# Glossary of acronyms and how to read the tables

Visit Wales and SRI would like to thank all representatives and operators in the attractions sector that provided information for the survey on which this report is based. Without their assistance it would not be possible to collate these figures.

#### Estimates / visit figures unavailable

Figures shown in this report are given in good faith on the basis of information provided by the proprietors of attractions. Please note it can be difficult to differentiate between different types of visitors at certain attractions.

If an attraction estimated their yearly visitor figure then the figure provided by them includes an asterisk (\*).

#### Admission

If an attraction has an admission charge, the adult admission charge for high season is given. If the attraction said they charge for admission but did not provide the admission charge it is marked with NP (= not provided).

Admission charges included in the report are those provided to SRI by operators. These may be different to those quoted on websites.

#### **Attraction categories**

Attractions have been classed by category for analysis purposes. The categories are shown in the table overleaf. Please note that attractions do not always fall neatly into one category. We have classed each attraction into the category in which they best fit.

### Abbreviations

| CATEGORY      | ACRONYM | EXPLANATION                                                                                                                                                                   |
|---------------|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Regions       | М       | Mid Wales                                                                                                                                                                     |
|               | Ν       | North Wales                                                                                                                                                                   |
|               | SE      | South East Wales                                                                                                                                                              |
|               | SW      | South West Wales                                                                                                                                                              |
| Ownership     | AC-NMW  | Amgueddfa Cymru National Museum Wales                                                                                                                                         |

# 1. Headline findings

#### Postponement of the 2019 survey

- 1.1 The Survey of Visits to Tourist Attractions is conducted annually, and each year's survey asks for figures for the previous year.
- 1.2 The Survey of Visits to Tourist Attractions for 2019, due to be conducted in 2020, was postponed due to the COVID-19 pandemic. Many attractions were closed, meaning it was not possible to conduct the survey.
- 1.3 As a consequence of this, attractions were asked for their visitor data for 2019 and 2020 through one survey, conducted in 2021.

#### **COVID-19 related context**

- 1.4 The World Health Organization declared COVID-19 a pandemic on 11 March 2020. On 20 March 2020, the UK Prime Minister announced that the Government were "telling cafes, pubs, bars, restaurants to close tonight" as well as "nightclubs, theatres, cinemas, gyms and leisure centres". This escalated into a full lockdown on 23 March 2020.
- 1.5 Attraction business were not allowed to operate for much of 2020. Across the whole of the year, outdoor attractions were allowed to open for approximately 31 weeks of the year, whilst indoor attractions were allowed to be open for approximately 29 weeks, and underground attractions for approximately 27 weeks.

#### Response rate

- 1.6 569 attractions believed to fit the tourist definition were invited to take part. Attractions were invited to complete the survey online, and those who did not respond were asked to complete the survey by telephone.
- 1.7 53% of attractions were able to complete the sections of the survey which asked about 2019, and 46% were able to complete the section which asked about 2020.

#### **Recording method for visitor numbers**

- 1.8 In order to assess the reliability of visitor figures provided by attractions, attractions were asked how they work out their visitor figures.
- 1.9 The proportion basing their 2019 or 2020 visitor figures on 'estimates only' is higher than in previous years. 16% of attractions said that their visitor figures for 2020 were based on 'estimates only', and 17% said the same for 2019. This compares to 9% of attractions in 2018 which said their visitor figures were based on 'estimates only'.

- 1.10 This may be due to the increase in smaller, individual attractions completing the survey, who may be more likely to rely on estimates than larger attractions. Also, some attractions did not have access to the information they would usually have, including visitor figures for 2019 and/or 2020, for reasons related to COVID-19.
- 1.11 Although the proportion of attractions basing their visitor figures on 'estimates only' increased, these attractions only make up a small proportion of the sample, and the remaining attractions calculated their visitor figures based on more accurate recording methods.
- 1.12 In 2020, 45% of attractions reported that their visitor figures are 'estimates' and not 'exact' figures, whilst the figure for 2019 was almost identical (46%).
- 1.13 Estimated figures can be straightforward estimates, or may be based on sample counts or other data collected by the attraction. Estimates also include attractions which use more precise counting methods, such as ticket sales, mechanical methods, or manual counting, but do not have exact figures, in which case they often classed their visitor figures as 'estimates'. This includes, as an example, attractions which base their visitor figures on ticket sales, but make assumptions on the number of visitors that form family or other group bookings. Or similarly, attractions which use 'manual methods' of counting visitors, which are good indicators of visitor numbers, but not always 100% exact.

#### Operating context for 2019 and 2020

- 1.14 In March 2019, 80% of the attractions providing data were open, whereas this reduced to 57% for March 2020 when the UK went into a full lockdown.
- 1.15 In April and May 2020, only 3% of attractions providing data were open. Attractions were not allowed to open at this time, but these attractions represent outdoor attractions providing public access for exercise.
- 1.16 Some attractions were closed throughout 2020 and others did not reopen after the first lockdown in March 2020. 15% of attractions responding to the survey were closed throughout 2020, whilst 18% of attractions opened at some point between January and March but then remained closed for the rest of the year. Therefore, a third (33%) were not open at all between April and December 2020.
- 1.17 Indoor attractions were less likely to be open than outdoor attractions. In August 2020 typically one of the busiest months for attractions, only 34% of indoor attractions were open, whereas a significantly higher proportion of outdoor attractions were open (73%).
- 1.18 Over half (57%) of attractions said that they chose to stay open whenever they were allowed to do so. 38% said they chose to close at some point because of COVID-19, even though they were allowed to reopen, and 5% said they chose to close, even when they were allowed to reopen, but for reasons unrelated to COVID-19.

- 1.19 Attractions that were open at any point between March and December 2020 were asked at what percentage of their normal capacity level they were operating at, on average, when open during this time.
- 1.20 One in ten attractions (10%) were operating at less than 20% of their normal capacity level, whilst just under half (46%) were operating between 20% and 49% of their normal capacity level. 28% were operating between 50% and 79% of their normal capacity level, and 7% were operating between 80% and 99% of their normal capacity level. Around one in ten (9%) attractions were open at full capacity.

#### Visits in 2019 and 2020

- 1.21 Approximately 22.3 million visits were made to attractions in Wales which provided data for 2019, whilst approximately 6.2 million visits were made to attractions which provided data for 2020.
- 1.22 The top 25 attractions in 2019 accounted for almost half of all visits recorded in 2019 (49% of visits, and 10,838,139 visits overall). In 2020, the top 25 attractions accounted for 64% of visits (3,950,766 visits overall).
- 1.23 The share of visits to free and paid attractions is almost identical for 2019 and 2020. In 2019, 57% of visits were to free attractions and in 2020, 59% of visits were to free attractions. Similarly, in 2019 43% of visits were to paid attractions and in 2020 41% of visits were to paid attractions. These figures are also similar to 2018 (61% of visits were to free attractions and 39% of visits were to paid attractions).
- 1.24 The average number of visits per attraction for 2019 (74,647) was lower than the average number of visits in 2018 (89,610). This may be due to the increase in the response rate in 2019 compared to 2018, as more smaller attractions completed the survey. The average number of visitors per attraction reduced significantly to 27,914 in 2020.

#### Top attractions in 2019

- 1.25 The paid attraction reporting the highest number of visitors in 2019, as in previous years, was the LC Waterpark and Leisure Complex in Swansea (678,714 visitors). Cardiff Castle was the second most visited paid attraction (502,224 visitors) and Folly Farm was the third most visited paid attraction (438,234 visitors).
- 1.26 Of the free admittance attractions providing data for 2019, the Wales Millennium Centre, also the top free attraction in 2018, received the highest number of visitors (1,142,706<sup>1</sup>). Tir Prince

<sup>&</sup>lt;sup>1</sup> The Wales Millennium Centre, which could be categorised as 'a retail outlet or a venue for ... theatrical ... performances', does not neatly fall into the classification of an attraction, as it is not strictly 'a single business, under a single management' but rather it comprises a theatre, building of architectural significance, cafés and art galleries. The visitor figures included in this report for the Wales Millennium Centre do not include theatre goers, or visitors whose main purpose of visit is associated with the theatre (e.g., ticket sales/collection etc.). For this reason, the

Fun Park was the second most visited free attraction (approximately 1,000,000 visitors), and St Fagans National Museum of History was the third most visited free attraction (746,105 visitors).

#### Top attractions in 2020

- 1.27 The paid attraction reporting the highest number of visitors in 2020 was Folly Farm (203,073 visitors). The second and third most visited paid attractions were Cardiff Castle (195,930 visitors) and LC Waterpark and Leisure Complex in Swansea (185,312 visitors).
- 1.28 Of the free admittance attractions providing data for 2020, Pembrey Country Park accounted for the highest number of visitors (405,444). Snowdon received the second most visitors (329,258 visitors) and Pontcysyllte Aqueduct & Trevor Basin Visitor Centre received the third most visitors (275,336 visitors). The Wales Millennium Centre, previously the top free attraction in 2019, fell to fifth in the list of top ten free attractions (203,552 visitors). St Fagans National Museum of History, previously the third most visited free attraction in 2019, was not in the top ten for 2020 (112,379 visitors).

#### Visits in 2019 and 2020 by region

- 1.29 Participating attractions in North Wales and South East Wales received the highest share of visits in 2019 (38% and 30% respectively) and in 2020 (37% and 29%). Attractions in South West Wales accounted for 21% of visits in 2019 and 23% of visits in 2020, whilst attractions in Mid Wales accounted for around one in ten visits in both years.
- 1.30 The percentage decrease in average visits per attraction for 2020 is relatively similar for Mid Wales, North Wales and South East Wales (a 66%, 63% and 67% decrease from 2019). The decrease in average visits per attraction is smaller for attractions in South West Wales (53% decrease from 2019). Although this is still a dramatic decrease.

#### Visits in 2019 and 2020 by attraction category

- 1.31 Attractions are categorised by their venue type indoor, outdoor, both indoor and outdoor, or underground. Some attractions do not neatly fall into one category. For example, many attractions have both indoor and outdoor areas but are predominantly an indoor or outdoor attraction. Nevertheless, data for purely indoor and purely outdoor attractions shows the changing visitor trend for 2020.
- 1.32 Indoor attractions accounted for 30% of visits in 2019, but only 20% in 2020, whilst outdoor attractions accounted for 23% of visits in 2019, but this increased to 38% in 2020. Attractions

Millennium Centre is listed in this report, whilst recognising that it does not match the definition of a tourist attraction in every respect. This must be considered when comparing with other entries.

which have both indoor and outdoor parts accounted for 44% of visits in 2019 and 41% in 2020, whilst underground attractions accounted for 2% of visits in both years.

- 1.33 The most visited type of attraction in 2018 were museums/art galleries where they accounted for 25% of all visits to attractions. In 2019, museums/art galleries accounted for more or less the same proportion of all visits to attractions (26%). However, in 2020, visits to museums/art galleries only accounted for 15% of all visits to attractions. Some museums/art galleries required pre-booking to limit the amount of visitors at a time (to ensure social distancing), so it is no surprise that these types of attractions accounted for fewer visits in 2020.
- 1.34 Wildlife/nature reserves and country parks/gardens accounted for nearly half (45%) of visits to attractions in 2020, much higher than their proportion of visits for 2019 (26%). In 2018, visits to wildlife/nature reserves and country parks/gardens accounted for 32% of visits to attractions.
- 1.35 The average number of visits by attraction category also shows that country parks/gardens and wildlife/nature reserves were not as badly hit as other attraction categories. The average number of visitors for country parks/gardens fell by 40% in 2020, whilst the average number of visitors for wildlife/nature reserves fell by 35%. This compares to a 63% decrease in the overall average number of visitors per attraction.
- 1.36 Again, this suggests that outdoor attractions were not hit as badly as indoor attractions, which is perhaps to be expected as they were able to open earlier and there would have been less risk attached to visiting outdoor attractions.
- 1.37 Of the remaining attraction categories, railway/travel attractions also appeared to suffer slightly more than others. These attractions saw some of the largest year on year decreases in average visitor numbers in 2020 compared to 2019 (82% decrease). This is to be expected given that attractions where visitors are typically close together will have suffered as a result of social distancing measures.

