TECHNICAL STANDARD

of the QR Universal Payment Order

UPNQR Form

TECHNICAL STANDARD

General description of the payment instrument Universal Payment Order UPN QR (UPN QR Form)

The description of the UPN QR form specifies its appearance, its purpose of use and method of production, its format with allowed deviations (tolerances), the allowed raw materials and their quality, its mechanical processing, its packaging, storage and marking, and the technical requirements for the scanning of the fields and the QR code.

The print shop intending to print the UPN QR form must first successfully pass a verification of the form's conformity with the UPN QR technical standard, carried out by a company authorised for this purpose and selected by the ZBS. Only print shops who meet the prescribed standards and are registered in the list of authorised print shops of the UPN QR form may print the UPN QR form. The list of authorised print shops is published on the website of the Bank Association of Slovenia - GIZ (<http://www.zbs-giz.si>).www.zbs-giz.si.

The UPN QR form consists of a **Receipt** (left part) and a **Payment Order** (right part). The Receipt is for the payer and the Payment Order is for the payment service provider.

The Receipt contains the following fields:

- Payer's name (the name, street and city of the payer are each in their own line);
- Purpose and payment deadline (the purpose of the payment and the payment deadline are separated by a comma and a space);
- Amount;
- Recipient's IBAN and reference (IBAN is on the first line);
- Recipient's name (the name, street and city of the recipient are each in their own line);
- Space reserved for the bank's confirmation of the service provided.

The Payment Order contains the following fields:

- QR code (*Koda QR*)
- Payer's IBAN (*IBAN plačnika*)
- Deposit (*Polog*)
- Withdrawal (*Dvig*)
- Payer's reference (*Referenca plačnika*)
- Payer's name, street and city (*Ime, ulica in kraj plačnika*)
- Amount (*Znesek*)
- Date of payment (*Datum plačila*)
- Urgent (*Nujno*)
- Purpose code (*Koda namena*)
- Purpose of payment (*Namen plačila*)
- Payment deadline (*Rok plačila*)
- Recipient's IBAN (*Iban prejemnika*)
- Recipient's reference (*Referenca prejemnika*)
- Recipient's name, street and city (*Ime, ulica in kraj prejemnika*)
- Payer's signature (optional stamp) (*Podpis plačnika/ neobvezno žig*)
- Space for entries of the payment service provider. (*Prostor za vpise ponudnika plačilnih storitev*)

1. Dimensions of the form

The dimensions of the form are expressed in mm. Format of the UPN form:

- Width 210 mm
- Payment order width 150 mm
- Confirmation width 60 mm
- Height 99 mm
- Tolerance ± 0,5 mm

2. Paper characteristics

2.1. General

For the purpose of machine data recognition, it is required to use paper defined as OCR paper for the printing of the UPN QR form. It must be white, non-glossy and of high opacity (non-transparent, high opacity). It shall be free from elements that cause changes in reflection (such as dirt, unevenness, water marks and fluorescent additives). The paper shall comply with the requirements as defined in **DIN 6723** and **ISO1831-1980**.

2.2. Recommended paper characteristics for OCR processing (measured at 230° C and 50% relative humidity)

- paper basis weight: OCR 90-100 g/m² (± 4%), / ISO 536
- paper thickness: 110-125 µm (± 5 µm) / ISO 534
- smoothness: 5,50 µm ISO 8791/4
- 200 ml/min (± 50) / Bendsten ISO 8791-2
- 160 ml/min (Sheffield) ISO 2494
- ≥ 025 ml/min (Bekk) DIN 53 107
- porosity: 600 ml/min (-300/+100)/ Bendtsen DIN 53120/1
- burst strength: 148 kPa
- whiteness (R 457 nm): ≥ 95 % / ISO 2470
- opacity: ≥ 85 % / ISO 2471
- bonding: ≤ 30 g/m² (Cobb 60) ISO 535
- impurity - max. 250 particles Ø > 0.1 mm-0.2 mm/m²
- the form is printed on white paper
- micro perforation is used for separation.

3. Print on the form

The UPN QR form is divided into two parts. On the left side is the 60 mm wide **payment confirmation** (receipt), which is separated by micro perforation from the 150 mm wide right side (payment order). The text of the fields and the borders of the fields of the receipt shall be printed in **PANTONE 172** optical red. The pre-printed marks - UPN QR -receipt and EUR – shall be printed in black.

The text of the fields and the borders of the fields on the **payment order** shall also be printed in optical red **PANTONE 172 U**. The payment order is divided into a part for the payer, which shall be printed in 20 % **PANTONE 172 U**, and a part which contains data of the recipient, which shall be printed in 20 % yellow **PANTONE 116 U**.

The UPN QR and EUR markings and the document alignment software markings are pre-printed in black. Printing on the backside of the UPN QR form is **not allowed**.

