NBC-TV EXPERIMENT

Show Kinescoped On Location

NBC-TV June 13 telecast of the RCA Victor Show Starring Ezio Pinza was kinescoped on location June 7 in a special programming experiment.

Using "Stop-start" camera technique of motion pictures, each take was microwaved from San Juan Capistrano to NBC Hollywood, 60 miles south. Video and audio then were reported by "hot kinnie" and edited until the reel was complete. After negatives were cut, the picture was ready for screening.

To circumvent the American Federation of Musicians' 5% pre-recording fee, orchestral music by David Rose was fed by master control to New York and piped back along cable with taped dialogue track, thus making entire sight and sound positions originate from New York.

The experiment, resulting from two months planning by Program Producer Ted Mills, might eliminate the necessity of filmed TV for network programs, it was reported.