#### Average visits by ownership for 2019 & 2020

- 1.38 The average number of visits per Cadw site decreased from 51,425 in 2019 to 10,386 in 2020, an 80% decrease. Amgueddfa Cymru National Museum Wales had an average of 278,827 visitors per site in 2019, but this fell to 49,895 in 2020, an 82% decrease. Of the National Trust sites able to provide visitor figures, these had an average of 93,999 visitors per site in 2019, but this fell to 27,107 in 2020, a 71% decrease.
- 1.39 Many of the attractions from these owners were also significantly impacted by social distancing requirements. For example, to accommodate social distancing, many of these organisations placed a cap on the number of visitors their attractions could accommodate at any time. Whilst some of their attractions may have sold out at peak times, the number of

visitors they could accommodate was well below pre-pandemic levels. These attractions would also usually receive a significant number of school trips throughout the year.

- 1.40 For example, at points during 2020 Cadw limited visitor numbers at staffed sites to one third of the usual capacity, to enable social distancing and other COVID-19 safety measures, resulting in suppressed visitor numbers at times when demand outstripped the reduced capacity. Furthermore, Cadw staffed sites reopened on a phased basis from August 2020, after being closed since 23 March 2020. The reopening spanned a number of months and resulted in the majority of staffed sites reopening by the end of September. However, some seasonal sites remained closed for the remainder of the year and other sites were subject to local lockdown restrictions, as well as the national fire-break lockdown later in the year that affected all sites.
- 1.41 In comparison to the figures above, the average number of visits per attraction operated by local authorities/ national parks decreased from 92,898 in 2019 to 46,879 in 2020, a 50% decrease. The average number of visits per attraction operated by private owners/ trusts decreased from 58,781 in 2019 to 20,170 in 2020, a 66% decrease. Whilst these are significant decreases, they are not as large as the decreases seen by Cadw, Amgueddfa Cymru National Museum Wales, and the National Trust.

#### Comparative analysis of visits to tourist attractions

- 1.42 This section of the report looked at attractions that provided data for both 2018 and 2019 (162 attractions), and both 2019 and 2020 (258 attractions), in order to make like for like comparisons of overall visitor numbers.
- 1.43 The number of visits to attractions which provided data for both 2018 and 2019 was more or less identical. These attractions received 16,953,943 visitors in 2018, and 16,898,566 visitors in 2019. This represents a 0.3% year on year decrease in 2019 from 2018.
- 1.44 Attractions which provided data for both 2019 and 2020 saw a 68% decrease in visitor numbers in 2020 compared to 2019. These attractions received 19,047,363 visits in 2019, but this reduced significantly to 6,139,493 in 2020.
- 1.45 In keeping with other findings, country parks/ gardens and wildlife/nature reserves which provided data for both years saw their visitor numbers decrease (by 44% and 45% decrease respectively), but not as much as other categories. By comparison, museums/art galleries and railways/travel attractions saw their visitor numbers decrease by 83%.
- 1.46 Unsurprisingly, underground attractions saw the biggest year on year decrease in visitor numbers (81% decrease). As suggested earlier in the report, indoor attractions suffered more than outdoor attractions. Indoor attractions saw a 79% decrease in visitors in 2020 when compared to 2019, whilst outdoor attractions saw a 49% decrease.

#### Admission charges

- 1.47 In 2019, the average adult admission charge among responding attractions was £9.27, and in 2020 it was £9.32. When comparing charges for just the attractions which provided data for both years, so that a like for like comparison can be made, there was little change (1% decrease).
- 1.48 For average child admission charges, in 2019 this was £5.72 and in 2020 this was £6.16. Although when comparing charges for just the attractions which provided data for both years, there was also little change (3% decrease).
- 1.49 Average admission charges were highest for adventure/ activity attractions. In 2019, the average adult admission charge was £15.81, whilst in 2020 it was £16.10. The admission charge for children was also highest, at £14.32 in 2019 and £15.35 in 2020.
- 1.50 The average entry fee for railway/travel attractions was not too dissimilar to those from adventure/activity attractions. The average adult admission charge for railway/ travel attractions was £14.28 in 2019 and £15.58 in 2020. However, the average child entry fee for these attractions is significantly lower, at an average of £5.84 in 2019 and £6.82 in 2020.

#### Gross revenue movement

- 1.51 Nearly half (47%) of attractions reported a growth in revenue in 2018 compared to 2017 (results from previous survey).
- 1.52 However, growth slowed in 2019 with 52% of attractions reporting similar revenue to the previous year. When looking at results by venue type, 50% of outdoor attractions reported an increase in revenue in 2019, whilst only 25% of indoor attractions reported an increase in revenue. 47% of attractions which class themselves as both indoor and outdoor attractions also saw an increase in revenue.
- 1.53 Unsurprisingly, the vast majority (90%) of attractions reported a decrease in revenue in 2020. The results to do not differ by venue type.

#### Employment in 2019 and 2020

- 1.54 In 2019, seasonal unpaid volunteers accounted for the largest proportion of workers (43%).
   However, in 2020 the number of seasonal unpaid volunteers reduced significantly to 21% of staff at attractions in Wales.
- 1.55 When looking at data just from attractions which were able to provide employment figures for both years, this shows that seasonal staff and volunteers fared worse than permanent staff. There was only a 6% decrease in full-time permanent staff amongst the attractions providing employment figures for both 2019 and 2020. Similarly, there was only a 1% decrease in part-time permanent staff. This compares to a 48% decrease in full-time seasonal staff and a 22% decrease in part-time seasonal staff.

- 1.56 However, seasonal unpaid volunteers appear to be impacted the most. There was a 57% decrease in the number of seasonal unpaid volunteers in 2020, and a 26% decrease in permanent unpaid volunteers.
- 1.57 Railway/travel attractions saw the largest overall decrease in the number of staff (including volunteers). These saw a 50% reduction in total staff in 2020 compared to 2019. These types of attractions typically rely volunteers to operate.

#### Origin of visitors for 2019 and 2020

1.58 Unsurprisingly, the proportion of visitors that were from overseas reduced from 10% in 2019 to 3% in 2020. The proportion of visitors that were from Wales increased from 47% in 2019 to 59% in 2020. This likely reflects the public's mindset to 'stay local', continuing with the message from Welsh Government earlier in the pandemic.

# 2. Introduction

# Background

- 2.1 Visit Wales has been conducting the Survey of Visits to Tourist Attractions since 1973. The remit of the research is to:
  - (1) Determine and report visit numbers to attractions throughout Wales.
  - (2) Analyse collected data on visit numbers to identify current trends.
  - (3) Provide additional comparative analysis of data contained in the survey including visit figures, operations, revenue, marketing and human resources.
  - (4) Analyse data according to attraction categories, the four economic regions of Wales, and admission charging policy (free vs. paid).

#### Tourist attraction definition

- 2.2 The research uses the tourist attraction definition<sup>2</sup> agreed upon by the four National Tourist Boards for the 2001 survey whereby a tourist attraction is:
  - (1) "...An attraction, where it is feasible to charge admission for the sole purpose of sightseeing. The attraction must be a permanently established excursion destination, a primary purpose of which is to allow access for entertainment, interest, or education, rather than being primarily a retail outlet or a venue for sporting, theatrical or film performances.

It must be open to the public without prior booking, for published periods each year, and should be capable of attracting day visitors or tourists as well as local residents. In addition, the attraction must be a single business, under a single management, so that it is capable of answering the economic questions on revenue, employment etc. and must be receiving revenue directly from the visitors."

<sup>&</sup>lt;sup>2</sup> This definition impacts on the Wales Millennium Centre, which could be categorised as 'a retail outlet or a venue for ... theatrical ... performances', which would exclude it from this research. The venue also does not neatly fall into the above classification as it is not strictly 'a single business, under a single management' but rather it comprises a theatre, building of architectural significance, cafés and art galleries. The visitor figures included in this report for the Wales Millennium Centre do not include theatre goers, or visitors whose main purpose of visit is associated with the theatre (e.g. ticket sales/collection etc.). For this reason, the Wales Millennium Centre is listed in the following pages, whilst recognising that it does not match the above definition of a tourist attraction in every respect. This must be considered when comparing with other entries.

#### Objectives

2.3 The purpose of this report is to monitor trends in the tourist attraction sector in Wales in order to provide a greater understanding of the sector to both industry and public sector organisations and to disseminate the findings in a useful and valuable way to the wider industry.

#### Postponement of the 2019 survey

- 2.4 The Survey of Visits to Tourist Attractions is conducted annually, and each year's survey asks for figures for the previous year. This is to ensure that attractions are able to provide their visitor figures by the time the survey is conducted.
- 2.5 The Survey of Visits to Tourist Attractions for 2019, due to be conducted in 2020, was postponed due to the COVID-19 pandemic. Many attractions were closed, meaning it was not possible to conduct the survey.
- 2.6 As a consequence of this, attractions were asked for their visitor data for 2019 and 2020 through one survey, conducted in 2021. Results for each year are reported on separately.

#### UK economic summary for 2019 and 2020

- 2.7 The UK experienced modest growth in 2019 of 1.4%, almost identical to the growth in GDP experienced in 2018 (1.3%)<sup>3</sup>. However, growth slowed to zero for the final three months of 2019. Forecasters felt the UK economy was dampened by slower global growth and Brexit-related uncertainties<sup>4</sup>.
- 2.8 The economies of the world came to an abrupt standstill in early 2020 as the COVID-19 pandemic struck. Overall, the UK economy contracted by 9.8% in 2020. Much of this contraction was in the first and second quarters of 2020. Q1 saw the economy contract by 2.7%, and Q2 by 19.6%. The economy picked up in Q3 by 17.4% as the economy partially reopened, although not enough to be back to pre-pandemic levels. The economy saw modest growth in Q4 of 1.1%.
- 2.9 Data from the COVID-19 U.K. Tourism Consumer Tracker Survey<sup>5</sup> conducted between 31 August 2020 and 2 October 2020 (the most recent wave in 2020), shows that 15% of the Wales population regarded themselves as having been 'hit hard' financially by COVID-19, whilst 40% said that they were 'ok, but having to be careful'. 36% said they had not been affected and 9% said they were better off than before.
- 2.10 Data from the same survey also shows that the public were more comfortable conducting day to day activities that were outdoors compared to indoors. For example, 81% of the Welsh

<sup>&</sup>lt;sup>3</sup> Office for National Statistics: <u>GDP: Year on Year Growth</u>

<sup>&</sup>lt;sup>4</sup> Bank of England: Monetary Policy Report - January 2020

<sup>&</sup>lt;sup>5</sup> COVID-19 UK Tourism Consumer Tracker Survey (Wales profile): 31 August to 2 October 2020

public said that they were comfortable 'going for a walk in a country park/ local trail', whereas only 20% felt comfortable travelling by public transport. These comfort levels appear to mirror the types of visitor attractions that respondents said that they intended on visiting. Respondents said that they were more likely to visit 'gardens or country parks', and less likely to visit underground attractions, or indoor attractions.

