

Coordinated Service Solutions

With approximately 45 locations and over 2,500 employees, Industrial Service Solutions is uniquely positioned to offer a service level equivalent to an OEM, but quicker and more cost-effective. We manufacture, supply, install, integrate, and service critical to process equipment for a broad set of industrial markets. Our regional service and supply shops combined with our nationwide field support, makes us the largest independent provider in the U.S. and your best choice for long term support.

FIELD SERVICES

- + Planned Turnarounds
- + Emergency Repairs
- + Onsite Maintenance
- + Inspection Services
- + Expansion Projects
- + Compliance & Efficiency
- + System Integration

SUPPLY SERVICES

- + Product & Part Distribution

SHOP SERVICES

- + Repairs & Remanufacturing
- + Fabrication & Machining
- + Inspection Services
- + System Integration

ENGINEERING SERVICES

- + Electrical Engineering
- + Mechanical Engineering
- + Civil Engineering
- + Automation Engineering

INDUSTRIES SERVED

- + Aircraft & Aerospace
- + Cement & Aggregates
- + Chemical & Petrochemical
- + Food & Beverage
- + General Manufacturing
- + Marine & Dredging
- + Mining & Metals
- + Power Generation
- + Downstream Oil & Gas
- + Midstream Oil & Gas
- + Upstream Oil & Gas
- + Plastic & PVC
- + Pulp & Paper / Wood Products
- + Rail & Transit
- + Tire & Rubber
- + Water & Wastewater

ADVANTAGES

- + ISNetworld® member with elite safety record and tailored safety programs that exceed industry averages; Avetta & OSHA compliant
- + Regional shops are fully equipped to repair and overhaul all process and rotating equipment types, brands, and applications
- + Nationwide field services with in-house engineering support
- + Tenured highly skilled technicians supported by a flex workforce of vetted talent for unmatched response and turnaround times
- + Competitively priced spare parts available when you need them

EXPERTISE

- MOTORS & PUMPS
- VALVES & ACTUATION
- BOILERS & COMPRESSORS
- PROCESS EQUIPMENT
- INSPECTION SERVICES
