

The 11-foot SATURN SD330 inflatable boat is our BEST selling model. The SD330 will take up to a 15 HP short shaft motor and will carry up to 5 people maximum or 4 people comfortably.

The SD330 is great as a tender for yachts or sailboats. This boat can also be used as a lifesaving raft in case of an emergency. The SD330 is great as a fishing boat. You can stand on the air floor just the same way you would stand on a plywood floor. The SD330 was tested to run nicely with an electric trolling motor. This boat is a must for RV owners or anyone who wants to be on the water quick and on a budget. Double layers of fabric at the bottom of the tubes and rub-strake protector along the keel provide extra protection from sharp rocks and abrasive sand. The safety valve will prevent excessive air pressure in the boats chambers.

SATURN SD330 FEATURES:

- All around rope grab line.
- Separate internal air chambers.
- One-way drain valve with plug.
- All around, durable rubber strike.
- Safety valve to prevent over inflation.