#### **COVID-19 timeline**

- 2.11 The World Health Organization declared COVID-19 a pandemic on 11<sup>th</sup> March 2020. On 20<sup>th</sup> March 2020, the UK Prime Minister announced that the Government were "telling cafes, pubs, bars, restaurants to close tonight" as well as "nightclubs, theatres, cinemas, gyms and leisure centres". This escalated into a full lockdown on 23<sup>rd</sup> March 2020. The Prime Minister and First Ministers of Wales, Scotland and Northern Ireland made statements on this day (23<sup>rd</sup> March 2020) outlining the new measures. People were required to 'stay at home' and non-essential shops and community spaces closed.
- 2.12 On 29<sup>th</sup> May 2020, the First Minister of Wales announced that the 'stay at home' message in Wales was to change to 'stay local' from 1 June.
- 2.13 From 6<sup>th</sup> July 2020, outdoor visitor attractions were able to reopen.
- 2.14 On 11<sup>th</sup> July, tourist accommodation without shared facilities was allowed to reopen.
- 2.15 Shortly after this on 13<sup>th</sup> July, a number of services and businesses were allowed to reopen, including most indoor visitor attractions. However, businesses were still operating under social distancing guidelines. For businesses where the two metre social distancing was not possible, regulations required these businesses to put in place additional measures to minimise the risk of COVID-19 spreading, including minimising close face-to-face contact and maintain good hygiene standards.
- 2.16 Tourist accommodation without shared facilities was allowed to reopen on 25<sup>th</sup> July. Underground attractions were also allowed to reopen from this date.
- 2.17 Cases of coronavirus began to rise again in September following falling levels across the summer of 2020. A number of local authority lockdowns were implemented thereafter, with Caerphilly being the first local authority to be placed under 'local lockdown' on 7<sup>th</sup> September 2020. No person was allowed to leave a local authority area under lockdown without good reason, and no person was allowed to enter.
- 2.18 A two week 'firebreak' began on 23<sup>rd</sup> October and ended on 9<sup>th</sup> November. Welsh Government returned to the 'stay at home' message, and all non-essential businesses closed, including tourist attractions.
- 2.19 With COVID-19 cases again on the rise after the 'firebreak', and the outbreak of the new 'Delta' variant, new measures were brought into force on 4<sup>th</sup> December 2020. As part of these measures, indoor entertainment and visitor attractions were also ordered to close.

- 2.20 As cases continued to escalate, outdoor attractions were also ordered to close from 14<sup>th</sup> December.
- 2.21 Overall, outdoor attractions were allowed to open for approximately 31 weeks of the year, whilst indoor attractions were allowed to be open for approximately 29 weeks, and underground attractions for approximately 27 weeks.

#### UK visitor figures for 2019 and 2020

- 2.22 There were 40.9 million inbound visits to the UK in 2019, 1% up on visits for 2018<sup>6</sup>. 2019 also saw a 6.8% increase in overnight trips to Wales by GB residents, to 10.7 million trips<sup>7</sup>. The number of trips taken in Wales by international visitors also rose, by 3.6% to just over one million visits (1,023,000). However, the number of day visits to destinations in Wales fell by 8.8% and related spend was down 14%.
- 2.23 The UK received 11.1 million inbound visits in 2020, a 73% decline from 2019. The majority (63%) of visits were in the first quarter before worldwide travel restrictions were put in place. The decline in Q1 was 16%, whereas this grew to a 96% decline in Q2. Q3 was down by 80% and Q4 by 87%.
- 2.24 Further data on visits for 2020 is unavailable due to the COVID-19 pandemic. However, the COVID-19 Tourism Consumer Tracker Survey<sup>8</sup> shows that in both January and February 2020, when attractions were open, 6% of the UK population visited an indoor attraction. This compares to only 4% in August and September, typically some of the busiest months for attractions, and only 1% in December.

#### Climatic summary for 2019 and 2020

- 2.25 2019 was warmer than average for the UK, although not as warm as 2018 and 2017. There were record-breaking warm spells in February and July, and record-breaking warmth for both the Easter and late-August bank holiday weekends, which will undoubtedly have helped visitor attractions. However, it was a rather wet year, with above average rainfall in March and then most months from June onwards. There were a series of heavy-rainfall events in February, March, April and June, and numerous incidences of flooding from the end of July onwards.
- 2.26 2020 was also warmer than average for the UK, and ranks as the third warmest year in a series from 1884. There were several short hot spells, including the Easter bank holiday weekend, although this will have had little to no effect on attractions as they were closed. Nevertheless, there were also several hot spells during the summer. Temperatures exceeded

<sup>&</sup>lt;sup>6</sup> Visit Britain 2019 Snapshot

<sup>7</sup> Welsh Government: Wales Tourism Performance Report 2019

<sup>&</sup>lt;sup>8</sup> COVID-19 UK Tourism Consumer Tracker Survey

30°C in parts of the UK on 13 days during the summer, including one final hot day on 15 September. However, just like 2019, 2020 was also a rather wet year, with the wettest February on record, and all summer months being wetter than average. October and December were also notably wetter than average.

# 3. Methodology

#### Conducting the research

- 3.1 Fieldwork for the 2019 & 2020 survey began in February 2021 and closed in September 2021. Given the difficulties surrounding COVID-19, some attractions needed longer than normal to complete the survey.
- 3.2 Before fieldwork began, the database of attractions was updated to include new attractions.
- 3.3 A link to the survey was sent by email to attractions on 4<sup>th</sup> February 2021. This was followed by three reminder emails, and then telephone follow-ups for those who did not respond to the emails. Visit Wales assisted with further targeted reminders to major attractions in August and September. The survey closed on 13<sup>th</sup> September.
- 3.4 Organisations with a large number of attractions were invited to complete a spreadsheet rather than an online survey for each of their sites. These organisations included Amgueddfa Cymru – National Museum Wales, Cadw, Dŵr Cymru Welsh Water, National Trust, Natural Resources Wales and RSPB Cymru. These organisations were able to provide data for 64 attractions, out of a total of 89 attractions for which data was requested.
- 3.5 The questionnaire was based on the questionnaire used in previous years to ensure comparability between different years. A few additional questions were asked surrounding the COVID-19 pandemic. The survey and all survey materials were available in English and Welsh.

#### Depth interviews

- 3.6 15 depth interviews were also conducted with attractions in August and September 2021. The depth interviews sought to explore some of the topics which were emerging from the initial data, and to get an up to date picture of how attractions are faring currently due to the COVID-19 pandemic.
- 3.7 Attractions were asked:
  - (1) How they collate visitor figures and how they estimate their proportion of visitors who are adults or children, and the proportion who are from Wales, rest of the UK, or overseas.
  - (2) Whether the pandemic has changed their entry prices, digital offering, the way they operate, difficulties in retaining volunteers, and plans for 2022.

#### Response rate

3.8 A total of 569 attractions<sup>9</sup> believed to fit the tourist definition were invited to take part. The response rate for this year and earlier years are given in Table 3.1 below.

| Response rates                      | 2020 | 2019 | 2018 | 2017 | 2016** | 2014 |
|-------------------------------------|------|------|------|------|--------|------|
| Total attractions contacted         | 569  | 569  | 570  | 571  | 609    | 478  |
| Attractions completing the survey   | 260* | 299  | 248  | 237  | 216    | 146  |
| All actions completing the survey   | 46%  | 53%  | 44%  | 42%  | 35%    | 30%  |
| Attractions responded but unable to | 73   | 34   | 20   | 1    | N/A    | 9    |
| provide figures***                  | 13%  | 6%   | 4%   | 0.2% |        | 2%   |
| TOTAL RESPONSE RATE                 | 333  | 333  | 268  | 238  | 216    | 155  |
| IUTAL RESPONSE RATE                 | 59%  | 59%  | 47%  | 42%  | 35%    | 32%  |

\* Attractions which were closed in 2020 have been included in the proportion completing the survey, as they provided partial data despite not being open for visitors due to the COVID-19 pandemic.

\*\* A limited survey was conducted in-house by Visit Wales in 2015, so no comparable data is available for this year. \*\*\* Prior to the 2019 and 2020 survey, this row included attractions which responded to say that they were closed.

- 3.9 The total response rate to the 2019 and 2020 survey was 59% higher than in previous years. 53% of attractions contacted were able to provide data for 2019 and 46% were able to provide data for 2020.
- 3.10 Anecdotal feedback suggests that some attractions did not collect figures as normal in 2020, or had not worked out their visitor numbers for 2020 yet, or did not have access to this information.

#### Recording method for visitor numbers

- 3.11 In order to assess the reliability of visitor figures provided by attractions, attractions were asked how they work out their visitor figures. The results are shown in Table 3.2 below.
- 3.12 The figures amount to more than 100% as multiple methods are mentioned by some attractions. Results from the 2018 survey have been added for comparison.

<sup>&</sup>lt;sup>9</sup> This includes 480 individual attractions plus organisations accounting for many tourist attractions in Wales contacted separately, which provided data for 89 attractions.

 Table 3.2 Recording method for visitor numbers

| Recording method                                             | No.<br>(2018) | % (2018) | No.<br>(2019) | % (2019) | No.<br>(2020) | % (2020) |
|--------------------------------------------------------------|---------------|----------|---------------|----------|---------------|----------|
| From ticket sales and/or group<br>booking sales              | 85            | 36%      | 140           | 47%      | 109           | 49%      |
| Mechanical or electronic method of counting (e.g. turnstile) | 60            | 26%      | 97            | 32%      | 58            | 26%      |
| Manual method of counting<br>numbers                         | 55            | 24%      | 72            | 24%      | 46            | 21%      |
| Estimate only                                                | 21            | 9%       | 51            | 17%      | 36            | 16%      |
| Estimate only on the basis of<br>sample count                | 12            | 5%       | 10            | 3%       | 7             | 3%       |
| Other                                                        | 25            | 11%      | 18            | 6%       | 14            | 6%       |

Base: Attractions providing data on counting methods (233 – 2018, 299 – 2019, 221 - 2020)

- 3.13 The proportion basing their 2019 or 2020 visitor figures on 'estimates only' is higher than in previous years. However, this may be due to the increase in smaller, individual attractions completing the survey, who may be more likely to rely on estimates than larger attractions.
- 3.14 A few of those interviewed for the in-depth interviews said that they did not have access to the information they would usually have. The reasons for which were varied and depended on the attraction, but reasons given include:
  - (1) The attraction did not collect visitor figures in 2020 as they usually would, including outdoor attractions which would usually have based their numbers on visitors to their visitor centre, but the centre was closed in 2020.
  - (2) Visitor figures were not completed for 2019 or 2020 due to the pandemic, so estimates have been based on whether the representative felt visits increased or decreased based on data they have for 2018.
  - (3) Not having access to the data as they usually would. Either because the attraction was/ is still closed, so the attraction representative cannot access the data, or the staff member who normally deals with such issues is on furlough.
- 3.15 Recording methods for 2019 and 2020 are very similar, although the percentage of attractions recording visitor numbers through mechanical or electronic methods decreased. This is due to one of the larger organisations, which account for multiple attractions, temporarily changing the way they count figures for 2020 whilst they move to a new IT system.
- 3.16 'Other' methods for recording visitor numbers include café, tearoom or shop sales, review of a visitor book, and honesty boxes. These represent very small attractions.

#### Notes on the report

- 3.17 This report focuses on visitor figures for 2019 and 2020. However, comparisons have been made with data from 2018 where it was felt beneficial to do so.
- 3.18 Throughout the report, samples of ten or below are highlighted in red and shown in italics to denote the need for caution to be applied when interpreting the results. The data has been analysed by region, ownership, category, and by other variables if results have been worthy of additional analysis, and if the sample size allows.
- 3.19 The figures in this report represent attractions which completed the survey, and not all attractions across Wales. However, the vast majority of major attractions in Wales completed the survey, and a high response rate was achieved. Therefore, the survey should provide an accurate indication of trends in the sector.
- 3.20 The base (sample size) can fluctuate between different questions, particularly for 2020 data. Some attractions were not able to answer all parts of the survey relating to 2020.
- 3.21 It is important to note that some of the differences between the top ten free and paid attractions are because a few attractions were not able to provide visitor figures for 2020.