3.1. UPN QR - Receipt (copy for the client)

- height: 99 mm
- width: 60 mm

The text of the fields and the borders of the fields shall be printed in optical red. The font is Myriad Pro, size 7 pt. / semibold.

Meaning of the markings in Figure 1:

- A1** - UPN QR marking- receipt, in black, Myriad Pro, size 10 pt /semibold
A2 - text 'Payer's name', Myriad Pro, size 7 pt /semibold
A3 - field for entering the Payer's name, street and city (each in its own line) (4 mm from the left edge, 52,5 mm long and 13,5 mm high)
A4 - text 'Purpose and date of payment', Myriad Pro, size 7 pt /semibold
A5 - field for the purpose and payment deadline (4 mm from the left edge, 52,5 mm long and 9 mm high)
A6 - text 'EUR', in black, Myriad Pro, size 11 pt /semibold
A7 - text 'Amount', Myriad Pro, size 7 pt /semibold
A8 – field 'Amount' (16,5 mm from left edge, 40 mm long and 5 mm high)
A9 - text 'IBAN and recipient reference', Myriad Pro, size 7 pt /semibold
A10 - field for the entry of the IBAN and reference of the recipient (4 mm from the left edge, 52,5 mm long and 13,5 mm high)
A11 - text 'Recipient's name', Myriad Pro, size 7 pt /semibold
A12 - field for entering the name, street and place of the payer (each in its own line) (4 mm from the left edge, 52,5 mm long and 13,5 mm high)
A13 - space reserved for the bank's confirmation of the service provided
A14 - text 'Space for payment service provider entries', Myriad pro, size 6 pt

3.2. Payment Order

The order is divided optically into two parts. The upper part is dedicated to the Payer's details (red part), and there is also a space for the QR code in this part. The lower part, yellow, is dedicated to the Recipient.

3.2.1. Upper part
- height: 50 mm
- width: 150 mm

Meaning of the markings in Figure 1:

- A15** - scan and programme alignment mark (61 mm from the left edge of 1,5 x 1,5 mm)
A16 - scan and programme alignment mark (207,5 mm from left edge, size 1,5 x 1,5 mm)
A17 - text 'QR Code', Myriad Pro, size 7 pt /semibold
A18 - text ' Payer's IBAN', Myriad Pro, size 7 pt /semibold
A19 - text "Deposit", Myriad Pro, size 7 pt /semibold
A20 - text "Withdrawal", Myriad Pro, size 7 pt /semibold
A21 - QR code field guides with tolerances
A22 - Payer's IBAN field (106,5 mm from left edge, 71,25 mm long and 5 mm high)
A23 - Deposit indication field (185,25 mm from the left edge in width and height 4 mm)
A24 - field to indicate the withdrawal (196,50 mm from the left edge in width and height 4 mm)
A25 - QR code entry field (63,5 mm from the left edge, 40 mm width and height 39,5 mm)
A26 - text 'Payer's reference', Myriad Pro, size 7 pt /semibold

