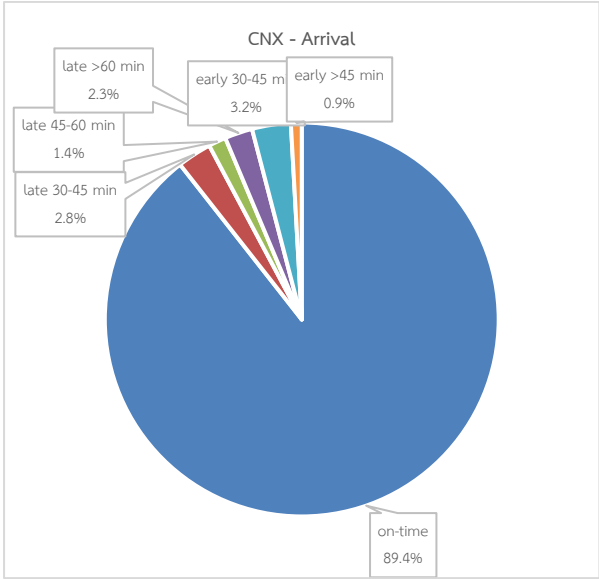

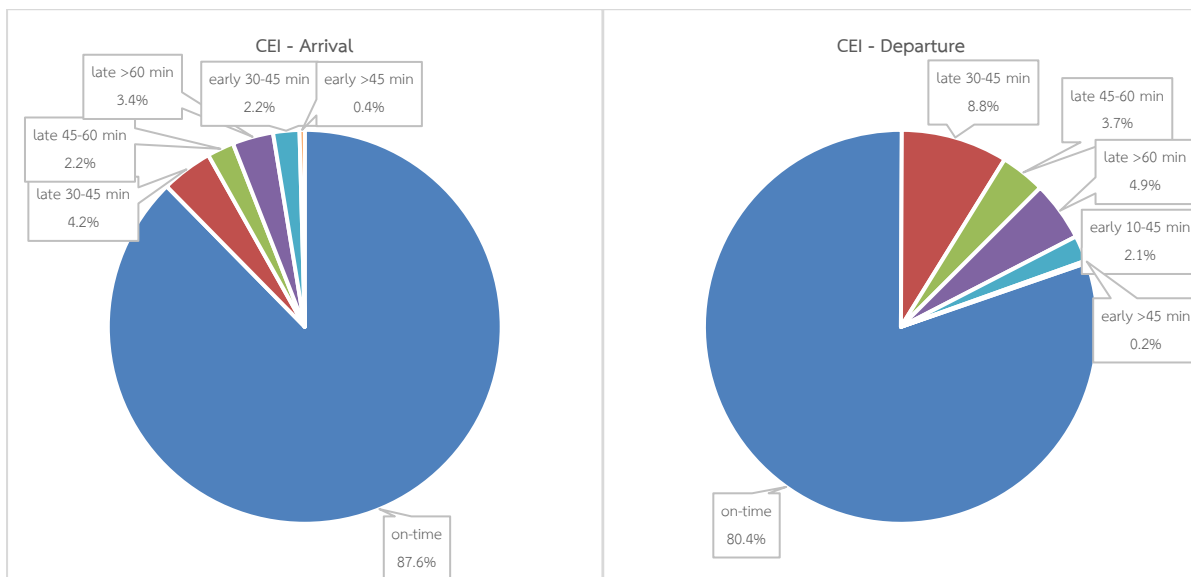

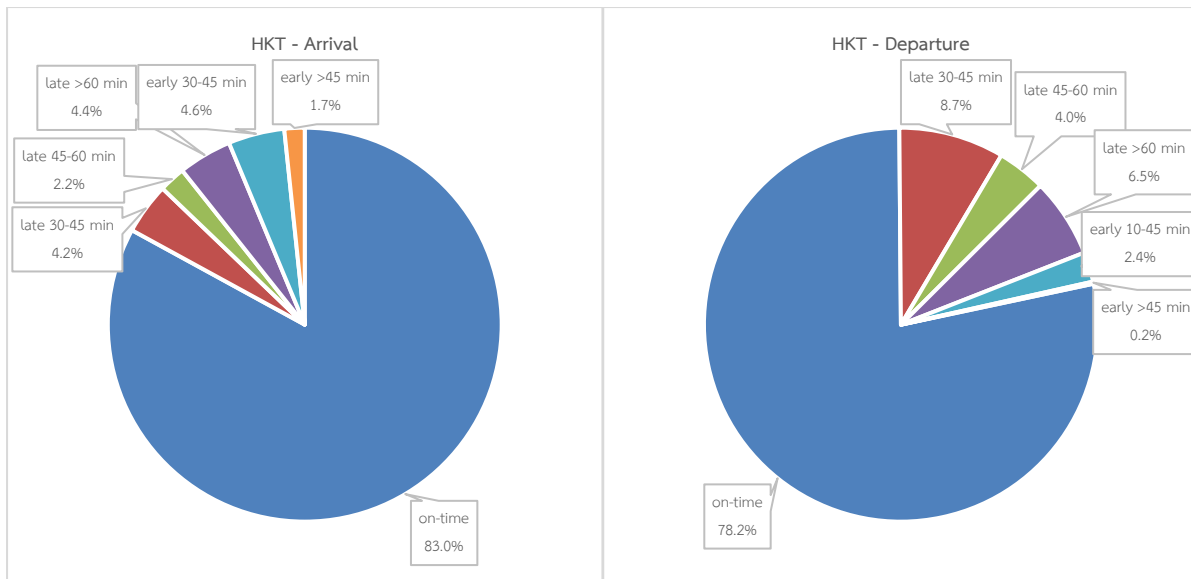

ON-TIME PERFORMANCE

The on-time performance describes the punctuality of flights for each airport. It is calculated by using difference between scheduled arrival/departure time (slot time) and the actual time aircraft is arrived or departed. To be considered on-time,

aircraft should be arrived within +/-30 minutes and departed within -10 to +30 minutes of schedule time. This comply with the Rule of the Civil Aviation Authority of Thailand, Re: Criteria for Slot Allocation for Airport Arrival and Departure of Aircraft.

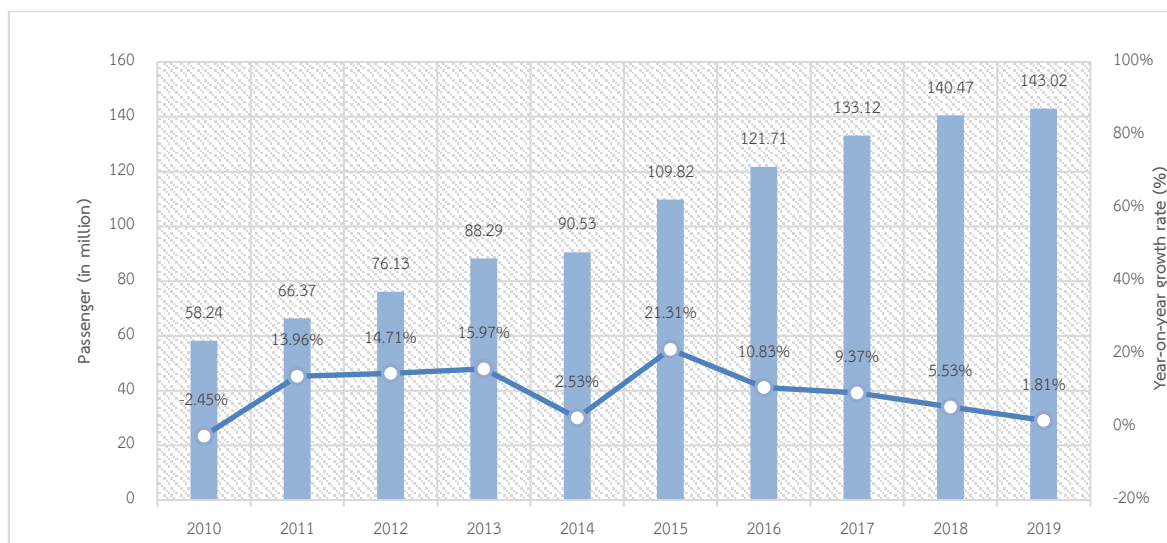

The average time at Suvarnabhumi Airport were 1 minute early arrival and 26 minutes late departure. For Don Mueang Airport, average arrival and departure time was 2 and 25 minutes late. Chiang Mai Airport had average 2 minutes early arrival and 12 minutes late departure. Hat Yai Airport reported average 1 and 14 minutes late for arrival and departure. Phuket Airport had

average of 2 and 20 minutes late arrival and departure. Chiang Rai Airport reported 3 and 17 minutes average late for arrival and departure. Airports with more long-haul flight tended to experience less on-time. Airports also received better score for arrival than departure because the departure flights are more difficult to depart early due to boarding concern.

PASSENGER TRAFFIC

In 2019, AOT accommodated more than 143 million passengers, a 1.81% growth over last year. Passenger traffic showed slow growth pace due to lower demand from domestic travelers, and shortage of

airport’s facilities which many of those already reached its full capacities. The total number of passengers over the past 10 years has grown for 10.50% with compound average annual growth rate.

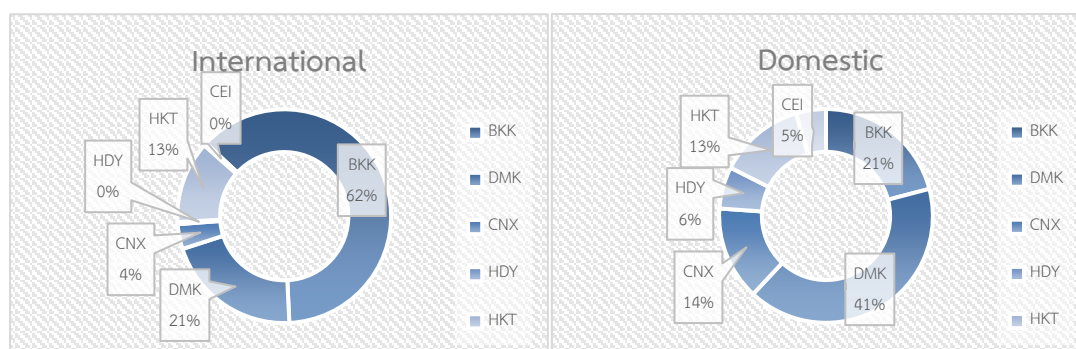

PROPORTION BETWEEN AOT AIRPORTS

The proportion between international and domestic passengers were 60 to 40. Most international passengers were served by Suvarnabhumi Airport with more than 62% of total international passengers in 2019.

In contrast, most domestic passengers were accommodated at Don Mueang International Airport, which are home of most local low cost airlines, and the rest were scattered among regional airports.

AOT’s commercial passenger proportions

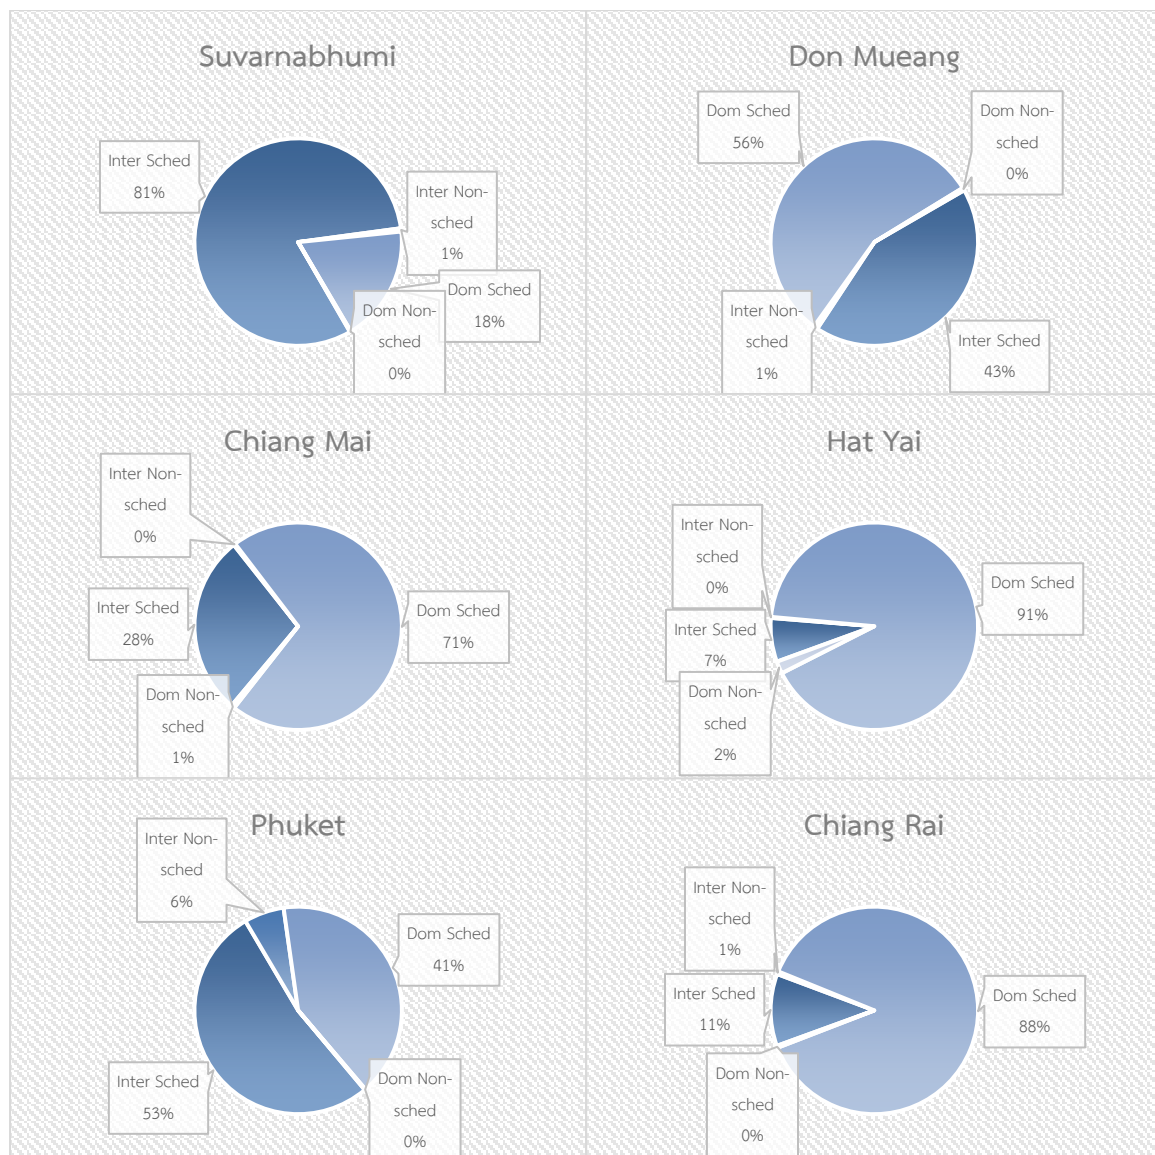

SCHEDULED AND NON-SCHEDULED PASSENGERS

Passengers can either travel with scheduled or non-scheduled flights, i.e. regular services, charter or private flights. Most of AOT passengers travelled by scheduled services, especially for domestic where most of passenger were handled by scheduled operations of low cost airlines.

The proportions reflected the same direction as flight operation, while airport capacities were limited, most slots were given to schedule operation. The available slots for non-scheduled operation tended to be lower because most slots already allocated to scheduled services