# 4. **Proportion of attractions open in 2019 and 2020**

- 4.1 Table 4.1 below shows the proportion of attractions that were open each month.
- 4.2 A relatively similar proportion of attractions were open in January and February for both years. However, as the pandemic took hold in March 2020, fewer attractions were open. In March 2019, 80% of the attractions providing data were open, whereas this reduced to 57% for March 2020.
- 4.3 In April and May 2020, 3% of attractions providing data were open. Attractions were not allowed to open at this time, but these attractions represent outdoor attractions providing public access for exercise.
- 4.4 The proportion of attractions that were open increased to 60% by September the highest proportion that were open in 2020 since the pandemic began. However, the proportion of attractions that were open began to fall after September, and in December 2020, only 26% of attractions were open.
- 4.5 15% of attractions responding to the survey were closed throughout 2020, whilst 18% of attractions opened at some point between January and March but then remained closed for the rest of the year. Therefore, a third (33%) were not open at all between April and December 2020.

| Month           | % open in month 2019 | % open in month 2020 |
|-----------------|----------------------|----------------------|
| January         | 69%                  | 62%                  |
| February        | 74%                  | 67%                  |
| March           | 80%                  | 57%                  |
| April           | 95%                  | 3%                   |
| May             | 96%                  | 3%                   |
| June            | 97%                  | 5%                   |
| July            | 98%                  | 33%                  |
| August          | 97%                  | 53%                  |
| September       | 97%                  | 60%                  |
| October         | 92%                  | 48%                  |
| November        | 76%                  | 34%                  |
| December        | 74%                  | 26%                  |
| Closed all year | N/A                  | 15%                  |

#### Table 4.1 Proportion of attractions open by month

Base: attractions providing data for 2019 (299) and 2020 (260); including attractions that were closed all year in 2020

- 4.6 Table 4.2 below shows the proportion of attractions that were open each month in 2020 by venue type.
- 4.7 Attractions are categorised by their venue type indoor, outdoor, both indoor and outdoor, or underground. Some attractions do not neatly fall into one category. For example, many attractions have both indoor and outdoor areas but are predominantly an indoor or an outdoor attraction. Nevertheless, the results for purely indoor and purely outdoor attractions shows the difference in the proportion of indoor and outdoor attractions that were open each month.
- 4.8 In August 2020 typically one of the busiest months for attractions, only 34% of indoor attractions were open, whereas a significantly higher proportion of outdoor attractions were open (73%).

| Month           | Indoor | Outdoor | Both -<br>indoor and<br>outdoor | Underground |
|-----------------|--------|---------|---------------------------------|-------------|
| January         | 70%    | 60%     | 55%                             | 50%         |
| February        | 71%    | 69%     | 64%                             | 50%         |
| March           | 57%    | 56%     | 57%                             | 50%         |
| April           | 0%     | 10%     | 2%                              | 0%          |
| May             | 1%     | 8%      | 4%                              | 0%          |
| June            | 2%     | 10%     | 6%                              | 0%          |
| July            | 16%    | 54%     | 37%                             | 50%         |
| August          | 34%    | 73%     | 62%                             | 50%         |
| September       | 45%    | 69%     | 68%                             | 67%         |
| October         | 32%    | 56%     | 58%                             | 33%         |
| November        | 27%    | 40%     | 39%                             | 17%         |
| December        | 14%    | 38%     | 33%                             | 0%          |
| Closed all year | 17%    | 10%     | 15%                             | 33%         |

#### Table 4.2 Venue types open by month in 2020

Base: Attractions providing data for 2020: indoor (96), outdoor (48), both (110), underground (6) *Caution: Small sample sizes for underground attractions* 

4.9 Attractions were asked whether they chose to close at any point, at a time that they would normally have been open, and were allowed to open. Over half (57%) of attractions said that they chose to stay open whenever they were allowed to do so. 38% said they chose to close at some point because of COVID-19, even though they were allowed to reopen, and 5% said they chose to close, even when they were allowed to reopen, but for reasons unrelated to COVID-19.

#### Operating capacity during the pandemic

- 4.10 Attractions that were open at any point between March and December 2020 were asked at what percentage of their normal capacity level they were operating at, on average, when open during this time.
- 4.11 One in ten attractions (10%) were operating at less than 20% of their normal capacity level, whilst just under half (46%) were operating between 20% and 49% of their normal capacity level. 28% were operating between 50% and 79% of their normal capacity level, and 7% were operating between 80% and 99% of their normal capacity level. Around one in ten (9%) attractions were open at full capacity.

| Average capacity level | %   |
|------------------------|-----|
| Open at full capacity  | 9%  |
| 90 - 99%               | 1%  |
| 80 - 89%               | 6%  |
| 70 - 79%               | 5%  |
| 60 - 69%               | 9%  |
| 50 - 59%               | 14% |
| 40 - 49%               | 14% |
| 30 - 39%               | 18% |
| 20 - 29%               | 14% |
| 10 - 19%               | 5%  |
| Less than 10%          | 5%  |

#### Table 4.3 Operating capacity during the pandemic

Base: attractions providing data (154)

- 4.12 The proportion of indoor and outdoor attractions that were operating at full capacity is similar (12% and 13% respectively). However, the proportion of indoor attractions operating at less than half of capacity was 64%, whereas only 27% of outdoor attractions were operating at less than half of capacity.
- 4.13 Throughout 2020, the Tourism Barometer Coronavirus impact survey<sup>10</sup> showed that performance of tourism businesses correlated strongly to their operating capacity.

<sup>&</sup>lt;sup>10</sup> <u>Tourism Barometer (Coronavirus (COVID-19) impact survey): wave 5 2020</u>

# 5. Top ten free and paid attractions

#### Top ten paid attractions 2019

- 5.1 The paid attraction reporting the highest number of visitors in 2019, as in previous years, was the LC Waterpark and Leisure Complex in Swansea (678,714 visitors). This is despite a 12% fall in visitors in 2019 from 2018. The top four paid attractions are the same as in 2018, and in roughly the same order, with Cardiff Castle becoming the second most visited paid attraction for 2019 (previously third), and Folly Farm becoming the third most visited paid attraction (previously second).
- 5.2 Two attractions feature in the top ten which did not feature in 2018. These are Portmeirion and the Ffestiniog and Welsh Highland Railways. Both of these are new entries to the survey, and did not complete the survey in 2018. Zip World Slate Caverns and Nova Prestatyn fall out of the top 10 from 2018. Both of these fall out of the top ten due to a decrease in visitor numbers in 2019. Seven of the top ten paid attractions are in North Wales, and four of the top ten are privately owned.
- 5.3 The top ten paid attractions for 2019 received approximately 3.1 million visitors more or less the same as in 2018 (3.2 million). This accounts for 33% of all visits made to paid attractions.
- 5.4 Estimated visitor numbers may be based on firm data held by attractions or samples of visitor numbers, though some, including some top ten attractions in both 2019 and 2020, are based on estimates only.

Table 5.1 Top ten paid attractions 2019

As noted earlier, visitor figures denoted with an asterisk (\*) represent estimated visitor figures.

#### Top ten paid attractions 2020

- 5.5 The paid attraction reporting the highest number of visitors in 2020 was Folly Farm (203,073 visitors). The top six paid attractions for 2020 were also in the top six paid attractions for 2019, but not necessarily in the same order.
- 5.6 Welsh Mountain Zoo, The National Botanic Garden of Wales, Zip World Penrhyn Quarry, and Dyffryn Gardens enter the top ten paid attractions for 2020.
- 5.7 Two Cadw properties fall out of the top ten paid attractions for 2020 Conwy Castle (35,553 visitors) and Caernarfon Castle (25,321 visitors). Ffestiniog and Welsh Highland Railways (no figures available for 2020) and the Great Orme Tramway (closed all year) also fall out.
- 5.8 Of the top ten paid attractions, LC Waterpark and Leisure Complex Swansea saw the largest decrease in visitors in 2020 (-73% change from 2019). The top ten paid attractions for 2020 received approximately 1.3 million visitors. This accounts for 51% of all visits made to the paid attractions which completed the survey. This is an increase from 2019 (33%), which may suggest that smaller attractions suffered more in terms of visitor numbers.

|    | Name                                        | Region | Owner | Category | No. of<br>visits 2019 | No. of<br>visits 2020 | %<br>change | £ Adult                 |

#### Table 5.2 Top ten paid attractions 2020

As noted earlier, visitor figures denoted with an asterisk (\*) represent estimated visitor figures.

#### Top ten free attractions 2019

5.9 Of the free admittance attractions providing data for 2019, the Wales Millennium Centre received the highest number of visitors (1,142,706). This is despite a 35% fall in visitors

<sup>&</sup>lt;sup>11</sup> Not provided (NP)

compared to 2018, although the number of visitors for 2019 is in line with the number of visitors for 2017 (1,082,494).

- 5.10 The top seven free attractions for 2019 are the same as those for 2018, and in more or less the same order.
- 5.11 Two of the top free attractions for 2018 Newborough National Nature Reserve and Gwydir Forest Park, were unable to complete the 2019 survey (previously the eighth and ninth most visited free attractions in 2018). Llandegfedd Visitor Centre and the National Waterfront Museum enter the top ten, whilst Pontcysyllte Aqueduct & Trevor Basin Visitor Centre was already in the top ten in 2018.
- 5.12 The top ten free attractions for 2019 received approximately 6.3 million visitors similar to 2018 (6.7 million visitors). This accounts for 50% of all visits made to free attractions (the same as in 2018).

|    | Name                                                   | Region | Owner      | Category | No. of visits<br>2018 | No. of visits<br>2019 | %<br>change |

#### Table 5.3 Top ten free attractions 2019

As noted earlier, visitor figures denoted with an asterisk (\*) represent estimated visitor figures.

<sup>&</sup>lt;sup>12</sup> The Wales Millennium Centre, which could be categorised as 'a retail outlet or a venue for ... theatrical ... performances', does not neatly fall into the classification of an attraction, as it is not strictly 'a single business, under a single management' but rather it comprises a theatre, building of architectural significance, cafés and art galleries. The visitor figures included in this report for the Wales Millennium Centre do not include theatre goers, or visitors whose main purpose of visit is associated with the theatre (e.g., ticket sales/collection etc.). For this reason, the Millennium Centre is listed in this report, whilst recognising that it does not match the above definition of a tourist attraction in every respect. This must be considered when comparing with other entries.

<sup>&</sup>lt;sup>13</sup> Data in the previous report for 2018 was based on estimates provided by the Snowdon Visit Centre. Figures for 2019 have been provided by Snowdonia National Park. The results for 2018 in this report are based on figures from Snowdonia National Park, so that like for like comparisons can be made.

#### Top ten free attractions 2020

- 5.13 Of the free admittance attractions providing data for 2020, Pembrey Country Park accounted for the highest number of visitors (405,444). This is despite a 34% decrease in visitors compared to 2019. The top free attraction from 2019 Wales Millennium Centre, received an 82% decrease in visitors in 2020.
- 5.14 Four attractions enter the top ten. These are: Alyn Waters Country Park, Cosmeston Lakes Country Park, Stackpole Nature Reserve and Ynys Las National Nature Reserve.
- 5.15 Restrictions on outdoor attractions eased before indoor attractions. It is no surprise that these types of attractions feature more prominently in the top 10 free attractions for 2020.
- 5.16 St Fagans National Museum of History (112,379 visitors), Aberystwyth Arts Centre (55,580 visitors) and National Waterfront Museum Swansea (52,672) fall out of the top ten for 2020. Tir Prince Fun Park (the second most visited free attraction in 2019) was unable to provide figures for 2020.
- 5.17 The Wales Millennium Centre saw the largest decrease in visitors (82% decrease), followed by National Museum Cardiff (78% decrease). The top ten free attractions for 2020 received approximately 2.2 million visitors. This accounts for 60% of all visits made to free attractions. This is an increase from 2019 (50%), again suggesting that smaller attractions may have fared worse compared to larger attractions.

#### Table 5.4 Top ten free attractions 2020

As noted earlier, visitor figures denoted with an asterisk (\*) represent estimated visitor figures.

# 6. Visits 2019 & 2020

- 6.1 This section presents an analysis of the visits data for 2019 and 2020. Please note, not all base sizes are the same, as not all respondents completed all sections of the questionnaire across both years. Those not completing the relevant sections have been omitted from the tables but included elsewhere in sections where they have provided data.
- 6.2 In this section, data for 2019 and 2020 is often displayed in the same table. Whilst reasonable comparisons can be made, Section 7 analyses results from attractions which provided data for both 2019 and 2020, so that like for like comparisons can be made. Please be aware that data and samples for both sections are often slightly different.

#### Overall visits for 2019 and 2020

- 6.3 Approximately 22.3 million visits were made to attractions which provided data for 2019, whilst approximately 6.2 million visits were made to attractions which provided data for 2020.
- 6.4 The top 25 attractions in 2019 accounted for almost half of all visits recorded in 2019 (49% of visits, and 10,838,139 visits overall). In 2020, the top 25 attractions accounted for 64% of visits (3,950,766 visits overall).