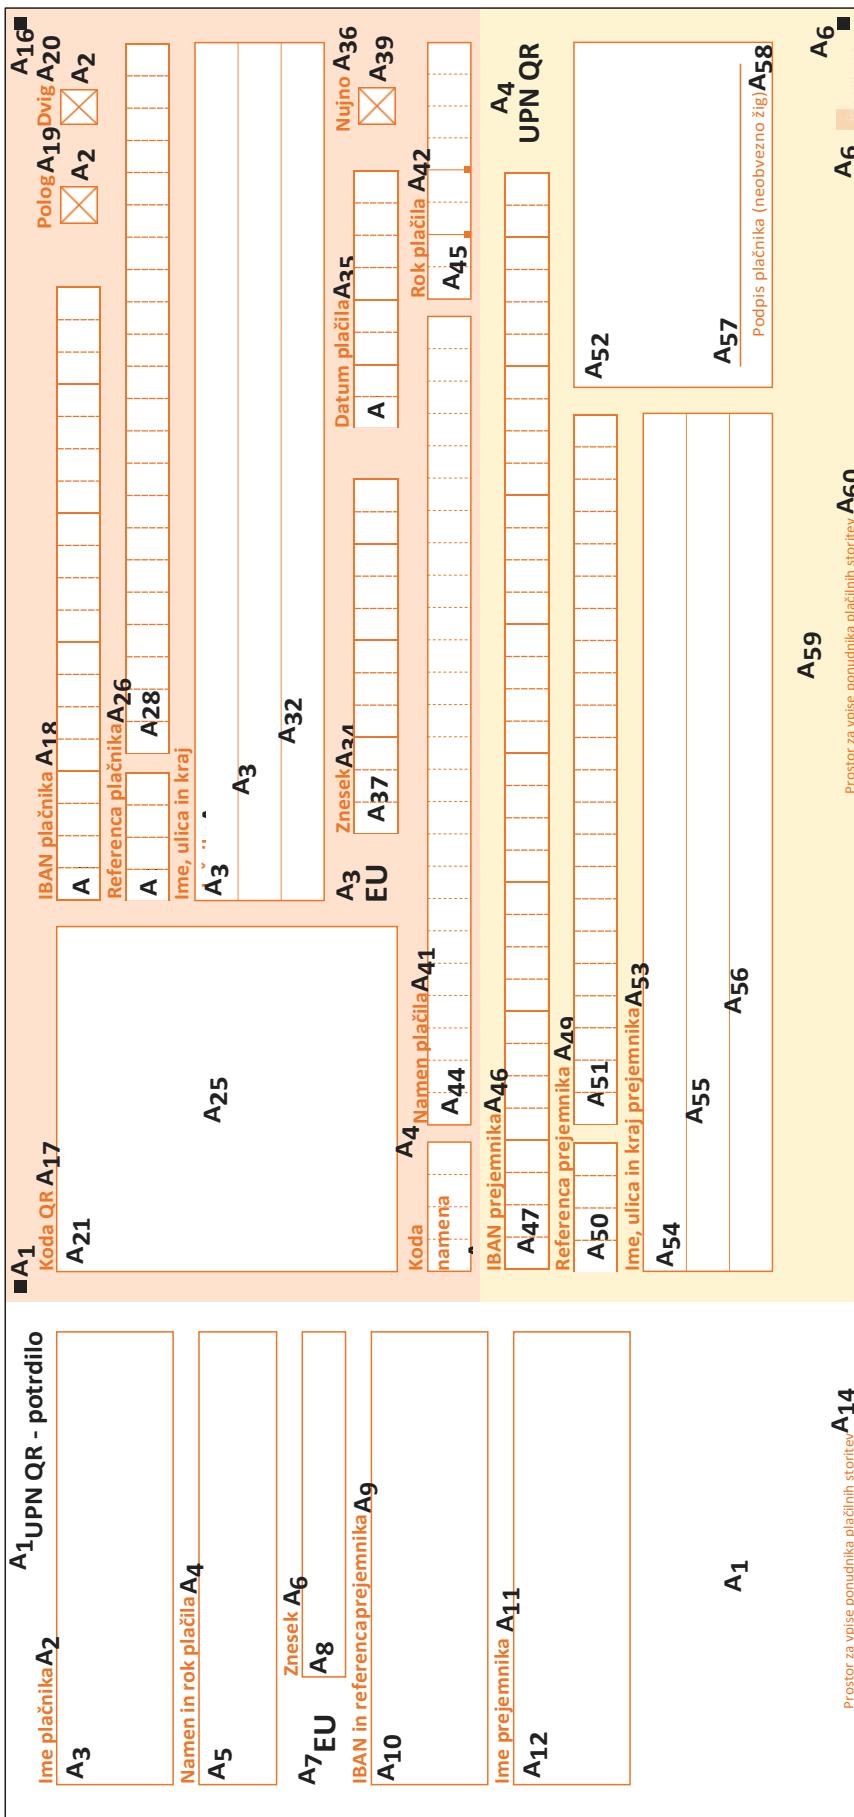

- A27** - reference field 1 (106,5 mm from the left edge, 15 mm long and 5 mm high)
A28 - reference field 2 (123,5 mm from the left edge, 82,5 mm long and 5 mm high)
A29 - text 'Payer's name, street and city', Myriad Pro, size 7 pt /semibold
A30 - field for entering the name and address (106,5 mm from the left edge, 99,5 mm long and 15 mm high)
A31 - border dotted line (0,5/0,2 pt) for the entry of first and last name (106,5 mm from the left edge, 99,5 mm long, 0,25 pt thick)
A32 - border dotted line (0,5/0,2 pt) for the entry of the street (106,5 mm from the left edge in length 99,5 mm, thickness 0,25 pt)
A33 - pre-printed text EUR, in black, Myriad Pro, size 11 pt/semibold (106,5 mm from the left edge)
A34 - text 'Amount', Myriad Pro, size 7 pt/half crest
A35 - text 'Date of payment', Myriad Pro, size 7 pt /semibold
A36 - text 'Urgent', Myriad Pro, size 7 pt /semibold
A37 -field for entering the amount (114,25 mm from the left edge, 41,25 mm long and 5 mm high)
A38 - field for entering the date of payment (161,25 mm from the left edge, 30 mm long and 5 mm high)
A39 - field to indicate urgency (196,75 mm from the left edge, 4 x 4 mm)
A40 - text 'Purpose code', Myriad Pro, size 7 pt /semibold
A41 - text 'Purpose of payment', Myriad Pro, size 7 pt /semibold
A42 - text 'Payment deadline', Myriad Pro, size 7 pt /semibold
A43 - field for entering the purpose code (63,5 mm from the left edge, 15 mm long and 5 mm high)
A44 - field for entering the purpose of payment (80,5 mm from the left edge, 93,75 mm long and 5 mm high)
A45 - field for entering the payment deadline (176,25 mm from the left edge, 29,75 mm long and 5 mm high)

