Cologne, Olob. 23. The Deputies of the Elector of Trier, and the Dake of Newbourg, are expected here in few days; They come in pursuance of the Commission their Masters have from the Emperor, to endeavour joyntly with the Sieur Jodoci, the Imperial Minister here, to re-establish the affairs of this City upon the antient foundation, and to put an end to the disorders that have of late troubled the publick peace. In the mean time the Deputies of this City are parted from hence for Vienna, to give the Emperor an account of their proceedings, and to justifie them. According to our last advices from Hungary, the King of Poland and the Duke of Lorrain, had resolved to besiege Gran; The Ca-valry of the Circle of Franconia was coming back to winter in the Empire.

Liege, Offob. 26. The Endeavours that have been used for the accommodating the differences which have so long depended between this City and the Elector of Cologne, their Prince, are like to have at last a good success; The 32 Companies or Trades having by plurality of Voices approved of the Project of Accommodation, which the Bishop of Strasbourg delivered to their Deputies at Stavelo, and the faid Bishop is expected here this day to conclude this affair.

Bruffels, November 7. On Tuesday last we had the news here that the French Army under the Command of the Mareschal d'Humieres had Besieged Courtray; and this day we hear that the Town is Surrendred; the Governor, and Garison which confisted in two Regiments of Horse and two of Foot, being retired into the Cittadel. Our Letters from Lintz and Fienna, give us an account that the Troops of Lithuania, and the Cossackes which were coming to joyn the King of Poland in Hungary, had fallen upon Count Teckeley near Arva, that they had defeated him, had killed 2000 of his men, and taken four pieces of Cannon and most of his Baggage, and that he and the rest of his Troops were fled into the Mountain-Towns; and that the Duke of Lorrain had befreged Gran with the Imperial Army, having begun the Siege the 20 of the laft Month; and that the hing of Poland was marched with his Forces towards Buda, with a delign, as was believed, to attack Pest, which lies over against

Buda, and covers the Bridge of that place.

Dunkirke, November 6. There are Letters from the French Army dated the 4th of this month, which tell us; That the Mareschal d'Humières decamped from Leslines on Sunday last, and the next day being the first instant, set down before Courtray. They opened not their Trenches till the third at night, out then advanced them with so much diligence that they lodged themselves that night on the Counterscarp, with the loss of about 109 mon killed and wounded; and the next morning, the day these Letters were written, the Town surrendred, Ribond; Whoever gives notice of it to Mr. Simson at the Burghers having obliged the Governor and Green-Twiffed Posts in Drury-lane, shall have 10 s newerd.

men of that Dutchy have resolved to follow with the Garison, which it's said consisted of about 1100. Men, to retire into the Cittadel, against which the Befiegers intended to break ground the day following.

> Whitehall, Novemb. 2. His Majesty was pleas'd to Command the Honourable Mr. Boyle, to attend Him to give His Majesty an Ocular Proof of the Nicety of his way of examining the Freshness and Saltness of Water, and to apply it to the Sea Water, prepar'd according to the Patentees Invention; which being done before His Majesty, his Royal Highness, and the Duke of Grafton, several Persons of Quality being also present, it was made apparent by a certain prepar'd Liquid which Mr. Boyle had brought with him, that a Discovery could be made if there were so much as a thoufandth part of Salt in a propos'd Water; by which Trial His Majesty finding that the Prepar'd Sea Water, for which He has granted His Royal Patenr, was at least as free from Salt as the best Waters used in this Town; received such satisfaction as to the wholsomeness of the said Water, that He was pleased to declare His Royal Intentions both to encourage the faid Invention, and to have the faid Water made use of in His several Maritime Garisons, which Nature has not furnished with wholsome Water.