#### Overall visits by admission type

6.5 The share of visits to free and paid attractions is almost identical for 2019 and 2020. In 2019, 57% of visits were to free attractions and in 2020, 59% of visits were to free attractions. Similarly, in 2019 43% of visits were to paid attractions and in 2020 41% of visits were to paid attractions. These figures are also similar to 2018 (61% of visits were to free attractions and 39% of visits were to paid attractions).

| Admission<br>type | Base<br>2019 | % of<br>attractions<br>2019 | No. of visits<br>2019 | % of<br>visits<br>2019 | Base<br>2020 | % of<br>attractions<br>2020 | No. of visits<br>2020 | % of<br>visits<br>2020 |

#### Table 6.1 Overall visits by admission type

Base: attractions that provided data for 2019 (299) and 2020 and were open (221)

#### Overall visits by region for 2019 & 2020

- 6.6 Participating attractions in North Wales and South East Wales received the highest share of visits in 2019 (38% and 30% respectively) and in 2020 (37% and 29%).
- 6.7 Both of these regions also accounted for a higher proportion of visits in 2019, and in 2020, than their proportion of attractions. For example, the proportion of attractions completing the survey from North Wales was 33% for 2020, but these attractions accounted for 37% of visits in 2020.
- 6.8 Visits to attractions in Mid Wales and South West Wales accounted for fewer than their proportion of attractions for 2019, whilst this was also the case for visits to attractions in Mid Wales for 2020, as shown in Table 6.2 below.
- 6.9 The percentage of visits to attractions in each region is similar for both 2019 and 2020, suggesting that attractions from all regions were evenly hit by the pandemic.
- 6.10 The percentage of visits by region is also similar to the figures from 2018. In 2018, 10% of visits were to attractions in Mid Wales, 40% of visits were to attractions in North Wales, 30% to attractions in South East Wales, and 21% to attractions in South West Wales.

| Region     | Base<br>2019 | % of<br>attractions<br>2019 | No. of<br>visits 2019 | % of<br>visits<br>2019 | Base<br>2020 | % of<br>attractions<br>2020 | No. of<br>visits<br>2020 | % of<br>visits<br>2020 |
|------------|--------------|-----------------------------|-----------------------|------------------------|--------------|-----------------------------|--------------------------|------------------------|
| Mid        | 52           | 17%                         | 2,395,503             | 11%                    | 41           | 19%                         | 647,184                  | 10%                    |
| North      | 100          | 33%                         | 8,521,679             | 38%                    | 73           | 33%                         | 2,287,654                | 37%                    |
| South East | 73           | 24%                         | 6,723,297             | 30%                    | 59           | 27%                         | 1,799,472                | 29%                    |
| South West | 74           | 25%                         | 4,678,861             | 21%                    | 48           | 22%                         | 1,434,728                | 23%                    |
| Total      | 299          | 100%                        | 22,319,340            | 100%                   | 221          | 100%                        | 6,169,038                | 100%                   |

Table 6.2 Overall visits by region for 2019 & 2020

Base: attractions that provided data for 2019 (299) and 2020 and were open (221)

#### Average visits by region for 2019 & 2020

- 6.11 The average number of visits per attraction for 2019 (74,647) was lower than the average number of visits in 2018 (89,610). This may be due to the increase in the response rate in 2019 compared to 2018, as more smaller attractions completed the survey.
- 6.12 The average number of visits for 2020 (27,914), shown in table 6.3 below, demonstrates the effect the COVID-19 pandemic had on attractions in 2020.
- 6.13 The average number of visits to attractions in Mid Wales for 2019 and 2020 (46,067 and 15,785 respectively) is lower than the average number of visits to attractions in other regions. This suggests that there are a greater proportion of smaller attractions in Mid Wales.

6.14 The change in the average number of visitors for 2020 in each region is relatively similar, although the change was less severe for South West Wales which saw a 53% decrease in the number of average visitors per attraction. Although this is still a dramatic decrease.

| Region     | Base<br>2019 | Average visits per attraction 2019 | Base<br>2020 | Average visits per attraction 2020 | %<br>change |
|------------|--------------|------------------------------------|--------------|------------------------------------|-------------|
| Mid        | 52           | 46,067                             | 41           | 15,785                             | -66%        |
| North      | 100          | 85,217                             | 73           | 31,338                             | -63%        |
| South East | 73           | 92,100                             | 59           | 30,500                             | -67%        |
| South West | 74           | 63,228                             | 48           | 29,890                             | -53%        |
| Total      | 299          | 74,647                             | 221          | 27,914                             | -63%        |

#### Table 6.3 Average visits by region for 2019 & 2020

Base: attractions that provided data for 2019 (299) and 2020 and were open (221)

#### Overall visits by attraction category for 2019 & 2020

- 6.15 The most visited types of attractions in 2018 were museums/art galleries (25%). Visits to museums/art galleries accounted for more or less the same proportion of all visits to attractions in 2019 (26%). The majority of these were to free attractions. Visits to free museums/art galleries account for 24% of all visits in 2019.
- 6.16 Visits to Museums/art galleries only accounted for 15% of all visits to attractions 2020, despite these types of attraction accounting for 27% of the sample.
- 6.17 In 2018, visits to wildlife/nature reserves and country parks/gardens accounted in total for 32% of visits to attractions. In 2019, these two categories accounted for a similar proportion of visits 26%. However in 2020, they accounted for nearly half (45%) of visits to attractions.
- 6.18 This suggests that outdoor attractions were not hit as badly as indoor attractions, which is to be expected as they were able to open earlier and there would have been less risk attached to visiting outdoor attractions. This is examined further overleaf.

#### Table 6.4 Overall visits by attraction category for 2019 & 2020

#### Average visits by attraction category for 2019 & 2020

- 6.19 The average number of visits by attraction category also shows that country parks/gardens and wildlife/nature reserves were not as badly hit as other attraction categories. The average number of visitors for country parks/gardens fell by 40% in 2020, whilst the average number of visitors for wildlife/nature reserves fell by 35%. This compares to a 63% decrease in the overall average number of visitors per attraction.
- 6.20 Railway/travel attractions saw the largest year on year decrease in average visitor numbers (82% decrease). This is to be expected given that attractions where visitors are typically close together will have suffered as a result of social distancing measures. Similarly, some museums/art galleries required pre-booking, to limit the number of visitors at a time (to ensure social distancing), so it is no surprise that these types of attractions saw a 77% decrease in average visitors per attraction.

#### Overall visits by ownership for 2019 & 2020

- 6.23 Privately owned attractions received the highest share of visits in 2019 and 2020 (48% and 43% respectively). This is slightly lower than the proportion of private owned attractions in the sample for both years (61% and 59% respectively).
- 6.24 Attractions owned by local authorities or national parks received a higher proportion of visits than their share in the sample. These attractions accounted for 22% of visits in 2019 but their share in the sample was only 17%, and in 2020 they accounted for 27% of visits but their share in the sample was only 16%.
- 6.25 Amgueddfa Cymru National Museum Wales also received a higher proportion of visits than their share in the sample for 2019. Their attractions accounted for only 2% of attractions in 2019, but 9% of the total visits for that year. In 2020, their proportion of visits (6%) was more similar to their proportion in the sample (3%).
- 6.26 The proportion of visits for the remaining ownership types were relatively similar to their proportion in the sample.

Table 6.7 Overall visits by ownership for 2019 & 2020

Base: attractions that provided data for 2019 (299) and 2020 and were open (221)

Please note that some organisations were only able to provide data for a few of their sites.

\*\*Natural Resources Wales were only able to provide data for 5 of their 29 sites.

### Average visits by ownership for 2019 & 2020

- 6.27 The average number of visitors per attraction fell significantly for some of the larger organisations, such as Cadw, Amgueddfa Cymru National Museum Wales and the National Trust. The average number of visits per Cadw site decreased from 51,425 in 2019 to 10,386 in 2020, an 80% decrease. Amgueddfa Cymru National Museum Wales had an average of 278,827 visitors per site in 2019, but this fell to 49,895 per site in 2020, an 82% decrease. National Trust had an average of 93,999 visitors per site in 2019, but this fell to 27,107 in 2020, a 71% decrease.
- 6.28 This could be because these attractions were significantly impacted by social distancing requirements. For example, to accommodate social distancing, many of these organisations placed a cap on the number of visitors their attractions could accommodate at any time. Whilst some of their attractions may have sold out at peak times, the number of visitors they could accommodate was well below pre-pandemic levels. These attractions would also usually receive a significant number of school trips throughout the year.

| Attraction category                        | Base<br>2019 | Average no.<br>of visits 2019 | Base<br>2020 | Average no.<br>of visits 2020 | %<br>change |
|--------------------------------------------|--------------|-------------------------------|--------------|-------------------------------|-------------|
| Cadw                                       | 24           | 51,425                        | 19           | 10,386                        | -80%        |

#### Table 6.8 Average visits by ownership for 2019 & 2020

Base: attractions that provided data for 2019 (299) and 2020 and were open (221)

Please note that some organisations were only able to provide data for a few of their sites.

Natural Resources Wales were only able to provide data for 5 of their 29 sites for 2019, and 3 of their sites for 2020.

#### Overall visits by range of visits

6.29 As shown in table 6.9 below, 24 attractions reported that they received 200,000 or more visitors in 2019. The visits to these 24 attractions represented almost half (48%) of visits to all attractions in 2019. This is similar to 2018 where 23 attractions reported 200,000 visitors or more, representing 49% of total visits in 2018.

- 6.30 Of the 24 attractions which reported 200,000 visitors or more in 2019, 17 of them did not charge for admission. These 17 free attractions represent 36% of all visits in 2019.
- 6.31 Only six attractions reported 200,000 or more visitors for 2020. On the other end of the scale,30 attractions reported fewer than 2,000 visitors in 2019, but this doubled to 61 in 2020.

| Range of total visits | Base<br>2019 | No. of visits<br>2019 | % of<br>visits<br>2019 | Base<br>2020 | No. of visits<br>2020 | % of<br>visits<br>2020 |  |
|-----------------------|--------------|-----------------------|------------------------|--------------|-----------------------|------------------------|--|

| 100,000 - 149,999     | 21           | 2,617,409             | 12%                    | 8            | 958,967               | 16%                    |  |
| 150,000 - 199,999     | 18           | 3,116,152             | 14%                    | 4            | 712,021               | 12%                    |  |
| 200,000+              | 24           | 10,639,065            | 48%                    | 6            | 1,675,427             | 27%                    |  |
| Total                 | 299          | 22,319,340            | 100%                   | 221          | 6,169,038             | 100%                   |  |

#### Table 6.9 Overall visits by range of visits

Base: attractions that provided data for 2019 (299) and 2020 and were open (221). Please note the sample will vary between years as not all attractions provided data in both 2019 and 2020.

Caution: Small sample sizes

### Increase/ decrease in visitor numbers - 2020 vs 2019

6.32 Unsurprisingly virtually all attractions reported a decrease in visitors for 2020 compared to 2019. 98% of attractions said that their number of visits decreased in 2020. The attraction that reported an increase only began operating in late 2019.

#### Table 6.10 Increase/ decrease in visitor numbers - 2020 vs 2019

| Visit number changes<br>2020 vs 2019 | Indoor | Outdoor | Both -<br>indoor and<br>outdoor | Underground | All |
|--------------------------------------|--------|---------|---------------------------------|-------------|-----|
| Increased                            | 1%     |         |                                 |             | 0%  |

| Decreased                            | 99%    | 95%     | 99%                             | 100%        | 98% |

Base: attractions providing data for 2020 (221)

### Reasons for a decrease in visitors in 2020

- 6.33 Attractions were asked if they could give specific reasons why they received fewer visitors in 2020, beyond simply being closed or the COVID-19 pandemic. The reasons included:
  - (1) Having to restrict visitors to allow for social distancing.
  - (2) School and group tours being cancelled.
  - (3) People wary of visiting places (such as attractions).
  - (4) No special events or activities conducted by the attraction.
  - (5) Lack of overseas visitors.
  - (6) Did not reopen again in 2020 after the start of the pandemic.
  - (7) Poor weather in January and February (pre pandemic), flooding and Storm Dennis.

