

Global Innovation Index 2021

GHANA

112th Ghana ranks 112th among the 132 economies featured in the GII 2021.

The Global Innovation Index (GII) ranks world economies according to their innovation capabilities. Consisting of roughly 80 indicators, grouped into innovation inputs and outputs, the GII aims to capture the multi-dimensional facets of innovation.

The following table shows the rankings of Ghana over the past three years, noting that data availability and changes to the GII model framework influence year-on-year comparisons of the GII rankings. The statistical confidence interval for the ranking of Ghana in the GII 2021 is between ranks 102 and 112.

Rankings for Ghana (2019–2021)

| | GII | Innovation inputs | Innovation outputs |
|------|-----|-------------------|--------------------|
| 2021 | 112 | 114 | 103 |
| 2020 | 108 | 113 | 93 |
| 2019 | 106 | 109 | 97 |

- Ghana performs better in innovation outputs than innovation inputs in 2021.
- This year Ghana ranks 114th in innovation inputs, lower than both 2020 and 2019.
- As for innovation outputs, Ghana ranks 103rd. This position is lower than both 2020 and 2019.

23rd Ghana ranks 23rd among the 34 lower middle-income group economies.

12th Ghana ranks 12th among the 27 economies in Sub-Saharan Africa.

EXPECTED VS. OBSERVED INNOVATION PERFORMANCE

The bubble chart below shows the relationship between income levels (GDP per capita) and innovation performance (GII score). The trend line gives an indication of the expected innovation performance according to income level. Economies appearing above the trend line are performing better than expected and those below are performing below expectations.

Relative to GDP, Ghana's performance is at expectations for its level of development.

The positive relationship between innovation and development

EFFECTIVELY TRANSLATING INNOVATION INVESTMENTS INTO INNOVATION OUTPUTS

The chart below shows the relationship between innovation inputs and innovation outputs. Economies above the line are effectively translating costly innovation investments into more and higher-quality outputs.

Ghana produces more innovation outputs relative to its level of innovation investments.

Innovation input to output performance

BENCHMARKING AGAINST OTHER LOWER MIDDLE-INCOME GROUP ECONOMIES AND SUB-SAHARAN AFRICA

The seven GII pillar scores for Ghana

Lower middle-income group economies

Ghana performs above the lower middle-income group average in Infrastructure.

