

Sa(0.2)

**Seismic hazard map # 1 (of 5)
2010 National Building Code of Canada**

Median, 5% damped spectral acceleration (units = g; 1g ≈ 9.8 m/s²)

0.095	0.20	0.30	0.40	0.50	0.60	0.80	1.0	1.5	g
-------	------	------	------	------	------	------	-----	-----	---

0 500 1000 km

Spectral acceleration for a period of 0.2 seconds at a probability of 2%/50 years for firm ground conditions (NBCC soil class C).