### Increase/ decrease in visitor numbers – 2019 vs 2018

- 6.34 In 2019, 37% of attractions reported an increase in visitors compared to 2018, 28% said the number of visitors stayed the same, and 29% said the number of visitors decreased.
- 6.35 As shown in table 6.11 below, outdoor attractions were most likely to report an increase in visitor figures for 2019. 51% of outdoor attractions reported an increase in visitors, whereas only 25% of indoor attractions reported an increase.
- 6.36 Although all attractions suffered in 2020, we have already seen that outdoor attractions suffered less. The data below suggests that outdoor attractions also fared better than indoor attractions in 2019.

| Visit number changes<br>2019 vs 2018 | Indoor | Outdoor | Both -<br>indoor and<br>outdoor | Underground | All |
|--------------------------------------|--------|---------|---------------------------------|-------------|-----|
| Increased                            | 25%    | 51%     | 44%                             | 0%          | 37% |
| Stayed the same                      | 33%    | 21%     | 28%                             | 17%         | 28% |
| Decreased                            | 34%    | 21%     | 25%                             | 83%         | 29% |
| Don't know                           | 7%     | 7%      | 3%                              | 0%          | 5%  |

Table 6.11 Increase/ decrease in visitor numbers – 2019 vs 2018

Base: attractions providing data for 2019 (299)

### Reasons for an increase/ decrease in visitors in 2019

- 6.37 The reasons given by attractions reporting an increase in visitor numbers in 2019 were as follows:
  - (1) Better marketing, advertising or promotion to the attraction.
  - (2) Good weather.
  - (3) Increased awareness of the attraction.
  - (4) More social media activity/ stronger presence online.
  - (5) Improvements to the attractions e.g. new developments or facilities.
- 6.38 The reasons given by attractions reporting a decrease in visitor numbers in 2019 were as follows:
  - (1) Brexit/ lack of confidence in the economy and therefore less spending/outings.
  - (2) Lack of overseas visitors.
  - (3) Poor weather coinciding with periods when usually busy.

# 7. Comparative analysis of visits to tourist attractions

7.1 This section of the report looks at trends in the number of visits to attractions, comparing 2019 and 2020 visit figures, and in some cases, 2018 and 2019 visit figures. Please note that this section only relates to attractions that provided data for both years, in order to make like for like comparisons.

### Overall comparisons in visitor figures

- 7.2 Amongst attractions responding to the 2018 and 2019 survey (table 7.1), visit numbers were more or less identical year on year. Whilst for attractions responding to the 2019 and 2020 survey (table 7.2), visit numbers fell by 68%.
- 7.3 For the 2019 and 2020 like for like comparisons, attractions which were closed in 2020 have been classed as having zero visitors. This is to help understand the effect of the COVID-19 pandemic on attractions. Of the 258 attractions included in the 2019 vs 2020 like for like comparisons, 39 were closed in 2020.

#### Table 7.1 Overall comparisons between 2018 and 2019

| Base | No. of visits<br>2018 | No. of visits<br>2019 | % change |
|------|-----------------------|-----------------------|----------|
| 162  | 16,953,943            | 16,898,566            | -0.3%    |

Base: attractions providing data for both 2018 and 2019

Table 7.2 Overall comparisons between 2019 and 2020

| Base | No. of visits<br>2019 |           | % change |
|------|-----------------------|-----------|----------|
| 258  | 19,047,363            | 6,139,493 | -68%     |

Base: attractions providing data for both 2019 and 2020 (attractions closed in 2020 classed as 0 visits)

### Comparisons by admission type between 2019 and 2020

7.4 The decline the in the number of visits to free attractions and to paid attractions in 2020 was relatively similar (65% and 71% decrease respectively).

| Admission<br>type | Base | No. of visits<br>2019 | No. of visits<br>2020 | % change |
|-------------------|------|-----------------------|-----------------------|----------|
| Free              | 104  | 10,295,673            | 3,599,176             | -65%     |
| Paid              | 150  | 8,697,462             | 2,516,258             | -71%     |

#### Table 7.3 Comparisons by admission type between 2019 and 2020

Base: attractions providing data for both 2019 and 2020 (attractions closed in 2020 classed as 0 visits)

Please note: Four attractions charged entry in 2019 but did not in 2020. These have not been included here. As a result, the totals differ slightly to the totals above, as the base is slightly different (254 attractions).

Please note: For attractions that were closed in 2020, we have assumed that if they had been open, they would either have charged or not charged for admission based on whether they charged or not in 2019.

#### Overall comparisons by region between 2019 and 2020

7.5 The decrease in the number of visitors to attractions in Mid Wales was greatest (73%). This compares to a 63% decrease in visitors to attractions in South West Wales.

| Wales<br>region | Base | No. of visits<br>2019 | No. of visits<br>2020 | % change |
|-----------------|------|-----------------------|-----------------------|----------|
| Mid             | 50   | 2,371,003             | 647,184               | -73%     |
| North           | 86   | 6,414,458             | 2,287,654             | -64%     |
| South East      | 64   | 6,357,143             | 1,770,127             | -72%     |
| South West      | 58   | 3,904,759             | 1,434,528             | -63%     |
| Total           | 258  | 19,047,363            | 6,139,493             | -68%     |

#### Table 7.4 Overall comparisons by region between 2019 and 2020

Base: attractions providing data for both 2019 and 2020 (attractions closed in 2020 classed as 0 visits)

Please note: the base to tables in section 7 will be different to the base in tables in section 6. Section 7 counts attractions that were closed in 2020, so that a like for like comparison of visitor figures can be made.

### Overall comparisons by category between 2019 and 2020

7.6 As with the earlier analysis shown in this report, table 7.5 below shows that country parks/ gardens and wildlife/nature reserves saw their visitor numbers decrease (44% and 45% decrease respectively), but not as much as other categories. 7.7 The table below also supports earlier analysis which suggests that museums/art galleries and railway/travel attractions were hit particularly badly. Attractions from these categories that provided data for both years saw an 83% decrease in their visitor numbers in 2020 compared to 2019.

| Attraction category            | Base | No. of visits<br>2019 | No. of visits<br>2020 | % change |
|--------------------------------|------|-----------------------|-----------------------|----------|
| Adventure/ activity attraction | 27   | 1,786,641             | 653,002               | -63%     |

Table 7.5 Overall comparisons by region between 2019 and 2020

Base: attractions providing data for both 2019 and 2020 (attractions closed in 2020 classed as 0 visits)

Please note: the base to tables in section 7 will be different to the base in tables in section 6. Section 7 counts attractions that were closed in 2020, so that a like for like comparison of visitor figures can be made.

Caution: Small sample sizes

#### Overall comparisons by ownership

7.8 Cadw sites saw the largest decrease in visitor numbers – an 84% decrease in 2020 on 2019. This is followed by Amgueddfa Cymru – National Museum Wales which saw an 82% decrease in visitors across their sites. These also saw the largest decrease in their average visitor figures, as shown earlier on page 36.

#### Table 7.6 Overall comparisons by ownership

| Ownership                                  | Base | 2020 closed<br>sites included<br>in comparison* | No. of visits<br>2019 | No. of visits<br>2020 | % change |

| Total                                      | 258  | 39                                              | 19,047,363            | 6,139,493             | -68%     |

Base: attractions providing data for both 2019 and 2020 (attractions closed in 2020 classed as 0 visits)

\* This column shows the number of sites which were closed in 2020 that have been included for this comparison.

Please note that the base to tables in section 7 will be different to the base in tables in section 6. Section 7 counts attractions that were closed in 2020, so that a like for like comparison of visitor figures can be made.

Please note that some organisations were only able to provide data for a few of their sites.

\*\*Please note that Natural Resources Wales were only able to provide data for 3 of their 29 sites in both 2019 and 2020.

### Overall comparisons by venue type

7.9 Table 7.7 below shows the total visits by venue type for attractions that provided data for both 2019 and 2020. Unsurprisingly, underground attractions saw the biggest year or year decrease in visitor numbers (81% decrease). As suggested earlier in the report, indoor attractions suffered more than outdoor attractions.

#### Table 7.7 Overall comparison by venue type

| Venue type                | Base | Total visits<br>2019 | Total visits<br>2020 | % change |
|---------------------------|------|----------------------|----------------------|----------|
| Indoor                    | 95   | 5,965,763            | 1,224,327            | -79%     |
| Outdoor                   | 48   | 4,569,578            | 2,343,340            | -49%     |
| Both - indoor and outdoor | 109  | 8,007,207            | 2,473,883            | -69%     |
| Underground               | 6    | 504,815              | 97,943               | -81%     |
| Total                     | 258  | 19,047,363           | 6,139,493            | -68%     |

Base: attractions providing data for both 2019 and 2020 (attractions closed in 2020 classed as 0 visits)

Please note that the base to tables in section 7 will be different to the base in tables in section 6. Section 7 counts attractions that were closed in 2020, so that a like for like comparison of visitor figures can be made.

# 8. Admission charges

### Overall admission charges for paid attractions

- 8.1 Table 8.1 below shows the average admission charges for paid attractions which provided admissions data for either 2018, 2019 or 2020.
- 8.2 The average admission charge for adults was £9.27 in 2019 and £9.32 in 2020. The average admission charge for children was £5.72 in 2019 and £6.16 in 2020.

#### Table 8.1 Overall admission charges

| Average admission charge | 2018  | 2019  | 2020  |
|--------------------------|-------|-------|-------|
| Adult                    | £9.42 | £9.27 | £9.32 |
| Child                    | £6.74 | £5.72 | £6.16 |

Base: attractions providing data for 2018 (132, from previous survey), 2019 (158) and 2020 (116)

Admissions data from one attraction which provided data for 2019, but not for 2020, has been removed as their admissions charge was significantly above any others, and would therefore distort the figures in this section.

### Comparison of admission charges

8.3 Tables 8.2 and 8.3 below analyse admission charges for paid attractions which provided data for both 2018 and 2019, or 2019 and 2020, so that like for like comparisons can be made. Child admission charges are not available for 2018. However, average adult admission charges for those who provided data for both years increased by 6% in 2019.

Table 8.2 Comparison of 2018 and 2019 admission charges for paid attractions

| Average admission charge | 2018  | 2019  | % change |
|--------------------------|-------|-------|----------|
| Adult                    | £8.86 | £9.36 | 6%       |

Base: attractions providing data for both 2018 and 2019 (73)

8.4 Admission charges fell slightly in 2020 when comparing data from those who provided admission charges for both 2019 and 2020. Average adult admissions charges fell by 1% to £9.29 in 2020, and average child admission charges fell by 3% to £6.20 in 2020.

 Table 8.3 Comparison of 2019 and 2020 admission charges for paid attractions

| Average admission charge | 2019  | 2020  | % change |
|--------------------------|-------|-------|----------|
| Adult                    | £9.42 | £9.29 | -1%      |
| Child                    | £6.40 | £6.20 | -3%      |

Base: attractions providing data for both 2019 and 2020 (114)

### Distribution of adult admission charges by range for 2019 and 2020

- 8.5 Table 8.4 below shows the distribution of adult admission charges for attractions that provided admissions data, for either 2019 or 2020, by charging band. Just under a third of attractions (29%) charged £10 or over in both 2019 and 2020.
- 8.6 Admission charges by band were relatively similar for 2019 and 2020. Although this is no surprise given that the average adult admission charge was similar between both years.
- 8.7 The exception is the proportion of attractions charging anything between £4.00 and £7.99. The proportion charging between £4.00 and £4.99 decreased (from 14% to only 5%), as did the proportion who charged between £7.00 and £7.99 (from 11% to 6%). The proportion who charged between £5.00 and £5.99 increased (from 15% to 21%), as did the proportion who charged between £6.00 and £6.99 (from 7% to 16%).

| Average admission charge | 2019 | 2020 |
|--------------------------|------|------|
| Less than £1.00          | 3%   | 2%   |
| £1.00 - £1.99            | 0%   | 1%   |
| £2.00 - £2.99            | 6%   | 6%   |
| £3.00 - £3.99            | 4%   | 6%   |
| £4.00 - £4.99            | 14%  | 5%   |
| £5.00 - £5.99            | 15%  | 21%  |
| £6.00 - £6.99            | 7%   | 16%  |
| £7.00 - £7.99            | 11%  | 6%   |
| £8.00 - £8.99            | 7%   | 6%   |
| £9.00 - £9.99            | 4%   | 3%   |
| £10 and over             | 29%  | 29%  |

Table 8.4 Distribution of adult admission charges by range for all attractions

Base: attractions providing data for 2019 (158) and 2020 (116)

### Comparison of distribution of adult admission charges by range

8.8 Table 8.5 below shows the distribution of admission charges for attractions which provided data for both 2019 and 2020. Once again, the admission charges by band for the same set of attractions are very similar between both years, except for all of the admission bands between £4.00 and £7.99.