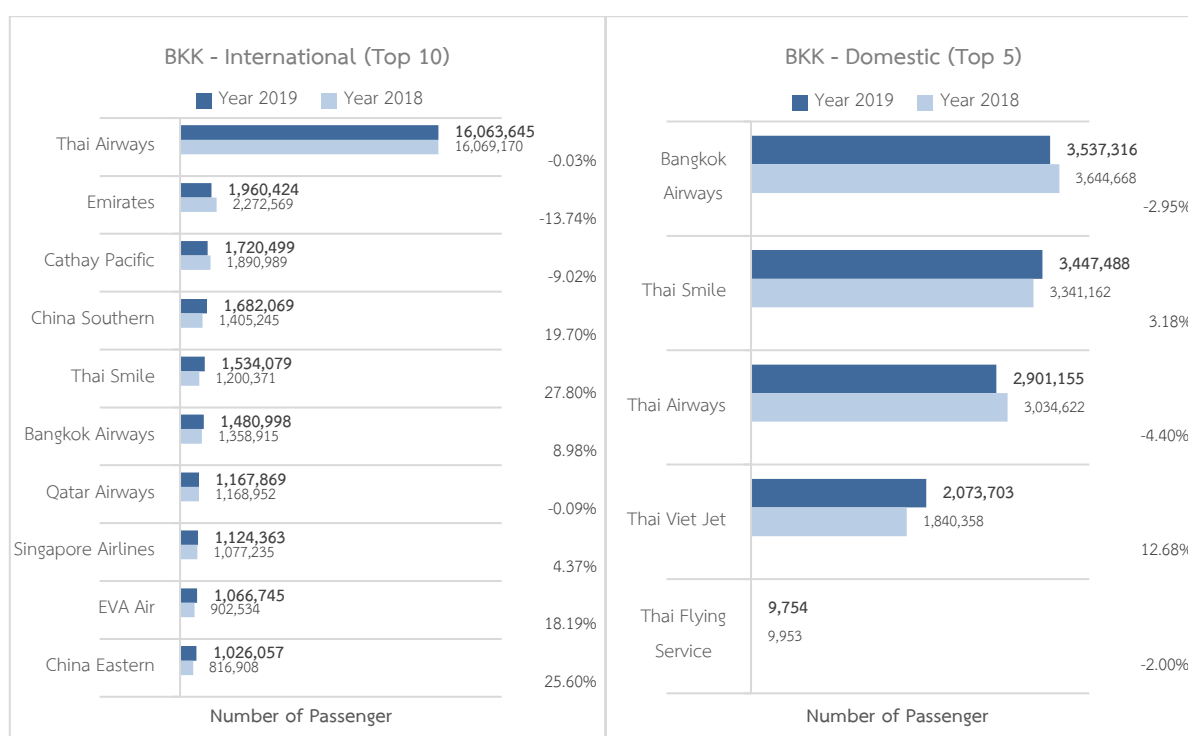

Proportion between International, domestic, scheduled and non-scheduled flights

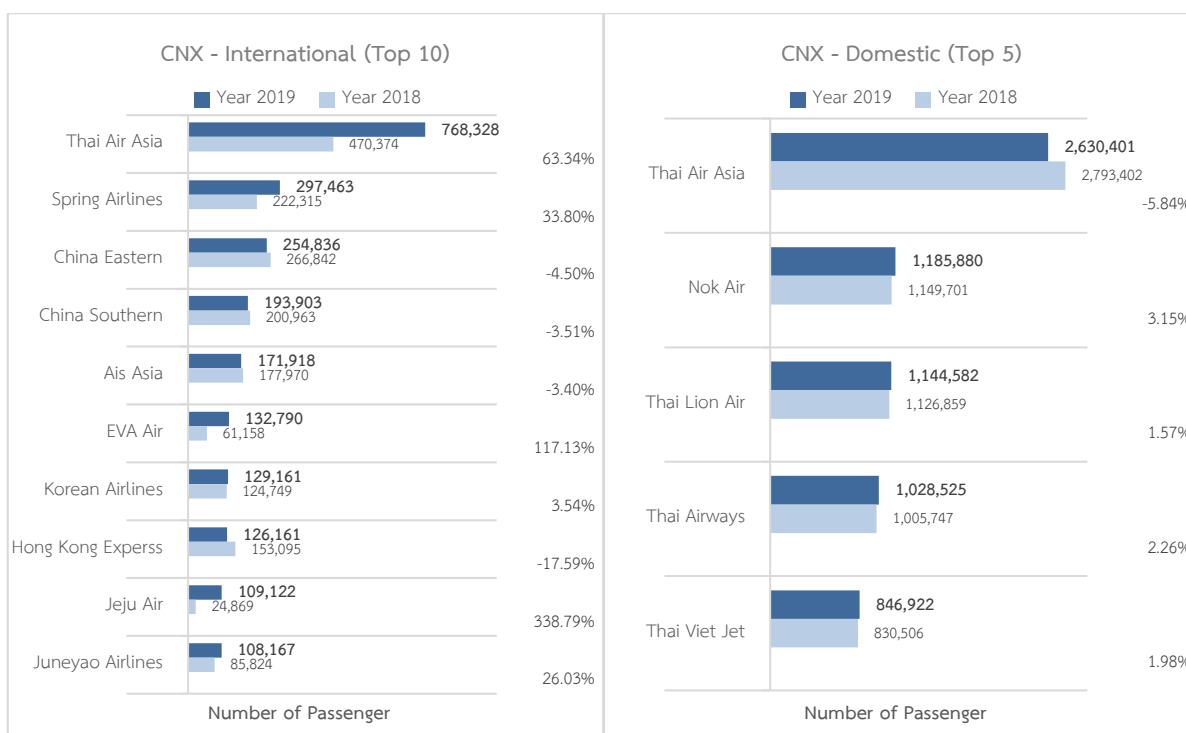

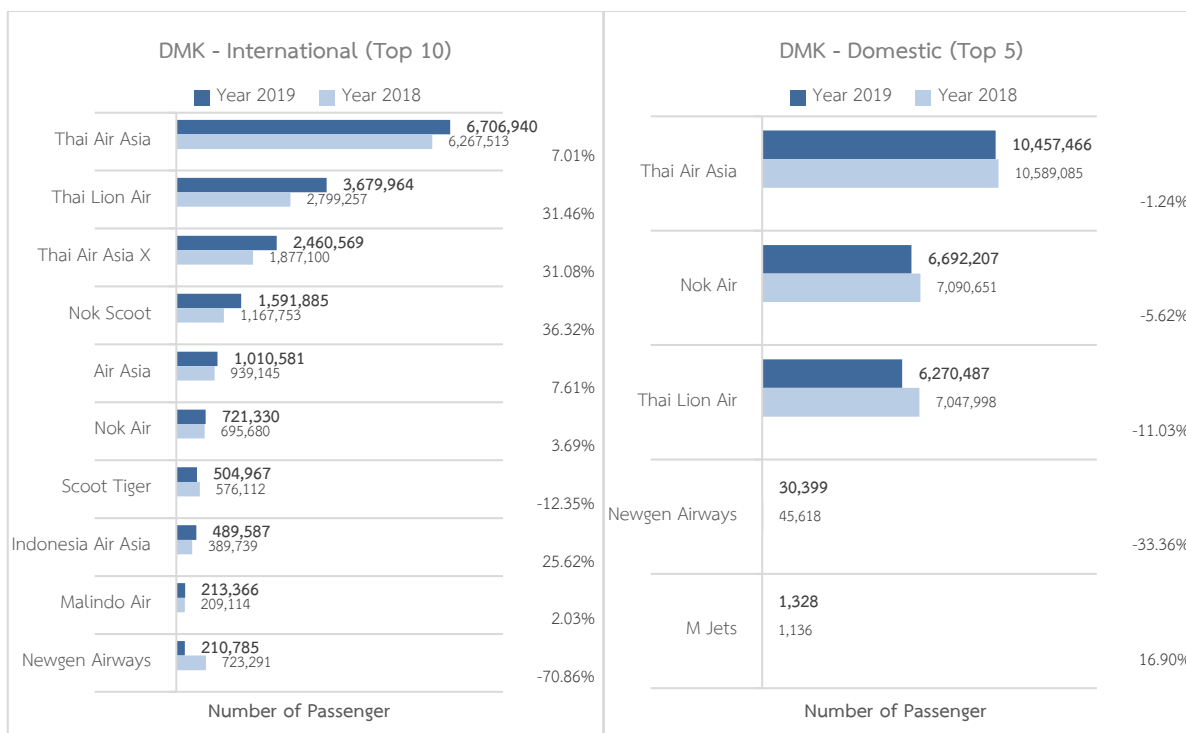

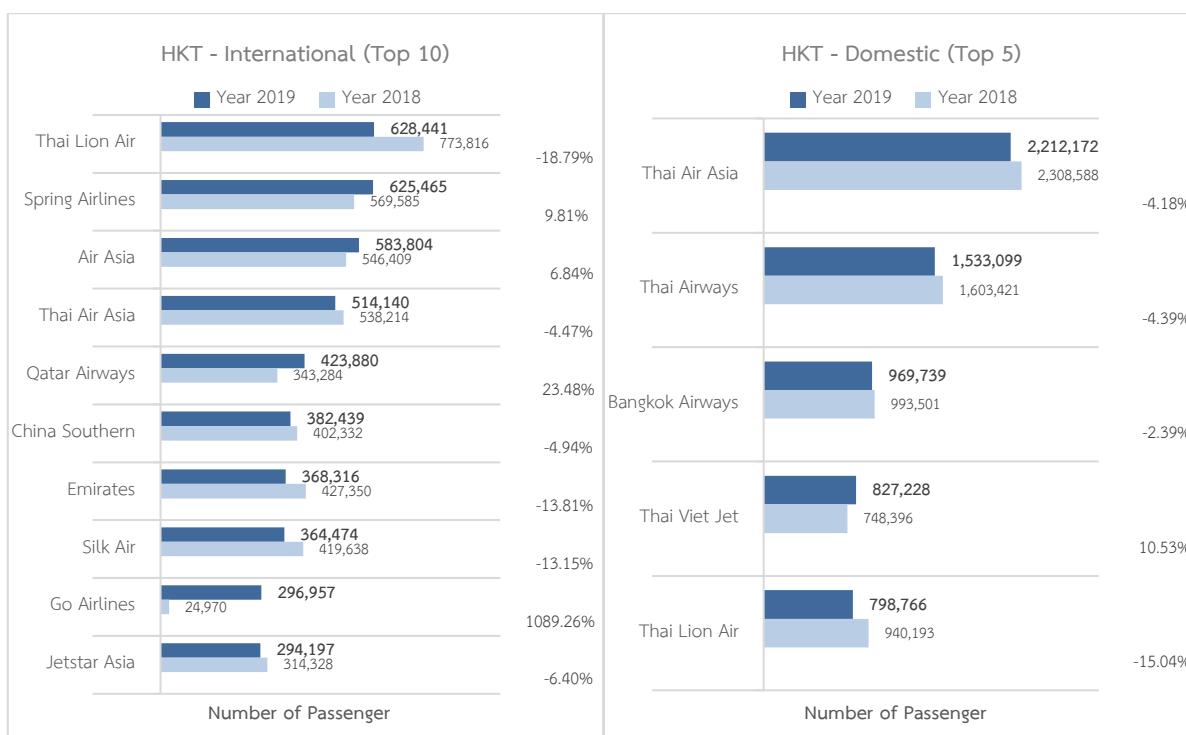

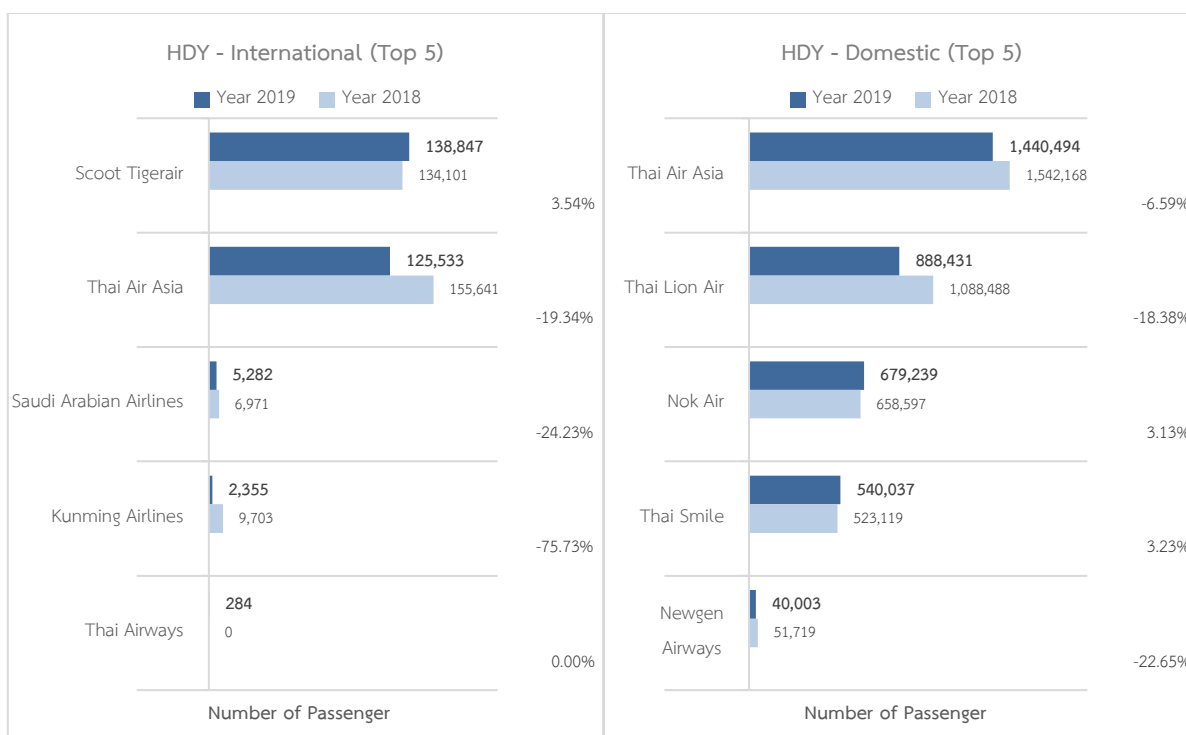

AIRLINES RANKED BY PASSENGER TRAFFIC

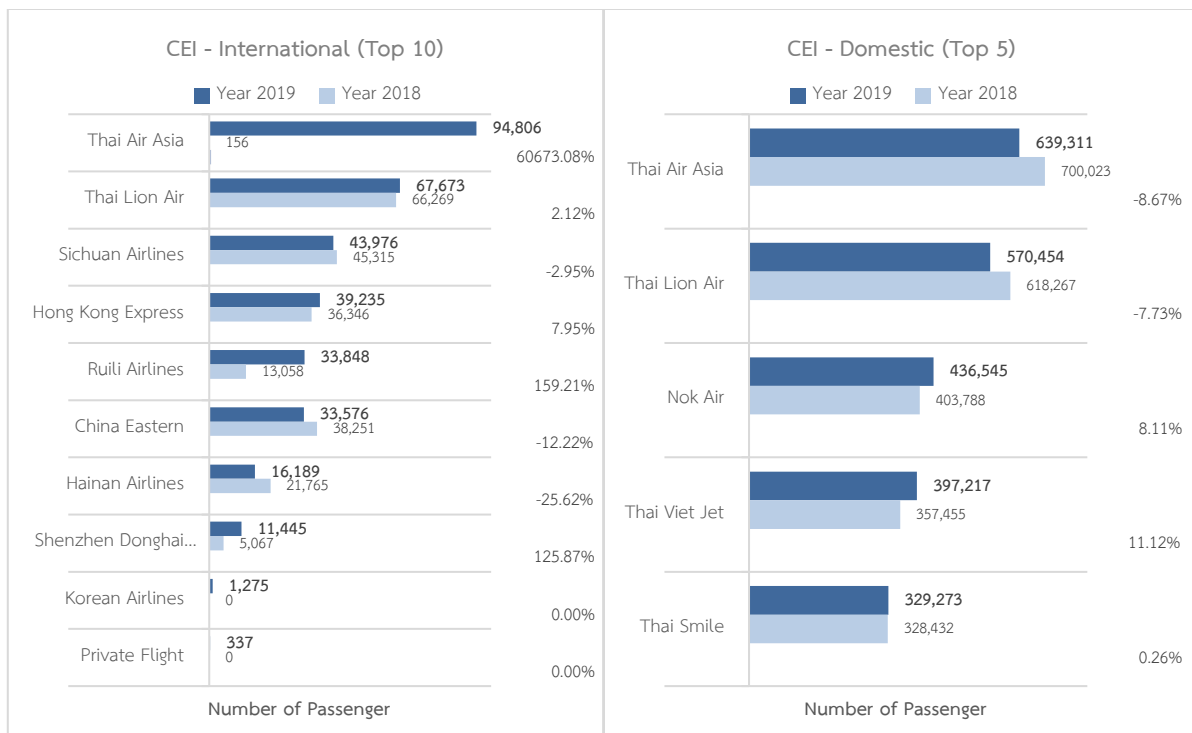

The airline market share showed the rank of passengers (including embarked, disembarked and transit) carried by airlines for each AOT's airport regardless of type of operations.

Thai Airways International remained topped by international passenger at Suvarnabhumi Airport for long-haul flights, whereas low cost airlines dominated domestic markets and short-haul flights.