3.2.2. Lower part

- height: 44 mm
- width: 150 mm

- A46** - text " Recipient's IBAN", Myriad Pro, size 7 pt /semibold
A47 - field for the entry of the IBAN of the recipient (63,5 mm from the left edge, 127,5 mm long and 5 mm high)
A48 - text 'UPN QR', Myriad Pro, size 10 pt /semibold
A49 - text 'Recipient's reference', Myriad Pro, size 7 pt /semibold
A50 - reference field 1 (63,5 mm from the left edge, 15 mm long and 5 mm high)
A51 - reference field 2 (80,5 mm from the left edge at 82,5 mm long and 5 mm high)
A52 - stamp and signature field (166 mm from the left edge, 40 mm wide by 23 mm high)
A53 - text 'Recipient's name, street and city', Myriad Pro, size 7 pt /semibold
A54 - field for entering the name and address (63,5 mm from left edge, 99,5 mm long and 15 mm high)
A55 - border dotted line (0,5/0,2 pt) for the entry of first and last name (63,5 mm from the left margin in length 99,5 mm, thickness 0,25 pt)
A56 - border dotted line (0,5/0,2 pt) for the entry of the street (63,5 mm from the left edge in length 99,5 mm, thickness 0,25 pt)
A57 - border line for the signature (168,5 mm from the left edge in a length of 35 mm, thickness 0,5 pt)
A58 - text 'Payer's signature (optional stamp)', Myriad Pro, size 6 pt
A59 - space for the payment service provider's entries (height: 10 mm, width: 150 mm)
A60 - text 'Space for entries of the payment service provider', Myriad Pro, size 5 pt
A61 - space for the printer's mark or logo (printed in PANTONE 172 U optical red).
20 mm space available, height not to exceed 2,5 mm from the bottom edge. The printer's mark or logo shall be aligned to the right of the edge of the stamp and signature field.
A62 - scan and programme alignment mark (207,5 mm from the left edge of 1,5 x 1,5 mm)

Figure 1: Markings on the UPN QR

FIELDS BY COORDINATES

Table 1: Coordinates and height and width of the fields according to the document

Field marking	Field content	Left upper edge		Right bottom edge	
RECEIPT		x1	y1	x2	y2
A1	Marking "UPN QR - receipt"	32,6	2,0	56,5	4,9
A2	Text " Payer's Name"	4,0	3,5	17,2	5,8
A3	Field for the Payer's name (52,5 mm x 13,5 mm)	4,0	6,0	56,5	19,5
A4	Text 'Purpose and deadline of payment'	4,0	20,0	25,4	22,2
A5	Field for the purpose and deadline of payment (52,5 mm x 9 mm)	4,0	22,5	56,5	31,5
A6	Text 'Amount'	16,5	32,0	24,0	33,8
A7	Text 'EUR' in black	7,8	35,6	14,2	38,3
A8	Amount field (40 mm x 5 mm)	16,5	34,5	56,5	39,5
A9	Text ' Recipient's IBAN and reference'.	4,0	40,0	34,8	42,3
A10	Recipient's IBAN and reference field (52,5 mm x 13,5 mm)	4,0	42,5	56,5	56,0
A11	Text 'Recipient's name'	4,0	56,5	20,8	58,8
A12	Recipient's name field (52,5 mm x 13,5 mm)	4,0	59	56,5	72,5
A13	Space for the entries of the payment service provider (60 mm x 26,5 mm)	0,0	72,5	60,0	99,0
A14	Text 'Space for entries of the payment service provider'	13,8	97	46,0	98,6
ORDER	Payer's section	x1	y1	x2	y2
A15	Scan and programme alignment mark (1,5 x 1,5 mm)	61,0	1,0	62,5	2,5