Table 8.5 Comparison of adult admission charges by range 2019 and 2020

| Average admission charge | 2019 | 2020 |
|--------------------------|------|------|
| Less than £1.00          | 3%   | 2%   |
| £1.00 - £1.99            | 0%   | 1%   |
| £2.00 - £2.99            | 6%   | 6%   |
| £3.00 - £3.99            | 3%   | 6%   |
| £4.00 - £4.99            | 10%  | 5%   |
| £5.00 - £5.99            | 16%  | 21%  |
| £6.00 - £6.99            | 8%   | 16%  |
| £7.00 - £7.99            | 14%  | 6%   |
| £8.00 - £8.99            | 6%   | 6%   |
| £9.00 - £9.99            | 4%   | 3%   |
| £10 and over             | 31%  | 28%  |

Base: attractions providing data for both 2019 and 2020 (114)

### Average admission charge by region

- 8.9 Average admission charges for attractions providing data in either 2019 or 2020 were highest for North Wales, for both adults and children. In 2019 the average adult admission charge for North Wales was £11.12, and £11.50 in 2020. In 2019, the average child admission charge for attractions in North Wales was £7.06, and £8.82 in 2020.
- 8.10 The average admission fees for attractions in Mid Wales and South West Wales, for both 2019 and 2020, were around £8 for adults and £5 for children.

| Average admission charge | Base<br>2019 | Average adult<br>admission<br>charge 2019 | Average child<br>admission<br>charge 2019 | Base<br>2020 | Average adult<br>admission<br>charge 2020 | Average child<br>admission<br>charge 2020 |
|--------------------------|--------------|-------------------------------------------|-------------------------------------------|--------------|-------------------------------------------|-------------------------------------------|
| Mid                      | 26           | £7.53                                     | £4.43                                     | 18           | £7.87                                     | £4.40                                     |
| North                    | 56           | £11.12                                    | £7.06                                     | 41           | £11.50                                    | £8.82                                     |
| South East               | 34           | £9.26                                     | £5.54                                     | 27           | £7.88                                     | £4.89                                     |
| South West               | 42           | £7.89                                     | £4.88                                     | 30           | £8.51                                     | £4.74                                     |
| Total/ overall average   | 158          | £9.27                                     | £5.72                                     | 116          | £9.32                                     | £6.16                                     |

Table 8.6 Average admission charge by region

Base: attractions providing data for 2019 (158) and 2020 (116)

### Comparison of average admission charge by region

8.11 The results from data provided by attractions for both years shows that amongst these attractions, admission charges did not change greatly. However, this is no surprise given that adult admission charges amongst these attractions only decreased by 1%, and child admission charges only decreased by 3%.

|                          | 5    | 5 5                                       | 5                                         |                                           |                                           |
|--------------------------|------|-------------------------------------------|-------------------------------------------|-------------------------------------------|-------------------------------------------|

| South West               | 29   | £7.87                                     | £5.34                                     | £8.37                                     | £4.90                                     |
| Total/ overall average   | 114  | £9.42                                     | £6.40                                     | £9.29                                     | £6.20                                     |

Table 8.7 Comparison of average admission charge by region

Base: attractions providing data for both 2019 and 2020 (114)

### Average admission charge by attraction category

- 8.12 Average admission charges were highest for adventure/ activity attractions. In 2019, the average adult admission charge was £15.81, whilst in 2020 it was £16.10. The admission charge for children was also highest, at £14.32 in 2019 and £15.35 in 2020.
- 8.13 The average entry fee for railway/travel attractions was not too dissimilar to those from adventure/activity attractions. The average adult admission charge for railway/ travel attractions was £14.28 in 2019 and £15.58 in 2020. However, the average child entry fee for these attractions is significantly lower, at an average of £5.84 in 2019 and £6.82 in 2020.
- 8.14 The lowest admission charges were for 'other attractions', however these represent attractions which do not fall into the other categories. Excluding 'other attractions', the lowest average adult admission charge for 2019 was for museum/ art galleries at £5.33. The lowest average child admission charge in 2019 was for country parks/ gardens at £2.15.
- 8.15 Excluding 'other attractions', the lowest admission charges in 2020 were also for museums/ art galleries at £6.08, whilst the lowest fee for children was again from country park/ gardens at £1.99.

### Comparison of average admission charge by attraction category

- 8.16 Average admission charges were relatively similar between 2019 and 2020 for attractions which provided data for both years. However, as noted earlier, this is to be expected given that the average admission charges decreased only slightly amongst these attractions in 2020.
- 8.17 Excluding 'other attractions', only three attraction categories saw increases in admission charges for both adults and children. These are adventure/activity attractions, railway/ travel attractions, and admission charges increased marginally for wildlife/ nature reserves.

 Table 8.9 Comparison of average admission charge by attraction category

| Average admission charge       | Base | Average adult<br>admission | Average child<br>admission | Average adult<br>admission | Average child<br>admission |
|--------------------------------|------|----------------------------|----------------------------|----------------------------|----------------------------|

| Wildlife or nature reserve     | 8    | £7.59                      | £5.35                      | £7.65                      | £5.54                      |
| Other attraction               | 3    | £4.38                      | £5.18                      | £4.72                      | £5.25                      |
| Total/ overall average         | 114  | £9.42                      | £6.40                      | £9.29                      | £6.20                      |

Base: attractions providing data for both 2019 and 2020 (114)

Caution: Small sample sizes

### Average admission charge by ownership

- 8.18 Average admission charges were highest for private owners/trusts in both 2019 and 2020. The average adult admission charge for these was £10.19 in 2019, and £10.80 in 2020. The average child admission charge for these was £6.66 in 2019 and £7.45 in 2020.
- 8.19 Average admission charges for attractions operated by Cadw decreased in 2020. For example in 2019, the average adult admission charge was £6.10, whilst adult admission charges reduced to £5.63 in 2020. Cadw was able to provide their admission charges for all paid attractions in both years, though in 2020 five of their sites did not open and were therefore not counted in the 2020 average admission charges.

#### Table 8.10 Average admission charge by ownership

| Average admission charge        | Base<br>2019 | Average<br>adult charge<br>2019 | Average<br>child charge<br>2019 | Base<br>2020 | Average<br>adult charge<br>2020 | Average<br>child charge<br>2020 |

Base: attractions providing data for 2019 and/or 2020. The National Trust has been excluded as not enough data on admission charges was provided to make meaningful conclusions.

Caution: Small sample sizes

#### Comparison of average admission charge by ownership

8.20 Amongst attractions providing data for both 2019 and 2020, average admission charges for attractions operated by local authorities/ national parks increased slightly in 2020, as did admission charges for attractions operated by private owners/ trusts.

#### Table 8.11 Comparison of average admission charge by ownership

Base: attractions providing data for both 2019 and 2020. The National Trust has been excluded as not enough data on admission charges was provided to make meaningful conclusions.

Caution: Small sample sizes

# 9. **Operations**

### Gross revenue movement

- 9.1 Nearly half (47%) of attractions reported a growth in revenue in 2018 compared to 2017 (results from previous survey).
- 9.2 Growth slowed in 2019 with 52% of attractions reporting similar revenue to the previous year. When looking at results by venue type, 50% of outdoor attractions reported an increase in revenue in 2019, whilst only 25% of indoor attractions reported an increase in revenue. 47% of attractions which class themselves as both indoor and outdoor attractions also saw an increase in revenue.
- 9.3 Unsurprisingly, the vast majority (90%) of attractions reported a decrease in gross revenue in 2020. The results to do not differ by venue type.

| Gross revenue<br>change | 2018 compared<br>with 2017 | 2019 compared<br>with 2018 | 2020 compared<br>with 2019 |  |  |  |  |

#### Table 9.1 Gross revenue movement

Base: attractions providing data for 2018/ 2019/ 2020 and were open the previous year

9.4 Those whose revenue decreased were asked what the percentage decrease was, if known. Of the 194 attractions that reported a decrease in revenue for 2020, 112 were able to provide the percentage decrease. The average percentage decrease amongst these attractions was 64%.

### Overall employment in 2019 and 2020

- 9.5 Attractions were asked to provide a breakdown of employees and volunteers in tourismrelated activities in 2019 and 2020. For 2020, attractions were asked to provide figures for summer 2020, as staff numbers may have changed during the year, and summer is when they were most likely to be open.
- 9.6 In 2019, unpaid seasonal volunteers accounted for the largest proportion of workers (43%). This is in keeping with the results from previous years.
- 9.7 However, in 2020 the number of seasonal unpaid volunteers reduced significantly to 21% of staff at attractions in Wales. As a result, the proportion of workers for all of the other categories increased in 2020, with the exception of seasonal full-time staff, which stayed the same (3%) due to a decrease in numbers.

Table 9.2 Overall employment in 2019 and 2020

| Employee ty | ре                | No. of employees<br>2019 | 2019 % | No. of employees<br>2020 | 2020 % |
|-------------|-------------------|--------------------------|--------|--------------------------|--------|
| Permanent   | Full-time         | 1,718                    | 17%    | 1,356                    | 25%    |
|             | Part-time         | 1,425                    | 14%    | 1,193                    | 22%    |
|             | Unpaid volunteers | 1,208                    | 12%    | 822                      | 15%    |
| Seasonal    | Full-time         | 326                      | 3%     | 156                      | 3%     |
|             | Part-time         | 1,114                    | 11%    | 790                      | 15%    |
|             | Unpaid volunteers | 4,331                    | 43%    | 1,123                    | 21%    |
| Total       |                   | 10,170                   | 10,122 | 100%                     | 5,440  |

Base: attractions providing data for 2019 (274) and 2020 (235), including attractions that were closed in 2020

- 9.8 Attractions were also asked how many staff were put on furlough in 2020. In total, 59% of attractions that were able to provide employment figures said that they used the furlough scheme. These attractions put 2,228 staff on furlough in total. This equates to an average of 16.1 members of staff on furlough per attraction that used the scheme. The average amongst all attractions, including those who did not use furlough, was 9.5 members of staff.
- 9.9 The findings above are similar to those from the Tourism Barometer Coronavirus impact survey. When asked in September 2020, seven in ten attractions said that they had staff on furlough<sup>14</sup>. Among all industries in the UK, in August 2020 around 13% of the workforce were on partial or furlough leave, compared with 51% of the arts, entertainment and recreation industry<sup>15</sup>.

### Overall change in employment between 2019 and 2020

- 9.10 Staff numbers have been collated for attractions which provided this information for both 2019 and 2020, so that a like for like comparison can be made. The results are shown in table 9.3 below.
- 9.11 Overall, there was a 30% decrease in staff amongst the attractions that provided employment figures for both years.
- 9.12 The data suggests that seasonal staff were hit harder than permanent staff. There was only a 6% decrease in full-time permanent staff amongst the attractions providing employment figures for both 2019 and 2020. Similarly, there was only a 1% decrease in part-time permanent staff. This compares to a 48% decrease in full-time seasonal staff and a 22% decrease in part-time seasonal staff.