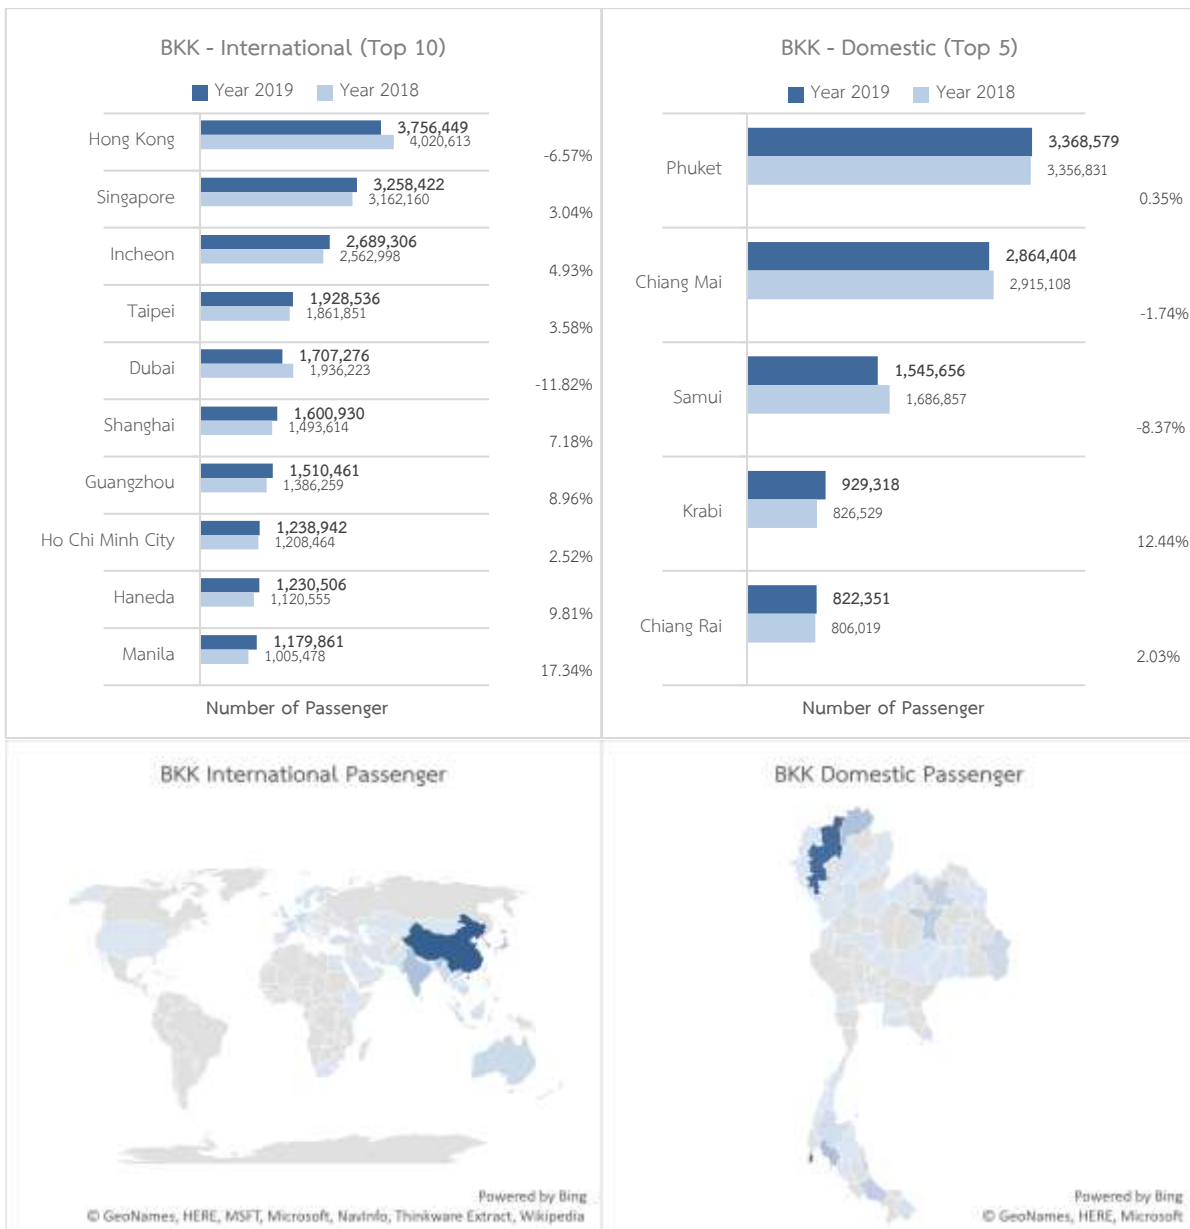

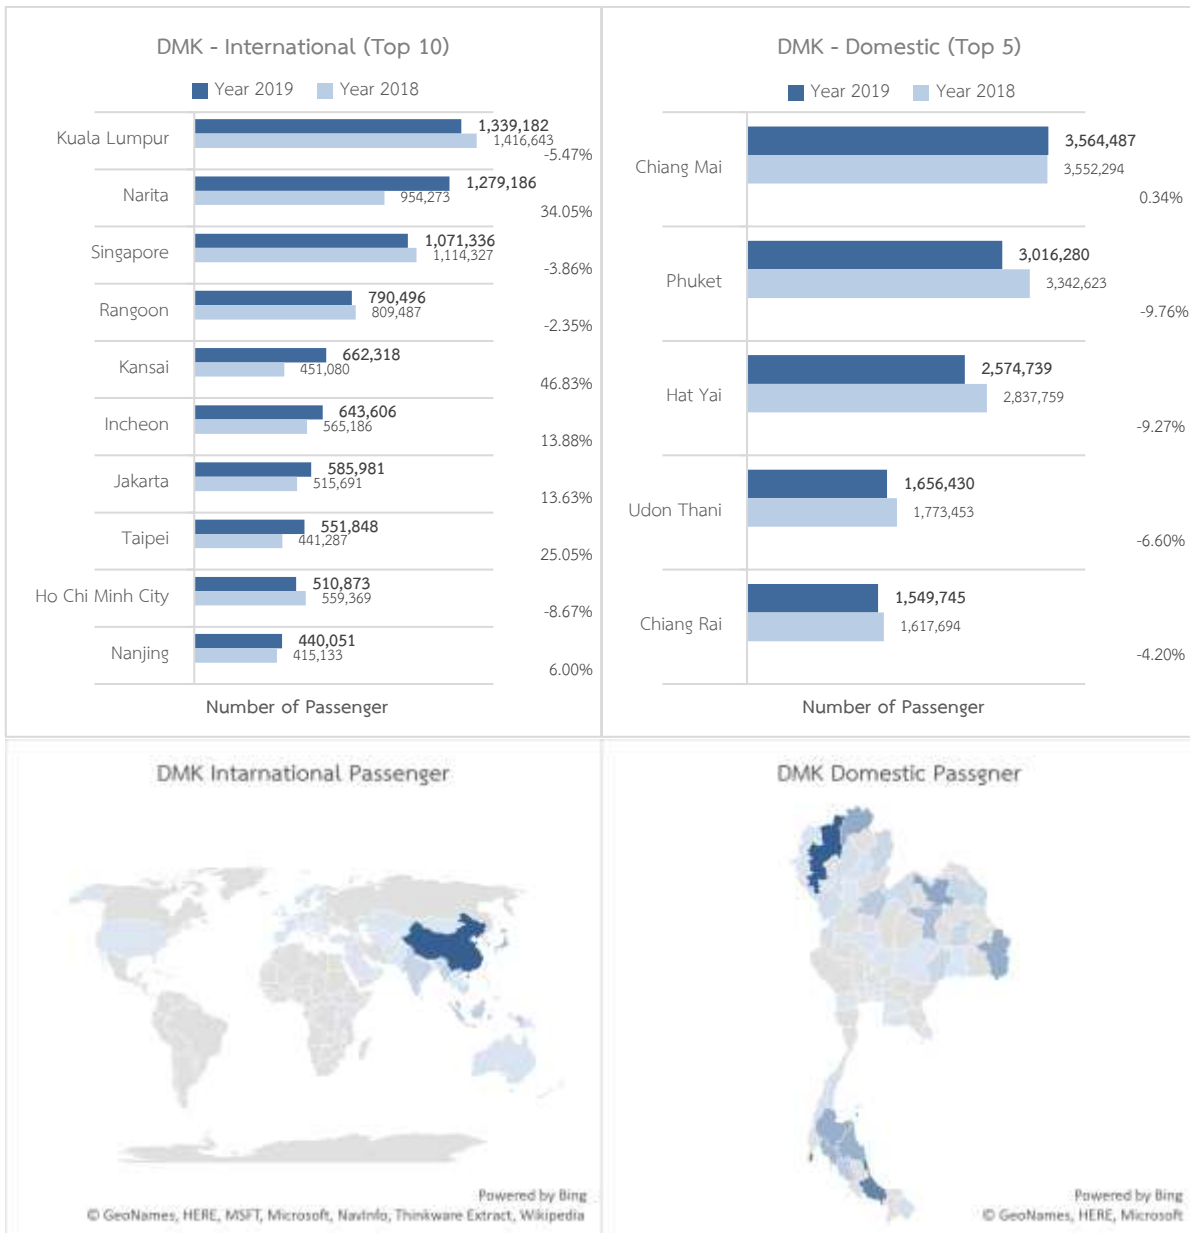

ORIGINAL/DESTINATION AIRPORTS RANKED BY PASSENGER TRAFFIC

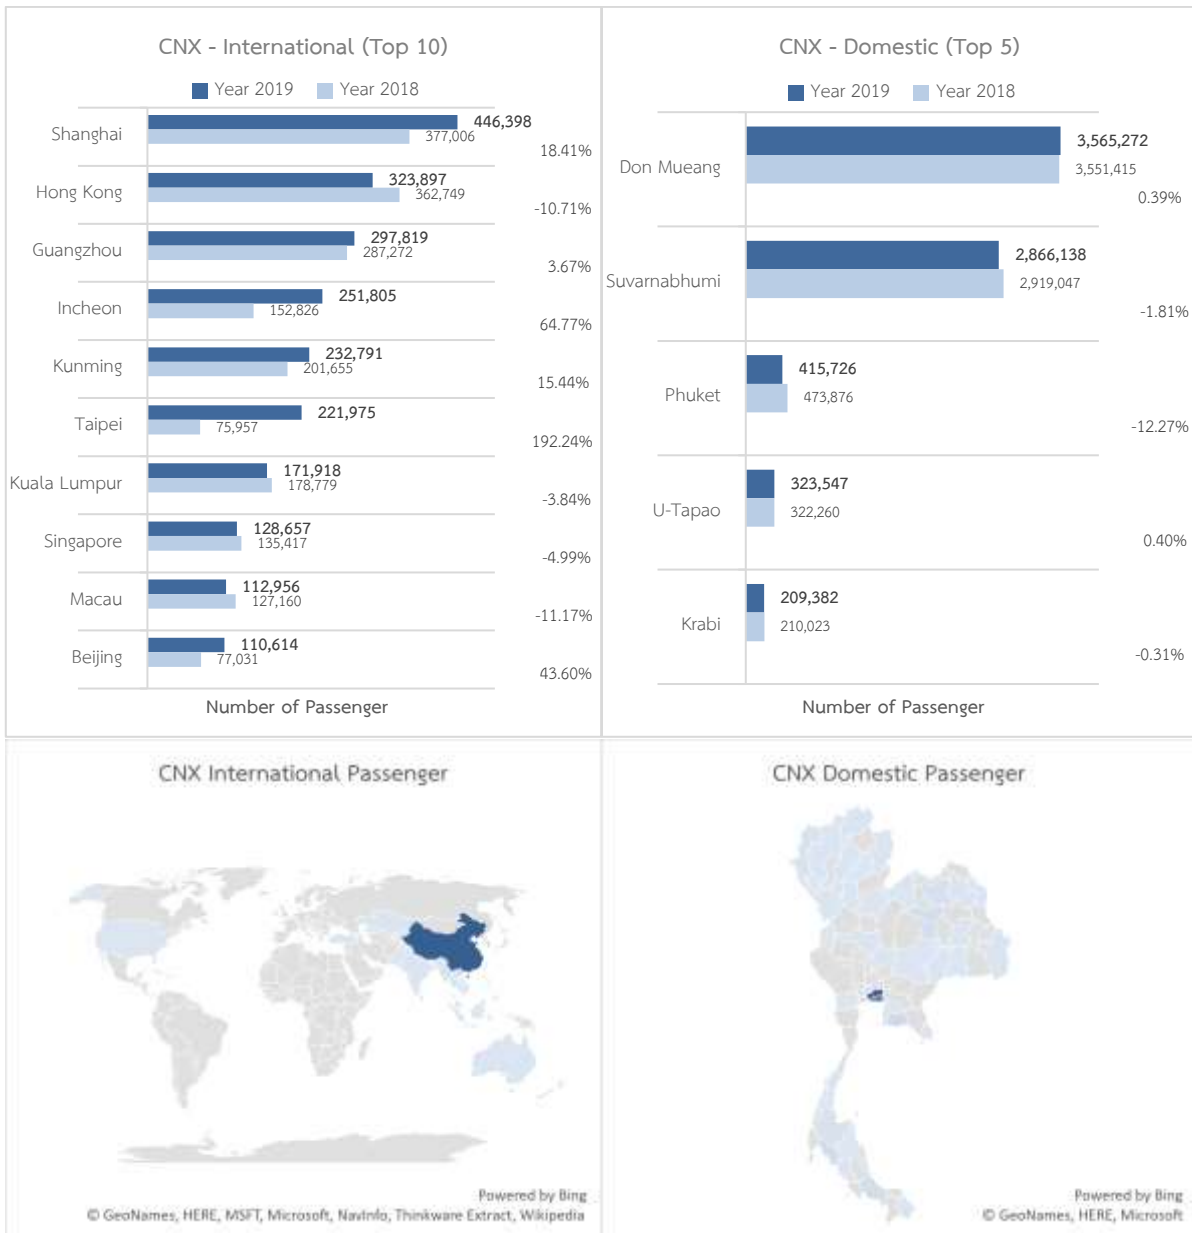

The passenger by airport ranked the airport by number of origin/destination passengers, regardless of type of flight operations.

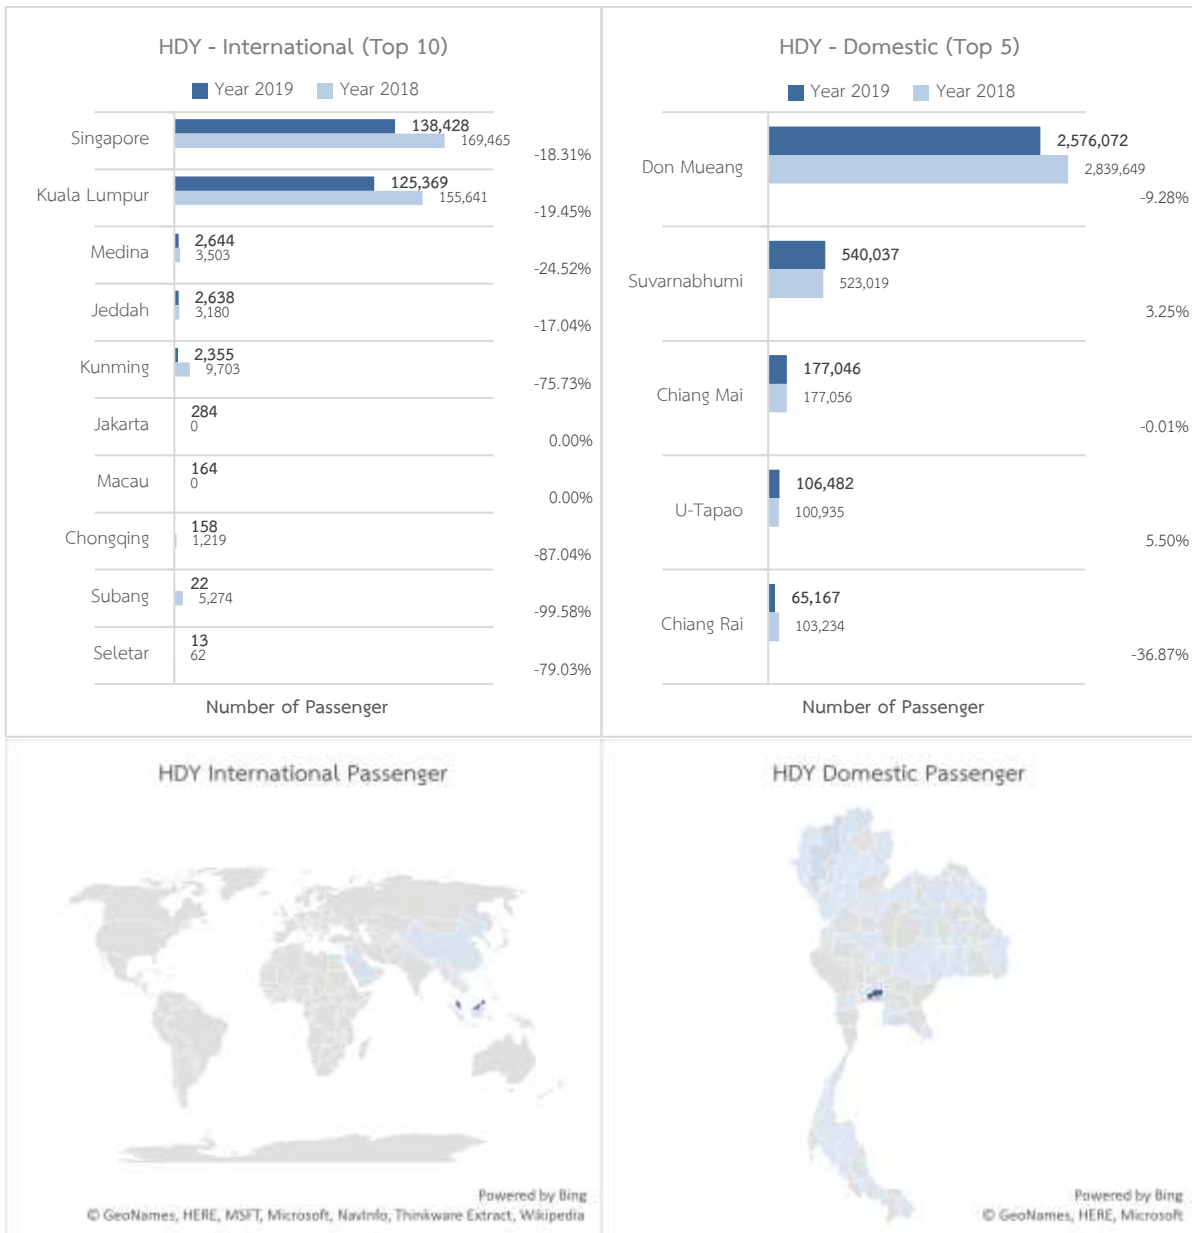

In general, top-rank international cities-paired of each airport were within Asia-Pacific. For domestic market, the most

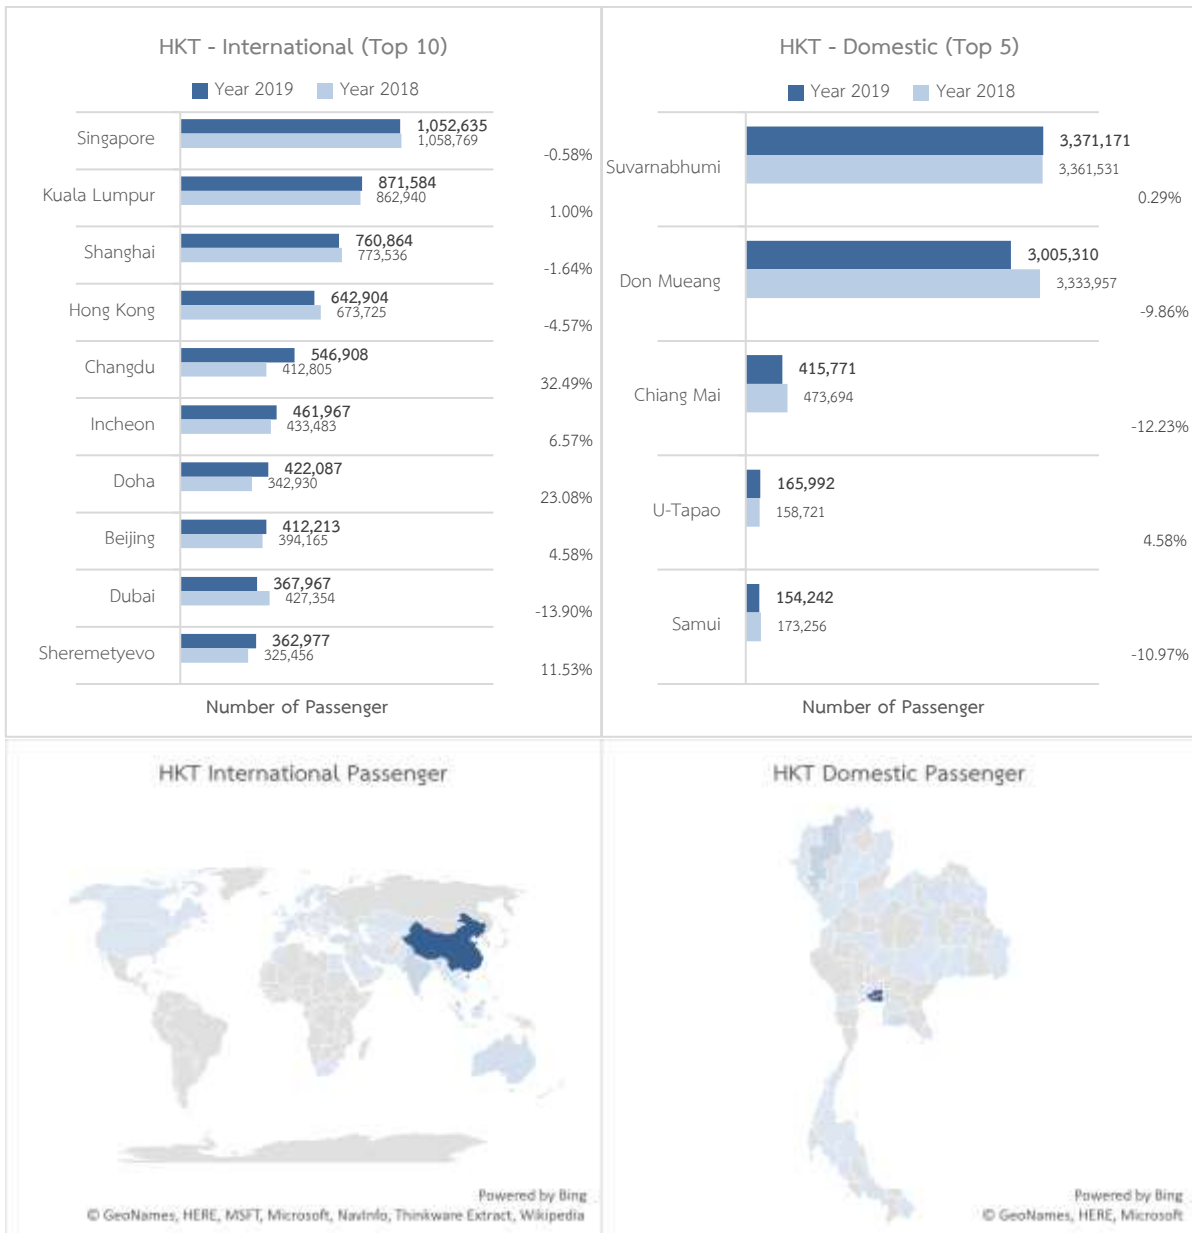

travelled cities connected to Bangkok remained major tourist destinations such as Phuket and Chiang Mai. On the other hand, from regional airports point of view, the highest volume of passengers was Don Mueang to which travelers travelled by low cost airlines.

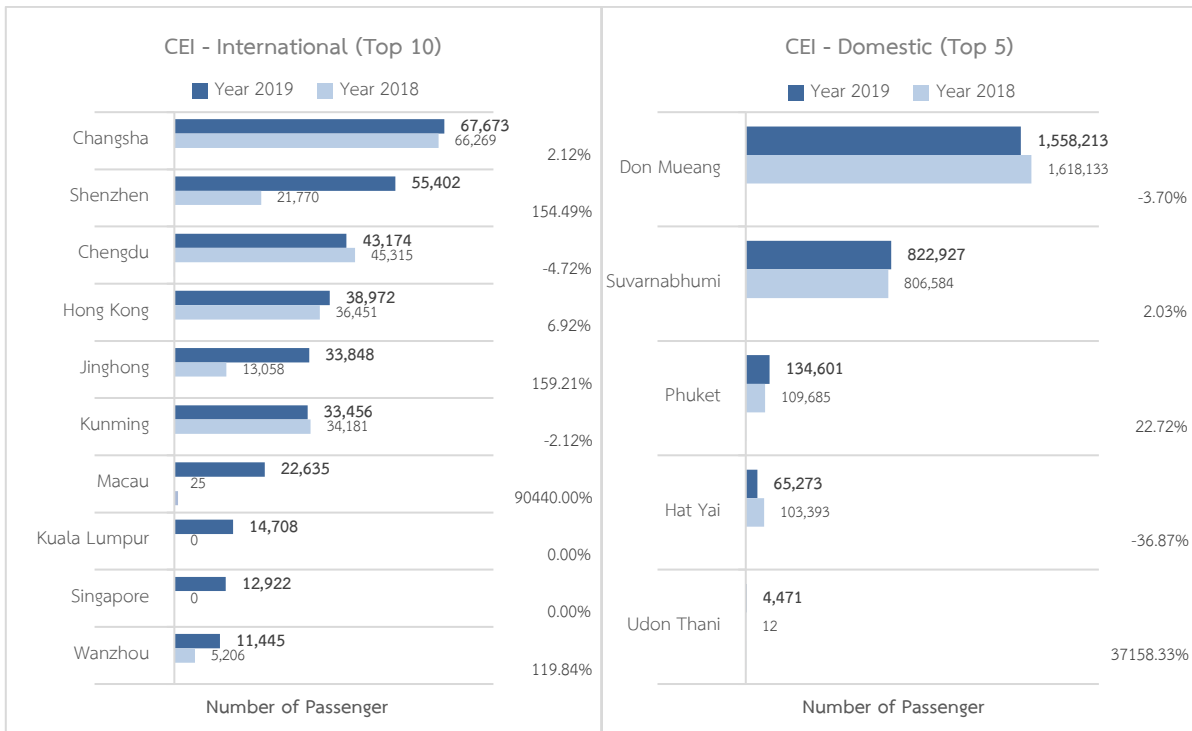

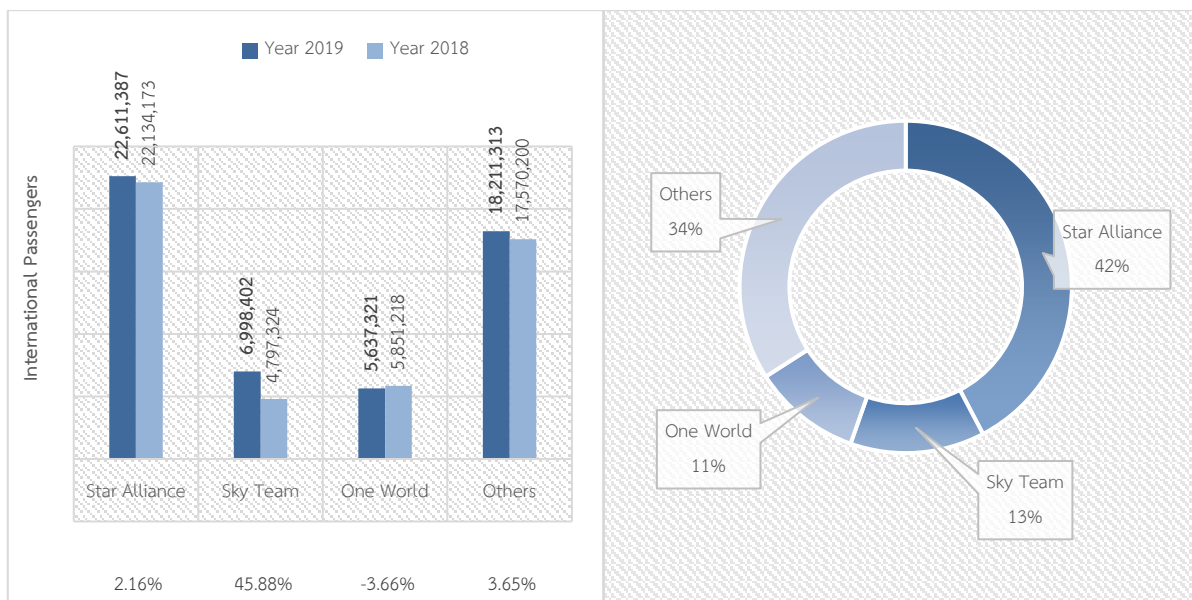

AIRLINES ALLIANCE TRAFFIC AT SUVARNABHUMI AIRPORT

In 2019, 142 airlines provided international scheduled services at Suvarnabhumi Airport, about 42% of international passengers travelled by Star Alliance’s airlines. Sky Team and Oneworld accommodated 13% and 11% of international passengers.