A62	Scan and programme alignment mark (1.5 x 1.5 mm)	207,5	96,5	209,0	98,0

Figure 2: UPN QR dimensions

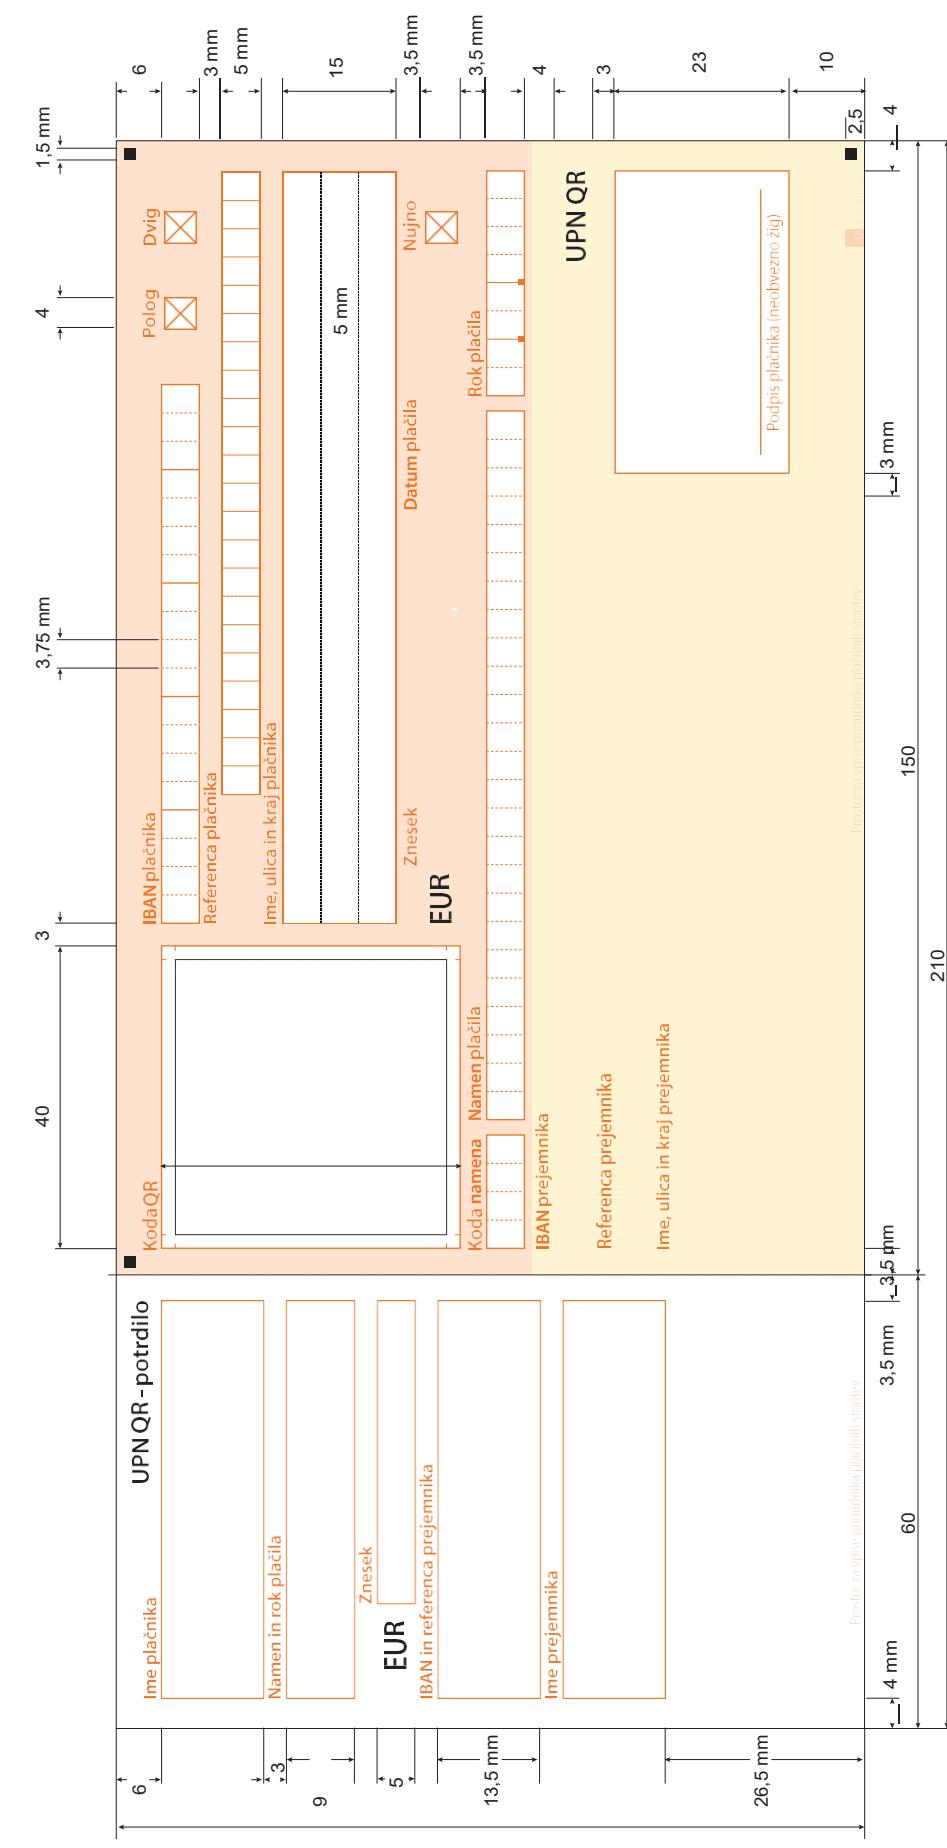

Figure 3: Example of a UPN QR order completed by the issuer

Figure 4: Example of a UPN QR order after scanning with the red filter

4. Technical requirements for printing and method of recording data

4.1. Printing the form

Colours:

PANTONE 172 U - used for printing the raster background of the section containing the Payer's data (20%), field borders and text (100%).

