

The Applicable Statute

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce's (the Department's) regulations are to 19 C.F.R. Part 351 (1998).

Extension of Time Limit for Preliminary Results

The Department of Commerce (the Department) received a request to conduct an administrative review of the antidumping duty order on Gray Portland Cement and Clinker from Mexico. On October 1, 1999, the Department initiated this administrative review covering the period August 1, 1998, through August 31, 1999.

Because of the complexity and timing of certain issues in this case, it is not practicable to complete this review within the time limit mandated by section 751(a)(3)(A) of the Act. Following initiation of the administrative review, we received an allegation of sales below cost. We have completed our analysis of the cost allegation and are in the process of conducting a cost investigation. However, since we did not receive the allegation of sales below cost until more than three months after initiation of the administrative review, we are unable to complete our analysis before the current deadline. Therefore, the Department is extending the time limit for the preliminary results to August 30, 2000. The Department intends to issue the final results of review 120 days after the publication of the preliminary results. This extension of the time limit is in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: April 19, 2000.

Richard Moreland,

Deputy Assistant Secretary for Import Administration.

Coastal Nonpoint Pollution Control Program: Approval Decision on California Coastal Nonpoint Pollution Control Program

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce, and The U.S. Environmental Protection Agency.

ACTION: Notice of intent to approve the California Coastal Nonpoint Program.

SUMMARY: Notice is hereby given of the intent to fully approve the California Coastal Nonpoint Pollution Control Program (coastal nonpoint program) and of the availability of the draft Approval Decisions on conditions for the California coastal nonpoint program. Section 6217 of the Coastal Zone Act Reauthorization Amendments (CZARA), 16 U.S.C. section 1455b, requires states and territories with coastal zone management programs that have received approval under section 306 of the Coastal Zone Management Act to develop and implement coastal nonpoint programs. Coastal states and territories were required to submit their coastal nonpoint programs to the National Oceanic and Atmospheric Administration (NOAA) and the U.S. Environmental Protection Agency (EPA) for approval in July 1995. NOAA and EPA conditionally approved the California coastal nonpoint program on June 30, 1998. NOAA and EPA have drafted approval decisions describing how California has satisfied the conditions placed on its program and therefore has a fully approved coastal nonpoint program.

NOAA and EPA are making the draft decisions for the California coastal nonpoint program available for a 30-day public comment period. If no comments are received, the California program will be approved. If comments are received, NOAA and EPA will consider whether such comments are significant enough to affect the decision to fully approve the program.