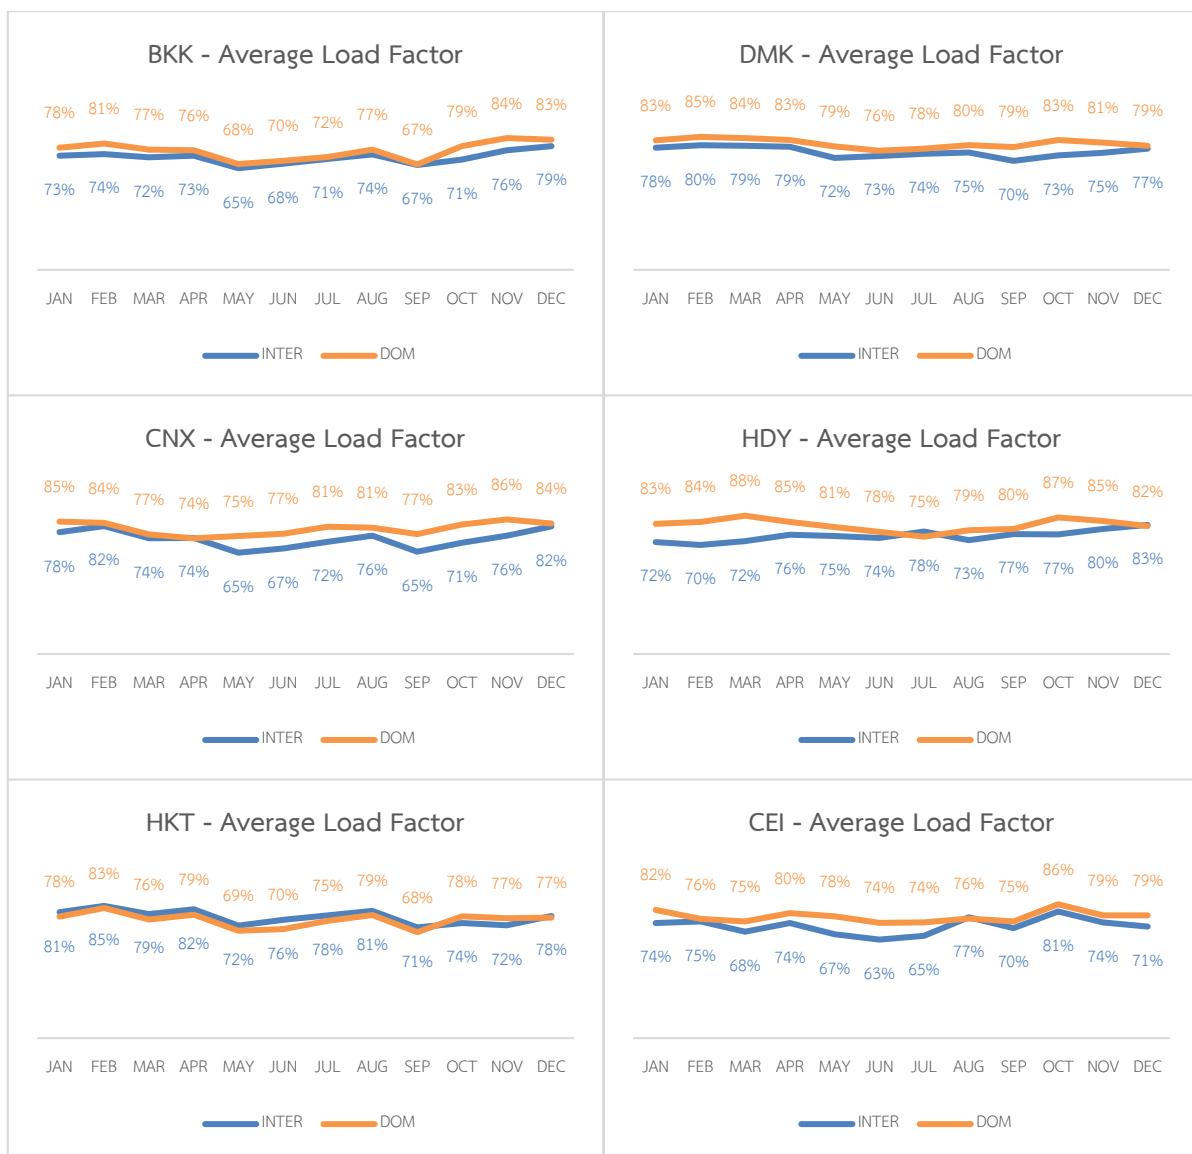

Star Alliance consisted of 27 airlines but only 15 members provided scheduled services at Suvarnabhumi Airport, 10 of 21 members from Skyteam and 10 airlines from Oneworld operated at Suvarnabhumi Airport as well.

PASSENGER LOAD FACTOR

Passenger load factor showed the average ratio of passenger to available seat of both international scheduled and domestic scheduled flight in each month. Generally, the average load factor of domestic flights was higher than international flights due to smaller size of aircrafts. The average load

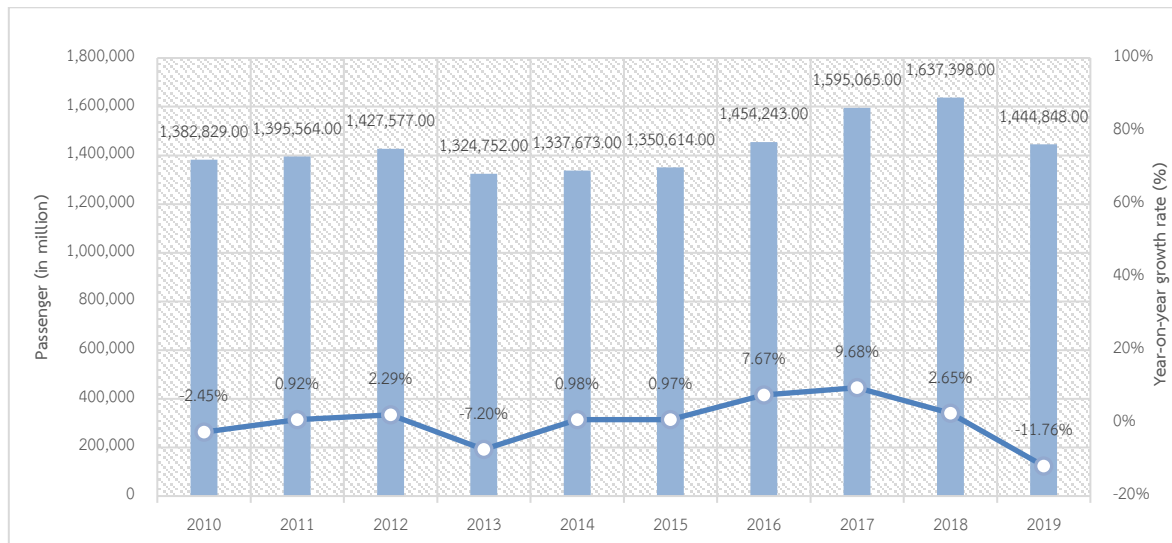

factor during October – March was higher than the rest of the year, which represent the high and low season. In 2019, The average load factor at BKK were 73%, while DMK were 79%. CNX had average load factor of 78%, and 82% for HDY, 77% for HKT and 77% for CEI.

COMMERCIAL FREIGHT AND MAIL TRAFFIC

In 2019, total air cargo volume decreased by 11.76%. Both international and domestic air cargo continued to drop in the same direction as worldwide cargo. The downward trend may be caused by the weak trade environment in global stage. Air cargo carried by freighters, which accounted for

15% of BKK’s international air cargo, also dropped by 6.0%. Therefore, overall air cargo handled by AOT’s 6 airports reported an amount of 1.44 million tons with just a 0.49% compound average annual growth from 2010-2019.

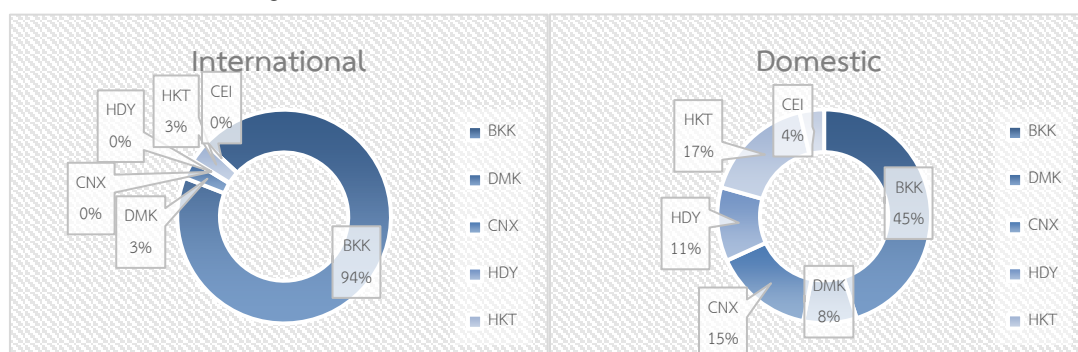

AIR CARGO PROPORTION BETWEEN AOT’S AIRPORTS

AOT’s airport accommodated 1.38 million tons of international air cargo, with 11.13% decreased, while the domestic air cargo volume reported 0.07 million tons with a declined rate of 22.79%. The proportion

between international and domestic movements were 95 to 5. Out of those numbers, 94% of international and 45% of domestic air cargos were accommodated by Suvarnabhumi Airport.

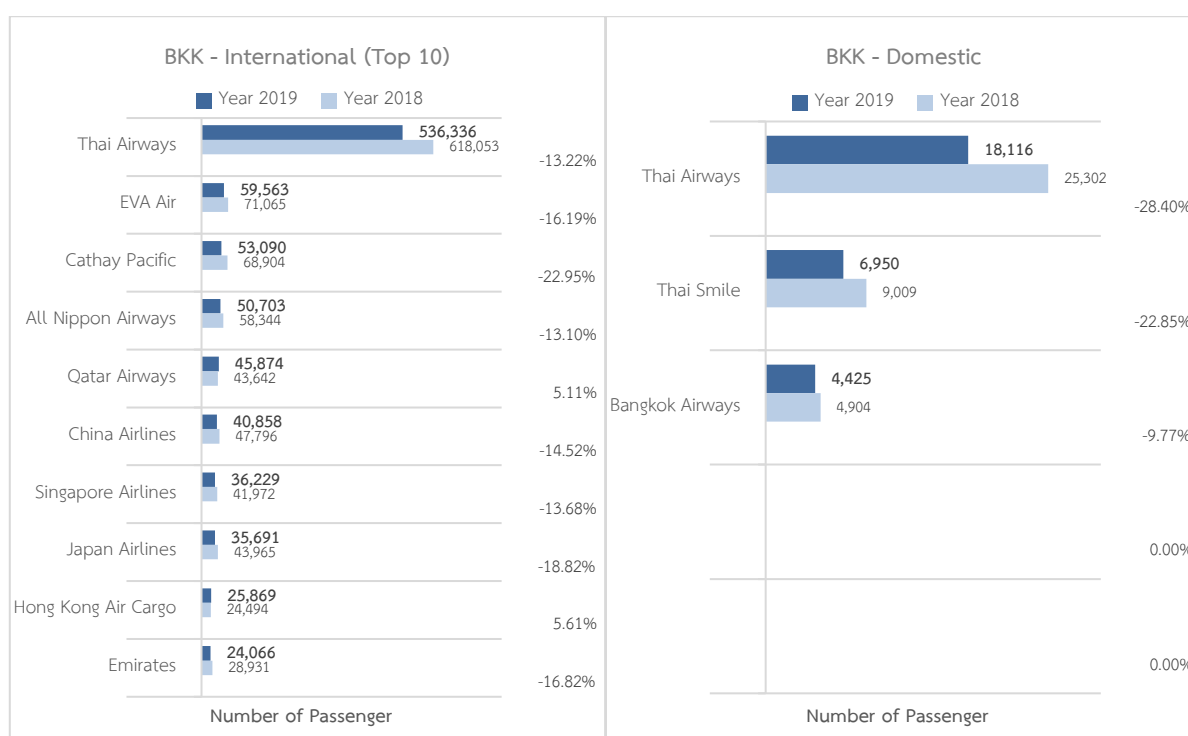

AOT’s commercial freight and mail services proportions

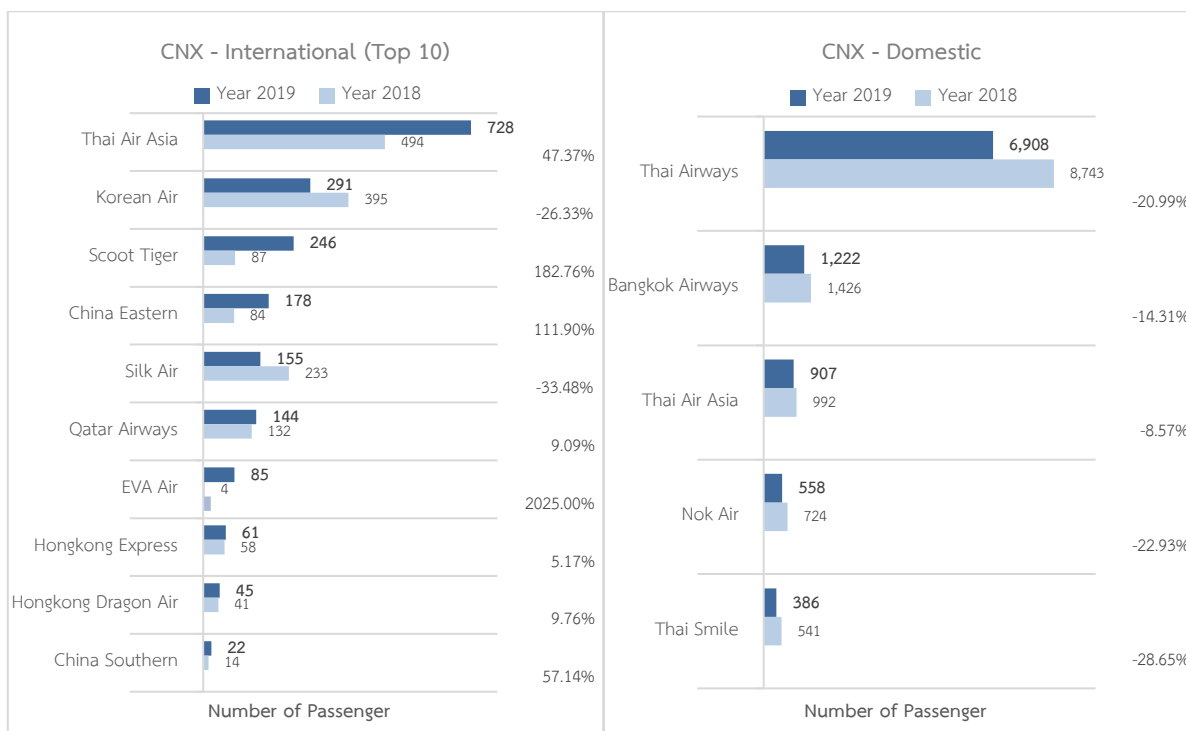

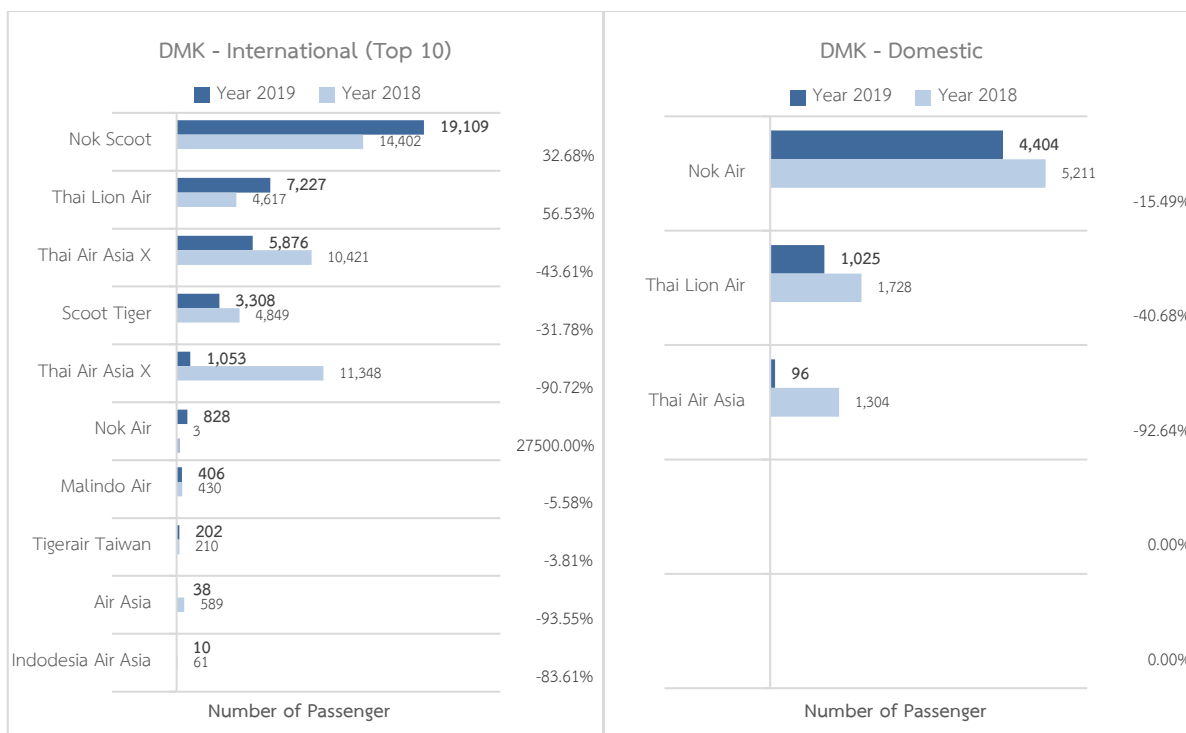

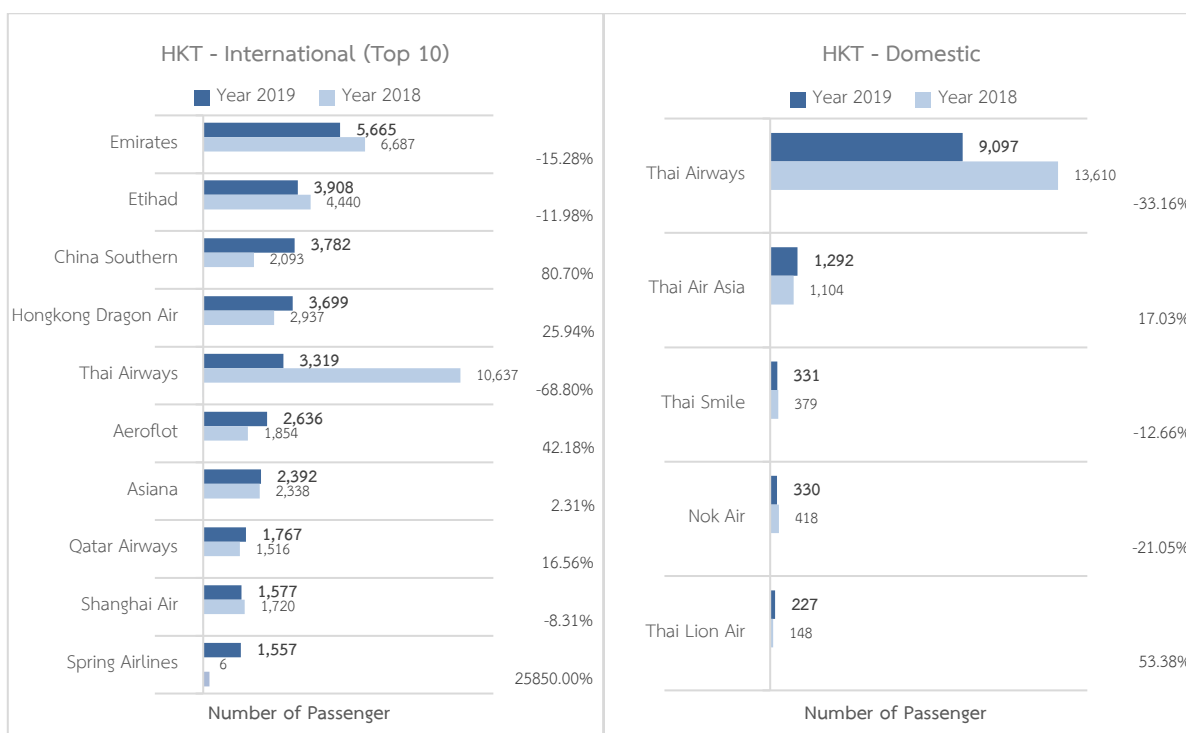

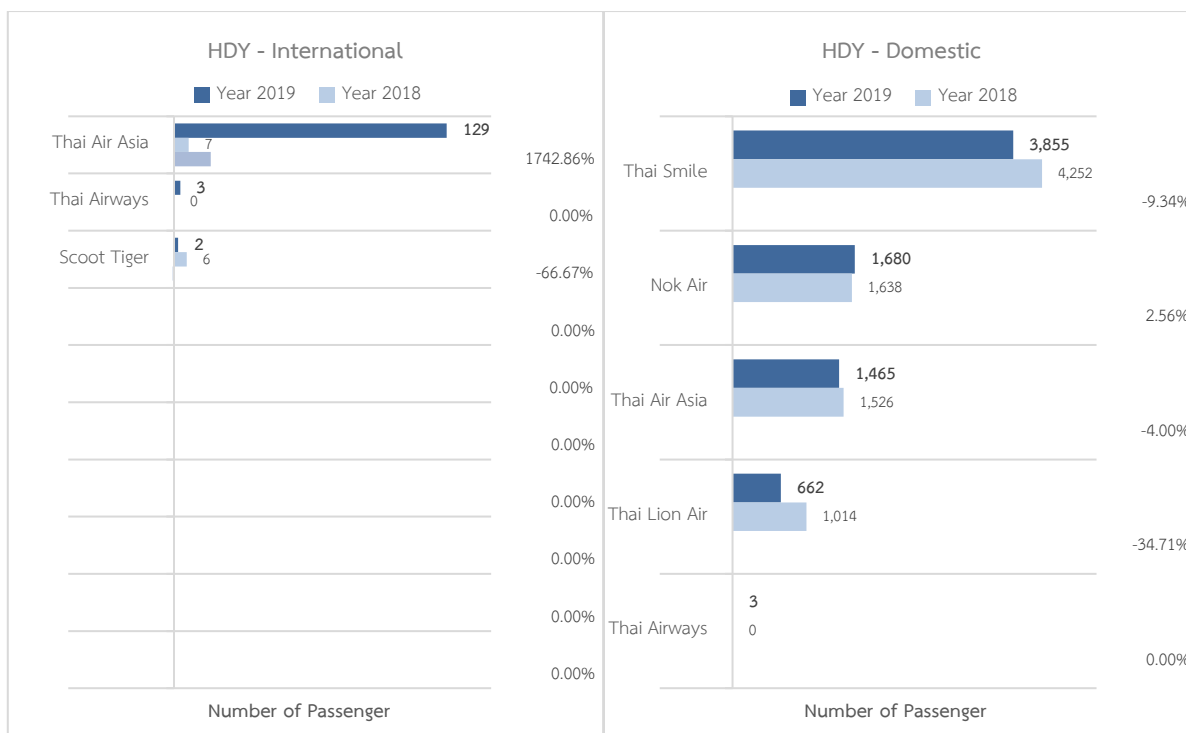

AIRLINES RANKED BY CARGO VOLUME

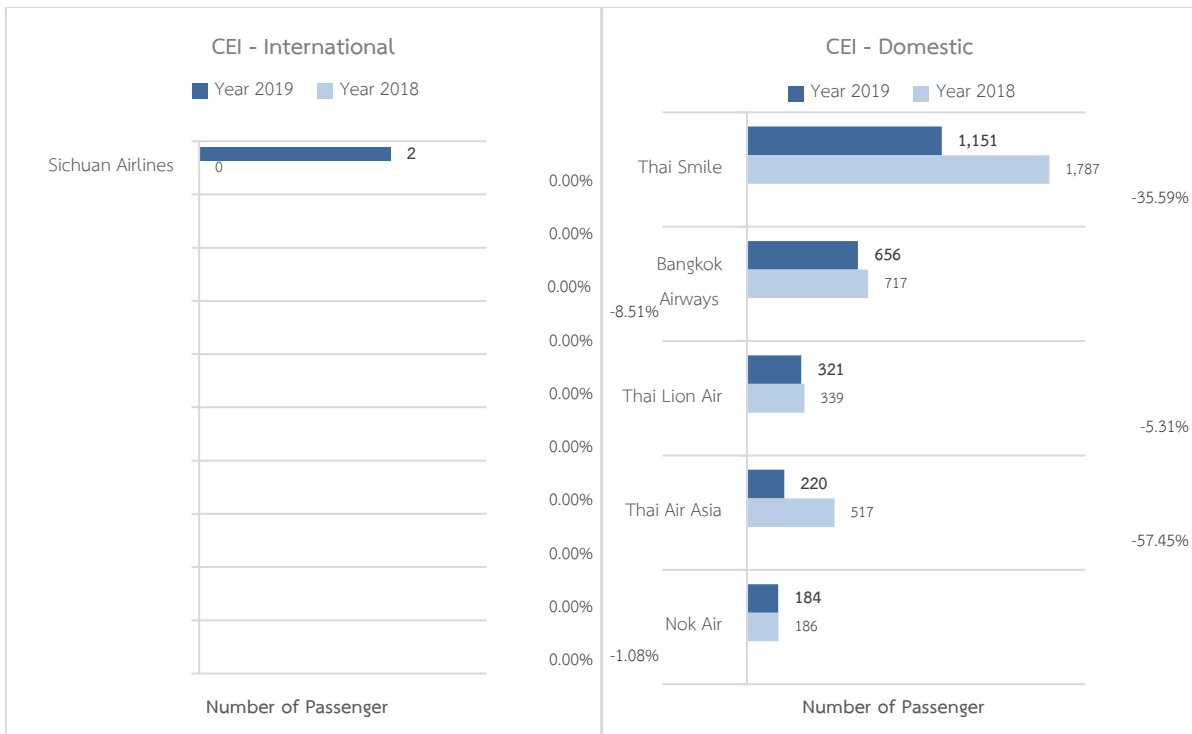

In the year 2019, international air cargo of Thailand dropped dramatically due to world economic recession, as well as domestic air cargo to which domestic consumption still yet uncertain. Other mode of transportation such as railway and

road may affect to the decline of domestic cargo since both railway and truck generated lower cost. Most airlines reported the loss in volume of international cargo. Local airlines also lost their domestic volumes.

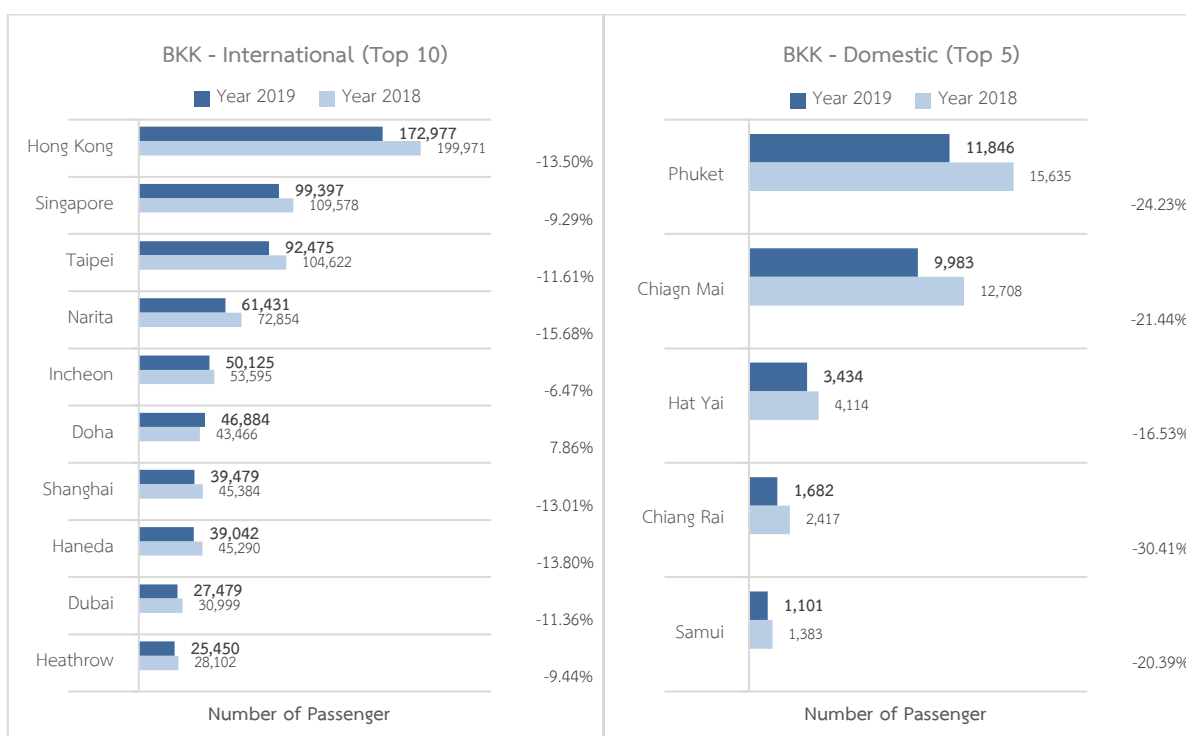

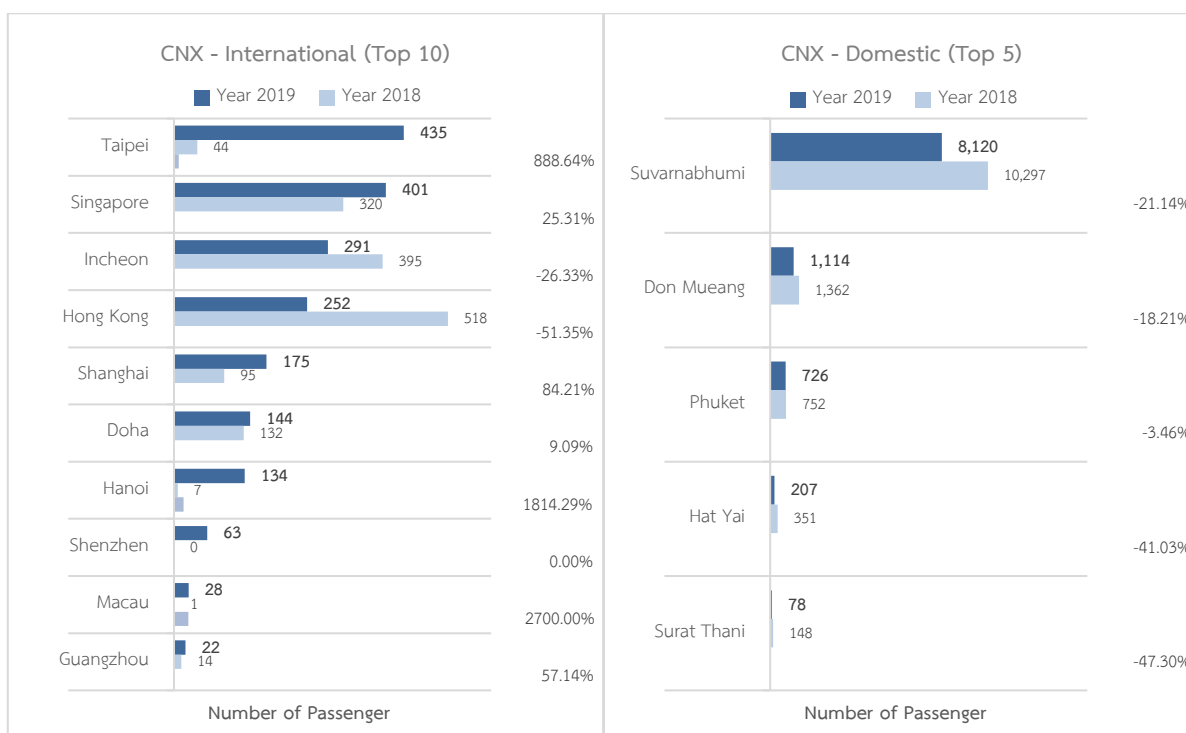

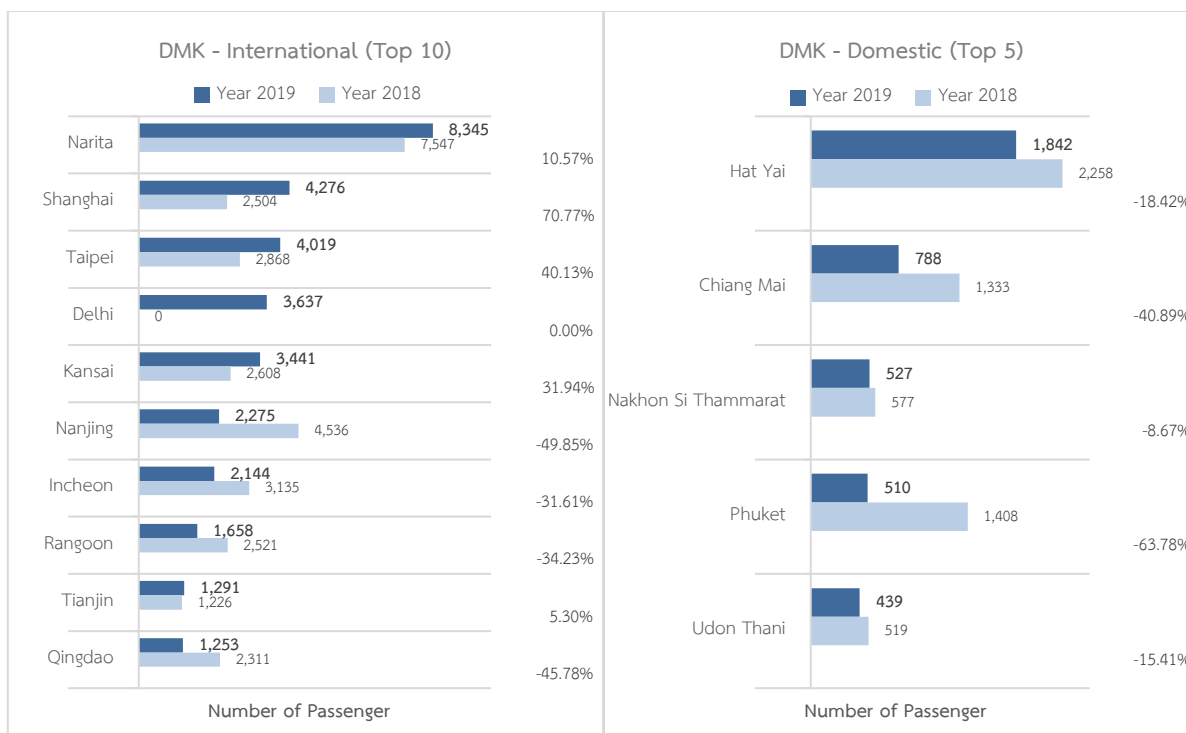

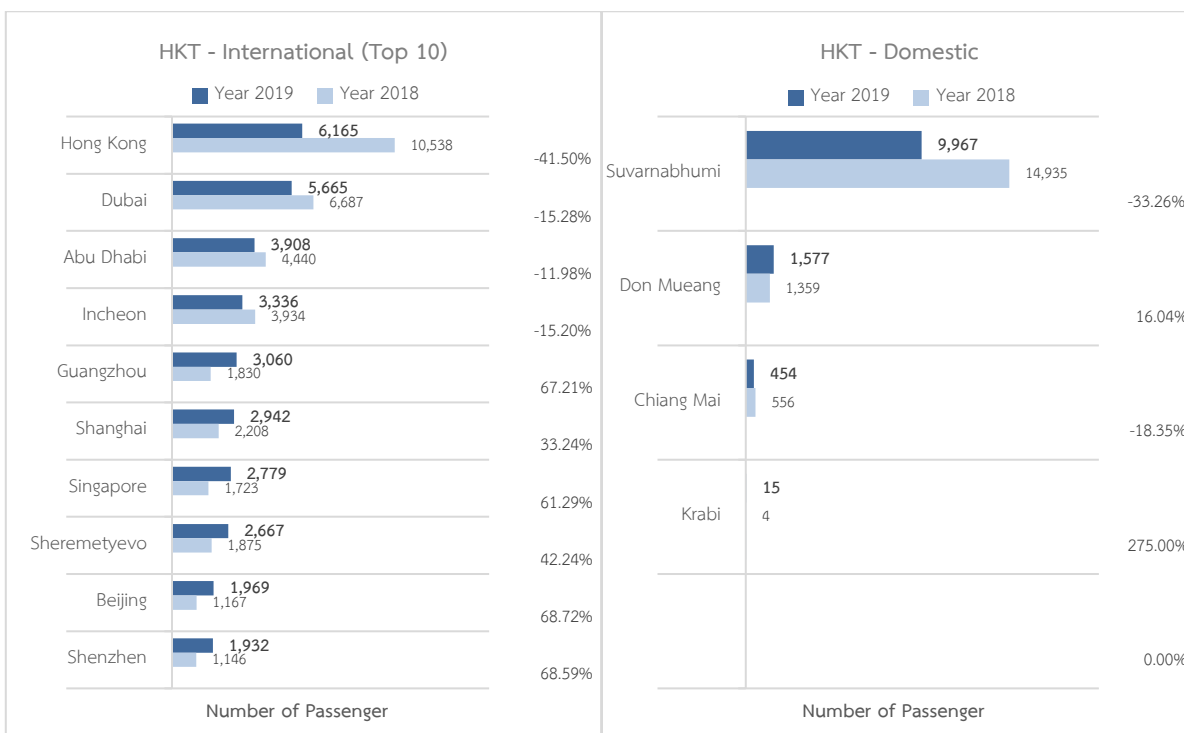

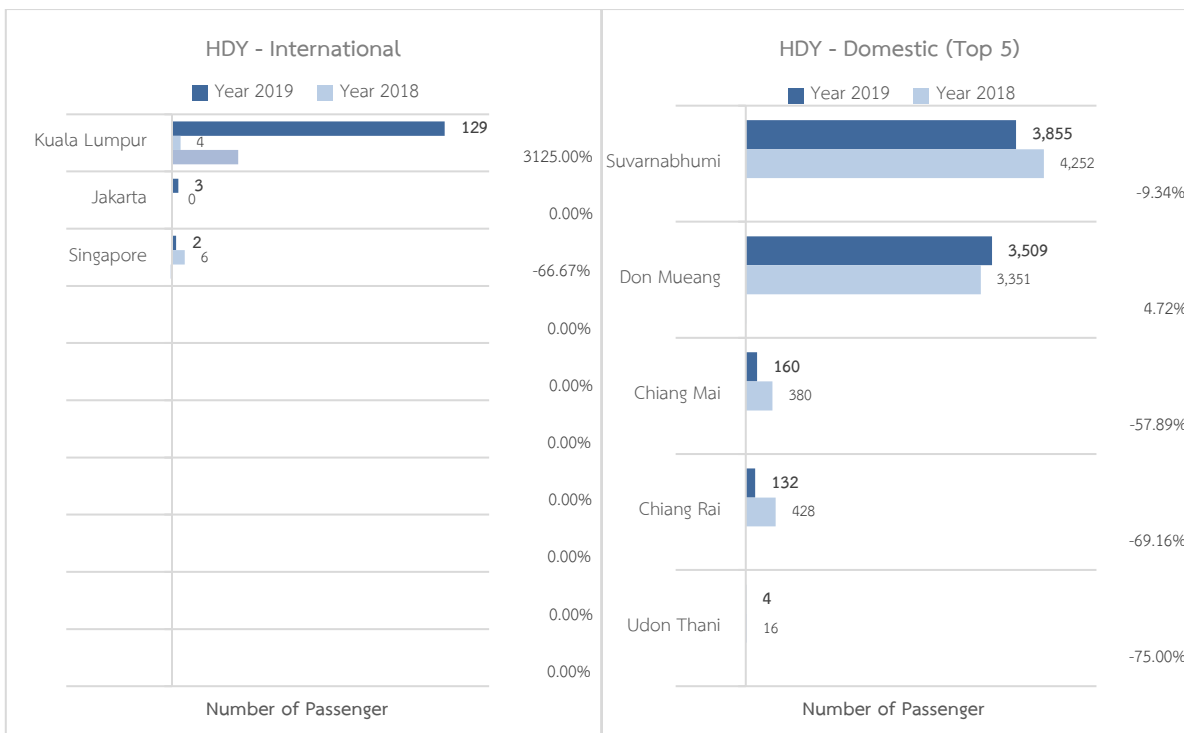

ORIGINAL/DESTINATION AIRPORTS RANKED BY CARGO VOLUME

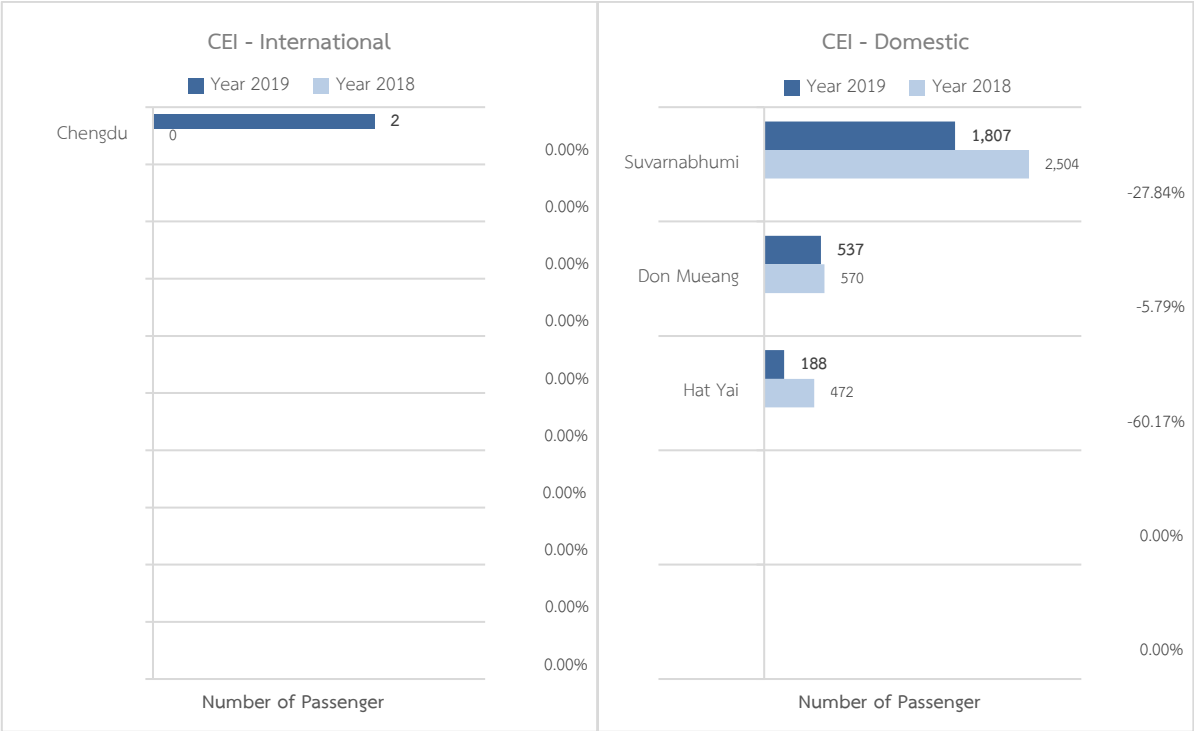

The routes traffic ranked the airport by volume of air cargos (including freight and mail, without transit), regardless of type of flight operations. Air cargo went the same direction as passenger flight, but with lower

volume than previous year. The top-rank international city pair was within Asia-Pacific, while domestic cargo shipment between Bangkok metropolis and regional airports within Thailand.

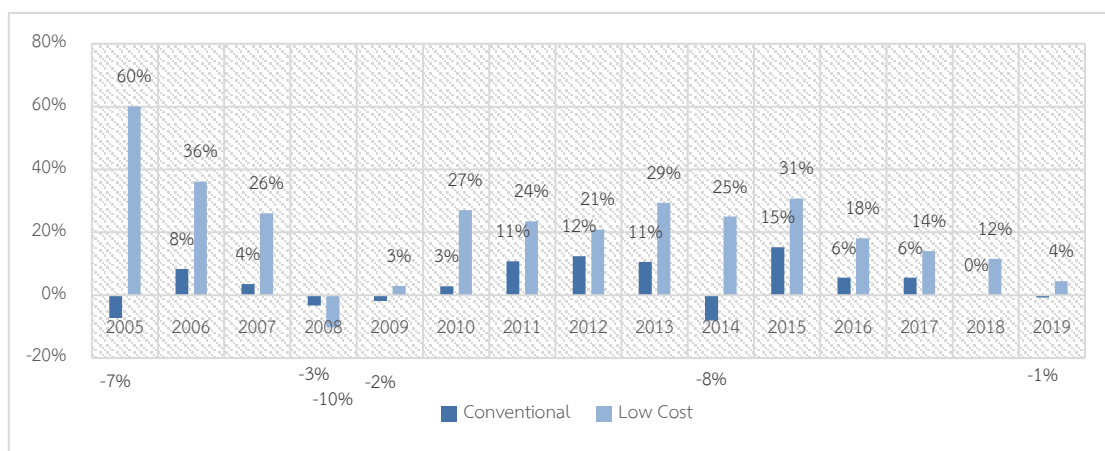

LOW COST CARRIERS AIR TRAFFIC

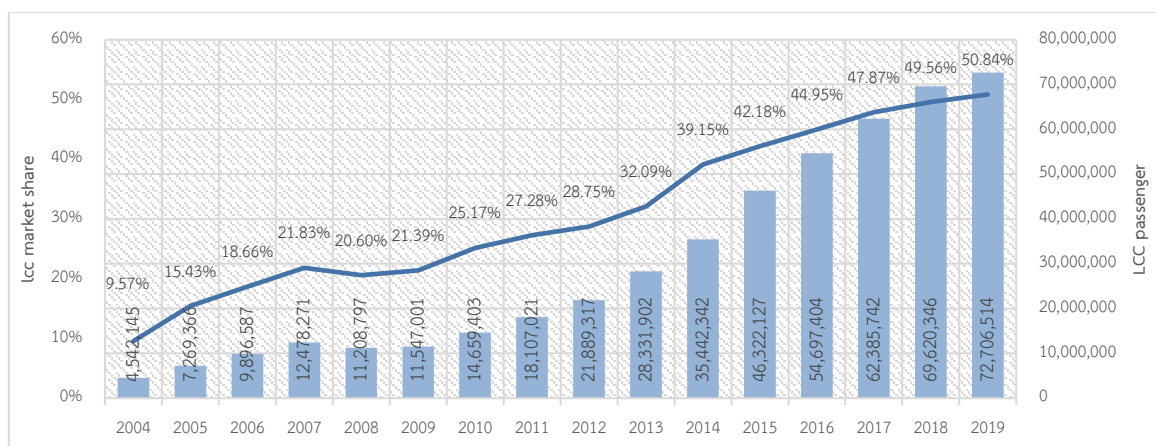

In 2003, the low cost airlines have launched in Thailand. The first low cost airline in Thailand was One-Two-Go airline operated by Orient Thai Airlines in December 2003. Thai Air Asia and Nok Air were active respectively in early and mid-2004. The low cost market in Thailand

boosted significantly despite economic recession in 2008 and 2019. Low cost carriers can manage to capture high growth when compared with conventional carriers. However, due to airport capacity constraints, the growth tended to be diminished over recent years.

LCC in Thailand significantly increased from 4.54 million in 2004 to 72.71 million in 2019, with a CAGR of 16.6% over the past 15 years. Low cost airlines currently held about half of passenger market share. The drastic increased took place after Thai Air

Asia switched from Suvarnabhumi to Don Mueang in 2011 and the birth of Thai Lion Air in 2013. Passengers highly gained more than 50 million since 2011, while took about a decade to reach the first 20 million passengers.

LIST OF LOW COST CARRIERS IN THAILAND

In 2019, AOT accommodated 72.71 million of passengers and 466,756 flights of low cost airlines, with 4.4% and 3.7% growth respectively. These numbers of LCC's

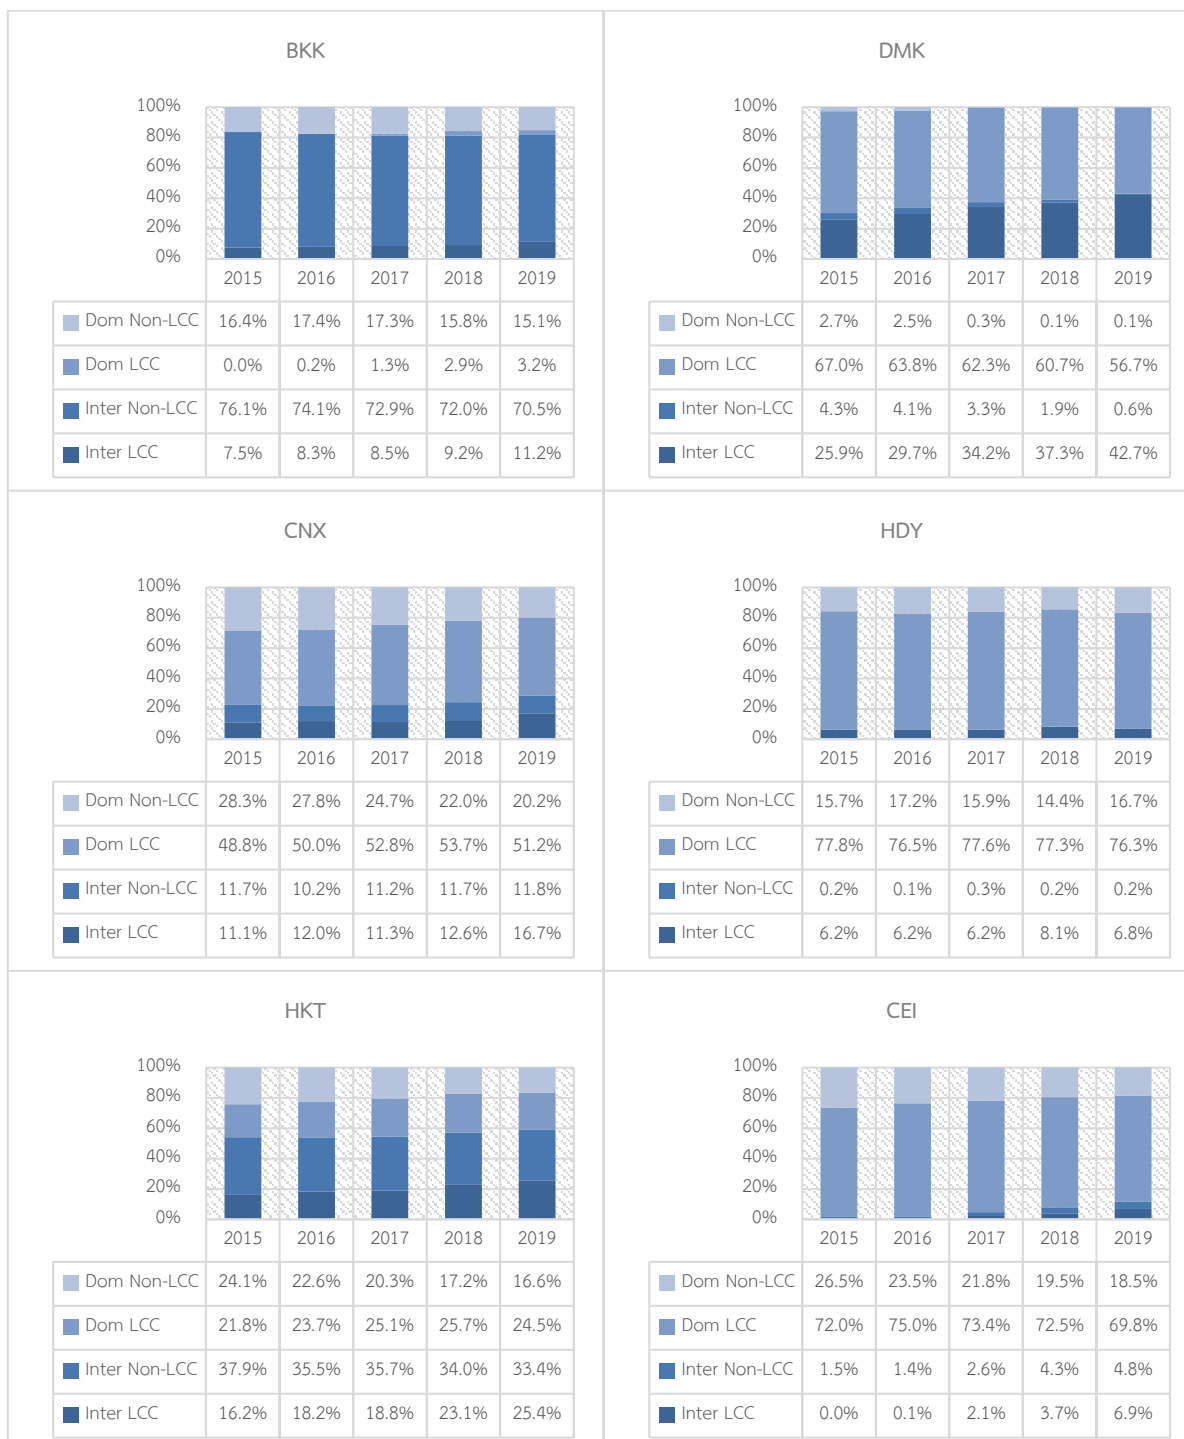

passenger represent 50.8% of total passenger while LCC's aircraft movement represent gained market share of 52.2% percent among overall AOT air traffic.

LCC vs NON-LCC PASSENGER MARKET SHARE

The traffic of low cost airlines has gained more market share for these recent years, especially in domestic market. In 2019, about half of total passenger accommodated by AOT airports travelled

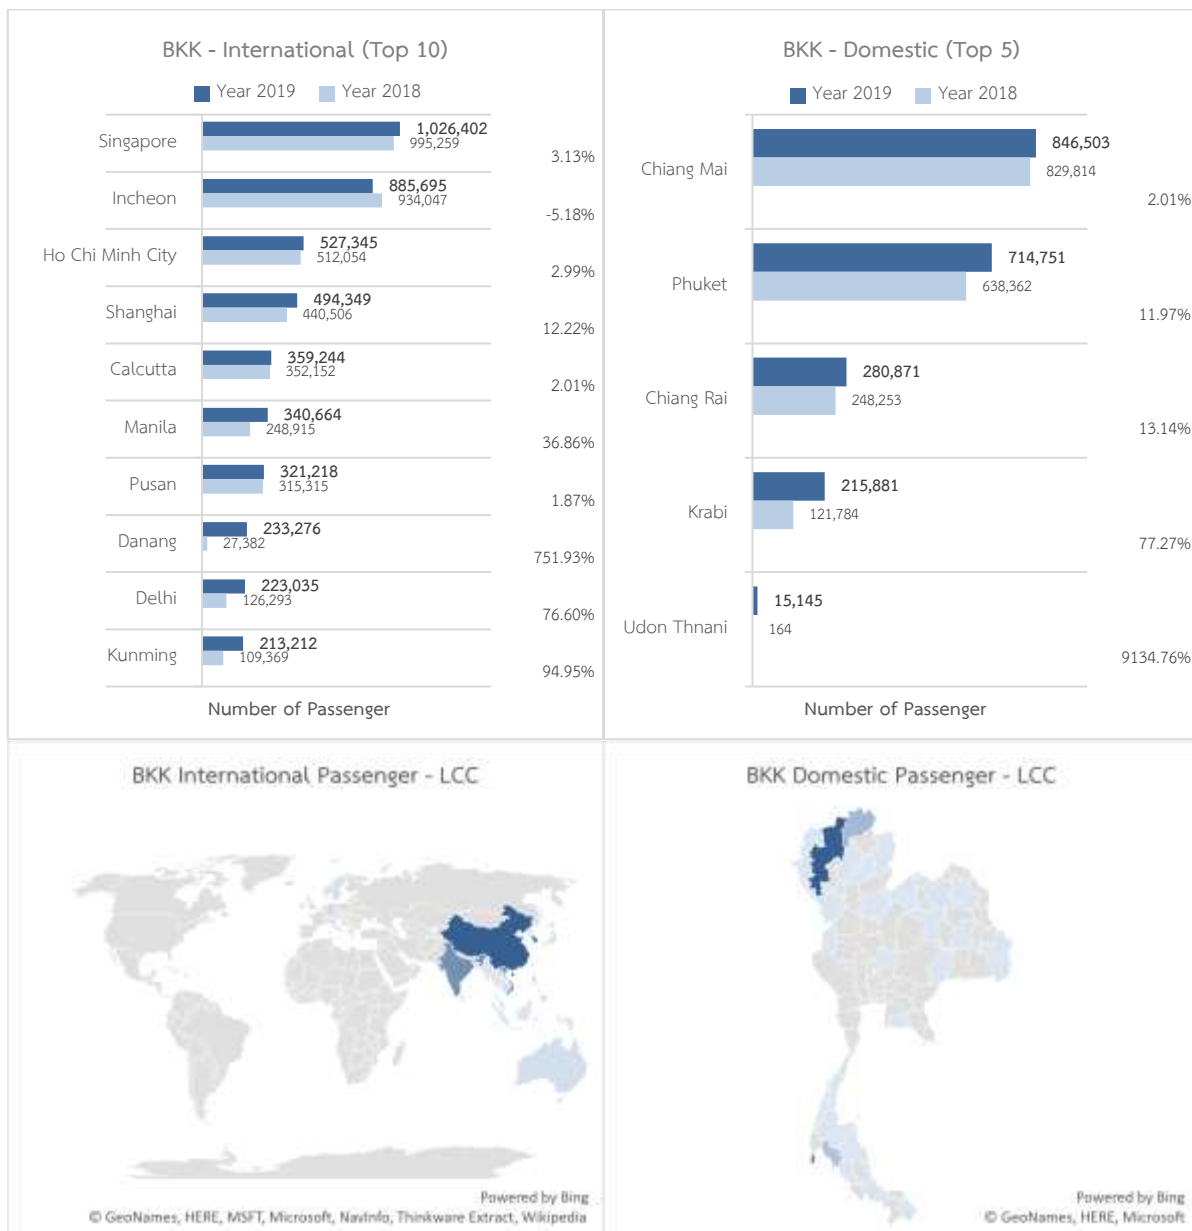

by low cost airlines, with can be divided into more than 70% of domestic and 37% of international passengers travelled using low cost airlines.