Sub-Saharan Africa

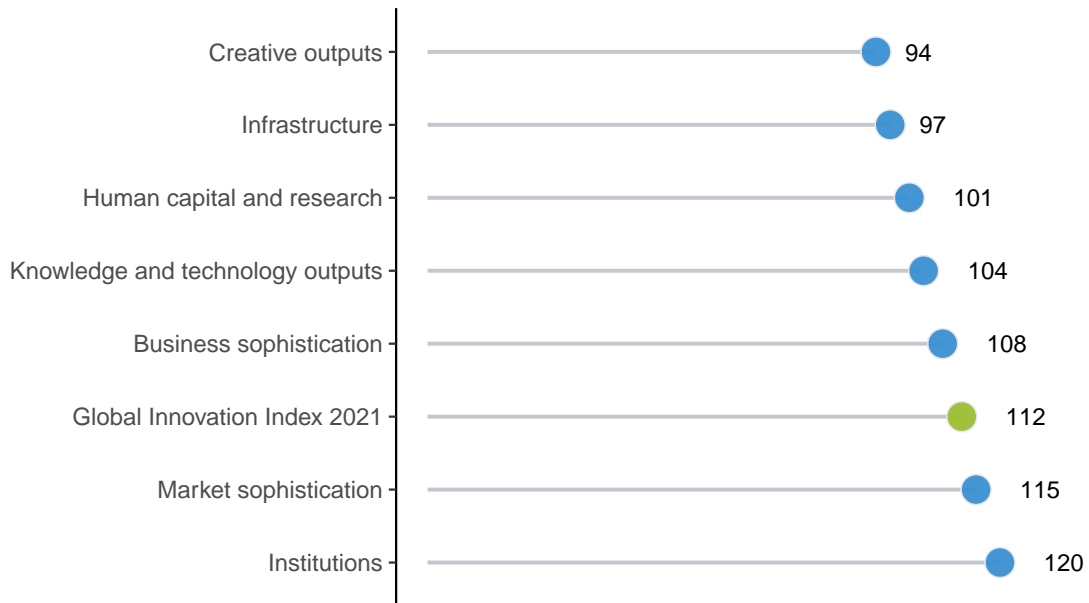

Ghana performs above the regional average in four pillars, namely: Human capital and research; Infrastructure; Knowledge and technology outputs; and, Creative outputs.

OVERVIEW OF RANKINGS IN THE SEVEN GII 2021 AREAS

Ghana performs best in Creative outputs and its weakest performance is in Institutions.

The seven GII pillar ranks for Ghana

Note: The highest possible ranking in each pillar is one.

INNOVATION STRENGTHS AND WEAKNESSES

The table below gives an overview of the strengths and weaknesses of Ghana in the GII 2021.

Strengths and weaknesses for Ghana

| Strengths | | | Weaknesses | | |
|-----------|---|------|------------|--|------|
| Code | Indicator name | Rank | Code | Indicator name | Rank |
| 3.3.1 | GDP/unit of energy use | 36 | 1.2 | Regulatory environment | 128 |
| 4.1.3 | Microfinance gross loans, % GDP | 32 | 1.2.3 | Cost of redundancy dismissal | 127 |
| 5.1.2 | Firms offering formal training, % | 29 | 1.3.2 | Ease of resolving insolvency | 127 |
| 5.2.1 | University-industry R&D collaboration | 45 | 2.3.3 | Global corporate R&D investors, top 3, mn US\$ | 41 |
| 5.2.2 | State of cluster development and depth | 42 | 2.3.4 | QS university ranking, top 3 | 74 |
| 5.2.3 | GERD financed by abroad, % GDP | 35 | 3.3.2 | Environmental performance | 125 |
| 5.3.4 | FDI net inflows, % GDP | 19 | 5.1.4 | GERD financed by business, % | 100 |
| 6.2.1 | Labor productivity growth, % | 11 | 5.2.5 | Patent families/bn PPP\$ GDP | 100 |
| 7.1.3 | Industrial designs by origin/bn PPP\$ GDP | 24 | 5.3.2 | High-tech imports, % total trade | 126 |
| 7.2.4 | Printing and other media, % manufacturing | 25 | 6.1.2 | PCT patents by origin/bn PPP\$ GDP | 98 |
| | | | 6.2.3 | Software spending, % GDP | 122 |

| Output rank | Input rank | Income | Region | Population (mn) | GDP, PPP\$ (bn) | GDP per capita, PPP\$ | GII 2020 rank |
|-------------|------------|--------------|--------|-----------------|-----------------|-----------------------|---------------|
| 103 | 114 | Lower middle | SSF | 31.1 | 175.6 | 5,707 | 108 |

ABOUT THE GLOBAL INNOVATION INDEX

The Global Innovation Index (GII) is published by the World Intellectual Property Organization (WIPO), a specialized agency of the United Nations.

Recognizing that innovation is a key driver of economic development, the GII aims to provide an innovation ranking and rich analysis referencing around 130 economies. Over the last decade, the GII has established itself as both a leading reference on innovation and a “tool for action” for economies that incorporate the GII into their innovation agendas.

The Index is a ranking of the innovation capabilities and results of world economies. It measures innovation based on criteria that include institutions, human capital and research, infrastructure, credit, investment, linkages; the creation, absorption and diffusion of knowledge; and creative outputs.

The GII has two sub-indices: the Innovation Input Sub-Index and the Innovation Output Sub-Index, and seven pillars, each consisting of three sub-pillars.
