Data Notes:

- 1) All data were compiled from the 2020 Census P.L. 94-171 release. Neighborhood tabulations were calculated by allocating Census tabulation block level data to neighborhoods based on centroid intersection
- 2) The category 'Unallocated - Awaiting CQR' represents population that may have been misallocated to blocks within city boundaries but outside of the city's neighborhood boundaries. This misallocation will be addressed through the Census Count Question Resolution Program (CQR) beginning in December 2021
- 3) The Census variable references used to tabulate each column are referenced in the first line of each column header