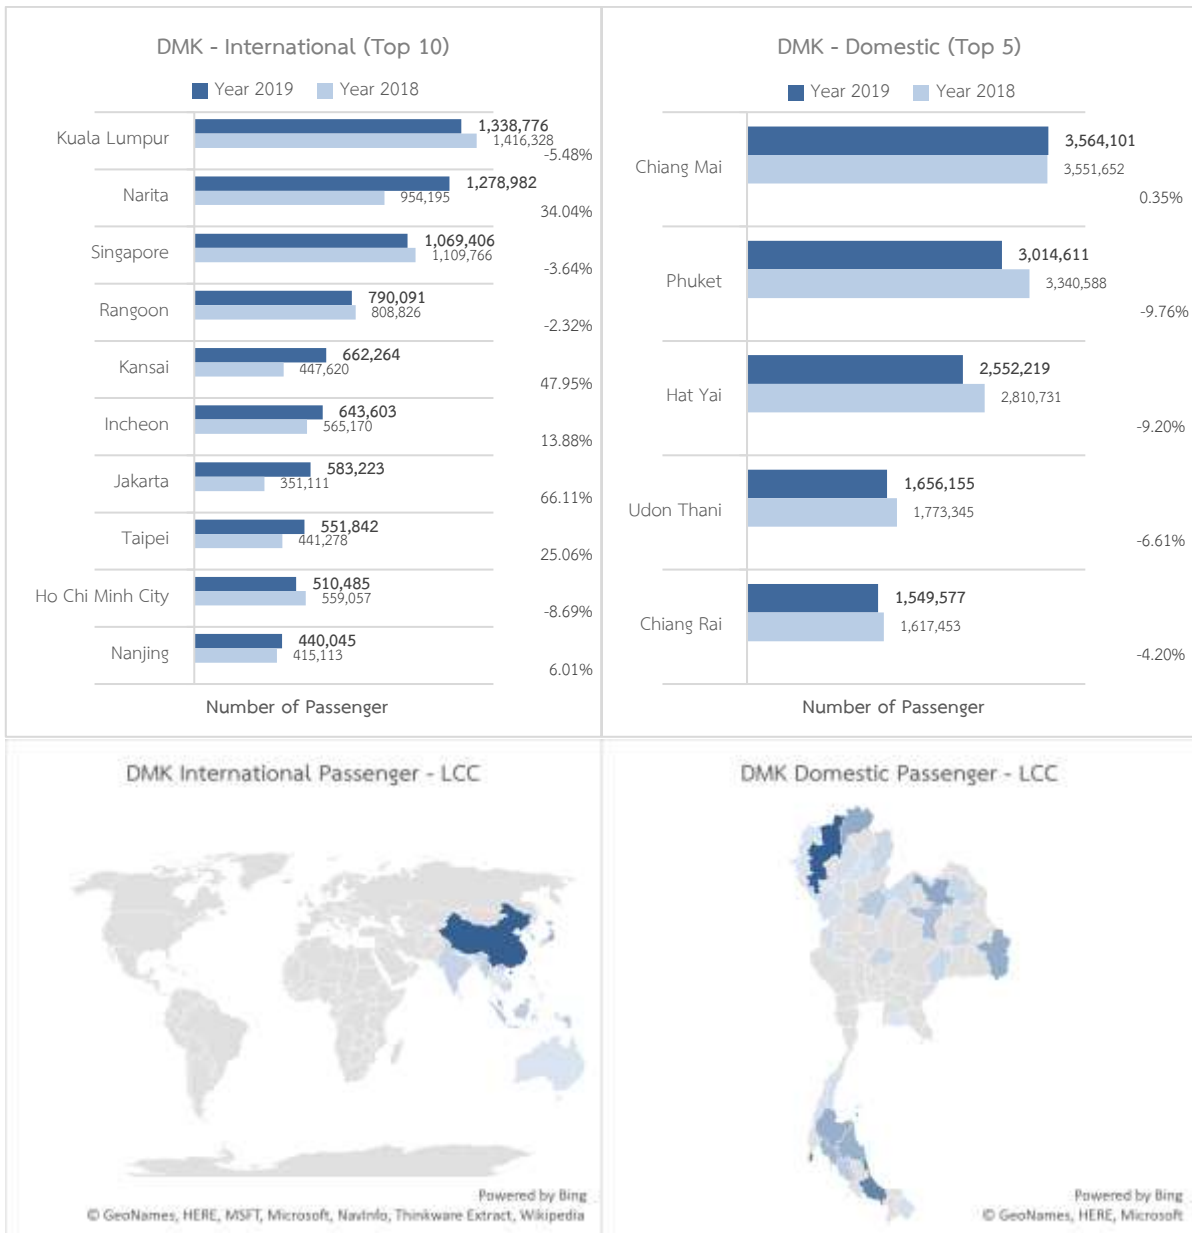

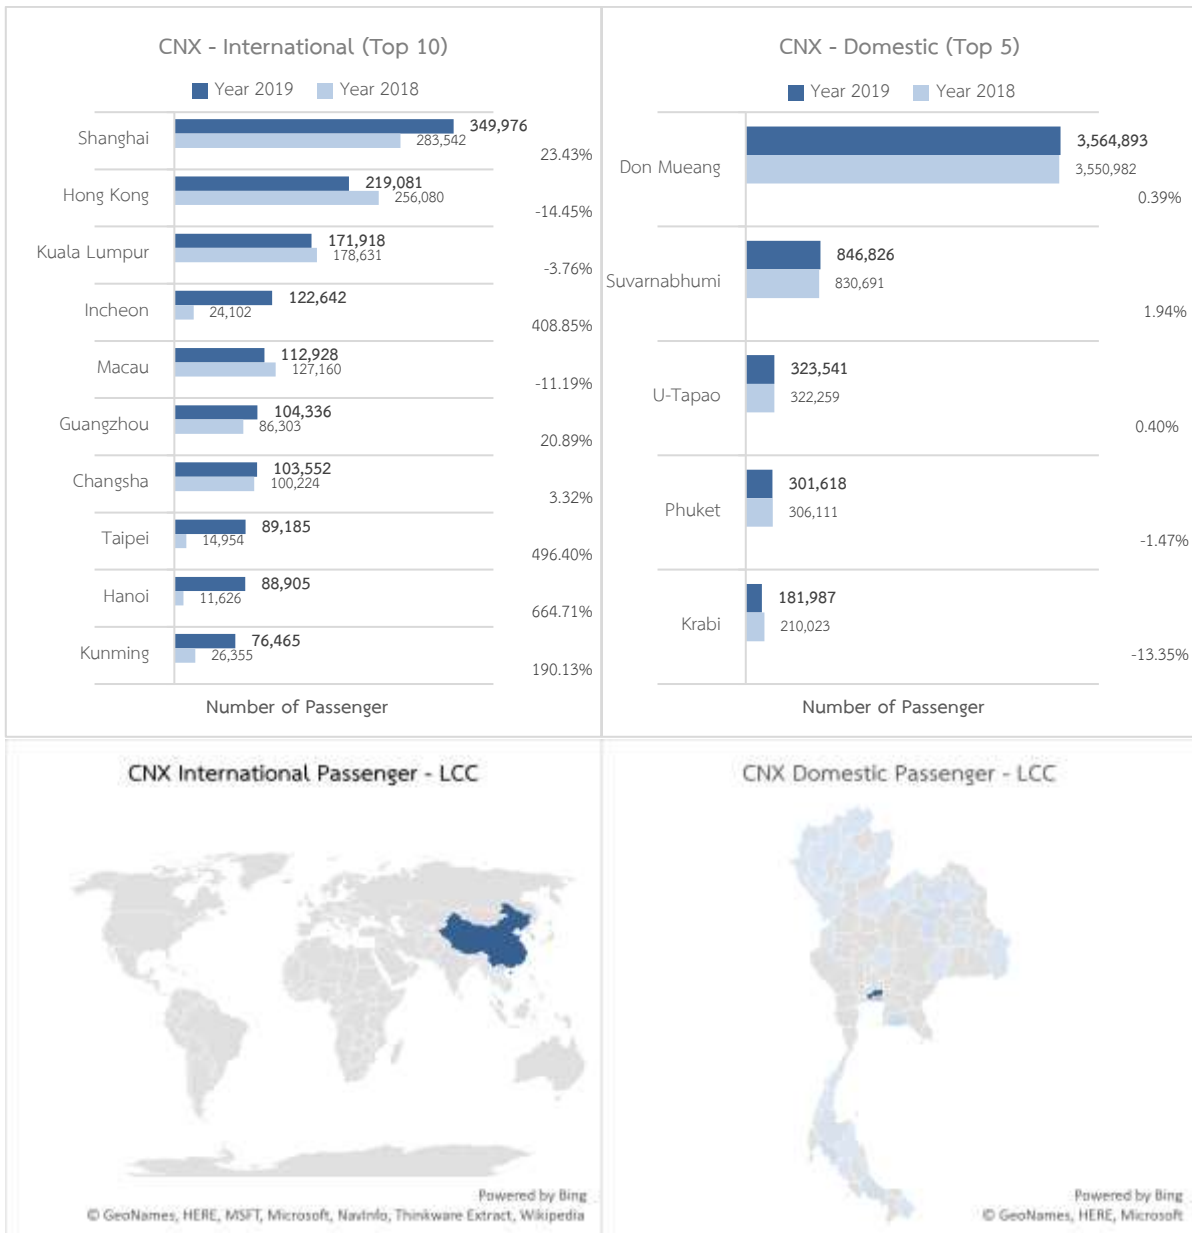

ORIGINAL/DESTINATION AIRPORTS RANKED BY LOW COST CARRIERS' PASSENGERS

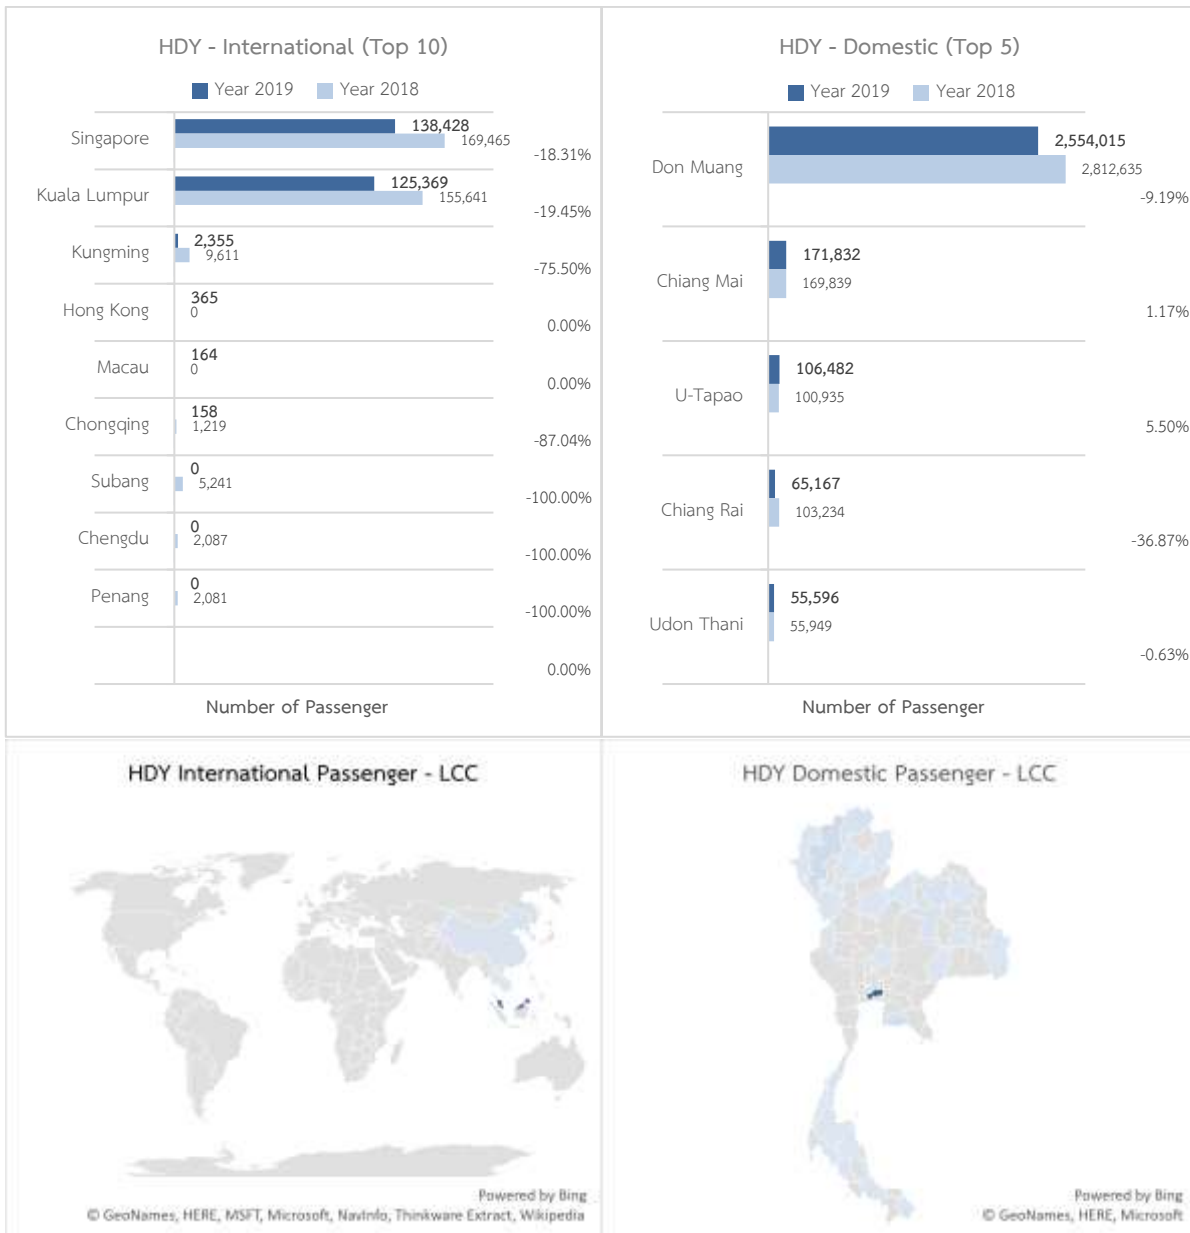

Most international passengers travelled with low cost airlines were between Thailand and China, followed by destinations within Southeast Asia.

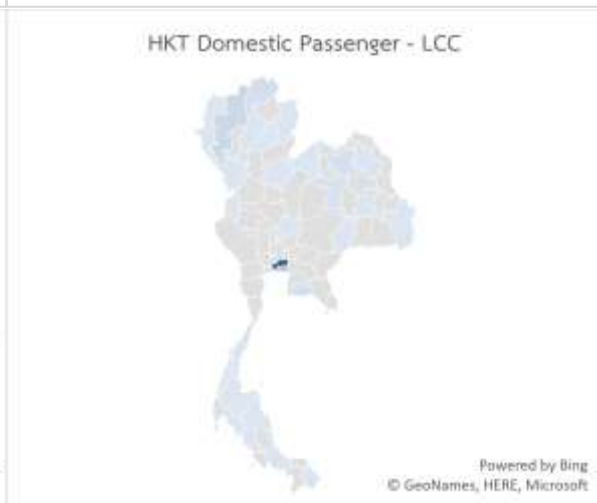

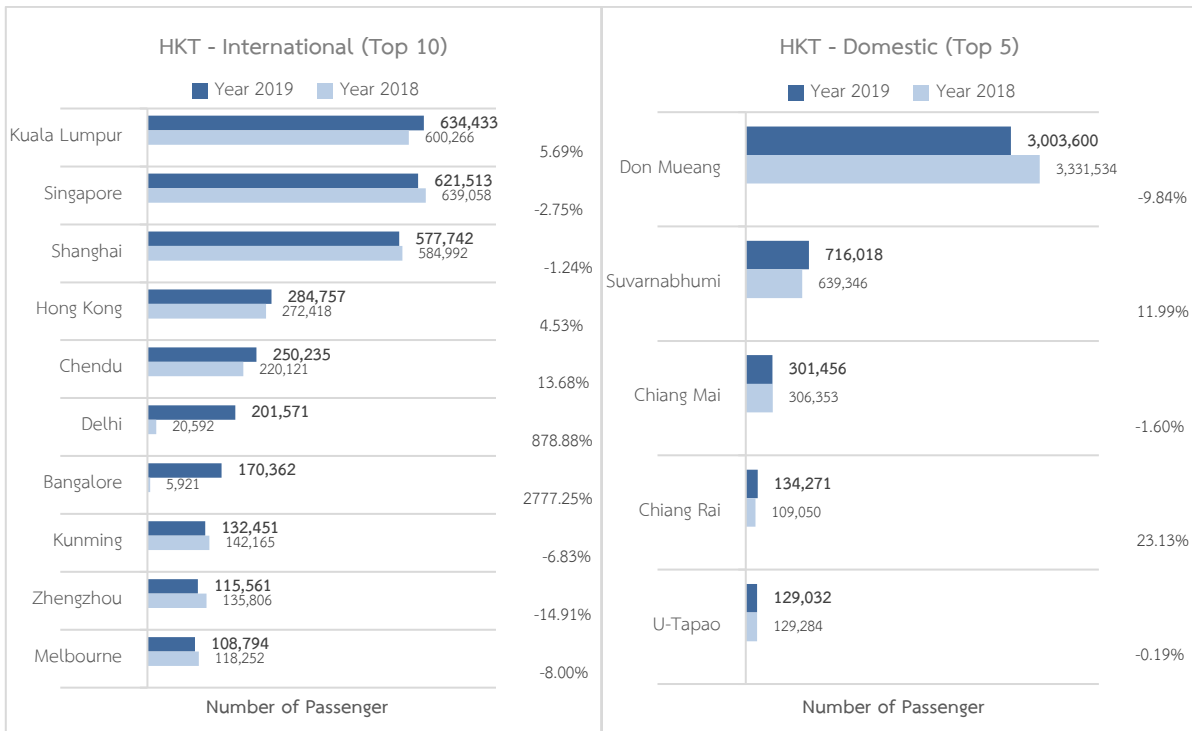

For domestic passengers, most were traveling between both Bangkok airports and major regional travel destinations such as Chiang Mai and Phuket.

