ASL NEWSLETTER

April 2018

- **2018 Karp Prize to be Awarded at the 2018 North American Annual Meeting.** The ninth Carol Karp Prize is to be jointly awarded to Matthias Aschenbrenner, Lou van den Dries, and Joris van der Hoeven for their work in model theory, especially on asymptotic differential algebra and the model theory of transseries. The prize will be awarded at the ASL North American Annual Meeting in May. The Karp Prize, established in 1973 in memory of Professor Carol Karp, is awarded every five years. The award is made by the Association, on the recommendation of the ASL Committee on Prizes and Awards, for a “connected body of research, most of which has been completed in the time since the previous prize was awarded.” The winners will share a \$5,000 cash award. A Lecture on the prize-winning work will be delivered at the award ceremony.
- **ASL Secretary-Treasurer and Office Transition.** Charles Steinhorn will step down as ASL Secretary-Treasurer on May 31, 2018. The ASL administrator, Fran Whitney, is retiring at the end of April 2018. The ASL Council has approved the appointment of Russell Miller (CUNY) and Reed Solomon (Storrs) to share the Secretary-Treasurer duties for the remainder of Steinhorn’s term that ends on January 1, 2020. Thereafter, Miller and Solomon will be eligible for election to (renewable) 3-year terms. The ASL office will move from Vassar to the University of Connecticut in early May, and a new administrator will be hired to staff the office. The new ASL office email address will be asl@uconn.edu, and the new postal address will be: ASL, Department of Mathematics, University of Connecticut, 341 Mansfield Road, U-1009, Storrs, CT 06269-1009, USA. More information on this transition will be available soon.
- **2018 Sacks Prize.** The ASL invites nominations for the 2018 Sacks Prize for the most outstanding doctoral dissertation in mathematical logic. Nominations must be received by September 30, 2018. The Sacks Prize was established to honor Professor Gerald Sacks of MIT and Harvard for his unique contribution to mathematical logic, particularly as adviser to a large number of excellent Ph.D. students. The Prize was first awarded in 1994 and became an ASL Prize in 1999. The Fund on which the Prize is based is now administered by the ASL and the selection of the recipient is made by the ASL Committee on Prizes and Awards. The Sacks Prize will consist of a cash award plus five years free membership in the ASL. For general information about the Prize, visit <http://www.aslonline.org/info-prizes.html>.

Anyone who wishes to make a nomination for the 2018 Sacks Prize should consult the webpage http://www.aslonline.org/Sacks_nominations.html for the precise details of the application process. A brief summary of the procedure is provided below.

Students who defend their dissertations (equivalent to the American doctoral dissertation) between October 1, 2017, and September 30, 2018, are eligible for the Prize this year. This is an international prize, with no restriction on the nationality of the candidate or the university where the doctorate is granted. Nominations should be made by the thesis adviser, and consist of: name of student, title and 1–2 page description of dissertation, date and location of the thesis defense, letter of recommendation from the adviser, an electronic copy of the thesis in pdf form, or the address of a website from which an electronic copy in pdf form can be downloaded, and an independent second letter of recommendation. Nominations and questions about the Prize should be sent to the Committee Chair, Thomas Scanlon; pdf files sent as attachments by email to scanlon@math.berkeley.edu are preferred. The form of such letters and other pertinent details can be found at the website above, and need to be read prior to submitting a nomination. Correspondence should be addressed to Thomas Scanlon, University of California, Berkeley, Mathematics Department, Evans Hall, Berkeley, CA, 94720-3840, USA.

Those wishing to contribute to the Sacks Prize Fund may send contributions to the ASL office (ASL, Depart-

ment of Mathematics, University of Connecticut, 341 Mansfield Road, U-1009, Storrs, CT 06269-1009, USA); All such contributions are tax-deductible within the USA.