PANTONE 116 U - used for printing the raster background of the section containing the Recipient's data (20%). **Pantone Black** - used for printing the UPN QR, UPN QR - receipt, EUR and programme alignment marks.

As the form is printed using laser printers, it is required to use inks for the pre-printing of the form that allow the subsequent use of laser printers. If the print is digital, the Pantone in the CMYK colour system is used for the Pantone 172 U and Pantone 116 U. Text fields, borders and rasters shall be free of black and blue (CK) (ensuring drop-out when scanned with a red filter).

No adhesives may be used on the UPN QR form.

4.2. Method of recording data

The form is designed for manual and machine data recording. The height of the fields to be filled in is 5 mm. **When a QR code is used, all the data contained on the form must be entered in the QR code.**

4.2.1. Manual completion

The width of the individual fields for manual completion shall be 3,75 mm and the height of the fields shall be 5 mm. The order shall be completed in capital letters. Enter one letter or number in each of the fields. The use of dark coloured pens (black, blue) is required. The content of the fields should be written so that it is aligned to the left-hand side - the beginning of the field. Enter the amount in the field in cents, aligned to the right. The 'Name, street and town' field is entered by writing each piece of information in its own line, making sure that they do not overlap.

4.2.2. Machine completion

The form shall be completed by machine using the prescribed non-proportional font Courier New (bold) in size 12 CPI. When filling in by machine, letters or numbers should not be filled in the fields, they should only be left aligned and in the correct field. The Amount, Payment Date, Payment Deadline, IBAN and Reference will be formatted when the payment order is machine-completed. The standard specifies that the non-proportional font Curier New (bold) shall be used for machine completion. The size of the form completion is set to 12 cpi (characters per inch), which does not mean 12 pt (font size designation) as many people mistakenly believe. However, 17 cpi is recommended for filling in the talon.

Curier New 12 cpi ✓ CORRECT

5. Technical requirements for recording QR code data

The QR code is a two-dimensional barcode developed in 1994 in Japan for the automotive industry. It quickly spread to other industries in Japan and then worldwide. The QR code specification was approved as an ISO 18004 standard in 2000. QR code reading is fast, reliable and inexpensive, as it can be read by devices such as smart phones, tablets, scanners and special-purpose readers.

5.1. Characteristics of the printed QR code on the UPN QR form

- a. QR Version: Version 15 (77x77 modules). Version 15 is required, regardless of the amount of data entered.
- b. QR data type: Byte data (Binary).
- c. QR Error Correction Level: ECC_M (Error Correction Level M).
- d. QR Character Set: ISO 8859-2. The use of Extended Channel Interpretation (ECI value 000004) is required.
- e. QR module size: 0,42333 mm x 0,42333 mm.
- f. QR code size without the required white border: 32,59676 x 32,59667 mm.
- g. QR space with the required white border: 35,98333 x 35,98333 mm.
- h. QR minimum print resolution: 600 x 600 DPI.

If a QR code is being completed, restrictions on the length of individual fields apply according to the structure of the QR record. The content of the QR record must be identical to the records on the form.

5.2. QR code record structure

At the end of each field, from sequence number 1 up to and including 20, add the punctuation LF (0x0A, '\n'). If an individual field is blank, it contains only the punctuation mark.

