Basic Telephone Service Section

Part J — Charging Zones

Certain words are used with the specific meanings set out in clause 14 of Part A – General of the Basic Telephone Service section, or in the General Terms of Our Customer Terms.

About this Part

This is part of the Basic Telephone Service section of Our Customer Terms. Provisions in other parts of the Basic Telephone Service section, as well as in the General Terms of Our Customer Terms, may apply. To see these terms – home and family customers click [here](#); business and government customers click [here](#).

See clause 1 of the General Terms of Our Customer Terms for more detail on how the various sections of Our Customer Terms should be read together. To see these terms – home and family customers click [here](#); business and government customers click [here](#).

Zoning changes may impact the type of call charges you receive. The relevant charging districts, charging zones and charging precincts are set out below. You can review recent changes at [Telstra.com](https://www.telstra.com) to check if you have been impacted by one of these changes.

Part J — Charging Zones

Explanations

Why is this information relevant?

- 2.1 Working out whether a call is a local call, extended zone call, preferential call or community A rate call depends on which charging district, charging zone or charging precinct the call is made from or to.

The definitions of these call types are set out in [Part A - General of the Basic Telephone Service section](#) of Our Customer Terms.

Districts, zones and precincts

- 2.2 Every Basic Telephone Service is in a charging zone. Every charging zone is part of a charging district. Some charging zones have parts of them that are charging precincts.

- 2.3 A full list of **charging districts** is below. For each charging district, it shows:

- (a) the charging zones that make up that district; and
- (b) the other charging districts that are adjoining districts for that district.

- 2.4 A full list of **charging zones** follows the list of charging districts. For each charging zone, it shows:

- (a) the charging district the zone belongs to;
- (b) other charging zones that are adjoining zones for that zone;
- (c) any other zones that contain community service towns or partial community service towns for that zone; and
- (d) details of whether the zone is a special type of zone (such as an urban fringe zone, an outer metropolitan zone or an extended zone).

- 2.5 A full list of **charging precincts** follows the list of charging zones. For each charging precinct, it shows:

- (a) the charging zone the precinct belongs to; and
- (b) the charging zone or charging precincts to which local calls can be made from that precinct.

Charge points

- 2.6 Each charging district and charging zone has a particular notional geographical point that is its charge point. The longitude and latitude of each charge point is listed in the list of charging districts and charging zones below.

Charging districts

District	Charge point	Adjoining districts	Contains the following charging zones
Adelaide	34°56'0"S 138°35'30"E	Gawler, Mallala, Murray Bridge, Nuriootpa, Victor Harbor	Adelaide, McLaren Vale, Mount Barker (SA), Salisbury, Woodside (SA)
Adelong	35°17'30"S 148°9'30"E	Albury, Canberra, Cooma, Corryong, Temora, Wagga Wagga, Young	Adelong, Batlow, Bethungra, Burra (NSW), Carabost, Coolac, Cootamundra, Gundagai, Mannus, Nangus, Stockinbingal, Talbingo, Tooma, Tumberumba, Tumorrana, Tumut, Wallendbeen, Yaven Creek
