

Meadow Lake Wind Farm

Benton & White Counties, Indiana

Meadow Lake Wind Farm consists of six phases and is located in northwestern Indiana in Benton and White counties, northwest of Indianapolis. The site is advantageous as a location for modern wind power electrical generation as the area has a strong, proven wind resource.

801.25 MW
ONLINE SINCE **2009**

Meadow Lake Wind Farm's generation is equivalent to the average consumption of more than **213,000 Indiana homes**.¹

Headwaters I saves more than **1.4 billion gallons** of water each year and prevents the air pollution that causes smog, acid rain, and climate change.²

Economic Benefits

CAPITAL INVESTMENT³
\$1 billion+

\$17.3 million
PAID TO LOCAL GOVERNMENTS⁴

\$51.3 million
PAID TO LANDOWNERS

\$65.4 million+
SPENT LOCALLY⁵

PERMANENT JOBS⁶
63 jobs created

CONSTRUCTION JOBS⁶
429 jobs created

All economic data reflects the estimated amount throughout the life of the project.

The phases of Meadow Lake Wind Farm consist of the following turbines:

- Meadow Lake I: 121 Vestas V82 1.65 MW turbines
- Meadow Lake II: 66 Acciona AW-82 1.5 MW turbines
- Meadow Lake III: 69 GE sle 1.5 MW turbines
- Meadow Lake IV :47 Suzlon S88 2.1MW turbines
- Meadow Lake V: 50 Vestas V110 2 MW turbines
- Meadow Lake VI: 49 Vestas V136 3.6 MW turbines and 12 Vestas V110 2 MW turbines.

Ameren, ComEd, Cummins, Hoosier Energy, Nestle, and Wabash Valley Power Alliance purchase energy from Meadow Lake.⁷

Meadow Lake **provides to the national energy security** for the state of Indiana and the United States, helping diversify domestic supply.

Wind is the **largest source** of renewable electricity generation in the United States, **providing 13%** of the country's electricity.⁸

About Us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 58 wind farms, nine solar parks, and eight regional offices across North America, EDPR NA has developed more than 8,800 megawatts (MW) and operates more than 8,200 MW of onshore utility-scale renewable energy projects. With more than 950 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is a wholly owned subsidiary of EDP Renewables (Euronext: EDPR), a global leader in the renewable energy sector. EDPR is the fourth largest renewable energy producer worldwide with a presence in 28 markets across Europe, North America, South America and Asia Pacific. EDPR has a robust development portfolio with first-class assets and a market-leading operational capability in renewables. These include wind onshore, utility scale and distributed solar, wind offshore (through its 50/50 JV - OW) and technologies complementary to renewables such as batteries and green hydrogen.

EDPR is a division of EDP (Euronext: EDP), a leader in the energy transition with a focus on decarbonization. EDP – EDPR's main shareholder – has been listed on the Dow Jones Index for 14 consecutive years, recently being named the most sustainable electricity company on the Index.

¹Power generation calculated using a 35% capacity factor for wind based on 2019 AWEA Wind Powers America Annual Report. Household consumption based on the 2018 EIA Household Data monthly average consumption by state.

²Assumes 0.58 gallons of water consumed per kWh of conventional electricity from Lee, Han, & Elgowainy, 2016.

³Assumes the average cost of an installed wind farm is \$1.4 million/MW for projects built after 2018, \$1.6 million/MW for projects built in 2017, \$1.7 million/MW for projects built between 2012 and 2016, and \$2.2 million/MW for projects built before 2012. Based on U.S. DOE 2018 Wind Technologies Market Report, U.S. DOE 2017 Wind Technologies Market Report, and U.S. DOE 2015 Wind Technologies Market Report.

⁴Cumulative local government payments from 2010 through 2020.

⁵Includes vendor spending, property taxes, landowner payments, and wages from site jobs. These numbers are presented for example purposes only, and actual payments may vary.

⁶Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

⁷Meadow Lake I Wind Farm Offtakers: ComEd (REC Contract). Additional offtakers privately purchase energy from Meadow Lake I Wind Farm. Meadow Lake II Wind Farm Offtakers: ComEd (REC Contract); Ameren (REC Contract). Additional offtakers privately purchase energy from Meadow Lake II Wind Farm. Meadow Lake III Wind Farm Offtakers: Ameren (REC Contract). Additional offtakers privately purchase energy from Meadow Lake III Wind Farm. Meadow Lake IV Wind Farm Offtakers: Ameren (REC Contract). Additional offtakers privately purchase energy from Meadow Lake IV Wind Farm. Meadow Lake V Wind Farm Offtakers: Hoosier Energy (PPA); Wabash Valley Power Alliance (PPA). Meadow Lake VI Wind Farm Offtakers: Cummins Inc. (PPA); Wabash Valley Power Alliance (PPA); Nestle (PPA)
