13.3. Data Protection

Usually, a data protection form is distributed to the National Federations in order to obtain the consent of their players and officials who will be participating in the Wheelchair Handball World Championship regarding the collection and use of their data.

Each participating Member Federation must obtain the consent of the respective participating players and officials to use their data as defined in the above-mentioned form. Each participating Member Federation must hold the IHF and its partners harmless from any legal action from a player concerning the players' data rights.

If for any reason the data protection form is not provided to the National Federations by the IHF Head Office, the collection and use of personal data by the IHF will be made for the purpose of the legitimate interest of the IHF and the participants of the IHF Wheelchair Handball World Championship to organise, stage and promote the Wheelchair Handball World Championship and wheelchair handball in general in accordance with Article 6 (f) of the GDPR (General Data Protection Regulation).

13.4. Disputes

Any disputes arising during the IHF Wheelchair Handball World Championship shall be dealt with by the IHF appeal authorities. The procedure of raising protests and appeals and further specifications are laid down in the IHF Legal Provisions. Furthermore, the IHF will describe the procedures that apply for the relevant event in the corresponding official announcement.