SN	Field descript.	Max. length	QR content description	Example of a completed field on the form	Example of a field in a QR code
1.	Leading style	5	Constant »UPNQR«.		UPNQR\n
2.	Payer's IBAN		Rules for SI IBAN without spaces.	SI56 0201 7001 4356 205	SI56020170014356205\n
3.	Deposit	1	Uppercase "X" or blank.		\n
4.	Withdrawal	1	Uppercase "X" or blank.		\n
5.	Payer's reference		(4+22) Model and reference together without spaces. 4 - SI or RF model rules. 22 - Rules for SI or RF reference (without spaces).	SI00 225268-32526-222	SI00225268-32526-222\n
6.	Payer's name		All characters of the ISO 8859-2 code table. No leading or following spaces.	Any company Ltd.	Any company Ltd.\n
7.	Payer's street and No.		All characters of the ISO 8859-2 code table. No leading or following spaces.	Lepa cesta 10	Lepa cesta 10\n
8.	Payer's city		All characters of the ISO 8859-2 code table. No leading or following spaces.	2000 Maribor	2000 Maribor\n
9.	Amount		Just numbers with leading zeros. Amount multiplied by 100 and without prefix or decimal places. The maximum amount that can be entered is 999,999,999,999.99 (one billion - 1). If 0, the content is "0000000000".	***1.268,74	00000126874\n
10.	Payment date		Format 'DD.MM.YYYY'.	11.07.2016	11.07.2016\n
11.	Urgent	1	Uppercase "X" or blank.	X	X\n
12.	Purpose code	4	Uppercase letters (A-Z). Purpose code rules.	CPYR	CPYR\n
13.	Purpose of payment		All characters of the ISO 8859-2 code table. No leading or following spaces.	Invoice payment 18/2016.	Invoice payment 18/2016.\n
14.	Payment deadline		Format 'DD.MM.YYYY'.		\n
15.	Recipient's IBAN		Rules for SEPA IBAN without spaces.	SI56 0203 6025 3863 406	SI56020360253863406\n
16.	Recipient's reference		(4+22) Model and reference together without spaces. 4 - SI or RF model rules. 22 - Rules for SI or RF reference (without spaces).	SI08 1236-17-345679	SI081236-17-345679\n
17.	Recipient's name		All characters of the ISO 8859-2 code table. No leading or following spaces.	Bank Association of Slovenia-GIZ	Bank Association of Slovenia - GIZ\n
18.	Recipient's street and No.		All characters of the ISO 8859-2 code table. No leading or following spaces.	Šubičeva 2	Šubičeva 2\n
19.	Recipient's city		All characters of the ISO 8859-2 code table. No leading or following spaces.	1000 Ljubljana	1000 Ljubljana\n
20.	Sum of the lengths of fields 1 to 19, including punctuation marks	3	Numbers with leading zeros. Formula: Value = strlen(N1+'\n') + strlen(N2+'\n') + + strlen(N19+'\n').		252\n
	Reserve		Blank or spaces.		

(*) The reserve field may be blank or contain spaces and have no punctuation. The maximum length of the reserve field is limited by the capacity of the QR record (V15, Binary, ECC_M, ECI ISO-8859-2), which is 411 characters. To complete the reserve field, the maximum length can be calculated using the following formula:

$$\text{ReserveMaxLength} = 411 - (\text{strlen}(N1+'\n') + \text{strlen}(N2+'\n') + + \text{strlen}(N20+'\n')).$$

The maximum length of the data, including punctuation without reserve, is 411 characters.

6. Possible forms of the UPN form

6.1. UPN QR forms on A4/3

3 UPN QR forms are pre-printed on an A4 sheet. The height of each form is 99 mm, width 210 mm. The total height is 297 mm, width 210 mm (A4). The forms are separated by micro perforation (including the receipt part).

The diagram illustrates three identical UPN QR forms arranged vertically on an A4 sheet. The total height of the sheet is 297 mm, divided into three equal segments of 99 mm each. Each segment contains a form with the following fields:

- UPN QR - potrdilo**
- Ime plačnika**
- Namen in rok plačila**
- Znesek**
- EUR**
- IBAN in referenca prejemnika**
- Ime prejemnika**
- Koda QR**
- IBAN plačnika**
- Referenca plačnika**
- Ime, ulica in kraj plačnika**
- Polog**
- Dvig**
- Koda namena**
- Namen plačila**
- Rok plačila**
- IBAN prejemnika**
- Referenca prejemnika**
- Ime, ulica in kraj prejemnika**
- UPN QR**
- Podpis plačnika (neobvezno zig)**
- Prostor za vpise ponudnika plačilnih storitev**

6.2. UPN QR A4 with letter

Measures of the sheet: 297 mm x 210 mm. The height of the form shall be 99 mm and the width of the form shall be 210 mm. The space above the form shall be used as a letter. The form shall be separated by micro perforation (including the part for the receipt).

The diagram illustrates a single UPN QR form on an A4 sheet. The total height of the sheet is 297 mm, divided into two sections: a top section of 198 mm and a bottom section of 99 mm. The top section is intended for a letter. The bottom section contains the UPN QR form with the following fields:

- UPN QR - potrdilo**
- Ime plačnika**
- Namen in rok plačila**
- Znesek**
- EUR**
- IBAN in referenca prejemnika**
- Ime prejemnika**
- Koda QR**
- IBAN plačnika**
- Referenca plačnika**
- Ime, ulica in kraj plačnika**
- Polog**
- Dvig**
- Koda namena**
- Namen plačila**
- Rok plačila**
- IBAN prejemnika**
- Referenca prejemnika**
- Ime, ulica in kraj prejemnika**
- UPN QR**
- Podpis plačnika (neobvezno zig)**
- Prostor za vpise ponudnika plačilnih storitev**

6.3. Other specific forms of the UPN form:

Other, non-standard forms for UPN forms are also allowed, but only if (when) they have been pre-approved by the printshop with an approved company that verifies that the form complies with the requirements of the standard.

WARNING: Adhesives must not be used on the entire UPN form.

