For the purposes of that section the enactment to be varied comprises an alternative statutory provision under section 36(3) of the Water Resources Act 1963.

Section 46(2)(b) of the Clywedog Reservoir Joint Authority Act 1963 provides that the Authority are to discharge from Clywedog Reservoir into the Afon Clywedog such quantity of water (if any) as may from time to time be necessary for the purpose of ensuring that the rate of flow in the River Severn at Bewdley gauge is not less than one hundred and sixty million gallons per day.

The variations proposed to the said section 46 (2) (b) are to provide

- (i) That the required rate of flow in the river Severn at Bewdley gauge is not less than 850 megalitres (187 million gallons) per day provided nevertheless that the Authority shall not be required to discharge more than 500 megalitres (110 million gallons) of water per day and
- (ii) That the rate of flow in the river Severn at Bewdley gauge shall be measured as an average rate of flow over any period of five consecutive days.

WATER RESOURCES ACT 1963

WATER ACT 1973

WATER RESOURCES (LICENCES) REGULATIONS 1965

LIVERPOOL CORPORATION WATERWORKS ACT 1880

Notice of Proposals for Varying an "Alternative Statutory Provision" Authorising the Obstruction or Impeding of the Flow of an Inland Water by Means of Impounding Works.

Notice is hereby given that the Severn-Trent Water Authority, in pursuance of section 48 of the Water Resources Act 1963, have formulated proposals for varying the "alternative statutory provisions" contained in sections 37, 41, 42 and 43 of the Liverpool Corporation Waterworks Act 1880 which authorised the obstruction or impeding of the flow of the River Vyrnwy by means of impounding works at Llanwddyn, Powys.

The proposed variations are:

Compensation water is at present discharged from Lake Vyrnwy into the River Vyrnwy in accordance with the provisions of section 37 of the Liverpool Corporation Waterworks Act 1880 in a regular, equal, constant and continuous supply at a rate of not less than 10,000,000 gallons throughout the 24 hours of every day into the River Vyrnwy at a point not more than 40 chains from the foot of the embankment of that reservoir. In addition in the eight months of March to October inclusive in each year further compensation water consisting each month of 40,000,000 gallons per day discharged during each of four successive days or two periods of two successive days is discharged in a regular, equal, constant and continuous supply, subject to a maximum limit in any one year of 1,280,000,000 gallons.

The Severn-Trent Water Authority propose to vary this provision by providing for a normal daily compensation water discharge of 9,900,000 gallons (45,000 cubic metres) which will be reduced to 5,500,000 gallons (25,000 cubic metres) at times when the rate of flow in the diversion channel from the Afon Cownwy determined at 0900 each day by a reference gauge which is to be located at National Grid Reference SJ/000/180 is more than 4,400,000 gallons (20,000 cubic metres) per day. The requirement to discharge the monthly compensation water in accordance with the provisions of the Liverpool Corporation Waterworks Act 1880 will be removed. The water thus not discharged will be retained in the reservoir and discharged subsequently to augment the flow in the River Vyrnwy and the River Severn during times of natural low flows.

A copy of the proposals and of any map, plan or document prepared in connection with them may be inspected free of charge at the offices of the Authority at Lake Vyrnwy Estate Office, Llanwddyn, Powys, and Powells Lane, Welshpool, Powys, and at the principal offices of the Authority at Abelson House, 2297 Coventry Road, Sheldon, Birmingham, B26 3PU, at all reasonable hours during the period beginning on the 23rd March 1978 and ending on 20th April 1978.

Any person who wishes to make representations about the proposals should do so in writing to the Director of Scientific Services, Severn-Trent Water Authority, Abelson House, 2297 Coventry Road, Sheldon, Birmingham, B26 3PU, at any time before the end of the said period. After the expiry of the said period the Authority will be entitled to pass a resolution by virtue of which the variations shall be deemed to be authorised unless the Secretary of State for the Environment either in consequence of any representations made with respect to the proposals or otherwise requires an application for authorisation of the variations to be made to him.
