WELCOME TO CIRCUIT OF THE AMERICAS

Circuit of The Americas is THE premier destination for world-class motorsports and entertainment in the United States. Set on 1,200 acres in the rolling hills just outside downtown Austin, Circuit of The Americas has hosted the biggest names in racing, sports, music and even movies and television since 2012. At its heart is a 3.41-mile racetrack that was designed to challenge the world's most exacting competitors while providing a thrilling spectacle for audiences. The facility is truly a multi-purpose venue for unparalleled experiences.

The 20-turn, counter-clockwise circuit takes advantage of the naturally undulating landscape, including an intimidating 133-foot hill at Turn 1. Circuit of The Americas is the home of the Formula 1 United States Grand Prix, and has been for over a decade now, and is home to the only MotoGP race in the country – the Red Bull Grand Prix of The Americas. In addition, The Circuit currently hosts NASCAR, and the FIA World Endurance Championship, and has previously hosted ESPN's X Games, INDYCAR, IMSA WeatherTech SportsCar Championship, Pirelli World Challenge and more.

Nestled within the track is Germania Insurance Amphitheater, one of the largest outdoor amphitheaters in Central Texas with a seating capacity of 13,000 people. This unique treasure in the Live Music Capital of the World has hosted some of the biggest names in music and entertainment, including Texas icon Willie Nelson, Jimmy Buffett, KISS, Nine Inch Nails, Kanye West, Kenny Chesney, Drake, Maroon 5, Muse, One Republic, Kelly Clarkson, Odesza and more. When the Circuit needs to make room for a festival-like music experience, the Germania Insurance Super Stage takes performances to a new level. The Super Stage lawn has a capacity of 83,000 and has provided dancing room for fans to enjoy superstars such as Taylor Swift, Billy Joel, Metallica, Bruno Mars, Elton John, P!NK, Justin Timberlake, and many more. The Circuit also boasts the iconic 251-foot observation tower, at the center of the track, the all-new T11 Car Condos, a one-mile high-speed karting track, an all-new mini golf course, a 12-story starting grid view zip line ride and provides on-site premium RV park with 78 spaces and year-round operations.

Today, Circuit of The Americas has generated in excess of \$8 billion of economic impact to Central Texas through increased tourism and annual operations. The Circuit also continues to be a leader in environmental awareness and sustainability and has helped make advances in educational and scientific fields, including solar car technology, as well as racing and consumer automotive technology. Beyond these methods of giving, Circuit of The Americas contributes to its community through donations, monetary and in-kind, and volunteerism.

With plans for more world championship racing, new amenities, features and new events, Circuit of The Americas continues to set the stage for excitement for many years to come. For an experience as unique as Austin and a rush you'll never forget, come to Circuit of The Americas – where exhilaration happens.

BAHRAIN GRAND PRIX

Date	Mar 02	Race Distance	308.238 km
Circuit Length	5.412 km	Number of Laps	57

You can usually expect great racing and decent amounts of overtaking in Bahrain, while the drivers have to contend with wind, racing under floodlights and the difficulty of finding a decent set-up with the wide temperature fluctuations between sessions. The track's most challenging point is the tight, downhill, off-camber Turn 10 left-hander, while the fast run through Turn 12 is another highlight, allowing the racers to really feel their cars coming alive.

CHINA GRAND PRIX

Date	Apr 21	Race Distance	305.066 km
Circuit Length	5.451 km	Number of Laps	56

The circuit's pleasing form when seen from the air - it's designed to look like the Chinese symbol for 'shang', meaning upwards - is equally pleasing to the drivers on terra firma. There's a unique start to the lap as the drivers fly into the ever-tightening Turns 1 and 2, before they dart left through 3 and 4. The super-high g force Turns 7 and 8 are loved by the drivers, while the circuit also features one of the longest straights on the calendar, the 1.2km stretch that separate Turns 13-14.

The drivers love the Circuit de Barcelona-Catalunya, which is just as well, because they spend huge amounts of time pounding around it during winter testing. The track is a good mix of high- and low-speed corners, with the challenging Turn 3 right-hander a great chance to evaluate the balance of the car your team's designers have given you to fight with for the season. You don't need us to tell you that Barcelona is one of the world's great cities, even if we just sort of did. Food, culture, beaches - it's all there, making a Spanish Grand Prix holiday a properly attractive proposition.

Spa is among Formula 1 drivers' most loved tracks, with its mix of long straights and challenging fast corners allowing them to push their cars to the edge of their capabilities - if it's dry, that is. The size of the track and the nature of Belgian weather means it can sometimes be raining on one part of the track and dry on another, meaning grip can vary from one corner to the next. Keep an eye on the thrilling Eau Rouge, arguably the most famous sequence of corners in the world, as the drivers flick left, right, and then up the hill through Raidillon.

'Really quick', 'pretty insane', 'crazy' and 'old-school' were words used by the current crop of F1 drivers when asked to describe the Zandvoort track that many of them tackled in their junior category days. We'd also add 'undulating' to that list. The Zandvoort track swoops and flows through the sand dunes, creating a rollercoaster-like feel to the lap. And while the circuit was modernised in time for F1's most recent return - including increasing the banking angle at the famous Tarzan corner to an Indianapolis Motor Speedway-trumping 18 degrees - Zandvoort remains a proper, challenging drivers' track.

Rapido! Formula 1's fastest ever lap was set at Monza - Williams driver Juan Pablo Montoya's 260.6km/h effort during practice for the 2004 Grand Prix - which should give you some idea of the nature of the track the locals call 'La Pista Magica'. Cars are on full throttle for 80% of the lap and hit their Vmax on the circuit's 1.1km start/finish straight. From there, they roar off into the historic park section, where a series of big stops into tight chicanes give the brakes a good workout.

The 5.063km Marina Bay Circuit is one of the most physically demanding on the calendar, its bumpy street surface coupled with humid conditions giving the drivers plenty to think about. With 23 corners, they are working the wheel a lot, too, around the high-speed lap - the physical stress causing them to lose as much as 3kg over the course of a race. The circuit also boasts some of the most unique features of any track on the F1 calendar, including Turn 18, which sees the drivers pass underneath a grandstand.

Like many pre-World War II tracks, Interlagos features banked corners, with the drivers beginning their lap on a sort of half oval - in fact, between 1957 and the track's return to the F1 calendar in 1990, Interlagos could be run as a giant oval. After wiggling through the Senna S and down to Turn 4, the drivers then go through a snaking in-field section with some challenging camber changes, before slinging back up the hill and through the banked final turn.