7. Packaging

- Packed in cardboard boxes.
- Label the divided forms on the cardboard.
- A label shall be affixed to the carton with the following contents: customer, type of product, weight, composition, load, number of forms in the carton, product code and date of manufacture, and the name of the manufacturer and the certificate of conformity of the consignment.
- The cartons shall be sealed with adhesive tape.

8. Transport

- EURO (ISO 1) pallet size 800 x 1200 x 144 mm (SIST-ISO1983 and DIN 15 146)
- Maximum 6 rows per pallet per height (cartons must not overhang the edge of the pallet).
- Stacking pallets on top of each other is not allowed.

9. Storage

- Temperature 18–22°C
- Relative humidity 63–67 %

9. Document production security and traceability

Any company or print shop producing documents will need to comply with the standards set out here. They will also have to prove this by a declaration and signature that they will have to add to the boxes of printed documents. The declaration must include the details of the company that printed the documents, its VAT registration and identification number, the date of printing and a statement 'that the standards have been complied with in the printing and preparation', which should also be certified by the signature and stamp of the company and the person responsible.

A Example of a completed UPN QR form - Order for the payment of obligations (cash)

The image shows two examples of completed UPN QR forms. The left form is a detailed breakdown of payment information, including:

- UPN QR - potrdilo**: Janez Novak, Dunajska 1, 1000 Ljubljana
- Namen in rok plačila**: Plačilo obveznosti 10/2016
- Znesek**: EUR ***81,05
- IBAN in referenca prejemnika**: SI56 0510 0801 0486 080
SI05 98765432100
- Ime prejemnika**: Novo podjetje d.o.o., Lepa cesta 15, 3698 Loški Potok

The right form is a simplified version of the same information, including:

- Koda QR**: QR code linking to the payment details
- IBAN plačnika**: Janez Novak, Dunajska 1, 1000 Ljubljana
- Znesek**: EUR ***81,05
- IBAN prejemnika**: SI56 0510 0801 0486 080
- Referenca prejemnika**: SI05 98765432100
- Ime, ulica in kraj prejemnika**: Novo podjetje d.o.o., Lepa cesta 15, 3698 Loški Potok

K Instructions for manual and machine completion of fields

Manual completion – in capital letters; one letter or number in each box; use dark-coloured pens (black, blue). The contents of the fields shall be filled left aligned - to the beginning of the field, but the amount shall always be written right aligned, with decimal point and cents.

Each letter is correctly in its own box.

IBAN plačnika: SI 56 049 876 543 210 123
Referenca plačnika: SI 00 1234-567
Ime, ulica in kraj plačnika: Janez Novak, Nova cesta 1, 1000 Ljubljana

✓ CORRECT

The letters are outside the specified fields, double space is incorrect in the reference.

IBAN plačnika: SI 56 049 876 543 210 123
Referenca plačnika: SI 00 1234-567
Ime, ulica in kraj plačnika: Janez Novak, Nova cesta 1, 1000 Ljubljana

✗ INCORRECT

Correct entry of the amount and date (pre-printed fields taken into account).

Zneselek: EUR 1250,50 Datum plačila: 22.06.2016 Nujno: Rok plačila:

✓ CORRECT

Although the division characters are already pre-printed, the use of dots, commas and other characters is also allowed for the amount. The amount shall be aligned right.

Zneselek: EUR 1.250,50 Datum plačila: 22.06.2016 Nujno: Rok plačila:

✓ CORRECT

The amount is always aligned to the right. Incorrectly filled in date.

Zneselek: EUR 1,250,50 Datum plačila: 22/06/2016 Nujno: Rok plačila:

✗ INCORRECT

Machine completion – in the prescribed Courier New font (non-proportional font) in accordance with the technical standard (size 12 cpi, bold). When filling in by machine, the characters should not be entered exactly in the boxes, it is only necessary that they are in the right field. The amount and the date shall be printed in formatted characters when the form is filled in by machine.

Correctly formatted printout of the amount and date (it doesn't matter where the entry is, as long as it's in the right field).

Zneselek: EUR ***1.234,50 Datum plačila: 01.04.2016 Nujno: Rok plačila:

✓ CORRECT

Incorrectly formatted printout of amount and payment date. When completing the characters by machine, the characters should not be entered exactly in the boxes provided for manual completion, but should be formatted without spaces.

Zneselek: EUR 1 2 3 4 5 0 Datum plačila: 01 / 04 / 16 Nujno: Rok plačila:

✓ CORRECT

Zneselek: EUR 123450 Datum plačila: 01/04/16 Nujno: Rok plačila:

✗ INCORRECT

Correct machine printout of fields (Courier New 12 CPI, bold).

IBAN plačnika: SI56 0201 7001 4356 205 Referenca plačnika: SI00 3528-990 Ime, ulica in kraj plačnika: Janez Novak, Nova cesta 1, 1000 Ljubljana Zneselek: EUR 1250,50 Datum plačila: 22.06.2016 Nujno: Rok plačila:

✓ CORRECT
