

2023 AIRPORT TRAFFIC REPORT

Airports of Thailand Public
Company Limited

Preface

We are pleased to present the Airports of Thailand Public Company Limited (AOT) 2023 Airport Traffic Report, an authoritative resource detailing the operational performance of the six major airports under our management: Suvarnabhumi Airport (BKK), Don Mueang International Airport (DMK), Chiang Mai International Airport (CNX), Hat Yai International Airport (HDY), Phuket International Airport (HKT), and Mae Fah Luang-Chiang Rai International Airport (CEI).

This comprehensive report provides a detailed account of the actual data collected throughout the year, reflecting the dynamic and multifaceted operations across our airports. Each section of the report meticulously covers various aspects of airport activities, including passenger traffic, aircraft movements, cargo volumes, and other critical metrics that define our operational landscape.

The data presented herein is the result of rigorous collection and analysis processes, ensuring its accuracy and relevance for stakeholders, researchers, and policymakers. Please note that this report intentionally focuses on delivering fact-based data without additional analysis, to maintain objectivity and provide a clear, unembellished view of our airport operations. It is our hope that this report will serve as a valuable tool for understanding and enhancing the performance of our airports, supporting AOT's mission to deliver world-class aviation infrastructure and services.

Sincerely yours,

Air Transport Information and Slot Coordination Division,
Corporate Strategy Department,
Airports of Thailand Public Company Limited (AOT)