<sup>&</sup>lt;sup>14</sup> <u>Tourism Barometer (Coronavirus (COVID-19) impact survey): wave 5 2020</u>

<sup>&</sup>lt;sup>15</sup> Office for National Statistics: Coronavirus and the economic impacts on the UK: 27 August 2020

9.13 Unpaid volunteers appear to be impacted the most, particularly seasonal unpaid volunteers. The number of seasonal unpaid volunteers in 2019 amongst participating attractions was 2,633, but this fell to 1,123 volunteers in 2020, a 57% decrease.

| Employee type |                   | No. of<br>employees 2019 | No. of<br>employees 2020 | % change |
|---------------|-------------------|--------------------------|--------------------------|----------|
|               | Full-time         | 1,409                    | 1,331                    | -6%      |
| Permanent     | Part-time         | 1,208                    | 1,191                    | -1%      |
|               | Unpaid volunteers | 1,111                    | 822                      | -26%     |
|               | Full-time         | 301                      | 156                      | -48%     |
| Seasonal      | Part-time         | 954                      | 746                      | -22%     |
|               | Unpaid volunteers | 2,633                    | 1,123                    | -57%     |
|               | Total             | 7,616                    | 5,369                    | -30%     |

#### Table 9.3 Overall change in employment between 2019 and 2020

Base: attractions providing data for both 2019 and 2020 (232), including attractions that were closed in 2020

### Change in employment by attraction category

- 9.14 Although dealing with small sample sizes, the year on year change in the number of staff by attraction category suggests that railway/ travel attractions and industrial/craft attractions were hit particularly hard. Both of these attraction categories saw a 50% decrease in staff in 2020 compared to 2019. Both of these attraction types also saw some of the largest year on year decreases in visitor numbers.
- 9.15 Museums/ art galleries were another attraction category to see large decreases in their year on year visitor figures. However, this reduction in visitors may not have necessarily transferred into as many job losses as may have been expected. Responding museums/art galleries saw a 27% decrease in staff in 2020.
- 9.16 Country parks/ gardens and wildlife/nature reserves saw an 18% and 20% decrease in staff in 2020 compared to 2019. These are amongst the smallest decreases in staff compared to the other categories. As noted earlier, visitor figures to these two attraction categories did not fall as dramatically as the number of visitors to other attraction categories.

 Table 9.4 Change in employment by attraction category

| Attraction category            | Base | 2019 staff | 2020 staff | % change |
|--------------------------------|------|------------|------------|----------|
| Adventure/ activity attraction | 26   | 863        | 665        | -23%     |
| Country park/ garden           | 20   | 483        | 397        | -18%     |
| Farm/ rare breeds              | 6    | 274        | 188        | -31%     |
| Food or drink attraction       | 13   | 116        | 78         | -33%     |
| Historic property              | 49   | 1,040      | 758        | -27%     |
| Industrial/ craft attraction   | 10   | 254        | 126        | -50%     |
| Museum/ art gallery            | 69   | 2,924      | 2,136      | -27%     |
| Railway/ travel                | 15   | 955        | 474        | -50%     |
| Science/ technology<br>centre  | 2    | 32         | 27         | -16%     |
| Theme park/ leisure            | 1    | 88         | 63         | -28%     |
| Wildlife or nature reserve     | 16   | 513        | 411        | -20%     |
| Other attraction               | 5    | 74         | 46         | -38%     |
| Total                          | 232  | 7,616      | 5,369      | -30%     |

Base: attractions providing data for both 2019 and 2020 (232), including attractions that were closed in 2020 Staff figures include all permanent staff and all seasonal staff, including unpaid volunteers *Caution: Small sample sizes* 

### Marketing expenditure levels

- 9.17 In 2018, 74% of attractions said that their marketing expenditure was similar to their marketing expenditure in 2017 (results from survey in 2018). This is similar for 2019, where around three quarters (77%) of attractions said that their marketing expenditure for 2019 was similar to their marketing expenditure for 2018.
- 9.18 Unsurprisingly, these results changed in 2020. About three quarters (76%) of attractions said that their marketing expenditure decreased in 2020 when compared to the levels spent in 2019.
- 9.19 Quite surprisingly, 20% said their marketing expenditure in 2020 was similar to the amount spent in 2019 and 4% indicated this had increased. This could be down to attractions desperately trying to make up for losses in visitor numbers, or the marketing spend for the year already having been agreed before the pandemic.

### Table 9.5 Marketing expenditure levels

| Attraction category | 2018 compared<br>with 2017 | 2019 compared<br>with 2018 | 2020 compared<br>with 2019 |
|---------------------|----------------------------|----------------------------|----------------------------|
| Up                  | 16%                        | 15%                        | 4%                         |
| Similar             | 74%                        | 77%                        | 20%                        |
| Down                | 10%                        | 8%                         | 76%                        |

Base: attractions providing data for 2018/ 2019/ 2020

## 10. Visitor profile for 2019 and 2020

### Proportion of adult and child visits by attraction category

- 10.1 The proportion of visitors to attractions that were adults is similar for both 2019 and 2020 71% and 73% respectively. This is line with the results from 2018, where 70% of visitors to attractions were adults.
- 10.2 For most attraction types in 2019, the majority of visitors were adults. The exception to this is for science/technology attractions, where 54% of visitors were children, and 'other' attractions, where 50% of visitors were children. Some of these 'other' attractions are indoor activity centres.
- 10.3 In 2020, science/technology attractions reported that only 32% of visitors were children. This may be due to fewer school trips/ group visits to these types of venues due to the COVID-19 pandemic.
- 10.4 The proportion of visitors in 2019 and 2020 that were adults and children is fairly similar for the remaining attraction categories between both years.

| Attraction category            | Base<br>2019 | Average %<br>adult visitors<br>2019 | Average %<br>child visitors<br>2019 | Base<br>2020 | Average %<br>adult visitors<br>2020 | Average %<br>child visitors<br>2020 |
|--------------------------------|--------------|-------------------------------------|-------------------------------------|--------------|-------------------------------------|-------------------------------------|
| Adventure/ activity attraction | 30           | 57%                                 | 43%                                 | 25           | 55%                                 | 45%                                 |
| Country park/ garden           | 28           | 71%                                 | 29%                                 | 22           | 72%                                 | 28%                                 |

Table 10.1 Proportion of adult and child visits by attraction category

Base: attractions providing data for 2019 / 2020

Please note, the majority of the above figures are based on estimates

Caution: Small sample sizes

### Origin of visitors 2019 and 2020

- 10.5 The proportion of visitors that were from overseas in 2019 (10%) is similar to the results from the 2018 survey (11%). Unsurprisingly, the proportion of visitors to attractions in 2020 that were from overseas reduced to 3%.
- 10.6 The other significant change is the increase in the proportion of visitors in 2020 that were from Wales. In 2019, 47% of visitors to attractions were from Wales, whereas the figure reported by attractions for 2020 was 59%. This likely reflects the public's mindset to 'stay local', continuing with the message from Welsh Government earlier in the pandemic.

Table 10.2 Origin of visitors 2019 and 2020

| Attraction category                | 2019  | 2020  |
|------------------------------------|-------|-------|
| Average % visitors from overseas   | 10.4% | 3.1%  |
| Average % visitors from Wales      | 47.3% | 59.4% |
| Average % visitors from rest of UK | 42.3% | 37.5% |

Base: attractions providing data for 2019 (242) and 2020 (174)

### Proportion of visitors in organised groups / tours for 2019 and 2020

- 10.7 The proportion of visitors that were estimated to be from organised groups or tours in 2019 was 14%. This is similar to the estimate provided for 2018 (13%).
- 10.8 Quite surprisingly, the proportion of visitors from groups or tours only reduced to 8% in 2020.

Table 10.3 Proportion of visitors in organised groups / tours for 2019 and 2020

| Attraction category | Average % visiting in groups/ tours |
|---------------------|-------------------------------------|
| 2019                | 14%                                 |
| 2020                | 8%                                  |

Base: attractions providing data for 2019 (287) and 2020 (186)

# 11. In-depth interviews: Main findings

A discussed earlier this report, one aim of the in-depth interviews was to understand how attractions estimate their visitor figures, as summarised in sections 3.13 to 3.15. A number of other topics were discussed in the interviews. The main findings are discussed below.

### Many have had difficulty in retaining volunteers

11.1 Many of the attractions that took part in the interviews said that they have had difficulty in retaining volunteers. One smaller attraction has not reopened as their volunteers tend to be older, and therefore at risk. Another attraction decided not to ask for any volunteers as they are trying to reduce the number of staff in the attraction.

"We haven't used volunteers since the pandemic. We're trying to reduce the number of staff in the museum, to only have the numbers we need. But they also tend to be older people, and it just wouldn't make sense for us to take that risk, especially when it's not essential that we have them"

*"We haven't reopened yet since the pandemic. We're all volunteers here and it just doesn't make sense to open when all of our staff are at risk"* 

"A lot of the volunteers haven't returned to us yet because they're not quite sure about returning because of Covid"

"We rely extensively on volunteers which has been one of our downfalls in that we haven't been able to get them to come back yet"

### A few increased their online presence

11.2 When attractions were forced to close, there was little they could do, but a few of those spoken to said that they were keen to stay visible. Particularly as when they were allowed to reopen, they wanted to be at the forefront of people's minds as a place to visit.

"We ran podcasts, we did social media posts and things like that. I think it's increased our presence in the community but it's hard to tell"

*"We developed our website a bit more with different kind of things, and we did a bit more on Facebook. We wanted to stay in people's minds"* 

### Some said that they have voluntarily kept some COVID-19 measures

11.3 Despite restrictions on attractions ending, some of those spoken to said that they have decided to retain COVID-19 measures they adopted whilst restrictions were in place.

"We've kept to the one way system, it's just easier. Especially for people with pushchairs"

"A meal is offered as part of the tour, but now we serve it outside whenever we can"

*"We're still operating at reduced capacity, because different groups don't really want to sit next to other people, they want to sit apart, so we still don't use all seats"* 

"We are part of the council, so we have to follow the restrictions they still have in place which includes the 2m social distancing, facemasks, contact tracing, so they have to provide their details when entering the building. Because we're a small space we have decided to have limitations on the number of people that come in to protect ourselves and visitors"

11.4 There were some measures, however, that attractions were glad to remove. One attraction said that advance booking used to be a requirement, but now they simply ask visitors to book beforehand only if they are able to do so.

"We did do online only bookings to stagger entry, but we found that it limited older people, and it caused congestions at reception because older visitors couldn't work out how to use the advance booking system. But we also have a suspicion that it might put people off. So we ask people to book beforehand, but it's not essential"

11.5 One attraction said that they continue to change their offering slightly from what it was before the pandemic, to allow for COVID-19 measures they still adopt.

"We've stopped doing bike hire because there's a lot of touching on a bike. We used to offer canoes for an hour but because we had to wipe everything down each time we now offer them for ½ days"

### Two attractions said they foresee price rises next year

11.6 Both of these attractions said that they will need to start repaying loans taken during the pandemic, and also cited rises in heating and petrol prices.

"Prices will have to go up, the reason being is we have to start repaying the loan that we got through the government. Everything has gone through the roof, the price of fuel is bananas, insurance is ridiculous. We'll have to do something"

# 12. Alphabetical list of attractions responding to the survey 2019 and 2020

| Thank ye | ou for completing your figures for 2019. This section now asks about 2020.                                                                                                |
| Q23      | Can you provide exact or best estimate figures for 2020?                                                                                                                  |
|          | If you can't provide figures for 2020 then we will contact you again later when, hopefully, you will be able to provide us with this data.                                |
|          | Yes       No       GO TO END/ Q50                                                                                                                                         |
| Q24      | So that we can better understand the effect of COVID-19 on your business, can you please tell us whether you are classed as an indoor, outdoor or underground attraction? |
|          | <ul> <li>Indoor</li> <li>Outdoor</li> <li>Both - indoor and outdoor</li> <li>Underground</li> </ul>                                                                       |

Q25 Were you open for the whole of 2020 (that is every month)?

- □ Yes

#### Q26 Which months were you open in 2020?

- January
- **February**
- March
- April
- May
- June

#### July August

- September
- October
- November
- **December** 
  - None closed Go to Q46, but all year don't ask Q49.

#### Q27 Did you choose to close at any point, at a time that you would normally have been and were allowed to be open?

- Yes we chose to close because of COVID-19
- Yes we chose to close but for reasons unrelated to COVID-19
- No we chose to stay open whenever we were allowed to do so

#### Q28 At what percentage of your normal capacity level have you been operating at, on average, when open during the pandemic?

- Open at full capacity
- **90 99%**
- **□** 80 89%
- **□** 70 79%
- □ 60 69%
- **50 59%**
- **□** 40 49%
- **□** 30 39%
- **□** 20 29%
- □ 10 19%
- Less than 10%