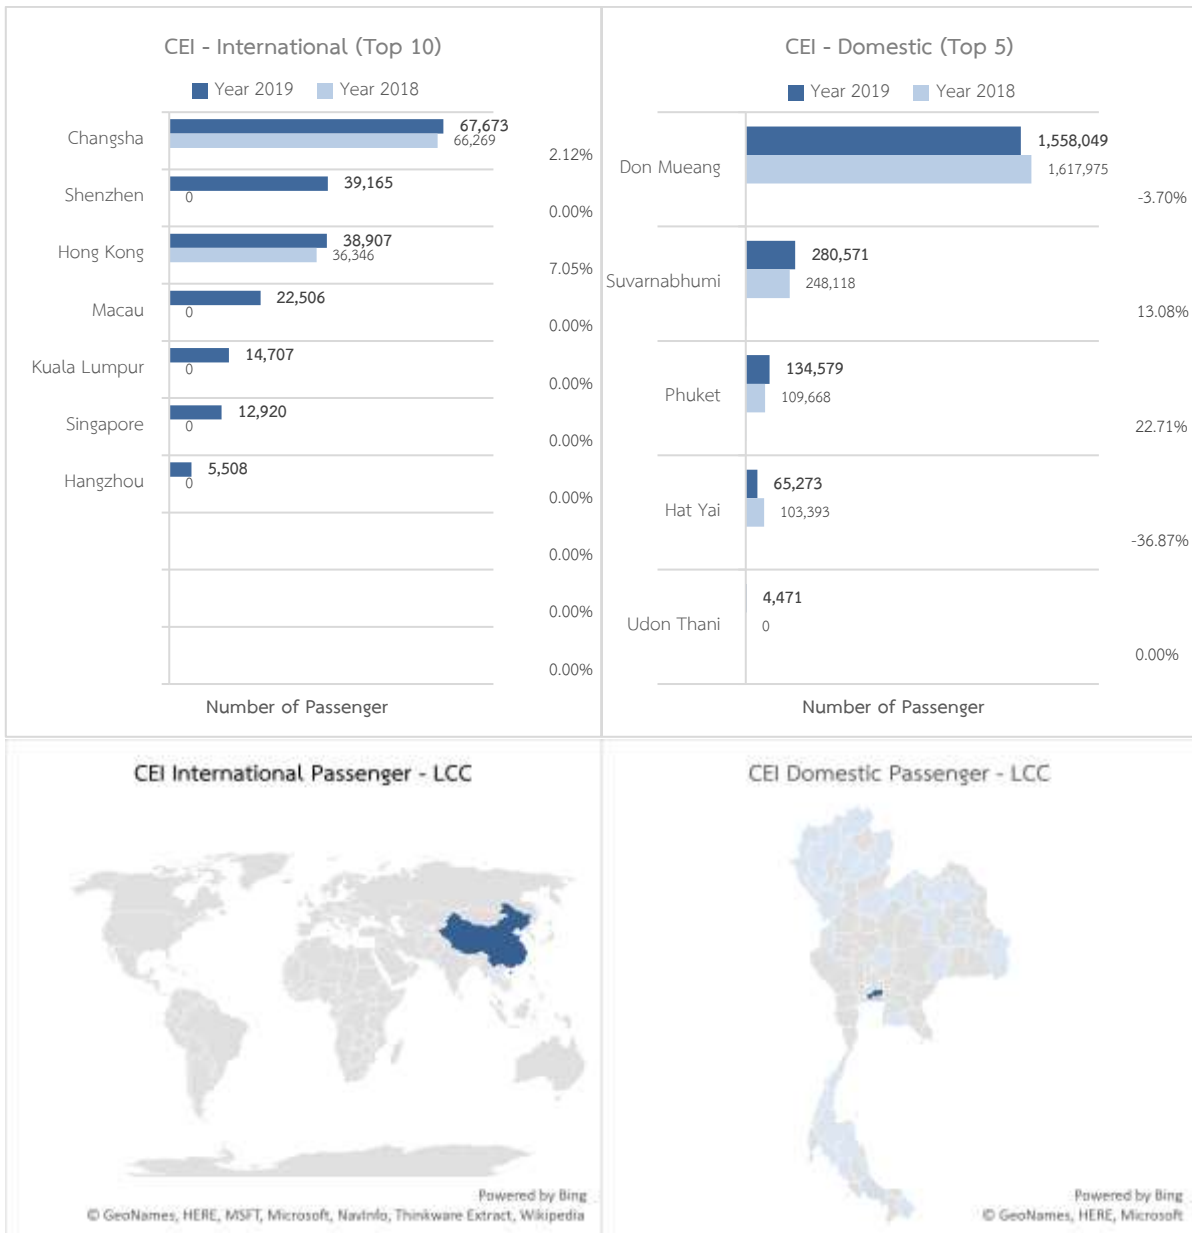

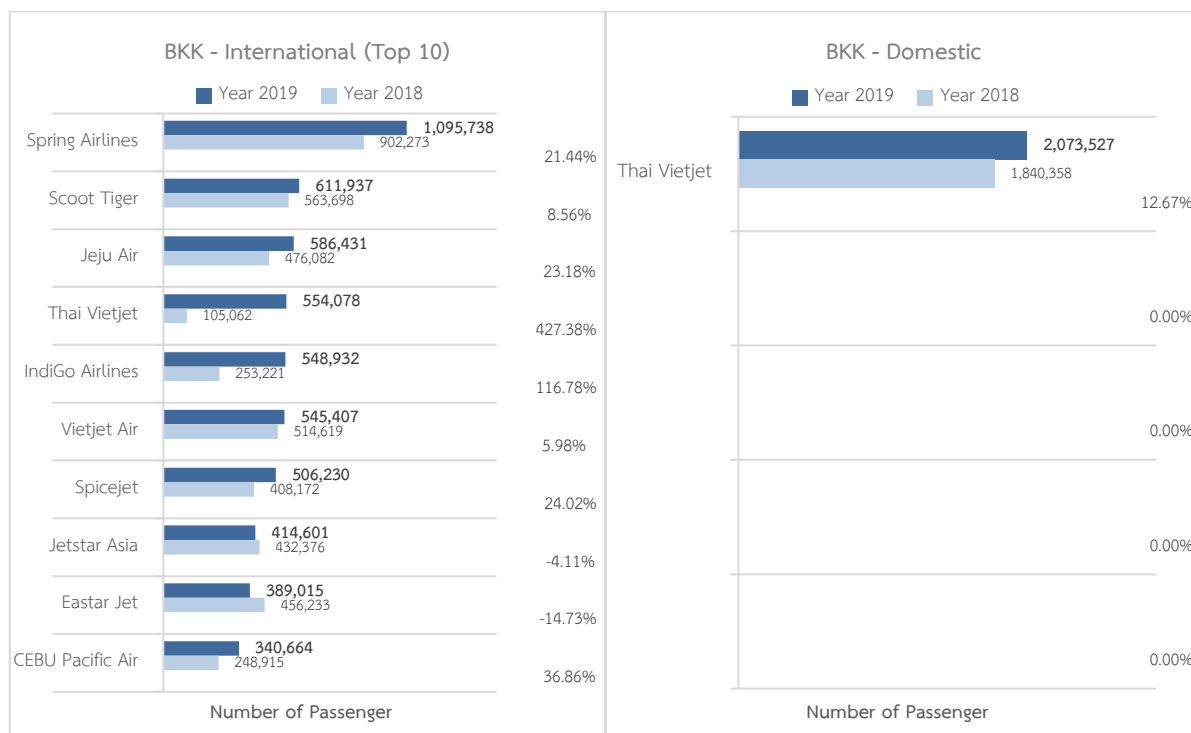

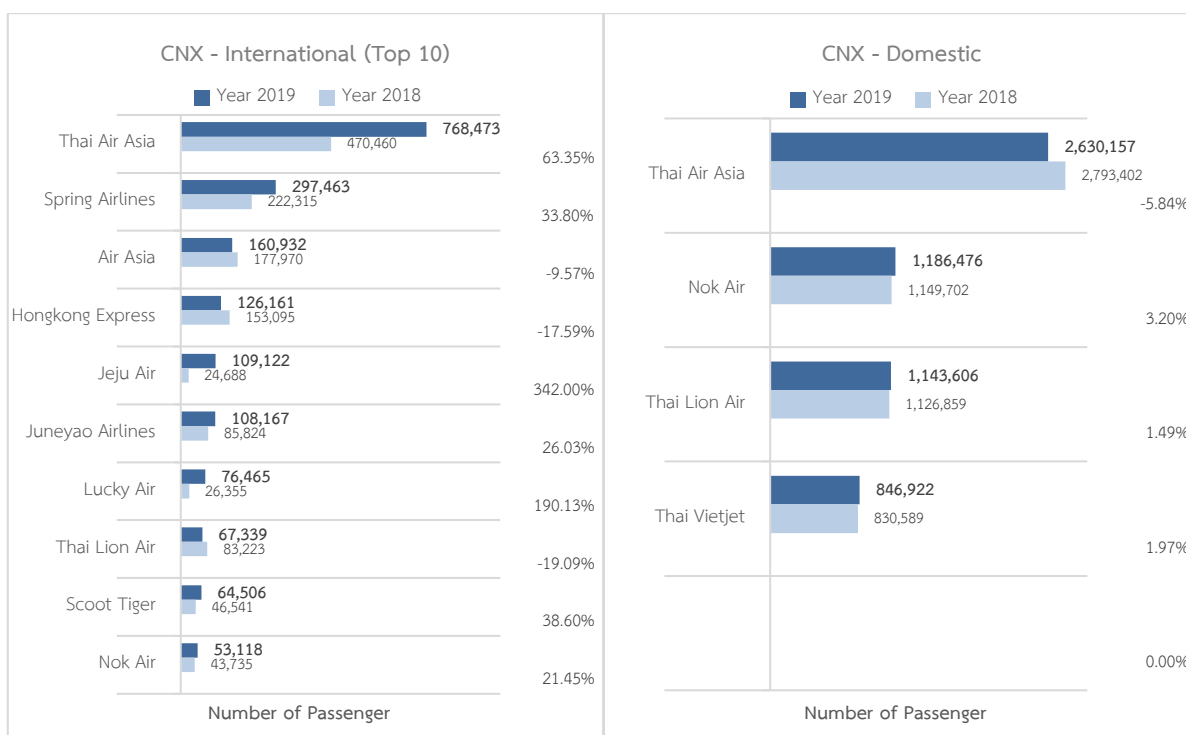

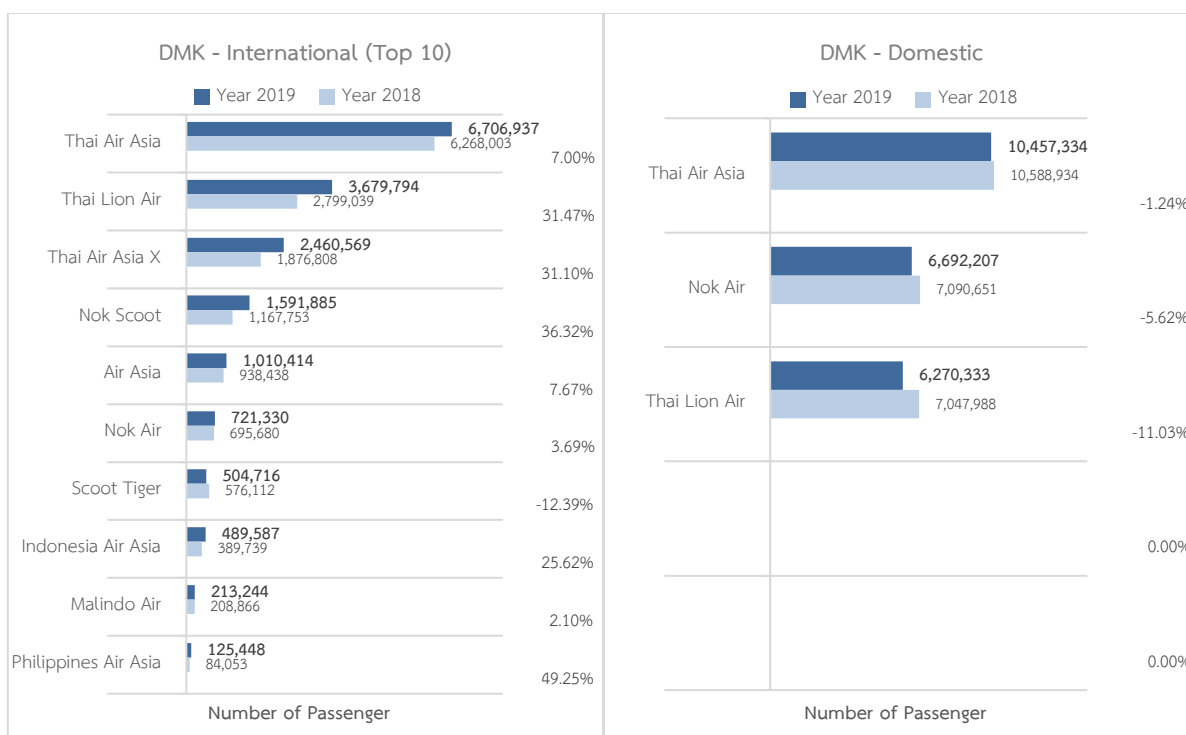

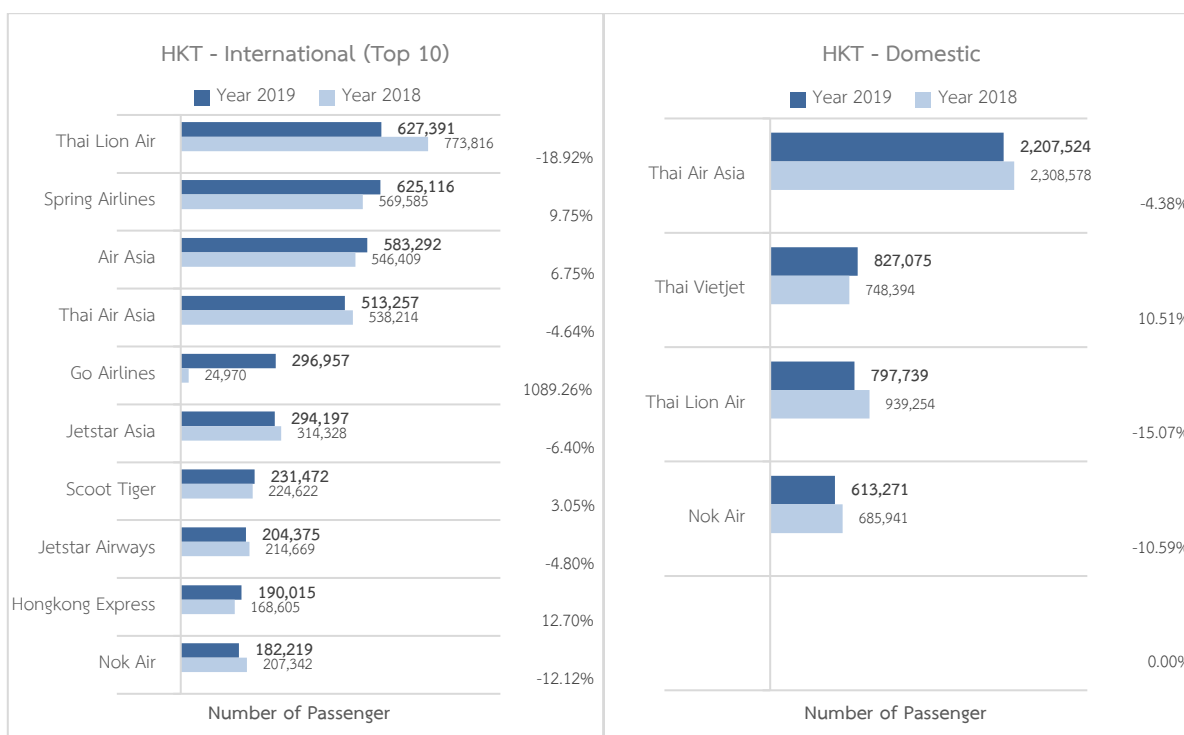

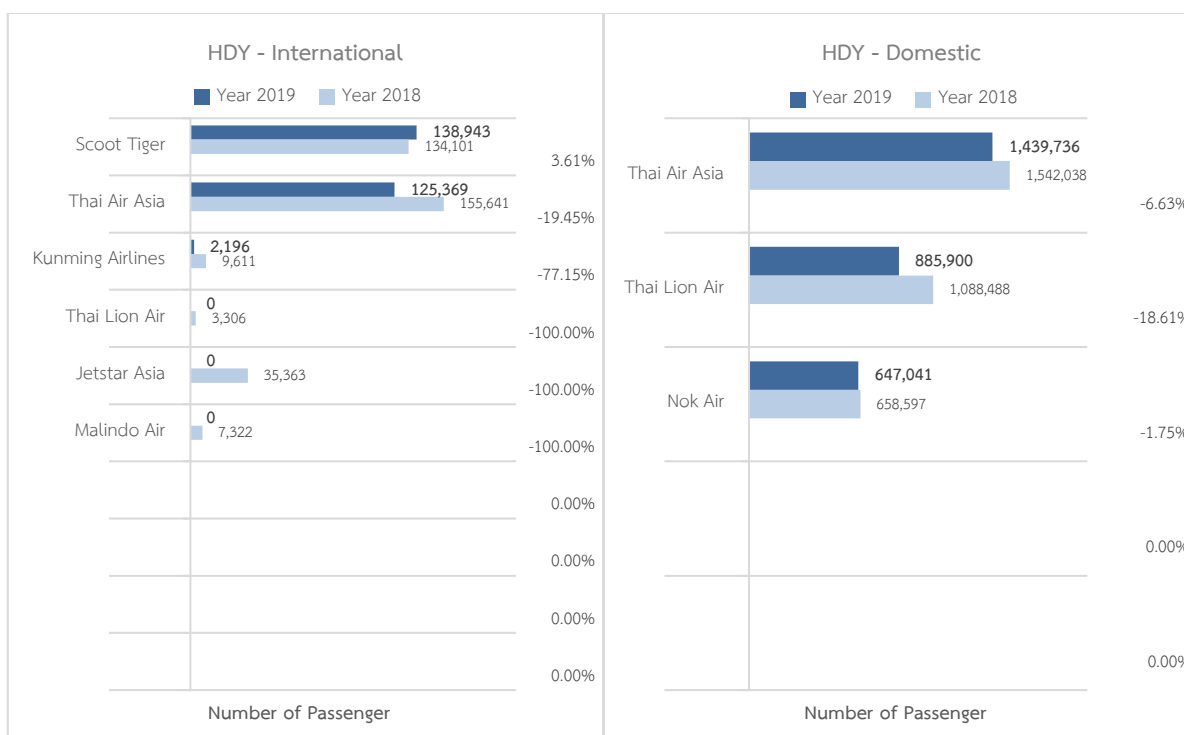

LOW COST CARRIERS RANKED BY PASSENGER TRAFFIC

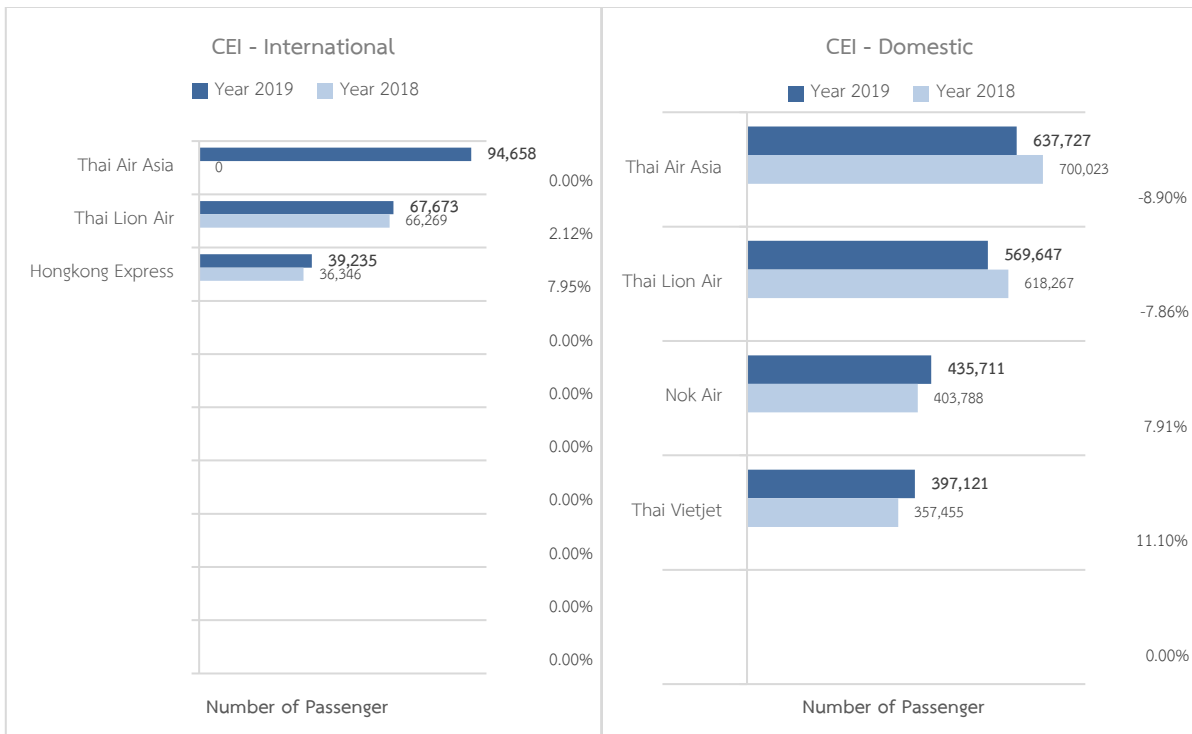

In 2019, local LCCs continued to international market orientation. The airport capacity constraints and domestic economic situation were main factors that

caused airlines to change their business strategy. Therefore, the number of international air traffic increased while domestic air traffic had slowdown.
