

## Sixty-year cycle

The 60-year cycle of the Tamil Calendar is also found in many North Indian traditional calendars, with the same name and sequence of years. This 60-year cycle is also used in the Chinese calendar.

After the completion of sixty years, the calendar starts anew with the first year. This corresponds to the Hindu "century." The Vakya or Tirukannitha Panchangam (the traditional Tamil almanac) outlines this sequence.

The following list presents the current 60-year cycle of the Tamil calendar:
